[1] The amounts reported in this column represent interest unless otherwise indicated.

[2] The amounts reported in this column represent the closing balances of asset accounts as at March 31, 1990. They generally do not represent amounts of principal on which interest is calculated and/or dividends paid.

Travel expenses of ministers and parliamentary secretaries

This statement provides details of the travel expenses of ministers and parliamentary secretaries incurred in the current year while on official departmental business. For the purpose of this statement, travel expenses include transportation, accommodation, meals and other expenses. The following items are excluded from this statement:

- travel expenses of ministers' staff, or of other persons travelling with ministers and parliamentary secretaries;
- hospitality costs extended on behalf of the Government where it is considered to be essential, as a matter of courtesy, or to facilitate the conduct of Government business;
- travel expenses of Members of the House of Commons serving on various parliamentary committees; and
- any moving, transportation and travel expenses paid for by the House of Commons on behalf of its Members.

THE PRESIDENT'S MESSAGE

I am pleased to present the seventh consolidated Annual Report to Parliament on Crown Corporations and Other Corporate Interests of Canada.

Last year's report coincided with the fifth anniversary of the framework established in 1984 for the control and accountability of Crown corporations. My predecessor noted at that time that considerable progress had been made towards effective management of the Government's portfolio of Crown corporations. This view was subsequently supported by the Auditor General in a chapter in his October 1989 report to the House of Commons devoted to an assessment of the implementation of the framework. He commented on the numerous improvements since 1984 and concluded that "all the fundamental processes are in place".

Much of that progress is attributable to the efforts of the employees, management and boards of directors of Crown corporations, who face unique and difficult challenges in running a diverse array of business and public policy entities on behalf of Canadians. In November 1989, the Government held the first conference of Chairpersons and Chief Executive Officers of all its Crown corporations, to provide a forum to discuss those challenges and to exchange views on how to improve productivity and better manage scarce resources in the coming years.

The management of Crown corporations together with the government's privatization and rationalization efforts are contributing to greater economic efficiency and deficit reduction. As part of these efforts, Crown corporations were asked in the February 1990 Budget to return more of their income by way of dividends to the government, their shareholder, and were encouraged to function in a more commercial way. Some of the achievements in 1989/90 include:

- the sale on July 5, 1989 of the remaining 57% of the government's shares in Air Canada;
- the announcement in the February 20, 1990 Budget of the government's intention to privatize Petro-Canada, and to sell the government's shares in Telesat Canada;
- a major rationalization of VIA Rail;
- the introduction on May 31, 1990 of Bill C-73 to wind up four Crown corporations (Canadian Livestock Feed Board, Canadian Patents and Development Ltd., Harbourfront Corporation, and Mingan Associates Ltd.) and to change the status of two others from parent Crown corporations to subsidiaries (Canada Harbour Place Corporation and Canada Museums Construction Corporation Inc.);
- dividend payments to the government from 10 corporations, totalling $118.2 million.

The overview which follows summarizes the financial and employment situation of the Crown corporations. It also highlights developments in a number of specific corporations.

OVERVIEW

At the end of the 1989-90 reporting period, there were 53 parent Crown corporations. Forty-five of these are listed in Schedule III of the Financial Administration Act (FAA), and their business and activities are governed by Part X of the FAA and its related regulations. The remaining eight are exempt from the provisions of divisions I to IV of Part X.

In addition, three subsidiary corporations have been directed by the Governor in Council to report their affairs as if they were parent Crown corporations listed in Schedule III: Petro-Canada International Assistance Corporation and two of the three subsidiaries of Canada Lands Company Limited: Canada Lands Company (Mirabel) Limited, and Old Port of Montreal Corporation Inc.

Fourteen of the 53 parent Crown corporations are listed as commercial corporations on Schedule III Part II of the FAA. Thirteen of them generated profits totalling $440.5 million, on a cash flow of $1.3 billion, in 1989-90. Total assets of the commercial corporations decreased from $20.4 billion in 1988-89 to $18.2 billion in 1989-90, and shareholder's equity declined from $9.9 billion in 1988-89 to $8.5 billion in 1989-90, mainly because of a write-down of assets in the Canada Development Investment Corporation, reflecting lower resource prices, and a change in Petro-Canada's accounting methods.

Thirty-one parent Crown corporations, listed on Schedule III Part I of the FAA, normally receive apropriations from government to cover program costs and/or capital expenditures. Total budgetary payments to these corporations and to the exempt corporations remained relatively constant in 1989-90, at $4.6 billion. Combined total assets of these corporations increased from $33.5 billion in 1988-89 to $34.4 billion in 1989-90, and shareholder's equity rose from $2.9 billion to $3.4 billion over the same time period.

Total Crown corporation borrowings and other liabilities to the private sector and Canada also remained relatively stable in total for 1989-90. Major increases occurred for the Export Development Corporation ($0.6 billion) and The Canadian Wheat Board ($0.7 billion), while the Farm Credit Corporation and Canada Deposit Insurance Corporation decreased their borrowings and other liabilities by $0.8 billion and $0.3 billion respectively.

Employment continued to decline to 136,000 from 142,000 the preceding year. The decline is primarily attributable to the rationalization of VIA Rail and to downsizing in Petro-Canada, Canada Post and Canadian National Railways.

CORPORATE HIGHLIGHTS

Highlights of the activities for specific corporations during 1989-90 include:

Atomic Energy of Canada Limited (AECL): The federal government joined Ontario and other provinces in a new federal/provincial funding initiative, in response to AECL's first operating loss in twelve years of $10.2 million. Key to this decision was the commitment by Canada's nuclear utilities, led by Ontario Hydro, to bear a larger share of nuclear research and development costs.

Canada Development Investment Corporation (CDIC): During 1989, the spot market prices for uranium concentrate declined significantly. In response, CDIC wrote down its investment in Cameco by $202 million. The write-down was the main cause of a shift in shareholder's equity from a positive $140 million last year to a negative $152 million this year.

Canada Mortgage and Housing Corporation(CMHC): Net earnings of $163 million achieved by the Mortgage Insurance Fund allowed CMHC to eliminate the actuarial deficit the Fund had been carrying for 10 years. Issuance of Mortgage-Backed Securities during 1989 totalled $2 billion - an amount twice that which had been expected.

Canada Museums Construction Corporation Inc. (CMCC): The exhibition wing of the Canadian Museum of Civilization opened to the public in June 1989, and construction of the building was finished during the summer of 1990. With the completion of its mandate, CMCC's status will be changed under Bill C-73 to a subsidiary of Canada Lands Corporation pending dissolution of the corporation.

Canada Ports Corporation and the Local Port Corporations: Revenues from operations for Canada Ports Corporation and seven local Port Corporations remained relatively stable at $170 million in 1989, despite a decline in traffic volumes. A drop in revenues from grain shipments was counterbalanced by increases in revenues from other commodities. In 1989, Canada Ports Corporation and the local Port Corporations paid dividends to the federal government totalling $13 million on a combined net income of $49 million. The February 1990 Budget announced that Canada Ports Corporation and the local Port Corporations would contribute $100 million towards deficit reduction in fiscal year 1990-91.

Canada Post Corporation recorded a $149 million profit for 1989-90, the second consecutive profitable year for the corporation, and paid a dividend of $60 million in June 1990. Mail volumes increased by over 10% from 1988-89 and 97% of properly prepared letter mail was delivered on time.

Canadian National Railways (CN): This year, CN's net income declined to $205.8 million from a record of $282.7 million in 1988, due primarily to slowdowns affecting a number of key resource sectors. The company again succeeded in further reducing its long-term debt during 1989, from $1.96 billion to $1.87 billion. CN paid $41.2 million in dividends in 1989.

The *Export Development Corporation* (EDC) supported $5.7 billion worth of Canadian exports during 1989. Loans totalled $1.3 billion, an increase of 25% over 1988, and insurance exceeded $4.4 billion, 12% higher than the previous record amount signed in 1988. In addition, $300 million in loans and insurance supported Canadian exports under the Canada Account. This account is administered by EDC and funded directly by the government to support export transactions considered to be in the national interest. EDC increased its allowance for loan losses by $200 million, resulting in a reported net loss of $199 million.

Farm Credit Corporation (FCC) continued to make good progress in recovering from the effects of the agricultural recession. Net loss for 1989-90 was $2.7 million, compared to $34.6 million in the previous year. New operating guidelines for lending, introduced in 1988 as part of a Recovery Plan, have contributed to the improvement. During 1989-90, Canada provided an equity infusion of $600 million to FCC, which was used to retire the equivalent amount in loans to Canada.

Petro-Canada: In 1989, Petro-Canada converted from the full cost to the successful efforts method of accounting for its exploration activities. Under "full cost", all well-drilling costs are capitalized, while under "successful efforts" only successful wells are capitalized and all other exploration costs are expensed as incurred. This accounting change makes Petro-Canada's financial statements more comparable with those of other integrated oil companies. The change required a $1.9 billion write-down of property, plant and equipment, a $0.7 billion reduction in deferred income taxes and a $1.2 billion reduction in the corporation's equity. Petro-Canada's negative equity position was subsequently eliminated through a reorganization of the corporation's capital structure. In the February 1990 Budget, the Minister of Finance announced that direct public ownership of Petro-Canada would be allowed. The Minister of State for Privatization and Regulatory Affairs subsequently announced that Petro-Canada's Board will be asked to offer an initial treasury issue of about 15% of the corporation to the public once necessary legislative and securities approvals are in place.

Royal Canadian Mint (RCM): In 1989, a share capital structure was established for the RCM and shares were issued to Canada in the amount of $40 million. The proceeds were used by the Mint to reduce its obligations due to the Government of Canada which were accumulated prior to 1988. During the year, the RCM paid $60.4 million of its net earnings to Canada.

VIA Rail: VIA made its new business plan public on October 4, 1989. The Plan reflects the reduction in subsidies to VIA of $1.0 billion over five years announced in the April 1989 Budget. As of January 15, 1990, VIA operates over 20 routes, maintains a coast-to-coast service and runs 191 trains weekly.

OFFICIAL LANGUAGES

The Treasury Board Secretariat has been working with Crown corporations to ensure implementation of the 1988 *Official Languages Act*. Annually, the President of Treasury Board submits a report to Parliament on the status of official languages programs in federal institutions. These annual reports include information on the application of the Act to Crown corporations.

EMPLOYMENT EQUITY

Crown corporations and other federally regulated employers with 100 or more employees are required under the *Employment Equity Act* to implement employment equity and to report annually on the results. Under the Treasury Board Employment Equity Policy, Crown corporations submit comprehensive action plans and progress reports each year. Pursuant to the *Employment Equity Act*, detailed statistical data on employment equity in Crown corporations and other federally regulated business organizations, are published in government documents which are available in major public libraries.

CONCLUSION

Crown corporations continue to fulfill an important role in the development of the economic, social and cultural fabric of Canada. The successes that many have achieved over the past year and previous few years reflect the quality of their employees, management and boards of directors, and the determination of the Government to adopt a more businesslike approach to the management of Crown corporations.

We will continue to ensure our policy framework provides Crown corporations with the support and flexibility needed to serve the Canadian public in an effective and cost-efficient manner.

Gilles Loiselle

Ottawa, Ontario
October 2, 1990

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 64 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I presents a summary analysis of the financial transactions of the Government.

Volume II is published in two parts. **Part I** presents the financial operations of the Government, segregated by ministry, while **Part II** presents additional information and analyses.

Volume III is the President of the Treasury Board's Annual Report to Parliament on Crown Corporations and other Corporate Interests of Canada. The Report responds to Section 151(1) of Part X of the Financial Administration Act.

The President of the Treasury Board's Annual Report to Parliament

The President's Report to Parliament includes a consolidated report on the businesses and activities of all parent Crown corporations and a report on the other corporate interests of the Government of Canada. It provides a listing of all Crown corporations and all corporations of which any shares are held by, on behalf of, or in trust for the Crown or any Crown corporation. Employment and financial data, including aggregate borrowings of parent Crown corporations and other information, and the audited financial statements of the corporations, are also provided. The Report is divided into three parts:

Part I provides consolidated financial data on all parent Crown corporations, as reported by them at their financial year-end on or before July 31, 1990. It also provides other corporation-specific and aggregated information.

Part II lists the corporate interests of Canada, provides supplementary information about them, and lists the subsidiaries of Crown corporations.

Part III contains the audited financial statements for each of the parent Crown corporations.

PART III Audited Financial Statements for Each Parent Crown Corporation 103

Statement of Responsibility

This Annual Report to Parliament on Crown Corporations and Other Corporate Interests of Canada is prepared under the direction of the President of the Treasury Board by the Crown Corporations Directorate of the Department of Finance and Treasury Board Secretariat. It responds to requirements of the *Financial Administration Act* that a consolidated report on the businesses and activities of parent Crown corporations, including information on all Crown corporations and other corporate interests of Canada, be tabled in Parliament. It is automatically referred to the Standing Committee on Public Accounts for review.

PART I

CONSOLIDATED REPORT ON THE BUSINESSES AND ACTIVITIES OF PARENT CROWN CORPORATIONS

CONSOLIDATED REPORT ON THE BUSINESSES AND ACTIVITIES OF PARENT CROWN CORPORATIONS

INTRODUCTION

Part I of this Annual Report is a compilation of the financial affairs of 55 parent and acting parent Crown corporations, including:

- the 45 parent Crown corporations contained in the listings of schedule III of the FAA Parts I and II;
- seven of the eight parent Crown corporations which, by s. 85(1) of the FAA, are exempt from the provisions of divisions I to IV of Part X of the FAA. The eighth exempt corporation, the Bank of Canada, is excluded from these tables because of the unique nature of its assets, liabilities, etc.;
- three subsidiaries of listed corporations which, by Orders pursuant to s. 86(2) of the FAA, report their affairs as if they were parent Crown corporations: Canada Lands Company (Mirabel) Ltd., Old Port of Montreal Corporation Inc., and Petro-Canada International Assistance Corp.;

1. Summary of Financial Information and Employment Data

- Table 1 presents financial and employment data for each parent Crown corporation as at the corporation's year-end.
- Table 2 provides data on the net earnings (loss), cash flow and financing activities as at each corporation's year-end.
- Table 3 compares the financial position of parent Crown corporations with the total recorded government investment as at March 31, 1990, the federal government's fiscal year-end. The table segregates Canada's investments into loans and advances, and investment in these corporations.

2. Summary Pages for each Parent Crown Corporation

- This section contains a summary page for each parent Crown corporation. Each page summarizes the corporation's financial performance for the past four years, and presents basic information about the corporation's mandate and background, along with general corporate data.

1. SUMMARY OF FINANCIAL INFORMATION AND EMPLOYMENT DATA

Description of Tables 1 and 2

Tables 1 and 2, which follow, respond to the requirement in subsection 151(3)(b) of the *Financial Administration Act* (FAA) that financial data, including employment and aggregate borrowings by corporations, be reported. The FAA calls for data for individual corporations "for their financial years ending on or before July 31, 1990". The year-ends of these corporations vary (i.e. March, April, July, August and December) but all end on or before July 31, 1990.

Reporting of data is based on the following definitions:

- **Liabilities** (current and long-term) include obligations (defined as short-term and long-term borrowings and capital leases) and other liabilities (accounts payable, accruals, and deferrals and other).
- **Shareholder's Equity** represents the equity of Canada. For four corporations, *Canadian Dairy Commission, Canada Council, The Canadian Wheat Board* and *Freshwater Fish Marketing Corporation*, the shareholder's equity is nil because the excess of assets over liabilities is due to clients.
- **Employment Data** describe the number of employees as at the year-end of the corporation. They relate to the parent corporation and all its subsidiaries. The Bank of Canada is excluded.
- **Net Earnings (Loss)** is after taxes, where applicable, and all extraordinary items. It includes appropriations received where the corporations have recorded them in earnings. For appropriation-dependent corporations, earnings is equivalent to "Excess of parliamentary appropriation over cost of operations".
- **Cash Flow** is defined as Net earnings (loss) from operations plus or minus items not requiring cash, for example, depreciation. Cash flow would also include appropriations where the corporation includes these in net earnings.
- **Changes to Obligations,** also called changes in net borrowings, includes changes during the financial period in outstanding long-term and short-term borrowings and capital leases.
- **Budgetary Funding from Canada** comprises cash paid for capital and operating purposes. Payments for which a class or kind of recipient is eligible are excluded from these data. (An example of such an exclusion is payments to railways under the *Maritime Freight Rates Act*.).

Description of Table 3

This table provides a comparison of the financial position of parent Crown corporations with the total recorded government investment in these corporations as at March 31, 1990, the government's year-end. The information is drawn from Volume I of the Public Accounts of Canada and is based on the financial statements for each Crown corporation. Since more than one-half of the corporations have other than March 31 year-ends, most of the data have been obtained from unaudited financial statements.

Reporting of data is based on the following definitions:

- **Loans and Advances and Investments** represent amounts recorded as assets in the accounts of Canada. The aggregate reserve in Canada's accounts in respect of all of these corporations is noted at the bottom of the table.
- **Aggregate Reserve** is as recorded in Canada's accounts pursuant to s.63(2) of the FAA.

---

* Data for this table have been extracted from Sections 5 and 6 of Volume I of the Public Accounts 1989-90.

Notes to Tables 1, 2 and 3

Tables 1, 2 and 3

1. Petro-Canada International Assistance Corporation and two subsidiaries of Canada Lands Company Limited (Canada Lands Company (Mirabel) Ltd. and Old Port of Montreal Corporation Inc.) are shown amongst III-I corporations since, though not scheduled, they had been directed, pursuant to section 86(2) of the FAA, to report their affairs as if they were (III-I) parent Crown corporations.

2. Petro-Canada International Assistance Corporation is consolidated with Petro-Canada. Its financial status is immaterial.

3. Four wholly-owned subsidiaries have been added to the tables because their financial status is not consolidated with their parent Crown corporations: Canada Lands (Vieux-Port de Québec) Inc., Canertech Inc., The Jacques Cartier and Champlain Bridges Corporation Ltd., and The Seaway International Bridge Corporation, Ltd.

Table 1

4. The shareholder's equity for Canada Deposit Insurance Corporation takes account of the position of its Deposit Insurance Fund.

5. Employment data in last year's Annual Report was reported at March 31, 1989. This year, employment data is at the financial year-end of the Crown corporations and employment in them totals 135,789. The comparable figure for 1989 is 142,053 employees.

Table 2

6. Budgetary funding to Canada Post Corporation excludes cultural and special mail subsidies of $240 million from the Department of Communications. Last year, the subsidy was $250 million.

2. SUMMARY PAGES FOR EACH PARENT CROWN CORPORATION

A Summary Page is provided for each Parent Crown corporation and for the three subsidiaries that report their affairs as if they were parent Crown corporations.

Each Summary Page presents basic information about a corporation's mandate, origins and present status and names the senior officers. As well, a financial summary provides information such as obligations (which comprise long-term and short-term loan borrowings plus capital leases) and details of the funding provided to the corporation and its subsidiaries by Canada. The non-budgetary amounts displayed in the financial summary include equity infusions as well as loan funding.

ATLANTIC PILOTAGE AUTHORITY

MANDATE

To establish, operate, maintain and administer in the interest of safety, an efficient pilotage service within designated waters in and around the Atlantic provinces.

BACKGROUND

Established in 1972, the Authority provides pilotage services and has the power to make regulations, subject to the approval of the Governer in Council, which establish compulsory pilotage areas; prescribe the ships/classes of ships that are subject to compulsory pilotage, the circumstances under which compulsory pilotage may be waived and pilotage tariffs; and which cover the licensing of pilots and issuance of pilotage certificates. Tariffs must be fair and reasonable and sufficient to permit the Authority to operate on a self-sustaining financial basis.

SUMMARY PAGE

ATOMIC ENERGY OF CANADA LIMITED

MANDATE

To develop the utilization of atomic energy for peaceful purposes. The mandate of the corporation is prescribed by s. 10 of the *Atomic Energy Control Act* as that section read before its repeal and by its charter and articles of incorporation.

BACKGROUND

Founded in 1952, AECL develops Candu power generating technology. It operates research and development laboratories at Chalk River, Ontario and at Pinawa, Manitoba. Three provincial utilities receive federal financing for nuclear facilities through AECL and make repayments to it which are passed on to Canada. The corporation was responsible for Candu reactors built in Argentina and in Korea and is providing services related to Candu reactors under construction in Romania. Its design and engineering teams contribute to the continued improvement and development of nuclear power stations and nuclear technology in general. In 1988, the Radiochemical and Medical Products components of AECL were incorporated as wholly owned subsidiaries (Nordion International Inc. and Theratronics International Limited) and transferred to Canada Development Investment Corporation for sale to the private sector. Enabling legislation concerning the sale of both corporations was enacted on January 30, 1990.

SUMMARY PAGE

BANK OF CANADA

MANDATE

The Bank of Canada is responsible for the formulation and implementation of monetary policy in Canada and acts as the government's fiscal agent. The Bank has the sole right to issue currency intended for circulation in Canada and it fixes the percentage of the deposit liabilities of chartered banks which they must maintain as secondary reserves. It conducts open-market operations, buying or selling securities as, in its judgement, the progress of Canada's economy requires. As fiscal agent, it handles the issue of securities of Canada and payment of related interest and principal; it also cashes and negotiates cheques drawn on the Receiver General. It administers the Exchange Fund Account and acts as agent for the government's operations in the foreign exchange market.

BACKGROUND

The Bank was created by its Act in 1934 as Canada's central bank.

CORPORATION DATA

HEAD OFFICE	234 Wellington Street Ottawa, Ontario K1A 0G9
STATUS	Acts as the fiscal agent of the Government of Canada; is exempt from the provisions of Divisions I to IV of Part X of the *Financial Administration Act*.
APPROPRIATE MINISTER	The Honourable Michael Wilson, P.C., M.P.
DEPARTMENT	Finance
YEAR AND MEANS OF INCORPORATION	1934, by the *Bank of Canada Act* (R.S.C. 1985, c. B-2).
CHIEF EXECUTIVE OFFICER	John Crow

FINANCIAL SUMMARY ($ million) Financial year ending December 31.

	1989	**1988**	**1987**	**1986**
Expenses, before depreciation	172	159	151	143

Note: This Financial Summary is cursory compared with that for any other corporation in this Report. This is appropriate because the nature of the operations of a central bank makes its financial statements unique in their import. For example: the Bank's assets are mostly securities of Canada and its revenues are mostly the interest paid to it by Canada on those securities. Therefore, the substantial net income (1988, $1,938 million; 1989, $2,239 milllion) which the Bank pays to Canada is essentially the completion of a circular flow of cash, diminished by the amount of the Bank's operating expenses.

SUMMARY PAGE

CANADA COUNCIL

MANDATE

To foster and promote the study, enjoyment and production of works in the arts and to coordinate UNESCO activities in Canada and Canadian participation in various UNESCO activities abroad, apart from political questions and assistance to developing countries.

BACKGROUND

The Council receives a parliamentary appropriation each year for its operations. As well, it has income from the $50 million Endowment Fund which was created by its Act and from monies and properties donated to the Council and administered as Special Funds. It is a charitable organization for the purposes of the *Income Tax Act*.

SUMMARY PAGE

CANADA DEPOSIT INSURANCE CORPORATION

MANDATE

To provide limited insurance in respect of deposits with federal institutions (banks, trust and loan companies) and approved provincial institutions (trust and loan companies). To be instrumental in the promotion of standards of sound business and financial practices for member institutions and to promote and otherwise contribute to the stability and competitiveness of the financial system in Canada.

BACKGROUND

The corporation was established by the *Canada Deposit Insurance Corporation Act* in 1967. Member institutions pay annual premiums to the Deposit Insurance Fund to meet depositors' claims. Recent payments to depositors of insolvent financial institutions have caused this fund to have a net deficit position. Premium rates were increased in 1985 and annual premium revenue of the Fund is now approximately $245 million.

SUMMARY PAGE

CANADA DEVELOPMENT INVESTMENT CORPORATION

MANDATE

To effectively manage Crown corporations and investments which are assigned to it and to effect the privatization of these, where appropriate.

BACKGROUND

CDIC manages its wholly-owned subsidiaries, Canada Eldor Inc. (successor to Eldorado Nuclear Limited) which now holds a 38.5 percent interest in CAMECO, Cartierville Financial Corporation, Nordion International Inc., Theratronics International Limited and a portfolio holding of Varity Corporation. During 1989, pursuant to a directive from the Governor-in-Council, CDIC acquired 51% ownership of Ginn and Company and GLC Publishers Limited from Gulf & Western Inc. Ginn and Company and GLC Publishers Limited were subsequently amalgamated and renamed Ginn Publishing Canada Inc. CDIC also manages, on behalf of Canada, Teleglobe Canada and the government's holdings in National Sea Products Limited.

Legislation authorizing the privatization of Nordion International Inc. and Theratronics International Limited received Royal Assent on January 30, 1990.

SUMMARY PAGE

CANADA HARBOUR PLACE CORPORATION

MANDATE

To administer properties at Canada Place in Vancouver, originally constructed as the Canadian pavilion at Expo 86.

BACKGROUND

The Corporation was incorporated in 1982 to design, construct and manage Canada Place, a facility built by the federal government as its contribution to Expo 86. The facility includes a cruise ship terminal, a hotel, an office complex, a convention centre (formerly the location of the Canadian pavilion at Expo 86) leased to the Province of British Columbia, a parking lot, and various commercial and public use areas. The government announced in the February 1990 Budget that the Corporation would be wound up and its assets transferred to another federal entity.

SUMMARY PAGE

CANADA LANDS COMPANY LIMITED

MANDATE

The Canada Lands Company Limited has the mandate to hold certain leases for two properties in London, England and two properties on Indian reserves in Canada. It is also the sole shareholder in three subsidiary corporations.

BACKGROUND

Formerly the Public Works Land Company Limited, the corporation has not been involved in any financial transactions. It has three subsidiaries, Canada Lands Company (Mirabel) Limited, Old Port of Montreal Corporation Inc. and Canada Lands Company (Vieux-Port de Québec) Inc.

CORPORATION DATA

HEAD OFFICE	Sir Charles Tupper Building Confederation Heights Riverside Drive Ottawa, Ontario K1A 0M2
STATUS	Schedule III, Part I An agent of Her Majesty
APPROPRIATE MINISTER	The Honourable Elmer Mackay, P.C., M.P.
DEPARTMENT	Public Works
YEAR AND MEANS OF INCORPORATION	1956; by letters patent; reorganized under the *Canada Business Corporations Act*, September 19, 1977. Certificate of Continuance under the *Canada Business Corporations Act* July 7, 1981.
CHIEF EXECUTIVE OFFICER	Robert Giroux
AUDITOR	Auditor General of Canada

FINANCIAL INFORMATION

The corporation's financial year ends March 31. No value is assigned in its accounts to any of its assets; the accounts of its subsidiaries are reported separately and are not consolidated with those of this corporation since it is not likely to benefit from any increase in the equity of the subsidiaries.

SUMMARY PAGE

CANADA LANDS COMPANY(MIRA[illegible]EL) LIMITED

MANDATE

To administer, pending disposition, and sell on behalf of the Crown, properties peripheral to the Mirabel airport. The authority now in place for this mandate extends to March 31, 1991.

BACKGROUND

Since July 1982, the corporation has managed the lands which the Crown had acquired for the international airport at Mirabel but which were not required for the functioning of the airport. A program for the sale of all those properties has been developed and is being implemented by the corporation.

CANADA MORTGAGE AND HOUSING CORPORATION

MANDATE

To promote the construction of new houses, the repair and modernization of existing houses and the improvement of housing and living conditions.

BACKGROUND

Established in 1946, the corporation acts as the government's agent in the provision of grants, contributions and subsidies for the advancement of housing and community development. It conducts research and provides policy advice to government; administers the Mortgage Insurance Fund, the prime purpose of which is to ensure an adequate supply of mortgage funds for housing, lends to groups and individuals for housing purposes and invests in housing-related projects.

SUMMARY PAGE

CANADA MUSEUMS CONSTRUCTION CORPORATION INC.

MANDATE

To construct in the National Capital Region new buildings for the National Gallery of Canada, the Canadian Museum of Civilization, and any other museum that the Governor in Council may direct.

BACKGROUND

Construction of the new museum buildings is completed and the corporation plans to cease active operations by March 31, 1991. The Order in Council authorizing CMCC's establishment (P.C. 1981-1838) states that, unless otherwise directed by the Governor in Council, the corporation is to be wound up after completion of the construction projects. Bill C-73, tabled May 31, 1990, provides for a change in CMCC's status from parent Crown corporation to subsidiary of Canada Lands Company Limited. The corporation will be dissolved once outstanding liabilities and claims are resolved.

SUMMARY PAGE

CANADA PORTS CORPORATION

MANDATE

To plan and coordinate the development of the 15 ports and harbours to achieve the objectives of the national ports policy and to support Canadian international trade objectives. The corporation is directly responsible for the administration, management and control of eight of the fifteen ports and harbours which have not been granted local port corporation status.

BACKGROUND

The corporation was established in 1983 with responsibility for the 15 ports and harbours across Canada that previously fell under the jurisdiction of the National Harbours Board. Subsequently, local port corporations were established at Montreal and Vancouver (in July 1983), at Halifax, Quebec and Prince Rupert (in June 1984), at St. John's (in June 1985), and at Saint John (in December 1986). These corporations are now operating with a high degree of local autonomy.

[1] Assets and related liabilities of this corporation have been transferred to new local port corporations.

[2] Includes $12.7 in dividends to Canada declared and unpaid, plus interest.

[3] In 1987, $17.8 million loan principal owed to Canada was forgiven. That amount and related interest forgiven was added to the corporation's contributed capital.

[4] Equity for 1989 includes $28.6 million for the Interport Loan Fund. The comparable equity figure without the Interport Loan Fund amount is $83.6 million.

SUMMARY PAGE

CANADA POST CORPORATION

MANDATE

To operate a postal service on a self-sustaining financial basis while providing a standard of service that will meet the needs of Canadians.

BACKGROUND

The *Canada Post Corporation Act* requires the corporation to fulfill its mandate while improving and extending its products and services, having regard to the need to conduct its operations on a self-sustaining financial basis. The corporation is also called upon to manage its human resources "in a manner that will both attain the objects of the corporation and ensure the commitment and dedication of its employees." Canada pays subsidies to the corporation in support of the publishing industry, for Northern parcel mails, parliamentary free mail, and blind persons' free mail. The corporation does not now receive operating subsidies from Canada.

SUMMARY PAGE

CANADIAN DAIRY COMMISSION

MANDATE

To provide efficient producers of milk and cream with an opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality.

BACKGROUND

Established in 1966, the corporation administers the following elements of the federal dairy program: calculation of Target Price for milk and cream for industry; market support for the Target Price through a nationwide offer to purchase butter and skim milk powder; direct support payments on eligible milk and cream shipments; international marketing of dairy products not required for domestic consumption; receipt of levies collected by provinces from farmers to finance the cost of exporting products surplus to domestic requirements; and coordination of national supply management of industrial milk production.

CANADIAN LIVESTOCK FEED BOARD

MANDATE

To ensure: availability of adequate feed grain to meet the needs of livestock feeders; availability of adequate storage for feed grain in eastern Canada; reasonable stability in prices for feed grain in eastern Canada, British Columbia and the Yukon and Northwest Territories; and fair equalization of feed grain prices in those regions.

BACKGROUND

Established in 1967, the Board executes its mandate by subsidizing the transportation costs of feed grains; by assessing requirements for feed grains and storage space and by collecting and disseminating related information; and by negotiating and coordinating with respect to storage, handling, transportation and cost of feed grains. Its programs are financed by budgetary payments from Canada. The February 20, 1990 budget announced that the Board would be dissolved as a Crown Corporation and its functions transferred to Agriculture Canada. A Bill to authorize its dissolution (Bill C-73) is now before Parliament.

CANADIAN NATIONAL RAILWAY COMPANY

MANDATE

To operate a national railway system and other transportation and related services.

BACKGROUND

The corporation was created out of more than 200 companies, many of them insolvent. The corporation's role was to mold a number of railway companies into one strong and commercially-competitive system, serving the entire nation. It was recapitalized in 1937, in 1952 and again in 1978. In 1988, the corporation sold its hotel, telephone and telecommunication subsidiaries and applied the proceeds to reduce its corporate debt.

SUMMARY PAGE

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS, LTD.

MANDATE

To collect monies due to it from the sale of eight steamships to Cuban interests.

BACKGROUND

The corporation, which provided a steamship service to the West Indies, has been inactive since 1958 when its fleet of ships was sold to Banco Cubana of Havana. In 1959, the corporate management was transferred to federal government officials for the purpose of collecting the proceeds from the sale. An irrevocable letter of credit issued through the Bank of America to cover the final principal payment was not honoured because of the imposition of the Cuban Assets Control Regulations by the U.S. government on July 3, 1963. The sole purpose of maintaining the company has been to collect the outstanding principal plus interest, totalling $1.4 million as of December 31, 1989. Authority to dissolve the corporation was given in the *Crown Corporations Dissolution Authorization Act*, which received Royal Assent on October 29, 1985.

CANADIAN PATENTS AND DEVELOPMENT LIMITED

MANDATE

To maximize benefits to Canada by promotion and use of innovations produced on behalf of the Crown by publicly funded institutions and agencies and by others.

BACKGROUND

The corporation makes available to the public the industrial and intellectual property resulting from government-funded research and development. It makes licensing arrangements with industry and monies received thereby are used to cover most of its operating expenses. Awards are paid to inventors under the *Public Service Inventions Act*. As announced in the February 1990 Budget, CPDL is to be wound up in fiscal year 1990/91. The dissolution bill, Bill C-73, was tabled in the House of Commons on May 31, 1990.

SUMMARY PAGE

CANADIAN WHEAT BOARD, THE

MANDATE

The Board's mandate is to market wheat and barley grown in western Canada in the best interests of western Canada's grain producers. It administers the *Prairie Grain Advance Payments Act*.

BACKGROUND

The Board was established in 1935 by Act of Parliament and is now responsible for all exports of wheat and barley grown in the prairie provinces and some parts of British Columbia. It is also responsible for sales of these grains for human consumption in Canada. The Board may sell domestic feed grains, but in general these sales are handled by producers themselves or by private trade. The Board issues a government-guaranteed initial payment when the producer delivers grain. Receipts are pooled, and a final payment net of marketing costs is made after the full year's returns have been calculated. Deficits are rare but if they occur they are, by statute, a charge upon the Consolidated Revenue Fund of Canada. The Board negotiates directly with customers, or through Accredited Exporters. The Board's longstanding mandate to market oats was ended by Orders in Council (PC 1989-986 and PC 1989-987) of May 27, 1989.

CAPE BRETON DEVELOPMENT CORPORATION

MANDATE

To operate, reorganize and rationalize coal production from the Sydney coal field.

BACKGROUND

The corporation was originally established in 1967 by the *Cape Breton Development Corporation Act* with a Coal Division and an Industrial Development Division. The Industrial Development Division (IDD) was created to develop alternative employment opportunities and broaden the base of the local Cape Breton economy. Pursuant to the *Atlantic Canada 1987 Legislation*, this division and its development activities were transferred to the Enterprise Cape Breton Corporation on December 1, 1988.

The remaining Coal Division now constitutes the Cape Breton Development Corporation (DEVCO), and is the major employer in the Sydney/Glace Bay area with approximately 3,000 employees. The corporation operates three collieries (Prince, Lingan, and Phalen) and fully integrated support facilities including a coal preparation plant, a complete railway transportation system, and a shipping pier. A resurgence in local coal demand for power generation has led to an expansion and modernization of DEVCO's assets in recent years.

ENTERPRISE CAPE BRETON CORPORATION

MANDATE

To promote and assist the financing and development of industry on the Island of Cape Breton to provide employment outside the coal producing industry and to broaden the base of the economy of the Island.

BACKGROUND

The Industrial Development Division (IDD) of the Cape Breton Development Corporation has been continued as a separate Crown corporation, Enterprise Cape Breton Corporation which commenced operation on December 1, 1988. To ensure coordination of development policies within the region, this corporation reports to the Minister responsible for Atlantic Canada Opportunities Agency, and the Agency and the corporation have the same President. Upon assuming the activities, programs and properties of the IDD, revised programs were established to promote industrial development on Cape Breton Island and in the northeast part of the Nova Scotia mainland.

FARM CREDIT CORPORATION

MANDATE

To assist Canadian farmers to establish and develop viable farm enterprises through the provision of long-term credit and other financial services.

BACKGROUND

Since 1959, under the authority of the *Farm Credit Act*, the corporation has made mortgage loans to farmers for the purchase of farm land, livestock and machinery, for permanent farm improvements and to refinance debt. Under the authority of the *Farm Syndicates Credit Act*, the corporation may make loans to groups of farmers for the joint acquisition of agricultural facilities and equipment. The maximum loan for an individual farm is $600,000 and for a syndicate is $100,000. As at March 31, 1990 the corporation had 63,884 loans outstanding. The corporation maintains six regional offices and about 100 district and field offices. The corporation's loan payments (receivables) in arrears declined in total in 1989-90 for the second consecutive year, following eleven successive years of increases in these arrears.

FRESHWATER FISH MARKETING CORPORATION

MANDATE

The objectives of the corporation are to market fish in an orderly manner, to increase returns to fishers; and to promote international markets for, and increase inter-provincial and export trade in, fish.

BACKGROUND

The Corporation was created to improve the economic situation of the commercial fishery in Western Canada. The corporation's Act requires it to purchase and market all of the legally caught freshwater fish from the region it serves and to operate on a self-sustaining basis. Its products are sold in direct competition with producers from the Great Lakes area as well as competing against other fish and seafood in an open marketplace. For the year ended April 30, 1990 total sales were $49.3 million (1989 — $55.0 million) and the total available for fishers was $27.0 million (1989 — $37.1 million).

HALIFAX PORT CORPORATION

MANDATE

Administration, management and control of the Halifax harbour and all works and property within the harbour previously under the jurisdiction of the Canada Ports Corporation or, prior to February 24, 1983, the National Harbours Board.

BACKGROUND

The Halifax Port Corporation was established on June 1, 1984, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. In 1989, the corporation paid to the federal government a dividend of $579,000 on its $4.6 million net income.

HARBOURFRONT CORPORATION

MANDATE

To develop, manage and operate the waterfront in accordance with the development framework, and to initiate, conduct or sponsor cultural, recreational, scientific and educational programs which, in the corporation's opinion, are of advantage to the public.

BACKGROUND

The Harbourfront site in Toronto was delineated by the federal government in 1972 through the assembly of lands it owned plus other lands it expropriated. With the efforts of all levels of government and an interim board, a long-term development plan was established and the mandate for Harbourfront Corporation was put in place in 1978. Since 1976, active Harbourfront programs of cultural, recreational and educational activities have made the site an attractive, busy public place. In addition to its spending on facilities for public use, the corporation has furthered private sector development on the site by leasing some land and selling air rights and with its cash flow from related development Harbourfront aims for financial self-sufficiency in its operation. Bill C-73, tabled May 31, 1990 seeks authority to dissolve Harbourfront Corporation, and permit the corporation to evolve into a non-profit cultural entity.

MARINE ATLANTIC INC.

MANDATE

To acquire, establish, manage and operate a marine transportation service, a marine maintenance, repair and refit service, a marine construction business and any service or business related thereto.

BACKGROUND

The company provides marine ferry services to Atlantic Canada. As CN Marine Inc., it was a subsidiary of Canadian National Railway Company. Pursuant to the *Marine Atlantic Inc. Acquisition Authorization Act* (S.C. 1986, C. 36), which was proclaimed on June 27, 1986, the company's name was changed to Marine Atlantic Inc. and was added to Part I of Schedule III of the *Financial Administration Act*. At close of business on December 31, 1986, ownership was transferred to Her Majesty in right of Canada. In 1987 the corporation acquired the shares and operations of Coastal Transport Limited, which manages a ferry between New Brunswick ports and, as well, acquired the Newfoundland Dockyard Corporation, of St. John's. These subsidiaries operate autonomously. Customer revenues cover approximately one-third of Marine's operating expenditures.

SUMMARY PAGE

MINGAN ASSOCIATES, LTD

MANDATE

To purchase land for eventual disposition.

BACKGROUND

Ownership of the corporation was purchased for Canada in 1983 to obtain the land and fishing rights it owns. Those assets have become Indian reserve property, and as a first step, they have been transferred to the Crown in right of Canada. The further steps towards reserve status are underway. Bill C-73 authorizing dissolution of the corporation is now before Parliament.

MONTREAL PORT CORPORATION

MANDATE

Administration, management and control of the Montreal harbour and all the works and property within the harbour previously under the jurisdiction of the Canada Ports Corporation or, prior to February 24, 1983, the National Harbours Board.

BACKGROUND

The Montreal Port Corporation was established on July 1, 1983, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. In 1989, the Port of Montreal paid dividends to the federal government totalling $3.3 million.

NATIONAL ARTS CENTRE CORPORATION

MANDATE

To promote the development of the performing arts.

BACKGROUND

In 1969, the corporation was given the lease of the National Arts Centre complex for twenty years without charge. The lease was renewed to May 31, 1990. The corporation's revenues meet about 55.1 per cent of its cash requirements; payments from Canada cover the remainder. The corporation is a charitable organization for the purposes of the *Income Tax Act*.

OLD PORT OF MONTREAL CORPORATION INC.

MANDATE

To promote the development of the lands of Le Vieux-Port de Montréal and develop them and administer, manage and maintain Crown property there.

BACKGROUND

Since February 1982, the corporation has managed the Crown lands at Le Vieux-Port, including lands transferred to the Crown in 1983 from Canada Ports Corporation. Planning and consultation with the public and with the other levels of government have resulted in plans for major developments on the lands. The government of Canada has announced a series of projects that will be completed by 1992, the 350th anniversary of the founding of Montréal and the 125th anniversary of Confederation.

PACIFIC PILOTAGE AUTHORITY

MANDATE

To establish, operate, maintain and administer, in the interest of safety, an efficient pilotage service within designated waters in and around British Columbia.

BACKGROUND

Established in 1972, the Authority provides pilotage services and has the power to make regulations, subject to the approval of the Governor in Council, which establish compulsory pilotage areas; prescribe the ships/classes of ships that are subject to compulsory pilotage, the circumstances under which compulsory pilotage may be waived and pilotage tariffs; and which cover the licensing of pilots and issuance of pilotage certificates. Tariffs must be fair and reasonable and sufficient to permit the Authority to operate on a self-sustaining financial basis.

SUMMARY PAGE

PETRO-CANADA

MANDATE

To explore for, research, develop, produce and distribute hydrocarbons and other types of fuel and energy, and to engage or invest in ventures related thereto.

BACKGROUND

Petro-Canada's growth was principally from its acquisition, in succession, of Atlantic Richfield, Pacific Petroleums, Petrofina, BP Canada and Gulf Canada rights and other assets but, as well, major new investments have been made by the corporation in conventional crude oil and gas exploration in Western Canada and in frontier drilling. It owns a significant share in the Hibernia and Terra Nova offshore fields. No federal funds have been invested in Petro-Canada since 1984. The government's plan to allow direct public ownership of Petro-Canada was announced in the February 1990 Budget.

ROYAL CANADIAN MINT

MANDATE

To mint coins in anticipation of profit and to carry out other related activities.

BACKGROUND

Founded in 1908 as a branch of the Mint of the United Kingdom, its operations devolved to the Crown in right of Canada in 1931. It was a departmental agency of the government until 1969 when it was incorporated by legislation. *The Act to Amend the Royal Canadian Mint Act and the Currency Act,* which came into force on December 17, 1987, authorizes share capital for the corporation. In 1989, a share capital structure was created for the Mint and shares were issued to Canada. The corporation operates in a competitive international environment.

SUMMARY PAGE

ST. LAWRENCE SEAWAY AUTHORITY, THE

MANDATE

Construction, operation and maintenance of canals, bridges, works and other property related to the deep waterway between the Port of Montreal and Lake Erie, known as the St. Lawrence Seaway.

BACKGROUND

The St. Lawrence Seaway Authority was established in 1954 to construct and operate the Seaway in conjunction with an appropriate authority in the United States and to construct, maintain and operate bridges and other works and property incidental thereto as the Governor in Council may deem to be necessary. The Authority operates 13 locks and related works in Canadian territory along the waterway, as well as four high-level bridges traversing the St. Lawrence River. Two locks in the United States are operated by the St. Lawrence Seaway Development Corporation.

A wholly-owned subsidiary, the Seaway International Bridge Corporation, Ltd. was established in 1962 to manage the international bridge at Cornwall, Ontario. A second wholly-owned subsidiary, the Jacques Cartier and Champlain Bridges Incorporated was established to manage the two high-level bridges in Montreal when these were transferred from the National Harbours Board in 1978. A third wholly-owned subsidiary, Great Lakes Pilotage Authority, Ltd. is a parent Crown corporation for the purposes of the *Financial Administration Act*. The Canadian span of the Thousand Islands Bridge at Lansdowne, Ontario has been directly administered by the Authority since this property reverted to Canada in 1976.

TELEGLOBE CANADA

MANDATE

Since 1949, to establish, maintain and operate, in Canada and elsewhere, international telecommunications services for the conduct of public communications; this mandate ended on April 3, 1987 with the sale of its business.

BACKGROUND

Originally the Canadian Overseas Telecommunications Corporation, its name was changed in 1975 by the *Teleglobe Canada Act*. The transfer of this business to a subsidiary and the sale of the latter to Memotec Data Inc. was announced by the government on February 11, 1987 and, with the proclamation of the *Teleglobe Canada Reorganization and Divestiture Act*, took place on April 3, 1987. The corporation remains in existence, but inactive. Steps are being taken now so that the corporation may be dissolved.

SUMMARY PAGE

VANCOUVER PORT CORPORATION

MANDATE

Administration, management and control of the Vancouver Harbour and all the works and property within the harbour under its jurisdiction.

BACKGROUND

The Vancouver Port Corporation was established on July 1, 1983, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. Vancouver is the busiest port in Canada. In 1989, the port realized a net income of $28.3 million and returned $8.1 million in dividends to the federal government.

SUMMARY PAGE

VIA RAIL CANADA INC.

MANDATE

To manage and provide safe, efficient, effective and economic rail passenger service in Canada to meet the needs of the travelling public.

BACKGROUND

In accordance with contracts with the Minister of Transport, VIA Rail operates passenger train services over CN and CP railway tracks. In the April 1989 Budget the government announced reductions in planned funding for the corporation. A revised network, which was part of a new business plan that included increased fares and service reductions, was implemented on January 15, 1990.

PART II

CORPORATE INTERESTS OF CANADA INCLUDING SUBSIDIARIES OF CROWN CORPORATIONS

CORPORATE INTERESTS OF CANADA INCLUDING SUBSIDIARIES OF CROWN CORPORATIONS

INTRODUCTION

Part II of this Annual Report responds to the provision in paragraph 151(3)(a) of the *Financial Administration Act* that the Report of the President "shall include a list naming, as of a specified date, all Crown corporations and all corporations of which any shares are held by, on behalf of, or in trust for the Crown or any Crown corporation." It consists of four sections:

1. **Statistical Summary of the Corporate Interests of Canada.** The number of parent Crown corporations, subsidiaries and associates is at the financial year-ends of the parent Crown corporations. The number of joint and mixed enterprises, other entities and international organizations is as at March 31, 1990.

2. **Listings of the Corporate Interests of Canada.** These are grouped as:

2.1 Parent Crown Corporations and their Subsidiaries and Associates, including:

- subsidiaries held at 100%;
- subsidiaries held at 50-99%; and,
- associates held at less than 50%.

2.2 Joint and Mixed Enterprises—corporate entities in which Canada, through a Minister, owns shares, the rest being owned by private sector parties or by another level of government.

2.3 Other Entities—corporate entities in which Canada holds no shares but, directly or through a Crown corporation, has a right pursuant to statute, articles of incorporation, letters patent or by-law, to appoint or nominate one or more members of the board of directors or similar governing body.

2.4 International Organizations—are corporate entities created pursuant to international agreements by which Canada has a right to appoint or elect members to a governing body.

3. **Changes to the Listings of Corporate Interests of Canada.** This section provides the names of corporations deleted or added to the listings since the last Annual Report. For parent Crown corporations, the changes are at their financial years ending on or before July 31, 1990 compared to their preceding financial year-ends. For the other corporate interests of Canada, the changes are at March 31, 1990 compared to March 31, 1989.

4. **Information about Other Corporate Interests of Canada.** The descriptions of the mandates of the joint and mixed enterprises, other entities, and international organizations appearing in this section are intended to convey the essence of those mandates. They are not legal descriptions. Similarly, the description of the government's objective in making investments in these corporations is a summary. For further information, the reader is referred to the special Acts, articles of incorporation and annual reports of the corporations. The federal ownership percentage displayed is based on the number of voting shares.

1. STATISTICAL SUMMARY OF THE CORPORATE INTERESTS OF CANADA

	1990	1989
Crown Corporations		
• Parent Crown corporations including eight corporations which are exempted from Part X of the FAA	53	53
• Wholly-owned subsidiaries	112	112
TOTAL	165	165
Crown Corporations' Investments (direct and indirect)		
• Subsidiaries held at 50% or more but less than 100%	27	28
• Associates held at less than 50%	103	104
TOTAL	130	132
Joint and Mixed Enterprises	22	17
Other Entities	44	43
International Organizations	13	13

2. LISTINGS OF THE CORPORATE INTERESTS OF CANADA

2.1 PARENT CROWN CORPORATIONS* AND THEIR WHOLLY-OWNED SUBSIDIARIES, OTHER SUBSIDIARIES AND ASSOCIATES (as at their financial year ends on or before July 31, 1990)

1. Atlantic Pilotage Authority (III-I)

ATLANTIC PILOTAGE AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of Atlantic Pilotage Authority as at December 31, 1989 and the statements of operations, contributed capital, deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations, and the by-laws of the Authority.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

ATLANTIC PILOTAGE AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Objectives and activities

The Atlantic Pilotage Authority (the "Authority") was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act provides that pilotage tariffs shall be fair, reasonable and sufficient, together with any revenue from other sources, to permit the Authority to operate on a self-sustaining financial basis.

The Authority is a Crown corporation listed in Schedule III, Part I of the Financial Administration Act and is not subject to income tax under the provisions of the Income Tax Act.

2. Significant accounting policies

(a) Parliamentary appropriation

When revenues are not sufficient to permit the Authority to operate on a self-sustaining financial basis, the Authority requests parliamentary appropriations to recover cash operating losses. These appropriations are recorded in the accounts when approved by Parliament and are reflected in the statement of deficit.

Parliamentary appropriations are also requested when the cash operating profits are not sufficient to provide for the purchase of capital assets and the principal portion of payments under capital lease agreements. These appropriations are recorded in the accounts when approved by Parliament and are reflected in the statement of contributed capital.

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Pilot boats	14 to 25 years
Furniture and equipment	5 to 10 years

(c) Capital leases

The Authority leases pilot boats from Canada under long term financing leases. Under the terms of the lease agreements, the Authority assumes the rights and obligations of ownership. As a result, the leases are treated as purchases and the principal portion of lease payments is capitalized and depreciated over the estimated useful lives of the boats. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

(d) Pension plan

All employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid.

(e) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded as they accrue to the employees.

3. Parliamentary appropriation

On March 23, 1989, the Government of Canada provided $467,064 through Special Governor General's warrants, for the Authority's 1988 capital expenditures, 1989 principal payments on capital leases and the cost of a pilot boat purchased in March 1989.

4. Fixed assets

	1989			1988
	Cost	Accumulated depreciation	Net	Net
	$	$	$	$
Land	450		450	450
Pilot boats	1,572,425	533,950	1,038,475	469,542
Pilot boats under capital lease	448,573	244,592	203,981	537,526
Furniture and equipment	211,205	133,554	77,651	89,283
	2,232,653	912,096	1,320,557	1,096,801

5. Capital lease agreements

The Authority leases pilot boats under long term financing leases. The remaining payments under the leases are as follows:

	1989	1988
	$	$
9 1/8% lease agreement, due April 1991, payable in blended annual payments of $54,785	109,571	164,355
8% lease agreement, due October 1989, payable in blended annual payments of $31,077		31,077
8% lease agreement, due November 1989, payable in blended annual payments of $31,077		31,077
Total lease payments	109,571	226,509
Less: amount representing interest	13,691	31,209
Principal amount of capital leases	95,880	195,300
Less: current portion	45,796	99,420
Principal amount of capital lease agreements net of current portion	50,084	95,880

The following is a schedule of lease payments under the capital lease expiring in 1991:

Year ending December 31	$
1990	54,785
1991	54,786
Total lease payments	109,571

Upon maturity of the lease, the Authority has the option to purchase the boat for $1. During 1989, two leases matured and the Authority exercised its option to purchase.

ATLANTIC PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1989—*Concluded*

6. Pension plan

Under provisions of the Pilotage Act, pilots who became employees of the Authority were entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. Total past service pension expense was $6,821 in 1989 ($10,662 in 1988). The estimated unfunded past service pension contribution with respect to these employees was approximately $54,000 at December 31, 1989 ($74,000 at December 31, 1988) and will be funded over the remaining years of service of the pilots, or the terms of purchase, whichever is the lesser.

7. Related party transactions

The Authority receives services from government departments and these are provided without charge. These include pilot dispatching services by the Canadian Coast Guard, through its Vessel Traffic Service Centres in Nova Scotia, New Brunswick and Newfoundland. The cost of these services is not recorded in the accounts of the Authority.

8. Commitments and contingency

(a) The Authority has entered into long term contracts for pilot boat services requiring the following minimum annual payments:

	$
1990	702,097
1991	530,246
	1,232,343

(b) In December 1987, a lawsuit was filed against the Authority relating to a contract for pilot boat services. In management's opinion, the outcome of this action cannot be determined at this time and no provision has been made in the financial statements.

ATOMIC ENERGY OF CANADA LIMITED

MANAGEMENT RESPONSIBILITY

The financial statements and all other information presented in this Annual Report are the responsibility of the management and the Board of Directors of the corporation. The financial statements have been prepared in accordance with generally accepted accounting principles and include estimates based on the experience and judgement of management.

The corporation maintains books of account, financial and management control, and information systems, together with management practices designed to provide reasonable assurance that reliable and accurate financial information is available on a timely basis, that assets are safeguarded and controlled, that resources are managed economically and efficiently in the attainment of corporate objectives, and that operations are carried out effectively. These systems and practices are also designed to provide reasonable assurance that transactions are in accordance with Part X of the Financial Administration Act and its regulations, as well as the Canada Business Corporations Act, the articles, and the bylaws and policies of the corporation. The corporation has met all reporting requirements established by the Financial Administration Act, including submission of a corporate plan, an operating budget, a capital budget and this Annual Report.

The corporation's internal auditor has the responsibility for assessing the management systems and practices of the corporation. The Auditor General of Canada conducts an independent examination of the financial statements of the corporation and reports on his examination to the Minister of Energy, Mines and Resources.

The Board of Directors' Audit Committee, composed of directors who are not employees of the corporation, reviews and advises the Board on the financial statements, the Auditor General's reports thereto and the plans and reports related to special examinations, and oversees the activities of internal audit. The Audit Committee meets with management, the internal auditor and the Auditor General on a regular basis.

Stanley R. Hatcher
Acting President and Chief Executive Officer

David G. Cuthbertson
Vice-President, Finance and Chief Financial Officer

AUDITOR'S REPORT

TO THE MINISTER OF ENERGY, MINES AND RESOURCES

I have examined the balance sheet of Atomic Energy of Canada Limited as at March 31, 1990 and the statements of income, contributed capital, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act, the articles and the bylaws of the Corporation.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with generally accepted accounting principles applied on a consistent basis. The most significant accounting policies are summarized below:

Foreign currency translation

Transactions denominated in a foreign currency are translated into Canadian dollars at the exchange rate in effect at the date of the transaction, except those covered by forward exchange contracts, where the rate established by the terms of the contract is used. Monetary assets and liabilities outstanding at the balance sheet date are adjusted to reflect the exchange rate in effect at that date. Exchange gains and losses arising from the translation of foreign currencies are included in income.

Inventories

Heavy water is valued at the lower of average cost, less related parliamentary appropriations, and net realizable value. Maintenance and general supplies are valued at cost.

Investment

The corporation has an investment in Pickering reactor Units 1 and 2. This is recorded at cost and is being amortized on a straight-line basis over the remaining term of the related investment agreement.

Property, plant and equipment

Property, plant and equipment of a research and development nature are recorded at cost and expensed in the year of acquisition.

ATOMIC ENERGY OF CANADA LIMITED—*Continued*

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—*Concluded*

Other property, plant and equipment are recorded at cost and depreciated on a straight-line basis over the estimated useful life of the asset as follows:

Machinery and equipment	3 to 20 years
Buildings	20 to 50 years

Costs of decommissioning nuclear facilities are expensed when incurred.

Long-term contracts

Revenue and costs on long-term contracts are accounted for by the percentage of completion method, applied on a conservative basis to recognize the absence of certainty on these contracts. Full provision is made for all estimated losses to completion of contracts in progress.

Parliamentary appropriations

The Government of Canada, through parliamentary appropriations, funds certain operations of the corporation as outlined in Note 2. The parliamentary appropriations are offset against the applicable expenditures except for the portion used to discharge certain loan principal which is recognized as an increase in contributed capital.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The corporation's contributions to the Plan are limited to an amount equal to the employees' contributions on account of current service. These contributions represent the total pension obligations of the corporation and are charged to income on a current basis.

Employee termination benefits

Employees are entitled to specific termination benefits as provided for under collective agreements and conditions of employment. The liability for these benefits is charged to income as benefits accrue to the employees. The accumulated liability is actuarially determined on a periodic basis.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1990

1. Accounting policies

The summary of significant accounting policies is an integral part of these financial statements.

2. Parliamentary appropriations

Parliamentary appropriations were used during the year for the following purposes:

	1990	1989
	(in thousands of dollars)	
Research and development operations	153,722	146,879
CANDU 3 pre-project costs	29,200	44,400
Decommissioning activities	12,023	10,309
Heavy water plant loan principal	1,621	1,489
Subsidiaries divested	9,074	
	205,640	203,077

Parliamentary appropriations in respect of subsidiaries divested were to reimburse the corporation for expenditures subsequent to the divestment and to compensate the corporation for certain cash flows foregone as a result of the divestment. The latter, amounting to $3.7 million, was credited to contributed capital.

3. Subsidiaries divested

In March 1988, the Government of Canada announced its intention to privatize the corporation's radiation equipment and isotope businesses conducted by the Radiochemical Company and the Medical Products Division, both operating divisions of the corporation. Subsequently, these divisions were incorporated under the names Nordion International Inc. (Nordion) and Theratronics International Limited (Theratronics), respectively. On September 30, 1988, the corporation sold its shares in Nordion and Theratronics to Canada Development Investment Corporation (CDIC) for eventual privatization. Under the terms of the agreement with CDIC, the corporation will receive full proceeds realized upon the privatization of Nordion and Theratronics, less CDIC's expenses associated therewith. While the corporation anticipates a gain on sale, the amount cannot reasonably be determined at this time. The receivable from CDIC of $114.6 million represents the September 30, 1988, net book value of the businesses sold.

Income from Nordion and Theratronics for the six months ended September 30, 1988, has been reflected in the statement of income for the year ended March 31, 1989, as income from subsidiaries divested. Revenues of Nordion and Theratronics were $70 million for that six-month period.

4. Inventories

	1990	1989
	(in thousands of dollars)	
Current		
Maintenance and general supplies	3,256	3,727
Heavy water	544,799	548,964
Less: parliamentary appropriations	536,703	540,378
	8,096	8,586

Parliamentary appropriations for heavy water are repayable to the government, together with interest thereon, to the extent of future revenue from sales of related heavy water. Accrued liabilities as at March 31, 1990, include $2.9 million in respect of net proceeds from sales during the year (1989—$4.9 million).

5. Long-term receivables

	1990	1989
	(in thousands of dollars)	
Notes receivable from provincial utilities in respect of the financing of nuclear facilities (refer to Note 8 for related debt)	522,118	550,289
Contract receivables maturing through 1998	39,091	35,719
Mortgages receivable and other	3,001	3,462
	564,210	589,470
Current portion	65,900	48,127
	498,310	541,343

ATOMIC ENERGY OF CANADA LIMITED—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1990—*Continued*

6. Investment

The corporation, Ontario Hydro and the Province of Ontario are parties to an agreement for the construction and operation of Units 1 and 2 of the Pickering "A" nuclear generating station, with ownership of these Units being vested in Ontario Hydro. Under the agreement, the corporation is entitled to receive payments until the year 2003 based on the net operational advantage of the power generated by Pickering Units 1 and 2 as compared with the coal-fired Lambton Units 1 and 2. Due primarily to costs incurred during the 1984-88 shutdown of the Pickering units for pressure tube replacement, no payment was received this year. The timing of the resumption of payments under the agreement remains uncertain since it depends on the future operating costs, including the cost of coal, of the Lambton units.

The charge against 1990 earnings for amortization of the investment in Pickering was $5.5 million (1989—$2.3 million).

7. Property, plant and equipment

	1990			1989
	Cost	Funding and accumulated depreciation	Net	Net
		(in thousands of dollars)		
Nuclear power operations				
Land and improvements	1,175	568	607	604
Buildings	9,860	9,739	121	97
Machinery and equipment	21,022	15,233	5,789	4,689
	32,057	25,540	6,517	5,390
Research and development operations				
Land and improvements	11,537	11,537		
Buildings	80,451	78,332	2,119	2,581
Reactors and equipment	235,307	233,939	1,368	1,605
Construction in progress	62,302	62,302		
	389,597	386,110	3,487	4,186
	421,654	411,650	10,004	9,576

Depreciation of property, plant and equipment for the year ended March 31, 1990 amounted to $1.9 million (1989—$3.1 million).

Research and development property, plant and equipment expensed during the year amounted to $13.0 million (1989—$14.1 million).

8. Long-term debt

	1990	1989
	(in thousands of dollars)	
Loans from Government of Canada		
To finance provincial utility nuclear facilities, maturing through 2008 at fixed interest rates varying from 6.687% to 9.706% (refer to Note 5 for related receivables)	521,700	549,774
To finance leased heavy water and other assets, maturing through 2008 at fixed interest rates varying from 5.0% to 12.434%	22,316	24,002
Loans from third parties		
To finance the purchase of the Glace Bay heavy water plant, maturing through 1998 at an imputed interest rate of 8.875%	18,969	20,556
	562,985	594,332
Current portion	33,871	31,346
	529,114	562,986

Loan repayments required over succeeding years are as follows (millions of dollars): 1991—$33.9; 1992—$36.6; 1993—$33.1; 1994—$16.1; 1995—$17.3; and subsequent to 1995—$426.0.

9. Decommissioning activities

Decommissioning activities consist of placing and maintaining prototype reactors in a safe-storage mode as the initial stage of decommissioning, as well as the activities associated with closure and protection of heavy water plants. Funding for these activities is provided through parliamentary appropriations and proceeds from related asset sales.

Prototype reactors

The decommissioning of nuclear research and prototype facilities is an integral part of the nuclear program. Currently, the Gentilly-1, Douglas Point and Nuclear Power Demonstration (NPD) prototype reactors are in a safe-storage mode. The WR-1 reactor was shut down in 1985 and its decommissioning commenced during the year. The estimated cost of the initial stage of decommissioning of WR-1 is $20 million.

Future net costs related to decommissioning nuclear facilities beyond the safe-storage mode cannot be quantified at this time due to uncertainty as to the nature and timing of the disposal alternative that will ultimately be adopted in each case. In accordance with the corporation's accounting policy, any such costs will be expensed when incurred.

All reactors in the decommissioning stage have been fully written off. The original gross cost of these reactors is $216 million, including $31 million for capitalized heavy water.

Heavy water plants

The corporation has closed down the three heavy water plants located in Glace Bay and Port Hawkesbury in Cape Breton, Nova Scotia and in LaPrade, Quebec. These assets, which have been fully written off, had an original gross cost of $803 million.

ATOMIC ENERGY OF CANADA LIMITED—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1990—*Concluded*

10. Related party transactions

In addition to the transactions disclosed elsewhere in these financial statements, the corporation had the following transactions with the Government of Canada:

	1990	1989
	(in thousands of dollars)	
Repayment of loans and interest	88,790	85,005
Payments to the Public Service Superannuation Plan	11,744	11,586

In the normal course of business, the corporation also enters into various transactions with the Government of Canada, its agencies and other Crown corporations.

11. Supplementary information

Incorporation

Pursuant to the authority and powers of the Minister of Energy, Mines and Resources under the Atomic Energy Control Act, the corporation was incorporated in 1952 under the provisions of the Canada Corporations Act (and continued in 1977 under the provisions of the Canada Business Corporations Act) to develop the utilization of atomic energy for peaceful purposes.

The corporation is a Schedule III Part I Crown corporation under the Financial Administration Act. The corporation is exempt from income taxes.

Corporate Plan

Pursuant to the Financial Administration Act, the corporation is required to submit a Corporate Plan for approval by the Governor in Council. The Corporate Plan for 1989/90-1993/94 was submitted, but approval was deferred pending the results of a review of the mandate and scope of operations of the corporation in conjunction with a restructuring of the nuclear industry in Canada.

Insurance

To the extent deemed appropriate, the corporation carries conventional insurance for its facilities and heavy water inventories. Decommissioned prototype reactors are self-insured.

Sales agents' remuneration

Guidelines concerning the commercial practices of Crown corporations require disclosure of sales agents and the total remuneration paid to them during the year.

Remuneration and expenses paid to the following sales agents and representatives in 1990 aggregated $1.0 million:

B.C. Park, U.S.A.; Marubeni Corporation, Japan; PII-PED International Inc., U.S.A.; P.T. Sanga Kencana International, Indonesia; Yuksel Nedim Yalcin, Turkey.

In 1989, such remuneration and expenses, including payments to sales agents and representatives of Nordion and Theratronics, aggregated $2.5 million.

BANK OF CANADA

AUDITORS' REPORT

We have examined the statement of assets and liabilities of the Bank of Canada as at December 31, 1989 and the statement of revenue and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at December 31, 1989 and the results of its operations for the year then ended in accordance with the accompanying summary of significant accounting policies, applied on a basis consistent with that of the preceding year.

BANK OF CANADA—*Continued*

STATEMENT OF REVENUE AND EXPENSE YEAR ENDED DECEMBER 31, 1989

(with comparative figures for 1988)
(in millions of dollars)

	1989	1988
Revenue		
Revenue from investments and other sources, net of interest paid on deposits of $42.8 ($21.3 in 1988)	2,424.5	2,109.7
Expense		
Salaries(1)	72.1	67.6
Contributions to pension and insurance funds(2)	9.1	8.7
Other staff expenses(3)	2.3	2.2
Directors' fees	0.1	0.1
Auditors' fees and expenses	0.5	0.5
Taxes—Municipal and business	9.5	8.8
Bank note costs	40.0	35.1
Data processing and computer costs	6.3	5.8
Premises maintenance—Net of rental income(4)	19.7	19.6
Printing of publications	1.0	0.5
Other printing and stationery	2.4	2.2
Postage and express	1.8	1.6
Telecommunications	1.8	1.7
Travel and staff transfers	2.7	2.3
Other expenses	2.9	2.1
	172.2	158.8
Depreciation on buildings and equipment	13.5	13.2
	185.7	172.0
Net revenue paid to Receiver General for Canada	2,238.8	1,937.7

See accompanying notes to the financial statements.

(1) Salaries include overtime and are for Bank staff other than those engaged in premises maintenance. The number of employee years worked by such staff (including temporary, part-time and overtime work) was 2,255 in 1989 compared with 2,234 in 1988.

(2) Contributions to pension and insurance funds for Bank staff other than those engaged in premises maintenance.

(3) Other staff expenses include retirement allowances and educational training costs.

(4) Premises maintenance comprises building and equipment maintenance expenses including related staff costs.

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1989

1. Significant accounting policies

The financial statements of the Bank conform to the disclosure and accounting requirements of the Bank of Canada Act and the Bank's by-laws. The significant accounting policies of the Bank are:

(a) Revenues and expenses

Revenues and expenses are accounted for on the accrual basis except for interest on advances to a bank ordered to be wound up where interest is recorded as received.

(b) Investments

Investments, consisting mainly of Government of Canada treasury bills and bonds, are recorded at a cost adjusted for amortization of purchase discounts and premiums. The amortization as well as gains and losses on disposition are included in revenue.

(c) Translation of foreign currencies

Assets and liabilities in foreign currencies are translated to Canadian dollars at the rates of exchange prevailing at the year-end. Gains and losses from translation of, and transactions in, foreign currencies are included in revenue.

(d) Bank premises

Bank premises, consisting of land, buildings and equipment, are recorded at cost less accumulated depreciation. Depreciation is calculated on the declining balance method using the following annual rates:

Buildings	5%
Computer equipment	35%
Other equipment	20%

A full year of depreciation is charged against assets in the year of acquisition, except for Projects in progress which are depreciated from the point of substantial completion. No depreciation is taken on assets in the year of disposal.

(e) Pension plan

The Bank's contributions to the Pension Fund are recorded as expenses at the time they are made. Actuarial surpluses or deficiencies, if any, are amortized over periods not exceeding those provided for by the Pension Benefits Standards Act, 1985, and the regular contributions are adjusted accordingly.

(f) Insurance

The Bank does not insure against direct risks of loss to the Bank, except for potential liabilities to third parties and where there are legal or contractual obligations to carry insurance. Any costs arising from these risks are recorded in the accounts at the time they can be reasonably estimated.

2. Advances to members of the Canadian Payments Association

Advances include a total of $46.4 million ($143.0 million in 1988) provided to the Canadian Commercial Bank and the Northland Bank for which winding-up orders have been issued by the courts. On the basis of the available information, it is the opinion of the Bank of Canada that this amount will be fully repaid from the proceeds of the liquidations.

BANK OF CANADA—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

3. Investments

Investments may include securities of the Government of Canada held under Purchase and Resale Agreements (PRA). As at December 31, 1989 and 1988 there were no securities held under PRA.

4. Bank premises

	1989			1988
	Cost	Accumulated depreciation	Net	Net
	(in millions of dollars)			
Land and buildings	171.9	69.2	102.7	107.4
Computer equipment ...	27.5	22.1	5.4	6.9
Other equipment	56.5	32.2	24.3	16.3
	255.9	123.5	132.4	130.6
Projects in progress	6.0		6.0	9.2
	261.9	123.5	138.4	139.8

5. Capital

The authorized capital of the Bank is $5.0 million divided into 100,000 shares of the par value of $50 each. The shares are fully paid and in accordance with the Bank of Canada Act have been issued to the Minister of Finance, who is holding them on behalf of Canada.

6. Rest fund

The rest fund was established by the Bank of Canada Act and represents the general reserve of the Bank. In accordance with the Act, the rest fund was accumulated out of net revenue until it reached the stipulated maximum amount of $25.0 million in 1955. Subsequently, all net revenues have been paid to the Receiver General for Canada.

7. Contingent liability

During 1989, the Bank of Canada, along with central banks of other industrial countries, participated in short-term bridging arrangements to the Banco de Mexico and the Narodowy Bank Polski through the Bank for International Settlements. As at December 31, 1989, the Bank of Canada's contingent liability on the principal amounts outstanding under the arrangements with the Banco de Mexico and the Narodowy Bank Polski were U.S. $33.4 million (Can. $38.7 million at the December 31, 1989 closing exchange rate) and U.S. $8.6 million (Can. $10.0 million at December 31, 1989 closing exchange rate), respectively.

8. Legal matters

The Bank of Canada's security for advances to the Canadian Commercial Bank and the Northland Bank includes the loan portfolios of those institutions. In the case of the Canadian Commercial Bank, submissions have been presented to the court to determine whether the interest received from the portfolio forms part of the Bank's security. In the unlikely event that there were a final legal determination that all the interest is not included in the security it could result in some adjustment relating to amounts which have been recorded in income.

CANADA COUNCIL

AUDITOR'S REPORT

TO THE CANADA COUNCIL AND THE
MINISTER OF COMMUNICATIONS

I have examined the balance sheets of the Endowment Account and Special Funds of the Canada Council as at March 31, 1990 and the statements of revenue and expense and equity of the Endowment Account and Special Funds and the statement of changes in financial position of the Endowment Account for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and operations

The Canada Council was established by the Canada Council Act in 1957 which authorized the creation of an Endowment Fund of $50 million pursuant to Section 13 of the Act. Except for the annual parliamentary appropriation, monies or properties donated to the Council pursuant to Section 18 of the Act are generally accounted for as Special Funds or Special Trusts. The Council has been assigned the functions and duties for the Canadian Commission for UNESCO pursuant to Paragraph 8(2) of the Act. The Council is not an agent of Her Majesty. Its objectives are to foster and promote the study, enjoyment and production of works, in the arts.

2. Significant accounting policies

(a) Investments

Equities, bonds, debentures and mortgages are recorded at cost. The portfolios of two Special Funds (Molson Prize and Lynch-Staunton) are merged with the Endowment Account. Special Funds with capital in excess of $250,000 and received after January 1, 1990 are merged with the Endowment Account. The participation of each fund is calculated on the basis of market value as at the date the monies are received. Interest, dividends, gains and losses on disposal of investments are allocated to each fund based on the percentages established at the beginning of each quarter.

Special Funds with capital less than $250,000 and Special Trusts receive income calculated quarterly using the ninety day Treasury Bill rate at the beginning of the quarter.

Investments are written down to market value when the loss in value is considered to be other than a temporary decline.

(b) Equipment and leasehold improvements

Equipment and leasehold improvements are recorded at cost and depreciated over their estimated useful lives on the straight-line method, as follows:

Equipment	3 to 5 years
Leasehold improvements	term of the lease (maximum 10 years)

A full year's depreciation is taken in the year of aquisition while no depreciation is taken in the year of disposal. Gains and losses on disposals are netted against the depreciation expense in the year of disposal.

(c) Works of art

Works of art acquired by the Canada Council Art Bank are recorded at cost.

(d) Musical instruments—Special Funds

Musical instruments are recorded at cost.

(e) Special Funds and Special Trusts

Special Funds and Special Trusts include monies received by the Canada Council by way of bequest, gift or donation and may be specific as to purpose.

Special Funds are managed at the full discretion of the Canada Council and are invested in accordance with the policies of the Endowment Fund.

Special Trusts are either managed or allowed to have their capital drawn down, in accordance with donor's wishes.

CANADA COUNCIL—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(f) Employee termination benefits

Employees are entitled to specific termination benefits as provided for under the Council's policy and conditions of employment. The cost of these benefits is expensed in the year in which they accrue to employees.

(g) Gains and losses on disposal of investments

Pursuant to subsection 17(2) of the Act, net gains or losses on disposal of investments are credited or charged to the Fund Capital. In the event that net losses exceed the Fund balance, the excess is recorded as an expense.

(h) Contributed surplus

Amounts paid during the year for the purchase of works of art acquired by the Canada Council Art Bank are expensed. Such purchases are then capitalized as contributed surplus-works of art and no depreciation is recorded.

(i) Appropriated surplus

The Council has established a reserve to help reduce the effect of inflation on the value of the original endowment. Any changes in this account are approved by the Council.

(j) Capitalization of net income of Special Funds

The Council capitalizes 10% of the revenue less administration expenses of the Izaak Walton Killam Memorial Fund for Advanced Studies and the Killam Special Scholarship Fund, in accordance with advice received from the trustees of these Funds in order to preserve the equity for future beneficiaries. However, for the purposes of the Funds, the Council reserves the right to draw at any time on the accumulated net income capitalized.

(k) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. This contribution represents the total liability of the Council.

(l) Parliamentary appropriations

Parliamentary appropriations to the Council are recorded as revenue in the year in which they are approved by Parliament.

(m) Grants and services

Grants approved by the Council are recorded as expense in the appropriate year as determined by the Treasurer in consultation with the Arts Division. Cancelled grants and refunds of grants approved in previous years, are shown as revenue.

Services to the arts which include juries, advisory committees, prizes and other costs that directly serve artists or the arts community, are recorded as expense in the year in which they are incurred.

3. Special funds

(a) Izaak Walton Killam Memorial

A bequest of $12,339,615 in cash and securities was received from the estate of Mrs. Dorothy J. Killam and was established "to provide scholarships for advanced study or research in any field of study or research other than the 'arts' as presently defined in the Canada Council Act and not limited to the 'humanities and social sciences' referred to in such Act."

The bequest contains the provision that "the Fund shall not form part of the Endowment Account or otherwise be merged with any assets of the Council". The cash and securities received and the proceeds have been invested in a separate portfolio.

The fund equity as at March 31, 1990 was $18,966,558 (1989—$16,371,812).

(b) Killam Special Scholarship

This fund was established by way of securities received from Mrs. Dorothy J. Killam. Dividends and proceeds from the redemption of those securities amounted to $13,653,344.

The net income from this fund is available to provide fellowship grants to Canadians for advanced study or research in the fields of medicine, science and engineering.

The fund equity as at March 31, 1990 was $18,289,278 (1989—$16,538,528).

(c) Jean A. Chalmers

An endowment of $500,000 in cash was received from Mrs. Floyd S. Chalmers to establish a special Jean A. Chalmers Fund for the crafts. In consultation with the Canadian Crafts Council, the income of the fund is used to provide a small number of special project grants for the development or advancement of the crafts in Canada.

The fund equity as at March 31, 1990 was $540,020 (1989—$521,709).

(d) Molson Prize

Gifts of $1,000,000 were received from the Molson Foundation for the establishment of the Molson Prize Fund. The income of the fund is used for awarding cash prizes to Canadians "for outstanding achievement in the fields of the Arts, the Humanities or the Social Sciences".

The fund equity as at March 31, 1990 was $1,417,272 (1989—$1,377,946).

(e) Lynch-Staunton

This fund was established by a bequest in cash of $699,066 received from the estate of V.M. Lynch-Staunton, the income from which is available for the regular programs of the Council.

The fund equity as at March 31, 1990 was $1,440,474 (1989—$1,346,948).

(f) Vida Peene

This fund was established by a bequest in cash of $599,761 received from Vida Peene to provide payments to specified organizations.

The fund equity as at March 31, 1990 was $599,799 (1989—$599,761).

(g) Joseph S. Stauffer

This fund was established by bequests in cash totalling $400,000 from the estate of Joseph S. Stauffer, the income from which is to provide prizes to encourage promising young Canadians in the fields of music, visual arts and literature.

The fund equity as at March 31, 1990 was $466,540 (1989—$447,900).

The following Special Funds have an original capital less than $250,000 and have a total fund equity as at March 31, 1990 of $1,566,201 (1989—$1,478,249).

CANADA COUNCIL—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(h) Other

(i) Frances Elizabeth Barwick and J.P. Barwick

Bequest totalling $93,000 in cash was received from the estates of Mrs. Frances Elizabeth Barwick and J.P. Barwick. The total fund is to be used for the benefit of the musical arts and is being used for a musical instruments bank.

(ii) John B.C. Watkins

This fund was established by a bequest consisting of the net income from the residue of the estate of the late John B.C. Watkins to provide scholarships for postgraduate studies in specified countries.

(iii) The Duke and Duchess of York Prize in Photography

The Council received an endowment of $170,000 from the Government of Canada to mark the occasion of the marriage of The Duke and Duchess of York. The income from this endowment is to be used to provide an annual scholarship to a professional artist for personal creative work or advanced study in photography.

(iv) Petro Canada Award

Petro Canada donated $50,000 towards an award in the media arts. The income from this donation is to be used to provide an annual award to an artist who has achieved outstanding and innovative use of new technology in the media arts.

(i) Funds will eventually be received from the following bequests :

(i) Edith Davis Webb

This fund estimated at $400,000, is intended "for the purpose of making grants or establishing scholarships for musical study in such manner as the Council shall determine."

(ii) Coburn Fellowship Trust

This fund, the amount of which cannot be determined at this time, is to provide for exchanges of scholars between Israel and Canada. It consists of an amount of $100 from Kathleen Coburn to establish this fund as well as a $20,000 donation received from F.E Coburn.

(iii) John Stephen Hirsch

This fund, the amount of which cannot be determined at this time, is being established from the estate of John Hirsch for specific purposes. An interim distribution of $38,000 has been received from the estate.

—Rentals of works of art	320	276
—Deferred rent	438	
Canadian Commission for UNESCO	243	220
Touring Office		73
	1,001	569

The deferred rent represents an inducement payment received from the landlord that will be used to reduce rental accommodation expense over the next four years. Amounts from the Canadian Commission for UNESCO represent funds received for specific programs for which expenses have not yet been incurred.

7. Due to Special Trusts

These funds have been accounted for separately due to special conditions related to the donations. Trusts with balances exceeding $50,000 are:

(i) Glenn Gould Prize Fund

The Council has received $525,113 from the Glenn Gould Memorial Foundation to provide a prize of $50,000 every three years (funds permitting) to an outstanding individual for his or her original contribution to the field of music and communications. As at March 31, 1990, the balance stood at $626,164.

(ii) Visiting Foreing Artists Program

The Visiting Foreign Artists Program is administered by the Arts Awards Service of the Canada Council on behalf of Department of External Affairs. It is a residency program through which Canadian professional arts organizations receive assistance to invite distinguished foreign artists from any country outside Canada for periods ranging from two weeks to four months. As at March 31, 1990, the balance stood at $74,015.

(iii) Japan-Canada Fund

The Council received an endowment of $966,651 from the Government of Japan "to further strengthen the relations between Canada and Japan." After consultations with the Embassy of Japan, the income from the endowment is to be used to fund programs that will encourage artistic exchange between the two countries. As at March 31, 1990, the balance stood at $1,002,328.

CANADA DEPOSIT INSURANCE CORPORATION

MANAGEMENT RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying financial statements of the Canada Deposit Insurance Corporation and all information in this annual report are the responsibility of management and have been approved by the Board of Directors. The financial statements include some amounts that are necessarily based on management's best estimates and judgement.

The financial statements have been prepared by management in accordance with generally accepted accounting principles which have been consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained in accordance with the Financial Administration Act and regulations as well as the Canada Deposit Insurance Corporation Act and by-laws of the Corporation. The system of internal control is augmented by internal audit which conducts periodic reviews of different aspects of the Corporation's operations. In addition, the internal and external auditors have free access to the audit committee of the Board, which oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

These financial statements have been independently examined by the Corporation's auditor, the Auditor General of Canada, and his report is included herein.

Charles C. de Léry
President and Chief Executive Officer

Bert C. Scheepers

AUDITOR'S REPORT

TO THE MINISTER OF FINANCE

I have examined the balance sheet of the Canada Deposit Insurance Corporation as at December 31, 1989 and the statements of deposit insurance fund, investment and administrative operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Deposit Insurance Corporation Act and the by-laws of the Corporation.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

CANADA DEPOSIT INSURANCE CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Authority and objective

The Corporation was established in 1967 by the Canada Deposit Insurance Corporation Act (the CDIC Act). It is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The objects of the Corporation are to provide insurance against the loss of part or all of deposits, to be instrumental in the promotion of standards of sound business and financial practices for member institutions, and to promote and otherwise contribute to the stability and competitiveness of the financial system in Canada. The aforementioned objects are to be pursued for the benefit of depositors and in a manner so as to minimize the exposure of the Corporation to loss.

The Corporation has the power to do all things necessary or incidental in the furtherance of its objects including the acquisition of assets from or guarantee of loans to a member institution. It may make or cause to be made inspections of member institutions, prescribe standards of sound business and financial practices, and act as liquidator, receiver or inspector of a member institution or a subsidiary thereof.

2. Accounting policies

Basis of preparation

These financial statements have been prepared in accordance with accounting principles generally accepted in Canada.

These financial statements do not reflect the assets, liabilities or operations of member institutions whose operations the Corporation is financing in order to secure an orderly wind down.

The more significant policies adopted are set out below.

Premium recognition

Premiums are recognized when assessed and are based on insured deposits with member institutions as at April 30 of each year. Premiums are collectible in two equal instalments, on June 30 and December 31 of the year.

General provision for loss

The general provision for loss reflects the Corporation's best estimate of losses in respect of only those member institutions against which the Corporation has or is certain to have a financial claim. This estimate includes consideration of losses expected in respect of claims against insolvent member institutions arising from payments made to insured depositors and of loans made to member institutions under an agency or loan agreement.

Claims against insolvent member institutions and loans to member institutions and others, may be written-off in full or in part when, in the opinion of the Corporation, there is reasonable certainty that the claims and loans will not be fully realized. This would generally occur when a period of three years has elapsed since the intervention by the Corporation. The Corporation is required to exercise judgement in arriving at its decision to write-off all or a portion of its claims and loans. Also the amount written-off depends largely on the availability of reliable information regarding the amount the Corporation expects to lose with respect to a particular insolvent member institution.

Interest income recognition

The Corporation charges interest on loans advanced, directly or indirectly, by it in accordance with the specific terms of the loan agreements. It ceases to recognize interest income when an insolvent member institution is placed in liquidation or when there is a reasonable doubt as to the ultimate collectibility of the interest. When reasonable doubt is present, interest revenue is recognized only as cash is received.

3. Loans to member institutions and others

The Corporation, under the provisions of loan agreements, has made loans to member institutions and others. Two of these loans are in respect of member institutions in receivership which were substantially wound down over a five-year period. The Corporation is not accruing interest on these two loans because it is highly unlikely that any interest will be recovered from these institutions. As at December 31, 1989, the outstanding balance of these loans was $21 million (1988: $51 million).

A third loan outstanding is in respect of a member institution which is presently under a loan agreement with the Corporation and an advisory agreement with another member institution. The ultimate purpose of these agreements is to manage the winding-down of this institution in an orderly manner. This loan is secured by a floating charge on all the assets of the member institution. The Corporation is collecting interest on this $31 million loan on a current basis (1988: $36 million).

The fourth loan was made in October 1988, under the general powers of subsection 10(1) of the CDIC Act. Its purpose was to assist in the sale of a member institution. As at December 31, 1989, the Corporation had a fully secured $59 million loan on which interest is collected on a current basis (1988: $75 million).

4. Claims against insolvent member institutions

Claims against insolvent member institutions arise through the subrogation of the rights and interests of the depositor when the Corporation pays that depositor's claim. The Corporation also asserts a claim against insolvent member institutions in liquidation, arising out of loans previously advanced by the Corporation. The Corporation has asserted claims against all its insolvent member institutions which were placed in liquidation.

5. General provision for loss

The following table provides details of the calculation of the general provision for loss as reflected on the balance sheet:

	1989	1988
	(in thousands of dollars)	
Balance, beginning of year	584,000	1,230,000
Provision for loss adjustment	(77,733)	(40,000)
	506,267	1,190,000
Less write-offs		
Claims against insolvent member institutions	4,267	515,807
Loans to member institutions and others		90,193
	4,267	606,000
Balance, end of year	502,000	584,000

CANADA DEPOSIT INSURANCE CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

The Corporation is a claimant in a number of judicial actions arising out of the collapse or insolvency of various member institutions. The general provision for loss does not take into account any potential recoveries which may arise should an action be resolved in the Corporation's favour.

6. Loans from Consolidated Revenue Fund

With the approval of the Governor in Council, the Corporation can borrow up to $3 billion from the Consolidated Revenue Fund.

7. Premiums

In accordance with paragraph 21(1)(b) of the CDIC Act, the Corporation requested, and the Governor in Council fixed the premium rate for the premium year 1989, at one-tenth of one percent of insured deposits, the same rate as in 1988.

8. Contingent liabilities

The Corporation is a defendant in a number of judicial actions arising out of the collapse or insolvency of various member institutions. The Corporation does not believe it has any liability as a result of these actions and has therefore not provided for any potential claims.

9. Income taxes

The Corporation is subject to federal income taxes although it is not subject to taxation on premiums assessed and may not take a deduction for claims paid.

The Corporation has available losses which can be carried forward to reduce future years' earnings otherwise subject to taxation. Such losses total $698 million and expire as follows:

Originating taxation year	Expiring taxation year	Amount (in thousands of dollars)
1984	1991	44,000
1985	1992	81,000
1986	1993	85,000
1987	1994	167,000
1988	1995	165,000
1989	1996	156,000
		698,000

10. Insured deposits

Deposits insured by the Corporation, on the basis of returns received from member institutions, as at April 30, 1989 and 1988, were as follows:

	1989	1988
	(in billions of dollars)	
Federal Institutions	225	198
Provincial Institutions	20	18
	245	216

11. Long-term operating lease commitments

Future minimum lease payments for premises expiring in 1991 are as follow:

Year ending December 31	Amount
	$
1990	436,000
1991	214,000
	650,000

12. Comparative figures

Certain of the 1988 figures have been reclassified to conform with the presentation adopted for 1989.

CANADA HARBOUR PLACE CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of Canada Harbour Place Corporation as at March 31, 1990 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the articles and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and objectives

Canada Harbour Place Corporation was incorporated in 1982 under the Canada Business Corporations Act. The Corporation is an agent Crown Corporation and is included in Part I of Schedule III to the Financial Administration Act. The only three shares issued are all held in right of Canada by the Minister of Transport.

The objectives of the Corporation are to act as a developer and acquire, administer and dispose of land, and manage real property for the Government of Canada in Vancouver, B.C. For this purpose it designed and constructed a facility called Canada Place which includes a cruise ship terminal, the Trade and Convention Centre, which was formerly the Canada Pavilion at Expo 86, various commercial and public facilities, a parking lot and infrastructure for a hotel.

In accordance with a lease agreement with the Province of British Columbia, the Corporation transferred the administration and maintenance of the Trade and Convention Centre in Canada Place including pre-function areas, meeting rooms and retail space, for a term of 20 years with renewal options for three successive similar terms.

CANADA HARBOUR PLACE CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

2. Significant accounting policies

These financial statements have been prepared by management in accordance with generally accepted accounting principles. The more significant accounting policies of the Corporation are as follows:

Fixed assets and depreciation

All expenditures, including those for acquisition, design, construction and administration for the permanent structures at Canada Place, were capitalized at the time the facility was fully developed.

Depreciation is calculated on a straight-line basis based on the estimated useful lives of the assets. The building is depreciated over 40 years, while furniture, fixtures and equipment are depreciated over 20 years.

Income taxes

The Corporation is exempt from any liability for income taxes.

Retirement savings plan

Under a group retirement savings plan, a trust was established with a private sector organization to accumulate contributions to provide a retirement income for long-term employees through individually registered retirement savings plans. The Corporation has agreed to make non contributory payments, which are recognized annually, ranging from 5% to 10% of the annual salary for each of these employees.

Operations revenues and expenses

Operations revenues and expenses relate to the management of Canada Place including the leasing of these facilities to various tenants. Central plant and utilities include electricity, natural gas, oil, labour and supplies used to supply power, water, air conditioning and heat for the facility. Common facilities and shared areas include labour, security, engineering and material used to provide the tenants with services as outlined in various leases and agreements.

3. Fixed assets

	1990			1989
	Cost	Accumulated depreciation	Net	Net
	(in thousands of dollars)			
Building	65,650	4,920	60,730	62,321
Furniture, fixtures and equipment	6,515	956	5,559	5,725
	72,165	5,876	66,289	68,046

Title to that part of the bed of Vancouver harbour on which the facility is located was transferred to the Corporation from Vancouver Port Corporation for one dollar and has been so recorded in site purchase costs.

4. Operating/utilities recoveries

Operating cost recoveries include amounts recovered from the Corporation's tenants for operating expenses, central plant and utilities. During the year these costs exceeded the associated recoveries by $292,000 (1989—$248,000). This is caused by the Corporation incurring expenses in areas for which it is solely responsible, and cannot charge to its tenants under the various leases and agreements.

5. Administration, public relations and other expenses

	1990	1989
	(in thousands of dollars)	
Advertising and promotion	661	539
Promenade shops	473	219
Salaries	399	396
Imax projection system lease	180	185
Office rental	125	121
Travel	46	39
Legal and professional	42	108
Communications	27	28
Repair and maintenance	24	49
Miscellaneous	18	8
	1,995	1,692

Promenade shops expense for 1990 includes costs related to the settlement of claims by former tenants.

6. Lease commitments

The Corporation has entered into a 20 year lease agreement in effect from 1987 for the Imax projection system with a minimum total payment of $3 million. The minimum annual lease payment for the years 1990-91 to 1993-94 will be $186,000. The agreement provides for annual escalation at the rate of the Consumer Price Index.

The Corporation has entered into contracts for exterior and interior facility cleaning aggregating $296,000 for the period April 1, 1990 to July 31, 1991.

The Corporation has a lease agreement for office accommodation aggregating $38,000 plus an estimated pro rata share of operating costs of $24,000 for the period April 1, 1990 to September 30, 1990.

7. Discontinuation of Corporation

On February 20, 1990 the government announced in its 1990-91 Federal Budget that it will proceed with the necessary legislation to wind up the Corporation in an orderly fashion and transfer its assets and functions to another entity.

Bill C-73, Crown Corporations Dissolution or Transfer Authorization Act, was tabled in the House of Commons on May 31, 1990. This Bill provides for the sale or disposition of the shares and assets of the Corporation.

8. Contingency

Employees may be entitled to termination benefits under conditions of their employment contracts dependent on how the Corporation proceeds to wind up its operations. Accordingly no accrual of termination benefits has been set up. The estimated liability at March 31, 1990 for the maximum amount of such termination benefits is $182,000.

9. Related party transactions

The Corporation is related in terms of common ownership to all Government of Canada created departments, agencies and Crown corporations. The Corporation enters into transactions with departments, agencies and Crown corporations in the normal course of business.

10. Comparative figures

Certain comparative figures for 1989 have been reclassified to conform with the 1990 presentation.

CANADA LANDS COMPANY LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined, in accordance with generally accepted auditing standards, the balance sheet of Canada Lands Company Limited as at March 31, 1990. In my opinion, it presents fairly the financial position of the corporation at that date in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the balance sheet have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the articles and by-laws of the corporation.

CANADA LANDS COMPANY LIMITED—*Continued*

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1990

1. Authority and activities

The Canada Lands Company Limited, an agent Crown corporation, originally named Public Works Lands Company Limited, was incorporated under the Companies Act in 1956. It was added to Schedule C to the Financial Administration Act in 1979 and listed as a parent Crown corporation in 1984 in Part I of Schedule III to the Financial Administration Act.

The corporation has, by virtue of its letters patent of incorporation, the power to acquire, purchase, lease, hold, improve, manage, exchange, sell, turn to account or otherwise deal in or dispose of real or personal property or any interest therein. However, it has been used only to hold, in trust for other departments, certain leasehold interests in two properties in London, England, and two properties on Indian reserves in Canada. Funding for these leases is borne by other departments.

2. Significant accounting policies

(a) Investments in subsidiaries

The corporation wholly owns the following three subsidiary corporations:

Canada Lands Company (Mirabel) Limited
Canada Lands Company (Vieux-Port de Québec) Inc.
Old Port of Montreal Corporation Inc.

The shares have been acquired in consideration of services rendered.

(b) Exclusion of subsidiaries from consolidation

The financial statements of the subsidiaries are excluded from consolidation because increases in their equity are not likely to accrue to the parent.

(c) Capital stock

The corporation is authorized to issue three shares which shall not be transferred to any person other than a person approved by the Minister of Public Works. The authorized shares have been issued in consideration of services rendered and are held in trust for Her Majesty in right of Canada by the Minister of Public Works.

3. Financial statement

The corporation has not been involved in any financial transactions. As a result, the balance sheet has nil balances and no other financial statement is presented.

4. Related party transactions

The Department of Public Works provides the corporation, without charge, with such executive and administrative functions as are required for its operations.

5. Information on certain wholly-owned subsidiaries

Canada Lands Company (Vieux-Port de Québec) Inc. ceased operations effective March 31, 1988. However, a decision has yet to be taken with respect to formal dissolution of the corporation pending the resolution of certain legal matters.

In March 1989, the Governor in Council and the Treasury Board authorized the Minister of Public Works to extend the mandate of the Canada Lands Company (Mirabel) Limited to March 31, 1991.

6. Canada Museums Construction Corporation Inc. (CMCC)

The corporation holds two out of the three issued shares of the Canada Museums Construction Corporation Inc. (CMCC). The third share is held by the Minister of Public Works. However, control of CMCC lies with the Minister of Public Works through a shareholders' agreement.

It is anticipated that the CMCC share now held by the Minister of Public Works in trust for Her Majesty in right of Canada will be transferred to Canada Lands Company Limited. Bill C-73, entitled Crown Corporations Dissolution or Transfer Authorization Act, was tabled in the House of Commons on May 31, 1990.

CANADA LANDS COMPANY LIMITED—*Continued*

APPENDIX

CANADA LANDS COMPANY (VIEUX-PORT DE QUÉBEC) INC.

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined the balance sheet of Canada Lands Company (Vieux-Port de Québec) inc. as at March 31, 1990. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this balance sheet presents fairly the financial position of the Corporation as at March 31, 1990 in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the balance sheet have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, as well as the charter and by-laws of the Corporation.

CANADA LANDS COMPANY (VIEUX-PORT DE QUÉBEC) INC.—*Concluded*

NOTES TO THE BALANCE SHEET
AS AT MARCH 31, 1990

1. Authority and activities

Canada Lands Company (Vieux-Port de Québec) inc. was incorporated on April 9, 1981 under the Canada Business Corporations Act and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

Effective August 1, 1981, pursuant to an agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works, the Corporation has been responsible for the implementation of a general development plan for the lands of the Vieux-Port de Québec under its jurisdiction and for administering, managing, promoting and operating such lands and their developments. The Corporation fulfilled this responsibility in the name and for the account of the Minister of Public Works who has continued to hold title to the fixed assets for the benefit of Her Majesty.

On May 26, 1988, by order of the Governor General in Council, the Minister of Public Works was authorized to terminate the said agreement. Since April 1st, 1988, the management of the Corporation's affairs is assumed by the Department of Public Works.

From February 9, 1984 to February 27, 1986, the Corporation was responsible for its own account for the management, charge and direction of a parcel of land together with the improvements thereon which had been transferred to it, subject to certain limiting conditions, by order of the Governor General in Council on February 9, 1984. This property was retroceded on February 27, 1986.

2. Accounts receivable

The accounts receivable include the following amounts:

	$
Public services organization	466,430
Others	37,978
	504,408

The amount receivable from the public services organization is for specific work carried out by the Corporation during the year 1982-83. The related cost is recoverable upon the signing of a protocol by the Corporation, the Canada Ports Corporation and the organization. The protocol, not yet signed, provides for the transfer of certain privileges from the Corporation and the Canada Ports Corporation. The Corporation has not yet decided to transfer the privileges requested by the organization. It is possible that the Corporation may not recover the related cost.

3. Due to Minister of Public Works

	$
Balance receivable at beginning of the year	(371,234)
Amount received from the Minister of Public Works	396,602
Payment of claim made for the Department of Public Works	(1,500)
Balance payable at end of the year	23,868

4. Due to Receiver General for Canada

	$
Balance at beginning of the year	876,953
Adjustment to prior rentals following the settlement of a litigation	3,971
Remittances to the Consolidated Revenue Fund	(600,389)
Balance at end of the year	280,535

5. Capital stock

The Corporation is authorized to issue a single share, to be held in trust for Her Majesty in Right of Canada and which may not be transferred without the consent of the Governor General in Council. The authorized share has been issued in consideration of services rendered.

6. Contingencies

The Corporation and the corporation Québec 1534-1984 signed a protocol of general understanding determining the rights and obligations of each party for the staging in 1984 of a festive event and for the use of the site and of the equipment under the jurisdiction of the Corporation. Under the terms of the agreement, the Corporation has not granted the right to use the totality of the site, reserving for itself some premises that it might rent for commercial purposes. Leases were signed but, because of poor attendance, several were modified, cancelled or abandoned. The Corporation has received claims arising from those leases and from other activities, for a total of approximately $1.4 million, and more may be received. The Department of Public Works assumes the settlement of these claims.

CANADA LANDS COMPANY (MIRABEL) LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined the balance sheet of Canada Lands Company (Mirabel) Limited as at March 31, 1990 and the statements of transactions and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Corporation, as well as the agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works.

CANADA LANDS COMPANY (MIRABEL) LIMITED—*Continued*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1990

1. Authority and activities

Canada Lands Company (Mirabel) Limited was incorporated on April 9, 1981 under the Canada Business Corporations Act and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

Effective July 1, 1981, pursuant to an agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works, the Corporation is responsible for administering and developing a part of the peripheral lands of Mirabel in order to ensure a normal living environment for residents of the lands while safeguarding the operations of the Mirabel International Airport. The Corporation fulfills this responsibility in the name and for the account of the Minister of Public Works who continues to hold title to the fixed assets for the benefit of Her Majesty. On May 21, 1982, the Privy Council authorized the sale of certain properties; on February 23, 1984, it authorized the disposition of the remaining properties within the territory under its responsibility. On September 19, 1984, a moratorium suspended the sales program; the Privy Council authorized on June 11, 1985 an agricultural investment acceleration program and the resumption of sales under revised terms and conditions, approved by the Treasury Board.

Since March 25, 1988, under the terms of specific service agreements, the Department of Public Works provides the Corporation with personnel and also professional and maintenance services.

Following an agreement between the Minister of Transport and the Minister of Public Works for the management by the latest of the ultimate operational zone of the Mirabel Airport, under the responsibility of the Minister of Transport, the Corporation and the Department of Transport have signed a protocol of understanding for the period April 1, 1989 to March 31, 1991. This protocol of understanding deals with the implementation and administration of a Long-Term Leasing Program and the Agricultural Renewal Program for the ultimate operational zone of Mirabel Airport. The costs incurred for these programs are reimbursed to the Corporation by the Self-supporting Airports and Associated Ground Services Revolving Fund of the Department of Transport.

2. Significant accounting policies

(a) Financial statements presentation

The statements present transactions carried out by the Corporation as agent and on behalf of the Minister of Public Works. All expenditures, net of proceeds from other than the direct use of fixed assets, are reimbursable to the Corporation. Proceeds from the direct use of fixed assets, principally rentals and sales of properties, are payable to the Receiver General for Canada.

Differences between advance payments received and net reimbursable expenditures are recorded in the balance sheet as due from or due to the Minister of Public Works, or due from or due to Self-supporting Airports and Associated Ground Services Revolving Fund, if applicable.

(b) Expenditures of a capital nature

Expenditures of a capital nature represent costs which significantly increase the value or extend the useful lives of properties administered by the Corporation.

(c) Contributions

Financial assistance under the agricultural investment acceleration program is recorded in the expenditures of the year in which the eligible work is carried out.

(d) Sales of properties

Sales of properties are recognized when title passes to buyers and the Corporation is entitled to receive the amount of the proceeds.

3. Due from (due to) Minister of Public Works

	1990	1989
	$	$
Balance at beginning of the year	517,399	1,167,436

Balance at end of the year	404,304	396,491

7. Capital stock

The Corporation is authorized to issue a single share, to be held in trust for Her Majesty in Right of Canada, which may not be transferred without the consent of the Governor General in Council. The authorized share has been issued in consideration of services rendered.

8. Contingencies

Legal action has been instituted against the Corporation, the Attorney General of Canada, the Minister of Transport and the Minister of Public Works by some of the original Mirabel property owners who are asking to have the 1969 expropriation declared invalid. In this context, a number of lessees have ceased to remit their rent to the Corporation. On March 27, 1985, a protocol of understanding was entered into with representatives of the original property owners whereby the parties undertake to discontinue all litigation actions between them. This protocol was approved in principle by the Privy Council on June 11, 1985.

In connection with its regular operations, the Corporation is the defendant in certain pending claims. It is the opinion of management that these claims are not founded and no provision was recorded in that effect.

CANADA MORTGAGE AND HOUSING CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The Management of the Corporation is responsible for establishing and maintaining a system of books, records, internal controls and management practices to provide reasonable assurance that: reliable financial information is produced; the assets of the Corporation are safeguarded and controlled; the transactions of the Corporation are in accordance with the relevant legislation, regulations and by-laws of the Corporation; the resources of the Corporation are managed efficiently and economically and the operations of the Corporation are carried out effectively.

Management is also responsible for the integrity and objectivity of the financial statements. The accompanying financial statements of the Corporation as at December 31, 1989 were prepared by Management in accordance with the accounting policies, consistently applied, as described in the notes to the financial statements. The financial statements of the Corporate Account, Minister's Account, the Mortgage Insurance Fund and other Insurance and Guarantee Funds have been presented separately to preserve their identity and provide meaningful information concerning the Corporaton's distinct business activities. The financial information contained elsewhere in this Annual Report is consistent with that in the financial statements.

The Board of Directors is responsible for ensuring that Management fulfills its responsibilities for financial reporting and internal control. The Board exercises its responsibilities through the Audit Committee which includes a majority of members who are not officers of the Corporation. The Committee meets from time to time with Management, internal audit staff and the independent external auditors to review the manner in which these groups are performing their responsibilities and to discuss auditing, internal controls and other relevant financial matters. The Audit Committee has reviewed the financial statements with the external auditors and has submitted its report to the Board of Directors. The Board of Directors has reviewed and approved the financial statements.

The financial statements have been examined by the joint external auditors, Robert D. Hepburn, C.A. of the firm Deloitte & Touche and the Auditor General of Canada. Their reports offer an independent opinion on the financial statements to the Minister of State (Housing).

George D. Anderson
President and Chief Executive Officer

Gaylen A. Duncan
Senior Vice-President Corporate Resources

FINANCIAL STATEMENTS DECEMBER 31, 1989

Canada Mortgage and Housing Corporation was incorporated as a Crown Corporation by an Act of Parliament on January 1, 1946. Its activities are regulated by the National Housing Act, the Canada Mortgage and Housing Corporation Act and, in certain respects, the Financial Administration Act, and include:

Corporate Account

Financing housing and community improvement through the making of loans and investments under specific conditions at interest rates normally at market rates which are generally higher than the rates it pays on funds borrowed from the Government of Canada. Loans and Investments exist in all three planning elements: Market Housing, Social Housing and Housing Support with the major emphasis (approximately 70%) on Social Housing projects.

Minister's Account

Making certain payments or incurring expenses in the process of delivering housing programs on behalf of the Government of Canada. These payments and expenses include grants, contributions, subsidies, loan forgiveness, losses on real estate, losses under federal-provincial agreements, interest rate losses, research and development, and specified operating costs. The funding for these activities is provided for in Main and Supplementary Estimates which are tabled in Parliament. Parliamentary approval is by way of the Appropriations Act together with Statutory Authorities which authorize the responsible Minister to reimburse the Corporation for the specified payments and expenses for the fiscal year concerned. Grants, contributions and subsidies are delivered within the three planning elements: Market Housing, Social Housing and Housing Support. In these endeavours 90% of the total activity relates to Social Housing initiatives.

Funds Administered

Administering certain Insurance and Guarantee Funds on behalf of the Government of Canada. The Mortgage Insurance Fund is the chief instrument for establishing a framework of confidence for mortgage lending by private institutions. This instrument facilitates an adequate supply of mortgage funds by reducing the risk to lenders and encouraging the secondary market trading of mortgages, and thereby increasing the access to housing by Canadians. The Mortgage Insurance Fund and the Mortgage-Backed Securities Guarantee Fund support Market Housing Initiatives.

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

CORPORATE ACCOUNT

AUDITORS' REPORT

TO THE MINISTER OF STATE (HOUSING)

We have examined the balance sheet of the Canada Mortgage and Housing Corporation, Corporate Account as at December 31, 1989, and the statements of operations and reserve fund and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation at December 31, 1989, and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Mortgage and Housing Corporation Act, the National Housing Act and the by-laws of the Corporation.

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Basis of presentation

The financial statements of the Corporate Account are presented separately from the Minister's Account, the Mortgage Insurance Fund and other Insurance and Guarantee Funds to preserve its identity and provide meaningful information concerning this component of the Corporation's business activities.

2. Significant accounting policies

In the Corporate Account, the Corporation follows generally accepted accounting principles. The principal accounting policies followed by the Corporation are:

(a) Loans

Loans under certain programs give rise to interest rate losses which are recoverable from the Minister. If loans contain forgiveness clauses, such forgiveness is recorded and recovered from the Minister when the loans are advanced. No provisions are made for possible losses on loans as losses on insured loans are recoverable from the Mortgage Insurance Fund while property acquired upon default of uninsured loans is subject to loss recovery as described under Real Estate. Other losses on uninsured loans are recoverable from the Minister.

(b) Federal-provincial agreements

Loans and investments are made under various cost sharing agreements with the provinces and territories to encourage development of rental housing, land assembly, cooperative housing, rural and native housing and housing rehabilitation. Only the Corporation's share of costs plus capitalized interest are reflected in these statements. The Corporation's share of subsidies and losses related to these agreements are recovered from the Minister. Gains on the sale of land assembly projects are recognized as income in the Corporate Account.

(c) Real estate

Real estate includes vacant land and properties acquired directly by the Corporation, or through the Government of Canada at no cost, or through default on uninsured loans. All real estate is recorded at cost which includes acquisition costs and any modernization and improvement costs.

Holding costs, including interest, on real estate acquired directly by the Corporation are capitalized up to appraised values after which the costs are expensed in the Corporate Account. Gains or losses on the disposal of these properties are recorded in the Corporate Account. Losses resulting from permanent declines in the value of property are recognized in the period in which they are identified.

Holding costs, including interest, on real estate acquired through the Government of Canada at no cost, or through default on uninsured loans, are capitalized. Gains or losses on the disposal of these properties are paid to or recovered from the Minister. All net operating losses on real estate are recovered from the Minister.

(d) Depreciation

Depreciation of buildings included in real estate is recorded on a straight-line basis over the expected useful life of the properties which is normally fifty years.

Depreciation on business premises, office furniture and equipment is recorded on a diminishing balance basis.

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

(e) Pension costs and obligations

The cost of pension benefits earned by employees is determined using the projected benefit method prorated on service and is charged to operating expense as services are rendered. This cost is actuarially computed using Management's best estimate assumptions of the pension plan expected investment yields, salary escalations, mortality of members, terminations and the ages at which members will retire. Adjustments arising from plan amendments, experience gains and losses and changes in assumptions are amortized over the expected average remaining service life of the employee group.

(f) Reserve Fund

Income or loss after income taxes is transferred to the Reserve Fund which is limited by an Order-in-Council to $25 million. Any excess over this amount is transferred to the credit of the Receiver General for Canada.

(g) Interest income and expense

Interest income and expense are accounted for on the accrual basis.

3. Loans and investments

	1989	1988
	(in thousands of dollars)	
Loans	4,645,961	4,890,300
Federal-provincial agreements		
Loans	2,807,697	2,826,492
Investments in housing projects	1,540,278	1,460,749
Land assembly projects	21,332	27,082
	4,369,307	4,314,323
Real estate		
Investments in housing projects	13,359	15,839
Land	29,239	27,853
	42,598	43,692
Total loans and investments	9,057,866	9,248,315

4. Due from the Minister

In 1989, the Corporation disbursed on behalf of the Minister $1,687.0 million (1988—$1,522.0 million) that was recoverable from Parliamentary Appropriations. During the year the Corporation recovered $1,592.6 million (1988—$1,529.0 million), of which $26.0 million (1988—$33.0 million) is applicable to expenditures of the prior year and $1,566.6 million (1988—$1,496.0 million) is applicable to the current year, leaving a balance due from the Minister of $120.4 million (1988—$26.0 million).

5. Business premises and equipment

	Cost	Accumulated depreciation and amortization	Net book value 1989	Net book value 1988	Depreciation rates
	(in thousands of dollars)				
Land	171		171	358	
Buildings	13,424	6,064	7,360	6,844	5%
Equipment	28,987	20,683	8,304	7,941	8%, 20%, 30%
Leasehold improvements	6,457	5,038	1,419	1,641	20%
Total	49,039	31,785	17,254	16,784	

Depreciation and amortization in respect of the above assets for the year amounted to $2.8 million (1988—$2.3 million).

6. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada under the provisions of the Canada Mortgage and Housing Corporation Act and the National Housing Act to finance loans and investments. The borrowings are evidenced by debentures or other evidences of indebtedness, which bear interest at rates varying from 2.00% to 17.96% and are repayable over periods not in excess of 50 years. Regularly scheduled payments over the next five years are as follows:

	(in thousands of dollars)
1990	237,500
1991	213,700
1992	223,000
1993	225,500
1994	185,900

7. Contingent liabilities

In the normal course of operations, the Corporation is subject to legal claims, the effect of which cannot be determined until they are settled. During 1982, a large number of legal actions, which total approximately $48.5 million at December 31, 1989, were begun against the Corporation jointly with other parties claiming damages arising from installation of urea formaldehyde foam insulation. In addition, other legal actions totalling $4.1 million are pending. The Corporation does not admit liability in these cases and, until the actions have been heard by the courts, it is impossible to determine if there is a potential liability in this respect and thus no provision for possible loss arising from these legal actions is included in these financial statements. Should costs arise as a result of these actions, they would be expensed in the year when the costs are incurred.

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

8. Interest loss recoveries

The Corporation was authorized by the Government of Canada to approve certain loans and investments at a negative interest margin and to recover this loss from the Government. The interest loss recovered is included in interest earnings. The recoveries by program are as follows:

	1989	1988
	(in thousands of dollars)	
Market housing	50,253	60,060
Social housing	19,171	19,234
Housing support	1,037	1,160

9. Interest capitalized

The amount of interest capitalized in 1989 was $3.1 million (1988—$3.9 million).

10. Pension plan

The Corporation maintains a defined benefit pension plan for all employees who satisfy certain eligibility conditions. The plan provides pensions based on the highest annual average salaries of any six-year period multiplied by the number of years of credited service.

The Corporation's funding policy is to contribute the amount required to provide for current benefits attributed to service and for unfunded pension plan liabilities over periods permitted by regulatory authorities.

Based on the actuarial valuation prepared as of January 1, 1990 the status of the plan as at December 31 is as follows:

	1989	1988
	(in thousands of dollars)	
Projected value of accrued pension benefits	441,942	399,272
Net assets available for benefits	447,394	403,661
Excess of net assets over projected value of accrued benefits	5,452	4,389

The cost of pension benefits charged to operating expenses, including amounts paid to government pension plans, current service costs, special 1989 retirement program costs, the amortization of past service costs and experience gains and losses, was $12.1 million in 1989 (1988—$9.6 million).

11. Operating expenses

Total operating expenses of the Corporation for the year ended December 31, 1989 amounted to $208.5 million (1988—$190.4 million), of which $178.6 million (1988—$164.7 million) has been allocated to the Minister's Account and Funds Administered.

12. Commitments

(a) Loans and investments

Commitments outstanding for loans and investments amounted to $273.3 million at December 31, 1989 (1988—$291.8 million).

(b) Operating leases

Minimum future rental commitments for business premises and equipment under long-term non-cancellable leases for the next 5 years are:

	Business premises	Equipment	Total
	(in thousands of dollars)		
1990	8,910	11,113	20,023
1991	5,442	8,092	13,534
1992	3,885	6,902	10,787
1993	3,660	6,555	10,215
1994	1,895	6,188	8,083
	23,792	38,850	62,642

(c) Capital lease

Pursuant to the Corporation's plans to consolidate National Office operations in one location it has entered into a series of agreements pertaining to the construction of a new building on Corporation-owned property at its National Office location. Construction is expected to be completed by July, 1990.

The cost of construction, estimated at $39 million is being financed by way of a 25-year building lease which for accounting purposes is considered a capital lease. Under the lease the Corporation is obligated to make payments of $5.2 million per annum for the first 10 years and $3.6 million per annum for the remaining 15 years of the lease term. Payments will commence on the first day of the month immediately following the month in which the date of completion occurs.

At the termination of the lease the Corporation assumes ownership of the building at a cost of one dollar.

13. Income taxes

Income taxes include $7.7 million pertaining to the Large Corporation Tax which became effective July 1, 1989. Tax is applicable at an annual rate of 0.175% on taxable capital.

MINISTER'S ACCOUNT

AUDITORS' REPORT

TO THE MINISTER OF STATE (HOUSING)

We have examined the Canada Mortgage and Housing Corporation, Minister's Account—Statement of Expenditures and Recoveries for the year ended December 31, 1989. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, this financial statement presents fairly the expenditures for and recoveries from the Minister for the year ended December 31, 1989 in accordance with the accounting policy described in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

Robert D. Hepburn, C.A.
of the firm Deloitte & Touche

Kenneth M. Dye, F.C.A.
Auditor General of Canada

Ottawa, Canada
February 20, 1990

MINISTER'S ACCOUNT

Due from the Minister, end of year	120,450	26,044

See accompanying notes.

MINISTER'S ACCOUNT

NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 1989

1. Basis of presentation

The financial statement of the Minister's Account is presented separately from the Corporate Account, the Mortgage Insurance Fund and other Insurance and Guarantee Funds to preserve its identity and provide meaningful information concerning this component of the Corporation's business activities.

2. Significant accounting policy

Expenditures made on behalf of the Minister of State (Housing) are recorded as recoverable when disbursed. No accruals are made at December 31, 1989 in this account. The year-end for the Government of Canada is March 31, 1990, at which time accruals will be recorded in accordance with Treasury Board Guidelines and reported in the Public Accounts of Canada.

3. Contingent liabilities

In the normal course of operations, the Corporation is subject to legal claims, the effect of which cannot be determined until they are settled. During 1982, a large number of legal actions, which total approximately $48.5 million at December 31, 1989, were begun against the Corporation jointly with other parties claiming damages arising from installation of urea formaldehyde foam insulation. The Corporation does not admit liability in this respect and it is unclear whether costs, if any, arising from these actions could be charged to the Government of Canada. In addition other legal actions totalling $14.2 million are pending against the Corporation to which the Corporation does not admit liability. If these actions were to be successfully maintained against the Corporation, charges against the Minister's Account could result. No provision for possible loss arising from these legal actions is included in the accompanying statement of account. Should costs arise as a result of these actions they would be charged in the year when the costs are incurred.

4. Operating expenses

The operating expenses allocated to the Minister's Account by the Corporation for the year ended December 31, 1989 amounted to $106.9 million (1988—$96.0 million).

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

FUNDS ADMINISTERED

AUDITORS' REPORT

TO THE MINISTER OF STATE (HOUSING)

We have examined the balance sheets of the Funds Administered by Canada Mortgage and Housing Corporation: Mortgage Insurance Fund, Mortgage-Backed Securities Guarantee Fund, Home Improvement Loan Insurance Fund and Rental Guarantee Fund as at December 31, 1989, and the statements of operations and deficit or surplus. We have also examined the statements of changes in financial position of the Mortgage Insurance Fund and the Mortgage-Backed Securities Guarantee Fund for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of these funds as at December 31, 1989, and the results of their operations and the changes in their financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Mortgage and Housing Corporation Act, the National Housing Act and the by-laws of the Corporation.

FUNDS ADMINISTERED

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Basis of presentation

The financial statements of the Mortgage Insurance Fund and the other Insurance and Guarantee Funds are presented separately from the Corporate Account and the Minister's Account to preserve their identity and provide meaningful information concerning these components of the Corporation's business activities.

2. Significant accounting policies

The principal accounting policies followed by the Corporation in administering the Insurance and Guarantee Funds on behalf of the Government of Canada are:

(a) Investment in securities

Investments are carried at amortized cost plus accrued interest.

(b) Mortgages

Mortgages are valued at cost less a provision for estimated losses.

(c) Real estate

Real estate acquired upon the payment of a claim resulting from a loan default is valued at net realizable value. Net realizable value is calculated as the current appraised value of the property, as determined by the Corporation, less the discounted value of estimated holding and disposal costs. Depreciation is not recorded on the real estate.

(d) Provision for claims

This provision represents the estimated loss on claims in process of payment and the estimated loss on loans, where defaults have occurred, but for which claims have not yet been received by the Corporation.

CANADA MORTGAGE AND HOUSING CORPORATION—*Concluded*

FUNDS ADMINISTERED

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

(e) Premium deficiency

Annually, the Corporation compares the amount of its unearned premiums by line of business to the discounted costs of claims that have not yet occurred on insurance policies in force. Whenever it is determined that the unearned premiums on a line of business are inadequate to meet the expected net costs of future claims, a premium deficiency is established. The premium deficiency is taken into income on the same basis as the related unearned premiums.

(f) Premiums

Premiums are deferred and are taken into income over the life of the related policies based on the risk of default in each year.

(g) Guarantee fees

Guarantee fees are deferred and are taken into income over the term of the relative Mortgage-Backed Security issue on a straight-line basis. Issues currently exist for 5-,10- and 20-year terms.

(h) Application fees

Application fees are recognized as income when received.

(i) Investment income

Investment income is recorded on the accrual basis.

(j) Issuance costs

Issuance costs are expensed as incurred.

(k) Income tax

The Insurance and Guarantee Funds are not subject to the provisions of the Income Tax Act, Canada.

3. Investment in securities

(a) Mortgage Insurance Fund

	December 31			
	1989		1988	
	Book value	Market value	Book value	Market value
	(in thousands of dollars)			
Bank deposits			85,359	85,359
Canada Treasury bills	143,062	142,453	339,151	339,151
Promissory notes ..	21,548	21,625		
Government of Canada Bonds	455,166	453,919	73,099	71,319
Mortgage-backed securities	108,331	104,271		
Total	728,107	722,268	497,609	495,829

(b) Other funds

Investments in Treasury bills for the other three Funds at December 31, 1989 collectively amount to $11.2 million (1988—$6.1 million).

4. Contingent liabilities

In the normal course of operations, the Mortgage Insurance Fund is subject to legal claims, the effect of which cannot be determined until they are settled. At December 31, 1989, 12 such claims totalling in aggregate $16.5 million are pending. The Fund does not admit liability and, until the actions have been heard by the courts, it is impossible to determine if there is a potential liability in this respect and thus no provision for possible loss arising from these legal actions is included in these financial statements. Should costs arise as a result of these actions, they would be expensed in the year when the costs are incurred.

5. Actuarial valuation—Mortgage Insurance Fund

An actuarial study of the Fund as at September 30, 1989 disclosed that the Fund is now more than sufficient to pay all future claims in respect of business in force. The surplus as at September 30, 1989 was estimated to be $4.2 million (September 30, 1988—$141.4 million deficit).

6. Insurance in force—Mortgage Insurance Fund

At December 31, 1989, the insurance policies in force totalled approximately $48.6 billion (1988—$44.9 billion).

7. Guarantee in force—Mortgage-Backed Securities Guarantee Fund

At December 31, 1989, the guarantees in force totalled approximately $3.0 billion (1988—$1.2 billion).

8. Home Improvement Loan Insurance and Rental Guarantee Funds

The Home Improvement Loan Insurance and Rental Guarantee Programs are no longer active.

9. Operating expenses

The operating expenses allocated to the Funds by the Corporation for the year ended December 31, 1989 amounted to $71.7 million (1988—$68.7 million).

CANADA MUSEUMS CONSTRUCTION CORPORATION INC.

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the Canada Museums Construction Corporation Inc. are the responsibility of management and have been approved by members of the Board of Directors of the Corporation. The financial statements have been prepared by management in accordance with generally accepted accounting principles and, where appropriate, include amounts based on management's estimates and judgement. Management is also responsible for all other information in the annual report and for ensuring that this information is consistent, where appropriate, with the information and data contained in the financial statements.

Management has developed and maintains books of account, records, financial and management controls and information systems. These are designed to provide reasonable assurance that assets are safeguarded and controlled and that transactions are in accordance with Part X of the Financial Administration Act and regulations, and the articles and by-laws of the Corporation.

The members of the Board of Directors carry out their responsibilities for the financial statements principally through an Audit Committee which is composed of three directors, two of whom are not employees of the Corporation. The Audit Committee meets at least annually to review and advise the Board of Directors with respect to the financial statements and the auditor's report thereon. The Audit Committee also oversees the internal audit activities of the Corporation and performs such other functions as are assigned to it.

The independent auditor, the Auditor General of Canada, is responsible for auditing the financial statements and for issuing his report thereon.

R.J. Giroux
Chairman and Chief Executive Officer

R. Plourde
Treasurer and Comptroller

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined the balance sheet of Canada Museums Construction Corporation Inc. as at March 31, 1990 and the statement of changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the articles and by-laws of the Corporation.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and activities

The Corporation was incorporated on June 21, 1982 under the Canada Business Corporations Act as an agent of Her Majesty pursuant to the Government Companies Operations Act, and is named as a parent Crown corporation in Part I of Schedule III to the Financial Administration Act. Two-thirds of the capital stock is held by the Canada Lands Company Limited, also a parent Crown corporation, and one-third by the Minister of Public Works, the Responsible Minister with whom the control of the Corporation lies.

The business of the Corporation is limited to construction, in the National Capital Region, of buildings for the National Gallery of Canada (NGC), the Canadian Museum of Civilization (CMC) (previously known as National Museum of Man) and any other national museum which the Governor in Council may direct, including the acquisition, control, administration and disposal of land required for the construction.

(a) Status of the Corporation

The phasing out of the activities of the Corporation started on April 1, 1990, and will continue until September 30, 1990 when it is anticipated that all employment in the Corporation will be terminated and the current lease for the Corporation's office accomodation will be cancelled. All residual activities of the Corporation will be transferred to the Department of Public Works (DPW) by September 30, 1990.

It is anticipated that the share of the Corporation now held by the Minister of Public Works in trust for Her Majesty in right of Canada will be transferred to Canada Lands Company Limited. Bill C-73, entitled Crown Corporations Dissolution or Transfer Authorization Act, was tabled in the House of Commons on May 31, 1990.

(b) Funding

In September 1981, the Government allocated $185 million for the two projects. This was revised in November 1983 to $191.45 million and subsequent additional increases were approved by Treasury Board as follows:

	$
• October 1985	69.54 million
• January 1987	46.79 million
• July 1987	0.75 million
• November 1987	4.5 million
• June 1988	9.5 million
• May 1989	3.5 million
• December 1989	5.23 million
• February 1990	3.95 million

bringing the total of funds allocated for construction of the museums to $335.21 million for the period to March 31, 1990 as follows:

	NGC	CMC	Total
	(in millions of dollars)		
Construction	121.84	160.48	282.32
Architects and consultants	14.31	24.70	39.01
	136.15	185.18	321.33
Administration expenses	6.28	7.60	13.88
	142.43	192.78	335.21

In January 1987, Treasury Board approved the establishment of a special reserve of $142.8 million to provide the required funding to March 31, 1990 for all agencies (DPW, National Museums of Canada (NMC), National Capital Commission (NCC) and Canada Museums Construction Corporation (CMCC)) involved in completing the Canadian Museum of Civilization. The reserve is to cover all incremental costs associated with completing the Museum, including construction, fit-up, exhibit development and initial operating costs of the Museum. Treasury Board approved a project budget level of $185.2 million to complete construction of the Museum. Any further cost increases are to be absorbed within the reserve and/or from approved funds within the portfolios of the Ministers of Public Works and of Communications.

(c) Construction

In February 1983, the Government approved the construction sites and architects and, in November 1983 building concepts, construction schedule, and funding requirements for each museum. No provision was made for the cost of the sites. Most of the site for the Canadian Museum of Civilization is federally owned with the legal title to the lands currently belonging to the National Capital Commission. In keeping with the intent of the project, which includes the eventual transfer of the completed building to Her Majesty in right of Canada, the Commision disclaims title to the construction in progress. Negotiations by DPW and NCC to acquire two small portions of the site of the Canadian Museum of Civilization that are not federally owned are continuing.

CANADA MUSEUMS CONSTRUCTION CORPORATION INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(d) Transfer of National Gallery of Canada building

During 1988-89, custody and control of the National Gallery of Canada building were transferred from the Corporation to DPW. Accordingly, the construction in progress and contributed capital accounts have been reduced by the net construction cost to March 31, 1990 in the amount of $140.1 million. In accordance with the terms of a draft Memorandum of Understanding between the Corporation and DPW however, the Corporation continues to be responsible to complete certain work items and deficiencies and to resolve outstanding construction claims until June 30, 1990, when all residual matters will be progressively transferred to DPW.

(e) Transfer of Canadian Museum of Civilization building

Subsequent to year-end, in April 1990, custody and control of the Canadian Museum of Civilization building were transfered from the Corporation to DPW. Inasmuch as the transfer occurred after March 31, 1990, no charge was made in the construction in progress and contributed capital accounts. In accordance with the terms of a draft Memorandum of Understanding between the Corporation and DPW however, the Corporation will continue to be responsible to complete certain work items and deficiencies and to resolve outstanding construction and consultant claims until June 30, 1990, when all residual matters will be progressively transferred to DPW.

(f) Authority for Canada Museums Construction Corporation to act as agent for National Museums of Canada

On February 25, 1988, Treasury Board gave approval to amend the contract authority for NMC in Part II of the Treasury Board Contracts Directive to include the following: "The NMC may, without the approval of the Treasury Board, enter into or amend a competitive construction contract related to the fit-up requirements for integration into the base building for the Canadian Museum of Civilization and the National Gallery of Canada provided the total amount payable under each contract does not exceed $2.5 million and any amendments thereof do not exceed $250,000. This authority is only valid for requirements where the CMCC is used as the contracting agent for the NMC".

(g) Fit-up and exhibit development

On June 26, 1987, Treasury Board gave preliminary project approval for fit-up and exhibit development of the Canadian Museum of Civilization at an estimated cost of $75.3 million to March 31, 1990 and expenditure authority of $60 million. On August 29, 1988, expenditure authority for the fit-up was increased to $75 million. In May 1989, expenditure authority for the fit-up was increased to $89 million. The Treasury Board has assigned responsibility for the fit-up and exhibit development to NMC.

An agreement in principal was reached between NMC and CMCC for the Corporation to provide certain services related to the design, supply and installation of elements of the exhibit development and fit-up work and is being provided by the Corporation on a cost recovery basis.

2. Significant accounting policies

(a) Basis of accounting

These financial statements account for the costs incurred by the Corporation in the construction of the museums. They do not account for costs incurred by the NCC for sites or by NMC for accommodation planning and fit-ups.

(b) Capitalization

All expenditures, including those for site evaluation, design, construction and administration, will be capitalized until the museums are completed. Interest, management fees and other income are credited to construction in progress. Costs are allocated directly to each museum when they can be specifically identified. All other costs are allocated equally to the two museums.

3. Capital stock

The Corporation is authorized to issue three shares with a nominal value of $1 which shall not be transferred without the approval of the Governor in Council.

4. Contributed capital

During the year, funding of $33.214 million (1989—$67.959 million) was provided by parliamentary appropriation through Vote 20 of DPW for the expenditures of the Corporation of which $28.4 million was received in the 1989-90 and $4.814 million to be received in 1990-91.

	1990	1989
	(in thousands of dollars)	
Opening balance	155,473	226,097
Parliamentary appropriation	33,214	67,959
Transfer of net cost of NGC building	(1,509)	(138,583)
Ending balance	187,178	155,473

5. Pension plan

The Corporation has instituted, with a private sector organization, a contributory pension plan covering all its regular employees. The employees and the Corporation contribute to the plan. The employees contribute 7.5% of gross earnings up to a maximum of $3,500. The employer's share of contribution is 7.5% of the employees' gross earnings. The Corporation's contributions represent its total liability and are recognized in the accounts on a current basis. Pension costs for the plan amounted to $82,210 for the year ended March 31, 1990 (1989—$79,593).

6. Contractual obligations

As at March 31, 1990, commitments for construction and related costs amounted to approximately $2.1 million as follows:

	(in thousands of dollars)
Canadian Museum of Civilization	2,023
National Gallery of Canada	119
	2,142

CANADA MUSEUMS CONSTRUCTION CORPORATION INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

7. Lease commitment

The Corporation has renewed its lease agreement for office space until September 30, 1990. Under the terms of the lease the Corporation is proportionately responsible for payment of operating expenses and taxes to the lessor. The minimum annual rental payment for 1990-91 is $133,000.

8. Contingencies and claims

(a) Claims have been made against the Corporation totalling approximately $13 million for additional fees and other costs. The final outcome of these claims is not determinable and accordingly, these items are not reflected in the accounts. Settlements, if any, resulting from the resolution of these claims will be accounted for in the year in which the settlements occur.

(b) The Corporation has given notice to its architects of possible claims under professional liability insurance policies. These claims are under review. To date actions on certain claims have been taken by the insurers. Architects and insurers have also been notified of the Corporation's position regarding other pending claims. No provision for amounts to be recovered has been made in the financial statements.

9. Related party transactions

(a) Under cost recovery arrangements with DPW, NMC and the NCC, the Corporation receives or provides various services. The following summarizes the transactions:

	Accounts receivable (payable) March 31, 1989	Amounts billed to (from) during 1989-90	Amounts (received) paid during 1989-90	Accounts receivable (payable) March 31, 1990
		(in thousands of dollars)		
Amount receivable

CANADA PORTS CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of Canada Ports Corporation as at December 31, 1989 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Canada Ports Corporation Act

Canada Ports Corporation is established under the Canada Ports Corporation Act. The Act provides for the establishment of local port corporations to manage and operate selected ports. The Corporation is named in Part II of Schedule III of the Financial Administration Act and is exempt from income tax.

2. Significant accounting policies

(a) Financial statements

The financial statements of the Corporation include the accounts of the ports and other facilities under its administration, as well as those of the Interport Loan Fund. The activities of the local port corporations are excluded from the financial statements from the date of their establishment.

(b) Investments

The investments are shown at amortized cost whereby premiums or discounts from par value are amortized over the periods to maturity.

(c) Investment in Ridley Terminals Inc.

The investment in Ridley Terminals Inc. is accounted for on the equity basis.

(d) Fixed assets

Fixed assets are recorded at cost except for those transferred to the Corporation from Canada, which are recorded at appraised or fair market value established at the time of transfer. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related fixed assets.

Depreciation is calculated on the straight-line basis for the full year, commencing with the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

(e) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(f) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are finalized after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(g) Employee benefits

The Corporation accrues in its accounts the estimated liabilities for severance pay, annual leave and overtime compensatory leave, which are payable to its employees under its collective agreements, or in accordance with its policy.

3. Investments

Investments, which are direct and guaranteed securities of Canada, are shown at amortized cost. As at December 31, 1989, and 1988, the market value of the current investments approximates their amortized cost. At December 31, 1989, the market value of the long-term investments is $21,080,000 ($20,232,000 in 1988).

CANADA PORTS CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

4. Long-term receivable

In 1989, the Municipal Grants Division of Public Works Canada finalized an audit of grants in lieu of municipal taxes. This audit resulted in an adjustment of $1,174,000 in favour of the Corporation for the years 1985 to 1989; $800,000 of which had been accrued in previous years. This accrual has now been reversed and the balance of $374,000 has been set up as a long-term receivable from the Local Government District of Churchill in Manitoba as follows:

	(in thousands of dollars)
Non-interest bearing receivable, recoverable in equal annual instalments over the next five years	374
Less: current portion	(75)
	299

5. Investment in Ridley Terminals Inc.

Ridley Terminals Inc. (RTI) was incorporated on December 18, 1981, under the Canada Business Corporations Act for the purpose of constructing and operating coal terminal facilities on Ridley Island in Prince Rupert, British Columbia. RTI is exempt from income taxes.

RTI's throughput revenue is currently dependent upon the production of two coal producers. The coal producer who currently ships the larger tonnage through RTI's facilities has entered into a price arbitration process with its customers. The results of this arbitration process could have a significant economic impact on the coal producer, which in turn could affect the relations of RTI with this customer. The continued operations of RTI and the current carrying value of its terminal facility are dependent upon a viable level of coal throughput from its customers and continued financial support from the Government of Canada.

At December 31, 1989, the Corporation had acquired 90% of the issued common shares of RTI at a cost of $900, and 100% of its Class A preference shares at a cost of $23,020,500. As of that date, Fednav Limited had acquired 10% of the issued common shares of RTI for $100, and 100% of its Class B preference shares for $23,020,500.

The Class A preference shares carry a fixed cumulative dividend at a rate of 18% per annum on their stated value. The Class B preference shares carry a fixed cumulative dividend at a rate sufficient to net 20% after tax per annum on their stated value. The annual dividend of 20% on the Class B preference shares is a net sum after deducting an amount equal to the prevailing aggregate federal and provincial corporate income and profits taxes applicable to the dividend.

Holders of the Class A and B preference shares are entitled to interest at the respective dividend rates on dividends accrued but not paid. Unpaid interest compounds annually at the same respective rates. Interest has accrued since April 30, 1982. The preference shares are redeemable at any time at their stated value plus accrued dividends and unpaid interest thereon. Preference dividends and related interest in arrears at December 31, 1989, calculated at tax rates prevailing as at that date with respect to the Class B shares amount to:

	1989	1988
	(in thousands of dollars)	
Class A preference shares held by Canada Ports Corporation	48,826	37,452
Class B preference shares held by Fednav Limited	101,937	81,853
	150,763	119,305

The Corporation's investment in RTI is accounted for on the equity basis. Application of this method for years in which RTI has a deficit requires that the Corporation recognize a share of the results of operations of RTI equal to its participation in the total equity of RTI which, at December 31, 1989, was 50%. In 1989 the Corporation's share in the accumulated loses of RTI exceeded the Corporation's net investment. As a result, the investment has been written down to a nominal value of $1,000. For years in which RTI has retained earnings, the Corporation's share of the results of operations will be proportionate to its shareholding in common shares, after recognizing the dividend requirements of the two classes of preference shares.

The investment in Ridley Terminals Inc. is composed of:

	1989	1988
	(in thousands of dollars)	
Balance at beginning of the year	3,083	7,465
Share in loss	(3,082)	(4,382)
Balance at end of the year	1	3,083

A summary of the balance sheet of RTI as at December 31, as reported in its audited financial statements shows:

	1989	1988
	(in thousands of dollars)	
Assets		
Current	3,128	4,772
Fixed	207,735	213,311
Other	447	67
	211,310	218,150
Liabilities		
Current	5,045	3,481
Long-term debt	213,063	207,323
	218,108	210,804
Shareholders' deficiency	(6,798)	7,346
	211,310	218,150

RTI has two long-term financing agreements with a major Canadian bank as follows:

(a) A construction credit loan agreement which is guaranteed unconditionally by Canada and is further secured by a $250,000,000 subordinate fixed and floating charge collateral demand debenture. On July 1, 1985, all borrowings converted to a fifteen year term loan with specified semi-annual repayments commencing July 31, 1991 through January 31, 2000. Interest on any bank loan is at the bank's prime rate, payable monthly. The Bankers' Acceptance fee is currently 1/2% per annum.

(b) A revolving credit loan agreement which provides an $25,000,000 credit facility for advances on a revolving basis until June 30, 1990 at which time all borrowings will convert to a term loan repayable in specified semi-annual instalments commencing July 31, 1990 through January 31, 1993. Interest on the bank loans is at the bank's prime rate plus 1/4% per annum, payable monthly. The Bankers' Acceptance fee is currently 3/4% per annum.

This agreement is secured by a $350,000,000 first fixed and floating charge collateral demand debenture with the terminal facility as security and an assignment of the lease from the Prince Rupert Port Corporation.

CANADA PORTS CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

As at December 31, 1989, drawings under these agreements were as follows:

	1989	1988
	(in thousands of dollars)	
(a) Construction credit loan agreement— Bankers' acceptances, net of unamortized interest charges	198,399	198,818
(b) Revolving credit loan agreement—		
Bank loans	1,300	1,800
Bankers' acceptances, net of unamortized interest charges	15,464	7,930
	16,764	9,730
	215,163	208,548
Less: current portion of long-term debt	2,100	1,225
	213,063	207,323

Based on the amounts borrowed under the credit facilities as at December 31, 1989, annual principal repayments over the next five years amount to $2,100,000 in 1990, $5,460,000 in 1991, $11,288,000 in 1992, $12,915,000 in 1993 and $14,963,000 in 1994.

The results of operations of RTI for the year ended December 31, 1989, in comparison with the year ended December 31, 1988, are as follows:

	1989	1988
	(in thousands of dollars)	
Revenue from operations	35,769	30,676
Operating and administrative expenses	17,421	12,675
Depreciation	5,947	6,746
Interest expense	26,545	20,020
	49,913	39,441
Net loss	(14,144)	(8,765)

6. Debentures of Saint John Harbour Bridge Authority

The Saint John Harbour Bridge Authority (the Authority) is indebted in the amount of $13,793,000 (1988—$13,921,000) to the Corporation which in turn is indebted to Canada in the same amount, in accordance with the provisions of Vote L106B, Appropriation Act No. 7, 1967, 1967-68, c. 8. The interest and repayment terms of the parliamentary advances to the Corporation are identical to those of the debentures of the Authority. Under the terms of the agreement between Canada and the Authority, Canada, in effect, has guaranteed the repayment of both principal and interest on the debentures. Accordingly, the debentures received have been offset against the advances and loans payable to Canada such that they are not reflected as an asset and a liability on the balance sheet. Interest income and expense of $947,000 (1988—$955,000) have been similarly offset and do not appear in the statement of income and retained earnings.

In 1989, Department of Finance and Treasury Board of Canada proceeded with a submission to assign the debentures of the Authority to Canada and to cancel the related certificates of indebtedness of the Corporation. As at December 31, 1989, the submission was pending approval by Canada.

7. Fixed assets

(a) Summary

	1989				1988
	Depreciation rates	Cost	Accumulated depreciation	Net	Net
	%	(in thousands of dollars)			
Land		4,482		4,482	4,426
Dredging	2.5-6.7	9,488	6,013	3,475	3,801

Buildings	2.5-10	16,371	12,184	4,187	3,841
Utilities	3.3-10	2,791	1,428	1,363	1,466
Roads and surfaces	2.5-10	2,273	1,702	571	676
Machinery and equipment	5-100	19,979	15,861	4,118	3,805
Office furniture and equipment	20	3,553	2,759	794	609
Works under construction		243		243	706
		93,695	57,636	36,059	36,894

(b) Capital grants

During the year, the Corporation received capital grants totalling $2,754,000 (1988—$2,775,000) towards the construction of fixed assets.

(c) Capital expenditures commitments

Contractual obligations for the completion, construction and purchase of fixed assets are estimated at $519,000 of which most will be expended in the year ending December 31, 1990.

8. Accounts payable and accrued liabilities

Included in accounts payable and accrued liabilities are deferred revenues for $679,000 (1988—$467,000) and current portion of long-term liabilities of $87,000 (1988—$81,000).

9. Loans from Canada

	1989	1988
	(in thousands of dollars)	
Loans bearing interest at 6.44% and 9.09%, repayable in blended annual instalments of principal and interest of $193,000 and maturing on December 31, 2000	1,406	1,487
Less: current portion	(87)	(81)
	1,319	1,406

Principal repayment requirements over the next five years amount to $87,000 in 1990, $93,000 in 1991, $100,000 in 1992, $108,000 in 1993 and $116,000 in 1994.

CANADA PORTS CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

10. Interport Loan Fund

In 1988, the Treasury Board of Canada authorized that the dividend payments to be made in 1988 and 1989 by Canada Ports Corporation and the local port corporations, be used to establish an interport loan fund (the Fund). The purpose of the Fund is to provide financing for financially viable capital projects of the Corporation and the local port corporations.

As at December 31, 1988, the Corporation held $12,668,000 representing the 1988 dividend payments and interest earned thereon for these corporations, pending approval by Canada. Of this amount, $126,000 represented the dividend paid by Canada Ports Corporation.

In 1989, the Corporation remitted to Canada the $12,668,000 owing and further $13,982,000 representing the 1989 dividend payments and interest earned thereon from Canada Ports Corporation and the local port corporations. Of the latter amount, $74,000 represented the dividend paid by Canada Ports Corporation. At the same time, the Corporation received an equivalent grant from Canada for the establishment of the Fund.

The Fund was created on May 19, 1989, and its balance as at December 31, 1989 is composed of:

	(in thousands of dollars)
Contribution by Canada	26,650
Investment income	1,918
	28,568

The assets of the Fund, which are direct and guaranteed securities of Canada, are shown at amortized cost. As at December 31, 1989 the market value of the investments approximates their amortized cost.

11. Related party transactions

Through common ownership, the Corporation is related to all Government of Canada created departments, agencies and Crown corporations.

In accordance with the Canada Ports Corporation Act, operating and administrative costs incurred by the Corporation in the amount of $6,225,000 have been recovered from the local port corporations in 1989 ($6,511,000 in 1988). These recoveries are offset against the related expenses. In addition, investment income of $5,369,000 ($4,750,000 in 1988) was earned on Government of Canada securities and interest charges of $112,000 ($118,000 in 1988) were paid to Canada.

12. Contingencies

Claims aggregating approximately $1,709,000 in respect of lawsuits, guarantees, employee agreements, damages allegedly suffered on the Corporation's property and sundry other matters in dispute have been received by the Corporation but are not reflected in the accounts. In the opinion of the Corporation, the final outcome of such claims should not result in any material financial liability.

The Corporation assumes all risks with respect to workers'compensation claims. Any costs arising from such claims are recorded in the accounts in the year they can be reasonably estimated.

CANADA POST CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

Management and the Board of Directors are responsible for the financial statements and all other information presented in this annual report in accordance with the Financial Administration Act and regulations. The financial statements have been prepared by management in accordance with generally accepted accounting principles and, where appropriate, include amounts based on management's estimates and judgement.

Management has developed and maintains books of account, records, financial and management control, and information systems and management practices. These are designed to provide reasonable assurance as to the reliability of financial information, that assets are safeguarded and controlled, and that transactions are in accordance with the Financial Administration Act and regulations as well as the Canada Post Corporation Act and by-laws of the Corporation. Internal audits are conducted to assess these systems and practices.

The Board of Directors ensures that management fulfills its responsibilities for financial reporting and internal control through the Audit Committee, which is composed of six directors, five of whom are not employees of the Corporation. The Audit Committee meets quarterly to oversee the internal audit activities of the Corporation and at least annually to review and advise the Board of Directors with respect to the financial statements and the auditors' annual report.

The Corporation's external auditors, the Auditor General of Canada and Deloitte Haskins & Sells, examine the financial statements and report to the Minister responsible for Canada Post Corporation.

AUDITORS' REPORT

TO THE MINISTER RESPONSIBLE
FOR CANADA POST CORPORATION

We have examined the balance sheet of Canada Post Corporation as at March 31, 1990 and the statements of equity of Canada, operations and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Post Corporation Act and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Incorporation

The Corporation was established by the Canada Post Corporation Act to operate a postal service on a self-sustaining financial basis while providing a standard of service that will meet the needs of the people of Canada. The Corporation is a Crown corporation included in Part II of Schedule III to the Financial Administration Act and is an agent of Her Majesty. The Corporation is exempt from income taxes.

2. Rate regulation

The Canada Post Corporation Act provides that the Corporation may make regulations prescribing rates of postage that are fair and reasonable so as to provide revenue together with any revenue from other sources, sufficient to defray the costs incurred by the Corporation in the conduct of its operations. The Corporation is required to publish each proposed regulation for interested persons to make representations to the Minister responsible for the Corporation, who thereafter submits the regulation to the Governor in Council for consideration and subsequent approval or refusal.

CANADA POST CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

3. Significant accounting policies

These financial statements have been prepared in accordance with generally accepted accounting principles. A summary of the significant accounting policies of the Corporation follows:

(a) Fixed assets and depreciation

Land, buildings and equipment transferred from the Government of Canada on incorporation were recorded at their fair value at that date, determined as follows:

Land	—Market value based on existing use
Buildings	—Depreciated replacement cost
Plant equipment, vehicles, sales counter, office furniture and equipment and minor equipment	—Depreciated replacement cost or original cost less estimated depreciation

The market value of land and the depreciated replacement cost of buildings transferred by the Government of Canada were determined by independent appraisals. Acquisitions subsequent to incorporation are recorded at cost.

Depreciation is provided on the straight-line basis over the estimated useful lives of the following assets:

Buildings	30 and 40 years
Plant equipment	4 to 30 years
Vehicles (other than passenger and light duty commercial)	6 to 10 years
Sales counter and office furniture and equipment	5 to 20 years
Minor equipment—Street furniture and containers	5 to 15 years

Depreciation is provided on the diminishing balance basis at an annual rate of 30 per cent for all passenger and light duty commercial vehicles.

(b) Employee termination benefits

Employees of the Corporation are entitled to specified termination benefits, calculated at salary levels in effect at the time of termination, as provided under collective agreements and conditions of employment.

The present value of the projected costs of unpaid employee termination benefits, as determined by actuarial valuation, is recorded in the accounts as a long-term liability.

Such benefits accruing to employees, as well as gains and losses arising from actuarial valuation, are included in current operations.

(c) Revenue recognition

Amounts received for which services have not been rendered prior to the end of the year are deferred.

(d) Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Under present legislation, contributions made by the Corporation to the Plan are limited to an amount equal to the employees' contributions on account of current service. These contributions, which amounted to $97,006,000 (1989—$100,198,000), represent the total pension obligations of the Corporation and are included in current operations. The Corporation is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account and/or with respect to charges to the Consolidated Revenue Fund for indexation payments under the Supplementary Retirement Benefits Act.

(e) Deferred development costs

Costs incurred in the development of new mail products and the retail postal network are deferred. These costs are amortized on the straight-line basis over the ensuing periods of economic benefit.

(f) Foreign currency translation

Revenues and expenses relating to transactions with foreign postal administrations are translated into Canadian dollars at the exchange rates at the time of transaction.

Amounts due to or from foreign postal administrations at the balance sheet date are translated at the then prevailing exchange rates. Gains or losses arising from translation of foreign currencies are included in current operations.

4. Fixed assets

	1990			1989
	Cost or fair value	Accumulated depreciation	Net	Net
	(in thousands of dollars)			
Land	214,742		214,742	238,953
Buildings	1,136,551	313,856	822,695	814,914
Plant equipment	570,033	224,837	345,196	279,559
Vehicles	119,229	58,921	60,308	54,967
Minor equipment				
Mail bags and lock boxes	28,343		28,343	24,325
Street furniture and containers	167,221	33,192	134,029	89,736
Sales counter and office furniture and equipment	281,080	58,059	223,021	147,121
	2,517,199	688,865	1,828,334	1,649,575

5. Segregated cash and investments

The Corporation has segregated certain cash and investments, recorded at cost, for the purpose only of managing cash flows relating to the employee termination benefits liability.

6. Contributed capital adjustment

Prior to April 1, 1989, with the approval of the Governor in Council, as rate regulator, the Corporation included deferred employee termination benefit costs and accumulated extraordinary restructuring costs in its future operating cost base for puposes of establishing postal rates. These costs were amortized and recovered in postal rates on the basis specified by the regulator.

With the approval of the rate regulator, the April 1, 1989 unamortized balances of these costs that were to have been recovered from future postal users have been eliminated against contributed capital as follows:

	(in thousands of dollars)
Deferred employee termination benefits	301,309
Accumulated extraordinary restructuring costs	286,944
Contributed capital adjustment	588,253

CANADA POST CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

7. Collection of postal memorabilia

The Corporation has an agreement with both the National Archives of Canada and the Canadian Museum of Civilization to operate, administer and maintain a Canadian Postal Archives and a National Postal Museum respectively, containing philatelic material, postal artifacts, a postal library and exhibits that trace the history of the mail and other memorabilia. Since these collections, exhibits and books are not for resale and are of undetermined value, they have been recorded at a nominal amount of $1,000.

8. Long-term debt

In 1988, the Corporation entered into a ten-year $80 million loan with the Government of Canada. Interest is payable semi-annually at the rate of 9.705 per cent per annum, and the principal will be repaid on April 27, 1998. Interest expense on long-term debt was $7,764,000 (1989—$7,200,000).

9. Contingent liabilities

(a) With respect to a complaint filed with the Canadian Human Rights Commission, alleging discrimination by the Corporation concerning work of equal value, the Commission's investigation is continuing and the outcome is not presently determinable. Settlement, if any, arising from resolution of this matter will be recovered in future postal rates (as determined in accordance with the Canada Post Corporation Act) and/or from the Government of Canada.

(b) Employees are permitted to accumulate unused sick leave. However, such leave entitlements do not vest and can be used only in the event of illness. The amount of accumulated sick leave entitlements which will become payable in future years cannot reasonably be determined. Payments of sick leave benefits are included in current operations.

10. Payments on behalf of postal users

Where Government policy requires the Corporation to provide services at rates less than cost, to the publications industry, and for Government free mail, literature for the blind and northern air stage services, the Government of Canada compensates the Corporation for foregone postage revenue from those sources. Payments received, amounting to $239,593,000 (1989—$250,593,000), are included in revenue from postal operations.

11. Lease commitments

The Corporation occupies certain facilities under operating leases which expire at various dates between 1991 and 2027. The Corporation's future minimum rental payments required under operating leases that have terms in excess of one year, are as follows:

	(in thousands of dollars)
1991	53,467
1992	43,511
1993	34,828
1994	27,558
1995	17,161
1996 to 2027	38,323
	214,848

12. Related party transactions

The Corporation had the following transactions with related parties in addition to those disclosed elsewhere in these financial statements.

(a) Property management

The Corporation has incurred net operating costs of $191,706,000 (1989—$179,092,000) in respect of a property management arrangement with the Department of Public Works to manage substantially all the Corporation's real property. In addition, capital expenditures amounted to $29,787,000 (1989—$32,736,000).

(b) Interest

The Corporation earned interest in the amount of $1,769,000 (1989—$23,747,000) on its balance in the Consolidated Revenue Fund of the Government of Canada.

(c) Other

In the normal course of business, the Corporation enters into various other transactions with the Government of Canada, its agencies and other Crown corporations. These include the provision of postal services and the purchase of air and rail transportation.

As a result of all the above transactions, the amounts due from and to these parties are $10,696,000 (1989—$4,725,000) and $82,437,000 (1989—$101,056,000) respectively.

13. Subsequent event

On May 10, 1990, the Board of Directors declared a dividend, payable to the Receiver General for Canada on June 29, 1990, in the amount of 40 per cent of net income with respect to the fiscal year ended March 31, 1990. This amounted to $59,520,000.

14. Comparative figures

Comparative figures have been reclassified to conform with the current year's presentation.

CANADIAN BROADCASTING CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The financial statements and all other information presented in this annual report are the responsibility of management and have been approved by the Board of Directors of the Corporation. These financial statements, which include estimates based on the experience and judgement of management, have been properly prepared within reasonable limits of materiality and are in accordance with generally accepted accounting principles.

Management of the Corporation maintains books of account, records, financial and management control, and information systems, which are designed for the provision of reliable and accurate financial information on a timely basis. These controls provide reasonable assurance that assets are safeguarded, that resources are managed economically and efficiently in the attainment of corporate objectives, that operations are carried out effectively and that transactions are in accordance with the former part VIII of the Financial Administration Act and regulations as they apply to the Corporation, the Broadcasting Act and the by-laws of the Corporation.

The Corporation's Internal Auditor has the responsibility for assessing the Corporation's systems, procedures and practices. The Auditor General of Canada conducts an independent examination of the annual financial statements and reports on his examination to the Canadian Broadcasting Corporation and the Minister of Communications.

The Board of Directors' Audit Committee, which consists of three members, none of whom is an officer of the Corporation, reviews and advises the Board on the financial statements and the Auditor General's report thereto. The Audit Committee oversees the activities of Internal Audit and meets with management, the Internal Auditor and the Auditor General on a regular basis.

Gérard Veilleux
President

S. Cotsman
Vice President, Finance and Administration

AUDITOR'S REPORT

TO THE CANADIAN BROADCASTING CORPORATION
AND THE MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the Canadian Broadcasting Corporation as at March 31, 1990 and the statements of income and expense and reconciliation to government funding basis, proprietor's equity account and cash flow for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with the former Part VIII of the Financial Administration Act and regulations as they apply to the Corporation, the Broadcasting Act and the by-laws of the Corporation.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

Ottawa, Canada

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1990

1. Authority and objective

The Canadian Broadcasting Corporation was established by the 1936, 1958 and 1968 Broadcasting Acts. The Corporation is an agent of Her Majesty and all property acquired by the Corporation is the property of Her Majesty.

The objective of the Corporation is to develop and provide a national broadcasting service for all Canadians in both official languages, in television and radio, and to provide an international service. The television and radio services should be primarily Canadian in content and character.

2. Significant accounting policies

(a) Engineering and production supplies and merchandise

The inventory of engineering and production supplies is stated at the lower of average cost and replacement cost. The inventory of merchandise is stated at the lower of cost and net realizable value.

(b) Programs completed and in process of production

Programs completed and in process of production are stated at cost. Cost includes the cost of goods and services, and the share of labour and overhead expenses applicable to each program.

Program costs are charged to operations as the programs are broadcast or deemed unusable.

(c) Film rights

The Corporation enters into contracts for film broadcasting rights. As payments are made under the terms of each contract they are reflected in the accounts as prepaid film rights. The film rights are charged to operations as the films are broadcast or deemed unusable.

(d) Fixed assets

Fixed assets are recorded at cost. The cost of assets constructed by the Corporation includes material, engineering services, direct labour and related overhead. Depreciation is calculated on the straight-line method using rates based on the estimated useful life of the assets as follows:

Buildings	33 years
Technical equipment	
Transmitters and towers	20 years
Other	10 years
Furnishings and office equipment	10 years
Automotive	5 years
Computers	5 years

Major leasehold improvements are capitalized and amortized over the term of the leases to a maximum period of five years. Amounts included in uncompleted capital projects are transferred to the appropriate fixed asset classification upon completion, and are then depreciated according to the Corporation's policy. Gains and losses on disposals of fixed assets are credited or charged to Proprietor's Equity Account.

(e) Capital leases

Assets recorded as capital leases are amortized on the straight-line method over the estimated useful life of the assets or the lease term as appropriate. Obligations recorded under the capital leases are reduced by lease payments net of imputed interest.

(f) Pension cost and obligation

The Corporation provides pensions based on length of service and final average earnings as classified under defined benefit pension plans.

The cost of pension benefits earned by employees is determined using the projected benefit method of actuarial valuation with projected salary increases where appropriate, pro-rated on services and charged to expense as services are rendered. This cost reflects management's best estimate of the pension fund's expected investment yields, and of salary escalations, mortality of members, terminations and ages at which members will retire. The surplus on the introduction of this accounting policy (effective April 1, 1987), adjustments arising from plan amendments, experience gains and losses and changes in assumptions are amortized over the estimated average remaining service life of the employee group.

The difference between the accumulated amounts expensed and the funding contributions is reflected in the balance sheet as a long term deferred charge or accrual as the case may be.

(g) Employee termination benefits and vacation pay

Employee termination benefits and vacation pay are expensed as benefits accrue to employees under their respective terms of employment.

(h) Parliamentary appropriations

Parliamentary appropriations for operating expenditures are recorded as income. Parliamentary appropriations for capital and working capital are credited to Proprietor's Equity Account.

CANADIAN BROADCASTING CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1990—*Continued*

3. Fixed assets

	1990			1989
	Cost	Accumulated depreciation and amortization	Net book value	Net book value
	(in thousands of dollars)			
Land	35,357		35,357	35,384
Buildings	276,580	123,985	152,595	150,047
Technical equipment	725,891	374,791	351,100	337,768
Furnishings, office equipment and computers	41,519	17,162	24,357	22,931
Automotive	14,331	10,327	4,004	4,123
Leasehold improvements	7,421	4,972	2,449	2,554
Property under capital leases	6,371	4,974	1,397	3,182
Uncompleted capital projects	144,228		144,228	75,545
	1,251,698	536,211	715,487	631,534

4. Deferred charges

(a) Pension expense

Using methods and assumptions identified in the pension cost and obligation accounting policy (2f), projections from the latest actuarial valuations show an estimated present value of accrued pension benefits of $1,768.5 million as at March 31, 1990 (1989—$1,604.0 million). Market related values have been used for valuing pension fund assets which based on financial information as at March 31, 1990 are valued at $1,866.8 million (1989—$1,688.5 million).

The deferred charge as at March 31, 1990 amounts to $0.9 million (1989—$7.1 million) and is the difference between the accumulated pension expense and the required funding contributions.

(b) CBC Newsworld

In the fiscal year 1988-89 the Corporation was granted a license to operate the CBC Newsworld. Total development costs amounting to $6.5 million at August 31, 1989 are being amortized over a five year period commencing September 1, 1989. Amortization for the first seven months amounted to $0.7 million.

5. Advances from Government of Canada

Advances from the Government of Canada are made for working capital purposes and are non-interest bearing. These advances become repayable when cash and treasury bills exceed the Corporation's requirements for working capital.

Working capital is determined on a government funding basis which excludes items not requiring current operating or capital funds.

6. Lease obligations

(a) Existing leases

As at March 31, 1990, the Corporation's obligations related to capital leases and operating leases for terms in excess of one year are as follows:

	Capital leases	Operating leases
	(in thousands of dollars)	
1991	1,609	33,191

(b) Broadcast Centre development project, Toronto

In accordance with Governor General in Council approval, the Corporation signed a project agreement, dated September 30, 1988, with Cadillac Fairview Corporation Limited, as the selected developer, for the construction of a building, on the Corporation's site in downtown Toronto, to house the Corporation's Toronto-based operations.

On October 14, 1988, the Corporation entered into a Broadcast Centre agreement to lease with Cadillac Fairview whereby the Corporation will, upon substantial completion of the Broadcast Centre building, estimated to be January 1992, execute a Broadcast Centre leases for the building and underlying lands for an initial period of thirty-five years. The Corporation advances funds against the project to Cadillac Fairview in order to minimize the future interest costs associated with the lease.

The Corporation is committed under this lease to pay rent under all circumstances and, in the event of termination of the lease, at the Corporation's option or otherwise, pay sufficient rent to repay all interim and permanent financing.

7. Parliamentary appropriations

The Corporation receives funds from the Parliament of Canada through annual appropriations. The appropriations approved and the payments received by the Corporation for 1990 and 1989 are noted below.

	1990	1989
	(in thousands of dollars)	
Appropriations		
Operating	849,335	810,368
Capital	128,040	100,881
Working capital	4,000	4,000
	981,375	915,249

CANADIAN BROADCASTING CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1990—*Concluded*

The following summarizes the net items not requiring current operating funds.

	1990	1989
	(in thousands of dollars)	
Depreciation and amortization	63,780	61,539
Employee termination benefits and vacation pay	1,369	8,873
Program inventory costs	2,564	(7,074)
Deferred pension cost	6,208	1,761
	73,921	65,099

8. Income tax

The Corporation is a prescribed federal Crown corporation under Part LXXI of the Income Tax Regulations and is subject to the provisions of the federal Income Tax Act. Depreciation and capital cost allowance are not allowable deductions in the determination of the Corporation's taxable income. Therefore, the Corporation may have taxable income even when there is an excess of expense over income in any year.

The Corporation has accumulated losses carried forward for income tax purposes of $36.1 million which has not been recognized in the financial statements. The tax benefits pertaining to this loss carry-forward are available until 1997.

9. Net change in non-cash working capital balances

	1990	1989
	(in thousands of dollars)	
Cash provided by (used for)		
Accounts receivable	(6,895)	288
Engineering and production supplies and merchandise	379	1,038
Programs completed and in process of production	483	(18,763)
Prepaid film and script rights and other expenses	94	(9,140)
Accounts payable and accrued liabilities	22,281	18,621
Accrued vacation pay	1,606	4,054
	17,948	(3,902)

10. Commitments

As at March 31, 1990, commitments for sports rights amounted to $210.8 million; procured programs, film rights and co-productions amounted to $93.7 million for total commitments of $304.5 million.

11. Contingencies

In the ordinary course of business, various claims and lawsuits have been brought against the Corporation. In the opinion of management, the losses, if any, which may result from the settlement of these matters are not likely to be material and accordingly no provision has been made in the accounts of the Corporation.

12. Related party transactions

The Corporation is related in terms of common ownership to all Government of Canada created departments, agencies and Crown corporations and is mainly financed by the Parliament of Canada.

During the year, transactions with these related departments, agencies and Crown corporations were in the normal course of business on normal trade terms applicable to all individuals and enterprises. Transactions with the Parliament of Canada are outlined in Notes 5 and 7.

13. CBC Newsworld

The Corporation operates CBC Newsworld under a licence condition that the operation be reported on an incremental cost/revenue basis. In compliance with the licence condition, incremental revenue of $14.5 million and incremental costs of $13.5 million, for the period September 1, 1989 to March 31, 1990, are being reported separately to the Canadian Radio-television and Telecommunications Commission. These activities are an integral part of the operations of the Corporation.

14. Downsizing

In 1989-90 the Board of Directors approved a workforce adjustment plan to address the budget reductions requested by the Federal Government. The plan involved, among other things, a wind up of the merchandising section of CBC Enterprises, employee terminations and reassignmnents and consolidations within the administration and support areas. Cost incurred in 1989-90 relating to this plan totalled $19.6 million of which $18.0 million related to personnel costs including lay off pay, early retirement incentives, and other related costs; and $1.6 million to the wind up of the merchandising section of CBC Enterprises.

15. Deficit for the year on a government funding basis

The deficit for the year of $29.7 million related primarily to the total expenditures requiring current operating funds of $23.5 million associated with the implementation of the workforce adjustment plan-downsizing. Of the total cost associated with this plan, $19.6 million was incurred in the 1989-90 fiscal period while the balance of $3.9 million represents employee termination benefits accrued and expensed as items not requiring current operating funds to the end of the previous fiscal period.

16. Comparative figures

Certain of the 1989 comparative figures have been reclassified to conform to the current year's presentation.

CANADIAN COMMERCIAL CORPORATION

AUDITOR'S REPORT

TO THE MINISTER FOR INTERNATIONAL TRADE

I have examined the balance sheet of the Canadian Commercial Corporation as at March 31, 1990 and the statements of operations and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards, applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canadian Commercial Corporation Act and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Nature, organization and funding

The Corporation was established in 1946 by the Canadian Commercial Corporation Act and is an agent Crown Corporation listed in Part I of Schedule III to the Financial Administration Act.

The Corporation acts as the prime contracting agency when other countries and international organizations wish to purchase products and services from Canada on a government-to-government basis. Contracts are made with foreign governments and international organizations and corresponding supply contracts are entered into with Canadian firms by the Corporation (see Note 3).

The Govenement has provided the Corporation with $20 million as contributed surplus. The Corporation has authority to draw loans from Consolidated Revenue Fund in amounts up to a total of $10 million as required to supplement its working capital. Annually, the Corporation seeks funding for its operation through parliamentary appropriation (see Note 6).

2. Significant accounting policies

These financial statements are prepared in accordance with generally accepted accounting principles in Canada, consistently applied, and conform in all material respects with international accounting standards. A summary of significant policies follows:

(a) Contracts

Revenues from contracts are recorded at the time of delivery except in the case of contracts involving progress payments; in these cases, revenues are recorded at the time the progress payments are billed to customers. Since title to work-in-progress covered by progress claims has not passed to customers, the Corporation sets up a corresponding liability and cost of contract billings. The Corporation records all progress claims by its suppliers as assets. These assets and liabilities are reduced, in accordance with contract terms, as deliveries are accepted.

The cumulative effect of changes in the estimated cost of uncompleted contracts is recorded in the statement of operations in the year when the change is first determined.

(b) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates. Revenues and expenses are translated at the average exchange rates for the month in which the transactions occur.

Contracts with foreign governments and corresponding contracts with Canadian suppliers are generally entered into in the same currency, or alternatively, the contract terms in the supplier contract pass the risk to the supplier. This reduces the Corporation's contractual exposure to losses or gains due to fluctuations in foreign exchange.

The Corporation maintains some working capital in U.S. currency to facilitate the cash flow between foreign customers and Canadian suppliers.

CANADIAN COMMERCIAL CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(c) Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Under present legislation, contributions made by the Corporation to the Plan are limited to an amount equal to the employee's contributions on account of current service. These contributions represent the total pension obligations of the Corporation and are charged to operations on a current basis. The Corporation is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account and/or with respect to charges to the Consolidated Revenue Fund for indexation payments under the Supplementary Retirement Benefits Act.

(d) Employee termination benefits

Employees of the Corporation are entitled to specified termination benefits, calculated at salary levels in effect at the time of termination, as provided for under collective agreements and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees.

(e) Income taxes

The Corporation is not subject to income taxes.

(f) Fixed assets

Fixed assets are expensed as their costs are not recovered through future operations.

3. Contractual obligations

The Corporation is obligated to fulfil numerous contracts with foreign customers. These contracts range in value up to approximately $500 million. The total contract value remaining to be fulfilled approximates $1.4 billion as at March 31, 1990 (1989—$1.3 billion).

The Corporation may incur additional contract costs should suppliers not fulfil the terms of their contracts. As of March 31, 1990, the Corporation has a provision of $3,842,000 (1989—$4,646,000) for additional contract costs, which may be incurred if certain suppliers are unable to meet their contractual obligations.

Two suppliers holding major contracts with the Corporation are experiencing financial difficulties. It can reasonably be estimated that the Corporation is liable for certain additional contract costs, and this liability has been included in the provision for additional contract costs. Contingent upon the need to re-procure, the Corporation may be contingently liable to incur certain costs (which could range up to some seven million dollars) to fulfil its obligations.

4. Contingencies

The Corporation is involved in a number of legal actions, three of which are material in nature.

(a) The Corporation has been named as defendant in a claim instituted in 1975 alleging losses resulting from the termination of a portion of a contract and seeking damages of $6.8 million plus accrued interest and costs. Although the Court ruled in 1989 in favor of the Corporation on the determination of one major issue in dispute between the parties, as of March 31, 1990, the claim has not been fully resolved. Based on the advice of legal counsel, management is of the opinion that no provision for possible loss in respect of this matter is required.

(b) The Corporation has been named as defendant in a claim instituted in 1985, alleging losses resulting from a breach of contract by the Corporation and seeking damages of $876,000. Based on the advice of legal counsel, management is of the opinion that no provision for possible loss in respect of this matter is required.

(c) The Corporation has been named as respondent in proceedings commenced against it in 1987 in which a supplier claimed that the fee for service system implemented by the Corporation in 1986 did not apply to a transaction between this supplier and the Corporation. The Corporation is appealing the judgement of the Court of first instance rendered in early 1990 which, inter alia, granted this supplier's motion. If the findings of the Court were to be upheld by higher courts, an amount of approximately one million dollars could be claimed from the Corporation. Following a review of the reasons for the judgement of the Court and of the law by counsel, management is of the opinion that no provision for possible loss in respect of these proceedings is required.

5. Accounts receivable from foreign governments

As at March 31, 1990, the Corporation has provided $943,000 (1989—$959,000) to cover the possible non-collection of certain accounts receivable from foreign governments.

6. Parliamentary appropriation

For the fiscal year 1989-1990, Parliament approved an appropriation amount of $20,089,000 (1989—$18,651,000). The Corporation drew down $17,089,000 (1989—$15,297,000). The amount of the draw-down includes amounts due to government departments as at March 31, 1990 of $1,473,000 (1989—$2,096,000). As at March 31, 1990, funds to cover expenses of $1,814,000 (1989—$1,763,000) applicable to 1989-90 appropriation, had not been drawn down.

7. Payment to Government of Canada

During the year ended March 31, 1990, the Corporation approved the payment of $865,400 to the Government of Canada. The Corporation considered that this amount was not required for future operations. Subsequent to March 31, 1990, the Board of Directors approved a similar payment of $1,430,000 to the Gorvernment of Canada.

8. Services provided by the Government of Canada

(a) Supply and Services Canada

Supply and Services Canada provides contracting services to the Corporation at predetermined rates approved by Treasury Board, based on the amounts of contracts procured, and provides certain administrative functions at cost.

(b) Department of Justice

The Department of Justice represents the Corporation in certain matters. The Corporation pays for amounts billed by Justice related to legal fees and expenses incurred in connection with specific actions but not for general legal services.

CANADIAN COMMERCIAL CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

9. Insurance

The Corporation follows the practice of self insuring.

10. Commitments

Effective April 1986, the Corporation entered into a ten-year lease agreement for office space. The lease payments for the next five years, and in total, will approximate the following:

	(in thousands of dollars)
1991	961,000
1992	1,009,000
1993	1,059,000
1994	1,112,000
1995	1,168,000
	5,309,000

11. Comparitive figures

Certain 1989 figures have been reclassified to conform with the current year presentation.

CANADIAN DAIRY COMMISSION

THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED JULY 31, 1990
WERE NOT AVAILABLE AT DATE OF PRINTING

CANADIAN DAIRY COMMISSION—*Continued*

MANAGEMENT RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements of the Canadian Dairy Commission and all information in this annual report are the responsibility of management. The statements have been prepared in accordance with generally accepted accounting principles which have been consistently applied, using management's best estimates and judgements, where appropriate. Financial information presented elsewhere in the annual report is consistent with the statements.

In discharging its responsibility for financial reporting, management maintains and relies on financial and management control systems and practices which are designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. These controls and practices ensure the orderly conduct of business, the accuracy of accounting records, the timely preparation of reliable financial information and the adherence to Commission policies and statutory requirements.

The Audit Committee, which is made up of the Commission's three Commissioners, oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting. The Commission's external auditors and those conducting its internal audits have free access to the Audit Committee to discuss the results of their work and to express their concerns and opinions.

The financial statements have been audited by the Auditor General of Canada, the independent auditor for the Government of Canada.

AUDITOR'S REPORT

TO THE MINISTER OF AGRICULTURE

I have examined the balance sheet of the Canadian Dairy Commission as at July 31, 1989 and the statements of operations and financing by producer levies and the statement of dairy support program and costs financed by the Government of Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at July 31, 1989 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Commission that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canadian Dairy Commission Act and the by-laws of the Commission.

Total costs financed by the Government of Canada	287,510	290,246

The accompanying notes and schedule are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS
JULY 31, 1989

1. The Commission

The Canadian Dairy Commission (the "Commission") is an agent Crown corporation named in Part I, Schedule III to the Financial Administration Act and is not subject to the provisions of the Income Tax Act. The objectives of the Commission, as established by the Canadian Dairy Commission Act, are "to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality".

The Commission administers the dairy support program financed by the Government of Canada, under which it makes direct support payments to producers. In cooperation with the Canadian Milk Supply Management Committee (CMSMC), which it chairs, the Commission undertakes the management and administration of operations financed by producer levies.

The Commission purchases, at Canadian support prices, all butter and skim milk powder tendered to it. While most of the butter purchased by the Commission is later resold in the domestic market, most of the skim milk powder is in excess of domestic needs and is exported. The Commission sells production surplus to domestic requirements in the form of whole milk products, skim milk powder and butter on international markets at the prevailing world prices. Historically, these prices have usually been lower than Canadian support prices. The Commission also pays assistance to processors and exporters to assist them in disposing of dairy products directly.

2. Significant accounting policies

Foreign currency translation

Sales and receivables in foreign currencies are hedged by currency conversion agreements and are translated into Canadian dollars at the exchange rates provided therein.

Inventories

Inventories are valued at the lower of cost or estimated net realizable value.

Allowance for losses on disposal of surplus production

The Commission establishes an allowance for losses on disposal of surplus production by reference to its outstanding purchase commitments, actual butter inventory levels relative to the normal levels determined by the Commission and world market prices.

Excess of financing over net cost of operations

In accordance with the National Milk Marketing Plan, the treatment of any excess of financing by producer levies over the net cost of operations is determined by the Canadian Milk Supply Management Committee. Refunds are recorded in the year declared.

3. Financing

Government of Canada

The Agricultural Stabilization Board provides financing to the Commission for direct support payments to producers of industrial milk and cream (referred to as "subsidies to producers" in the 1989-90 Main Estimates) and for the carrying charges associated with skim milk powder. The Commission's administrative expenses and professional services relating to cost of production and other studies are financed by the Government of Canada.

CANADIAN DAIRY COMMISSION—*Continued*

NOTES TO FINANCIAL STATEMENTS

JULY 31, 1989—*Concluded*

As a result of the April 1989 Budget, effective August 1, 1989, the federal funding of the Commission's administrative expenses associated with the export of dairy products and of the carrying charges for skim milk powder will cease. In addition, the federal funding of $6.03 per standard hectolitre direct support payment on 1.1 million hectolitres of Special Export Program industrial milk production was discontinued on July 31, 1989.

Producers levies

Producers are responsible for all costs of operations not financed by the Government of Canada. These costs are financed through levies established by the CMSMC, charged and collected by the provincial marketing boards and agencies and remitted to the Commission.

Producer levies are comprised of:

	1989	1988
	(in thousands of dollars)	
Industrial milk		
In-quota levies	131,322	175,365
Over-quota levies	32,926	31,894
	164,248	207,259
Fluid milk	8,033	8,070
Total	172,281	215,329

Industrial milk levies include an amount to cover all eligible costs associated with normal butter inventory levels determined by the Commission. The excess (deficiency) of financing over these eligible costs for the year amounted to ($0.6) million (1988—$2.3 million). The cumulative excess at year end amounted to $2.9 million (1988—$3.5 million), and is included with the excess of financing over net cost of operations and will be applied to future eligible costs associated with normal butter inventory levels.

4. Inventories

Inventories are comprised as follows:

	1989	1988
	(in thousands of dollars)	
Cost		
Butter	91,229	62,930
Skim milk powder	67,032	22,598
Other dairy products	12,373	15,624
	170,634	101,152
Less allowance for write down		
Butter (unsalted only)	8,038	
Skim milk powder	15,294	10,292
Other dairy products	4,707	8,204
	28,039	18,496
Net book value	142,595	82,656

5. Loans from Government of Canada

Loans from Government of Canada, to a maximum of $300 million, are available to finance operations. There are no specific terms of repayment. Principal and accrued interest, however, are repaid on a regular basis as and when funds are available. The interest rates during the year varied from 8.995% to 12.888% (1988—7.231% to 9.478%).

Loan transactions for the year are summarized as follows:

	1989	1988
	(in thousands of dollars)	
Balance at beginning of year	87,363	85,166
Borrowings	278,222	279,684
Payments	(251,335)	(277,487)
Balance at end of year	114,250	87,363
Accrued interest at end of year	2,302	710

6. Representatives' fees

The Commission has used the services of representatives for the sale of dairy products on the export market. Their fees, which are included in cost of goods sold, are as follows:

	1989	1988
	(in thousands of dollars)	
Coopérative Fédérée de Québec, Canada	1,001	631
Intercontinental, Mexico	1,000	1,026
Gestion Y. Dessarrollo—Commercial S.A., Peru	259	557
Canada Expa (1980) Inc., Canada		4
Total	2,260	2,218

7. Purchase commitments

As at July 31, 1989, the Commission was committed to purchase butter and skim milk powder produced prior to that date at Canadian support prices and other dairy products produced prior to that date at negotiated contract prices. These commitments amounted to approximately $15.3 million (1988—$14.4 million).

8. Related party transactions

Included in export sales is an amount of $8.6 million (1988—$11.5 million) of sales to the Canadian International Development Agency. These sales were carried out in the normal course of business and at the Commission's established sales prices.

In addition, government departments provided the Commission with certain administrative services without charge.

9. Subsequent event

In accordance with the decision of the CMSMC at its meeting of September 26, 1989, the excess of financing as at July 31, 1989, excluding the cumulative excess of financing over all eligible costs associated with normal butter inventory levels of $2.9 million, will be refunded to the provinces.

10. Financial statement presentation

A statement of changes in financial position has not been included because, in the opinion of management, it would not provide any meaningful additional information. In addition, certain comparative amounts have been reclassified to conform with the presentation adopted in the current year.

CANADIAN FILM DEVELOPMENT CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the Canadian Film Development Corporation as at March 31, 1990 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with the Financial Administration Act and regulations, the Canadian Film Development Corporation Act and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and activities

The Corporation was established in 1967 by the Canadian Film Development Corporation Act with the objective of fostering and promoting the development of a feature film industry in Canada. The Corporation has since been charged with the administration of the Canadian Broadcast Program Development Fund, established on July 1, 1983, within the framework of the Broadcasting Strategy for Canada as well as with the management of various new programs established under the National Film and Video Policy of May 1984.

The Corporation is a Crown corporation subject to the provisions of Part VIII of the Financial Administration Act as it read before its repeal in 1984 and as if it continued to be named in Schedule C of the Act.

2. Significant accounting policies

(a) Liquidity

The financial operations of the Corporation are processed through the Consolidated Revenue Fund of Canada, thus the absence of bank accounts. For the purposes of the statement of changes in financial position, its liquidity consists of a parliamentary appropriation receivable.

(b) Loans

Loans are shown on the balance sheet at their face value, less an allowance for losses.

CANADIAN FILM DEVELOPMENT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(c) Investments

Funds advanced for feature films and Canadian programming, in return for a share in the proceeds, are expensed as assistance expenses in the year in which the funds are paid or have become payable.

All proceeds, up to the amount of the related investment, are credited to expenses as a reduction of assistance expenses made during the year. Any amount in excess thereof is accounted for as revenues.

(d) Fixed assets

Fixed assets are recorded at cost.

Depreciation is provided for, using the diminishing-balance method, at the annual rate of 30% for the automobile and 20% for the furniture and equipment and the computer installations. Leasehold improvements are amortized, using the straight-line method, based on the terms of the leases.

(e) Parliamentary appropriation

The parliamentary appropriation voted to the Corporation for its objectives comprises an amount for the development of a feature film industry which can be carried forward to future years up to the amount of unused film receipts and another lapsing amount for the production of Canadian programming. The unlapsed parliamentary appropriation is credited to the Equity of Canada. The admissible unlapsed amount not used at the end of the year is presented on the balance sheet as a parliamentary appropriation receivable.

(f) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(g) Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service and admissible past service are expensed during the year in which payments are made. The terms of payment for past service are set by the applicable purchase conditions in effect, generally over the number of years of service remaining prior to retirement.

3. Deposit with the Consolidated Revenue Fund and deposit payable

During the year, the Corporation received $21,200,000 from a private corporation for the creation of a fund which will be used to strengthen and improve the Canadian broadcasting system. The operational criteria of the fund as well as the involvement of the Corporation in its management have to be approved by the Canadian Radio-television and Telecommunications Commission (CRTC).

As at March 31, 1990, the CRTC had not yet rendered its decision. To this date, an amount of $21,793,780, representing capital and earned interest, has been deposited with the Receiver General for Canada. This amount is shown as short term asset and liability on the balance sheet.

4. Parliamentary appropriation receivable

CANADIAN FILM DEVELOPMENT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

8. Commitments

As at March 31, 1990, the Corporation is contractually committed to advance funds totalling $26,961,352 as loans and investments, of which $11,842,510 are for French projects and $15,118,842 are for English projects. Further, it has accepted financing projects that may call for disbursements of approximately $4,753,799 of which $1,735,085 are for French projects and $3,018,714 are for English projects.

The Corporation has entered into long-term leases for the rental of office space and equipment used in its operations. The aggregate minimum annual rentals payable during subsequent years are as follows:

	$
1991	1,825,477
1992	1,733,687
1993	1,824,601

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and operations

The Institute was established in 1984 under the Canadian Institute for International Peace and Security Act (the Act). The Institute is exempt from Divisions I to IV of Part X of the Financial Administration Act.

The purpose of the Institute is to increase knowledge and understanding of the issues relating to international peace and security from a Canadian perspective with particular emphasis on arms control, disarmament, defence and conflict resolution, and to:

(a) foster, fund and conduct research on matters relating to international peace and security;

(b) promote scholarship in matters relating to international peace and security;

(c) study and propose ideas and policies for the enhancement of international peace and security; and

(d) collect and disseminate information on, and encourage public discussion of, issues of international peace and security.

2. Significant accounting policies

These financial statements have been prepared in accordance with generally accepted accounting principles. The significant accounting policies followed are:

(a) Furniture, equipment and leasehold improvements

Furniture, equipment and leasehold improvements are recorded at cost. Furniture and equipment are depreciated on the straight-line basis at an annual rate of 20%. Leasehold improvements are amortized, using the straight-line method, based on the duration of the lease.

(b) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The Institute's contributions are equal to the contributions paid by its employees in respect of current services. These contributions represent the total liability of the Institute in respect of the pension plan and are recorded as expenses in the same period as the employees' services are rendered.

(c) Income taxes

The Institute is exempt from any income taxes.

(d) Parliamentary appropriation

Parliamentary appropriation is recorded in the accounts on an accrual basis. Furthermore, the Act states that the Institute shall be paid from the Consolidated Revenue Fund the sum of $5 million annually or such greater amount as may be appropriated by Parliament.

(e) Grants, awards and bursaries

Grants, awards and bursaries are charged to operations when the conditions of the agreement are met by the recipient.

Equipment	252,625	129,030	123,595	112,812
Leasehold improvements	5,073	564	4,509	
	586,540	340,236	246,304	272,899

4. Deferred rent compensation

Amount provided by new landlord to compensate for expenses to be incurred on previous leased premises during 1989-90 and 1990-91.

5. Commitments

(a) Office lease agreement

The total commitments for lease payments are estimated at $365,000 for each of the eight subsequent years. The lease agreement also calls for a pro rata share of occupancy costs of approximately $184,000 annually.

(b) Programmes

The Institute is committed to make payments totalling $1,218,900 in subsequent years ($1,184,900 in 1990-91) subject to compliance by the recipients with the terms of the agreements.

	1990	1989
	$	$
Research	344,000	547,000
Public programmes	156,900	210,100
Grants, awards and bursaries	714,500	515,300
Information services	3,500	30,000
	1,218,900	1,302,400

6. Comparative figures

The 1989 figures have been reclassified to conform to the statement presentation adopted in 1990.

* The additional balance of the Institute's total approved grants for 1989-90 is commited within the figures shown in the Notes to Financial Statements, section 5(b).

** For scheduling reasons, two Board of Directors' meetings fell within the 1988-89 fiscal year while four fell within 1989-90.

CANADIAN LIVESTOCK FEED BOARD

AUDITOR'S REPORT

TO THE CANADIAN LIVESTOCK FEED BOARD
AND THE
MINISTER OF AGRICULTURE

I have examined the balance sheet of the Canadian Livestock Feed Board as at March 31, 1990 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Board that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Livestock Feed Assistance Act and regulations and the by-laws of the Board.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and objectives

The Board, a Crown corporation named in Part I of Schedule III to the Financial Administration Act, was established in 1967 under the Livestock Feed Assistance Act with the objective of ensuring:

- — the availability of feed grain to meet the needs of livestock feeders;
- — the availability of adequate storage space in Eastern Canada for feed grain to meet the needs of livestock feeders; and
- — reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada, British Columbia, the Yukon Territory and the Northwest Territories.

2. Significant accounting policies

(a) Liquidity

The financial operations of the Board are processed through the Consolidated Revenue Fund of Canada, thus the absence of bank accounts. For the purposes of the statement of changes in financial position, the liquidity consists of parliamentary appropriations receivable or payable.

(b) Contributions

Feed freight assistance is charged to operations in the year in which shipments are made.

Write-offs or provisions for losses of amounts recoverable under the new inland elevator construction assistance program are charged to operations in the year in which collection is considered doubtful.

CANADIAN LIVESTOCK FEED BOARD—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

(c) Capital expenditures

Purchases of equipment, office furniture, vehicles and costs of office renovations are expensed in the year of acquisition.

(d) Parliamentary appropriations

Parliamentary appropriations are recorded in the statement of equity of Canada for the year to which they apply.

(e) Services provided without charge

An estimated amount for services provided without charge by a government department is included in expenses with an offset to the equity of Canada.

(f) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(g) Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

3. Amounts recoverable under the new inland elevator construction assistance program

Under the new inland elevator construction assistance program, the Board contributed towards certain construction costs. As at March 31, 1983, all contributions by the Board had been paid to operators of the elevators. These operators are called upon to reimburse, without interest, part of the contributions received. Reimbursements are based on stored quantities from the fourth to the tenth year of operation of the new facility without exceeding 40% of the contribution received.

As at March 31, 1990, the Board estimates that the amounts that will be recovered, net of a provision for losses, total $112,810 ($217,048 as at March 31, 1989). Because of the basis for the calculation of reimbursements, it is not possible to determine the amounts that will be recovered during each applicable year.

4. Bill C-73

Bill C-73 to provide for the dissolution or transfer of certain Crown corporations and to amend certain Acts in consequence thereof was tabled in the House of Commons for its first reading on May 31, 1990. This Bill provides for the dissolution of the Board and the execution of its mandate by the Minister of Agriculture.

CANADIAN NATIONAL RAILWAY SYSTEM

MANAGEMENT REPORT

The accompanying consolidated financial statements of Canadian National Railway System and all information in this annual report are the responsibility of management and have been approved by the board of directors.

The financial statements have been prepared by management in conformity with Canadian generally accepted accounting principles. These statements include some amounts that are based on best estimates and judgments. Financial information used elsewhere in the annual report is consistent with that in the financial statements.

Management of the Company, in furtherance of the integrity and objectivity of data in the financial statements, has developed and maintains a system of internal accounting controls and supports an extensive program of internal audits. Management believes that this system of internal accounting controls provides reasonable assurance that financial records are reliable and form a proper basis for preparation of financial statements and that assets are properly accounted for and safeguarded.

The board of directors carries out its responsibility for the financial statements in this report principally through its audit committee, consisting solely of outside directors. The audit committee reviews the Company's annual consolidated financial statements and recommends their approval by the board of directors. Also, the audit committee meets regularly with the Vice-President Internal Audit and with the Shareholder's Auditors, appointed by the Government of Canada.

These consolidated financial statements have been examined by the Shareholder's Auditors, Touche Ross, whose report is presented below.

Yvon H. Masse
Senior Vice-President and Chief Financial Officer

AUDITORS' REPORT

TO THE MINISTER OF TRANSPORT

We have examined the consolidated balance sheets of the Canadian National Railway System as at December 31, 1989 and 1988 and the consolidated statements of income, retained earnings and changes in financial position for each of the years in the three-year period ended December 31, 1989. Our examinations were made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the System as at December 31, 1989 and 1988 and the results of its operations and the changes in its financial position for each of the years in the three-year period ended December 31, 1989 in accordance with generally accepted accounting principles applied on a consistent basis.

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of significant accounting policies

Introduction

All references in these Notes to the "Company" refer to Canadian National Railway Company which is wholly-owned by the Government of Canada and, unless the context otherwise requires, its consolidated subsidiaries, and all references to the "System" mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway, telecommunications and other property entrusted by the Government of Canada to the Company for management and operation.

(a) Principles of consolidation

The consolidated financial statements include the accounts of all significant subsidiaries and, prior to its disposal in 1988, included the Company's share of the assets, liabilities and income of CNCP Telecommunications which was accounted for by the proportionate consolidation method. Also, consistent with the legislation governing the System, the accounts of the Canadian Government Railways entrusted to the Company by the Government of Canada are included in the consolidated financial statements.

Once a formal plan for the disposition of a significant segment has been adopted, the segment is no longer consolidated but reported under the equity method and included in "Investments" in the consolidated financial statements. The related operating results are reported as results of discontinued operations.

Investments in entities in which the Company has less than a majority interest are accounted for by the equity method, where appropriate.

(b) Reporting by division

In presenting the results by division, interdivisional charges for services have not been eliminated. Consolidated net income is not affected by this practice.

(c) Material and supplies

The inventory is valued at laid down cost based on weighted average cost for ties and rails, latest invoice price for fuel and new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

(d) Insurance fund

Certain System components are self-insured for various risks, with a separately-invested fund being maintained. The provision for insurance represents the estimated amount of self-insured losses to be settled.

(e) Properties

Accounting for railway and telecommunications properties is carried out in accordance with rules issued by the National Transportation Agency of Canada and the Canadian Radio-television and Telecommunications Commission respectively (Canadian properties), and the Interstate Commerce Commission (United States properties). Generally, major additions and replacements are capitalized and interest costs are charged to expense.

The cost of depreciable railway and telecommunications assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation. Other depreciable assets retired or disposed of are accounted for in accordance with the unit plan whereby gains or losses are taken into income as they occur.

The Company follows the successful efforts method of accounting for its oil and gas operations whereby the acquisition costs of oil and gas properties, the costs of successful exploratory wells and the costs of drilling and equipping development wells are capitalized.

CN Real Estate's properties are stated at cost. Carrying costs of properties under development are capitalized. Such costs include real estate taxes, insurance, interest and other expenses directly related to the development activity.

(f) Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis. For railway and telecommunications properties, rates are authorized by the National Transportation Agency of Canada, the Canadian Radio-television and Telecommunications Commission and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

	Annual Rate
Ties	2.71%-2.73%
Rails	1.93%
Other track material	2.23%-2.83%
Ballast	3.27%
Road locomotives	4.30%
Freight cars	1.73%-3.18%

Acquisition costs of oil and gas properties are amortized on a straight-line basis over the term of the lease until such time as the properties are determined to be productive or judged to be impaired. Acquisition costs of productive properties and costs of successful exploratory drilling and of drilling and equipping development wells are charged against income on the unit-of-production method based upon proven reserves of oil and gas. Exploratory dry hole and acquisition costs judged to be impaired are charged against income in the current period. Other exploratory expenditures are charged against income as incurred.

CN Real Estate assets are depreciated using the straight-line method calculated over the estimated economic life of the asset.

(g) Revenues

Transportation: Revenues are generally recognized on completion of movements, with interline movements being treated as complete when the shipment is turned over to the connecting carrier. Costs associated with movements not completed are deferred.

Real estate: Rental revenues are recognized as earned. Revenues from disposition of properties are recognized on completion of the sale. The share of income from joint ventures is recognized on an equity basis and reported as Other income.

(h) Pensions

Pension costs are determined periodically by independent actuaries. Pension expense is charged annually to operations and comprises the total of the following:

— the cost of pension benefits provided in exchange for employees' services rendered during the year, and

— amortization of past service costs over the expected average remaining service life of the employee group covered by the plans.

The pension plans are funded through contributions determined in accordance with the accrued benefit actuarial cost method.

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(i) Foreign exchange

The Company's foreign operations are classified as integrated and are translated and accounted for on the following bases. Current assets (excluding material and supplies), current liabilities and long-term debt are translated at the rates in effect at the balance sheet date, whereas all other assets and liabilities are translated at historical rates. Revenues and expenses are translated at average rates during the year except for depreciation which is translated at exchange rates prevailing when the related properties were acquired.

The Company's own foreign denominated assets and liabilities are accorded similar treatment. Revenues and expenses are translated at rates prevailing at the time of the transactions except for revenues designated as a hedge against repayment of foreign denominated long-term debt which are translated at the rate in effect at the inception of the debt.

Currency gains and losses are reflected in net income for the year, except for unrealized foreign currency losses on long-term debt. The Company has designated future U.S. dollar revenue streams as a hedge against the repayment of most of its long-term debt denominated in U.S. dollars, and has thus deferred reflecting the related unrealized foreign currency translation losses in net income until the earlier of the debt repayment or the expiry of the hedge. Unrealized foreign currency losses related to long-term debt denominated in U.S. dollars not covered by the hedge are deferred and amortized over the remaining life of the debt. Such deferred amounts are included in the Consolidated Balance Sheet as part of Other Assets and Deferred Charges.

(j) Leases

Leases which satisfy the criteria for capital leases and which have been entered into after 1981 have been capitalized. Other leases entered into prior to 1982, satisfying the criteria for capital leases, have been recorded as operating leases.

2. Discontinued operations

Details of discontinued operations are as follows:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
TerraTransport		(29,277)	(41,336)
CN Communications		12,362	21,935
CN Hotels		(9,137)	(13,113)
Dockyard			1,368
		(26,052)	(31,146)

3. Extraordinary items

During 1988 the Company disposed of CN Hotels, the two subsidiary telephone companies and CNCP Telecommunications, with the latter sale including Telecommunications Terminal Systems. The Dockyard was disposed of in 1987.

Asset write-downs to reflect impairments also occurred affecting CNCP Telecommunications in 1988 and TerraTransport in 1987.

TerraTransport incurred closure costs in 1988.

The financial effect of these transactions, their effect on the Company's income tax position and the reduction in income taxes on application of prior years' losses are as follows:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Net gain on disposal of business units		285,113	4,900
Less related income tax effect		(114,958)	(2,381)
		170,155	2,519
Loss on write-down of assets		(62,683)	(43,075)
Less related income tax effect		28,051	20,933
		(34,632)	(22,142)
Closure cost of discontinued operations		(92,300)	
Less related income tax effect		41,304	
		(50,996)	
Reduction in income taxes on application of prior years' losses	39,210	141,057	56,364
	39,210	225,584	36,741

4. Investments

	Percentage of Voting Interest	December 31 1989	December 31 1988
		(in thousands of dollars)	
Entities accounted for by equity method			
CNCP Niagara-Detroit Partnership	50%	17,766	20,141
The Toronto Terminals Railway Company	50%	10,682	10,682
Other		36,494	18,594
		64,942	49,417
Other companies and investments, at cost less provisions for impairment where applicable		41,553	26,671
Total		106,495	76,088

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(a) The Company borrowed $70.0 million at an all-in cost of 10.25% by means of a Euro-yen public note issue and a currency swap.

(b) The Company borrowed $98.6 million at an all-inclusive cost of 11.17% by means of a public bond issue in Switzerland and a currency swap.

(c) The Government of Canada loan bears interest at 8 3/4% per annum and is payable in equal semi-annual payments of $13.63 million covering principal and interest to June 30, 1998.

(d) Secured by rolling stock and payable by semi-annual or quarterly instalments over various periods to 2000 at interest rates ranging from 8 1/2% to 17 3/4%. As at December 31, 1989, the principal amounts are payable as U.S. $77.1 million and Canadian $14.4 million (December 31, 1988—U.S. $101.0 million).

(e) The Company borrowed $42.6 million at an all-inclusive cost of 11.535% by means of a yen syndicated loan and currency swap.

(f) Interest rates for these leases range from approximately 7 7/8% to 14 1/2% with expiry dates occurring during the years 1990 through 2004. The imputed interest on these leases amounts to $79.0 million (1988—$92.6 million).

(g) Certain of the Company's long-term debt is considered to be extinguished as a result of the Company's having placed in irrevocable trusts, government securities sufficient to satisfy the interest and maturing principal requirements of the specific debt obligations involved.

(h) Principal repayments, including sinking fund repayments, repurchase arrangements and capital lease repayments, on debt outstanding at December 31, 1989, are as follows:

	Year ending December 31
	(in thousands of dollars)
1990	59,990
1991	70,096
1992	58,455
1993	164,572
1994	166,303
1995-1999	608,680
2000-2004	558,337
2005-2009	167,611
2010-2015	71,205

7. Shareholder's Equity

(a) Capital stock

The capital stock of Canadian National Railway Company, $2,278,866,774, consists of 5,868,786 common shares of no par value authorized, issued and outstanding which are owned by the Government of Canada.

(b) Retained earnings

Under its governing legislation, the Company is required to pay to the Receiver General for Canada a dividend equal to 20% of net income for the year of such greater percentage as the Governor in Council may direct. Accordingly, a dividend representing 20% of the net income for the year, has been accrued and is included in Other Current Liabilities as is the dividend pertaining to 1988 net income. The dividends accrued on 1985 and 1987 income, which had not yet been paid, were reversed and transferred to retained earnings in 1988 on the basis of a Treasury Board of Canada decision dated December 15, 1988.

8. Major commitments

(a) Leases

(i) The Company's commitments as at December 31, 1989, under leases, excluding those which have been capitalized and for which the lease obligations are recorded as long-term debt (see Note 6), are as follows:

	Pre-1982 Capital Leases	Operating Leases
	Year ending December 31	
Non-cancellable leases	(in thousands of dollars)	
1990	13,002	113,127
1991	5,609	109,303
1992	4,212	103,683
1993	1,959	104,984
1994	1,501	101,309
1995-1999	4,596	422,052
2000-2004	1,891	309,486
Thereafter		90,853
Total minimum lease payments	32,770	1,354,797
Less amount representing imputed interest	7,625	
Present value of net minimum lease payments under capital leases	25,145	

A significant portion of the leases is in respect of railway rolling stock and many of them provide renewal options and an option to purchase the property at fair market value at the end of the lease terms.

(ii) Rental expenses under all lease arrangements which have not been capitalized were:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Total expenses	140,628	154,719	173,329
Expenses under pre-1982 capital leases included in total expenses	28,027	35,506	43,188

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(iii) Increases in income, assets and liabilities in the consolidated financial statements, which would have arisen if leases entered into prior to 1982 and which satisfied the criteria for capital leases had been capitalized, are as follows:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Net increase in income	9,969	11,810	13,132
Increase in assets			
Properties			
Leased properties under capital leases	136,675	241,538	246,280
Less accumulated amortization	117,555	210,335	199,660
	19,120	31,203	46,620
Other assets and deferred charges			
Unamortized deferred exchange loss	813	3,671	10,172
	19,933	34,874	56,792
Increase in current liabilities			
Present value of obligations under capital leases	10,735	25,964	30,900
Increase in non-current liabilities			
Present value of obligations under capital leases	24,093	47,216	73,726
Adjustment to current exchange rate (see Note 1 (i))	1,052	3,925	11,456
	25,145	51,141	85,182
Less current portion	10,734	25,964	30,900
	14,411	25,177	54,282

(b) Other

The Company has commitments at December 31, 1989, for capital expenditures of $21.8 million for railway ties and $12.7 million for rail. In addition, the Company at that date was committed to suppliers for new locomotives having a value of $59.7 million, expected to be obtained under lease arrangements.

9. Subsidies

Revenues include the following subsidies:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Government of Canada			
(a) Payments under the Railway Act paid under authority of that Act and the related Appropriation Act in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to maintain	32,818	48,854	37,661
(b) Maritime Freight Rates Act and Atlantic Region Freight Assistance Act subsidies	17,381	19,971	18,520
(c) Sundry	548	2,510	1,884
Other assistance		391	134
	50,747	71,726	58,199

10. Pensions

The Company has retirement benefit plans covering substantially all its employees under which they are entitled to benefits at retirement age generally based on compensation and length of service and/or contributions.

The actuarial valuations as at December 31, 1988, revealed a consolidated actuarial liability of $6.7 billion and a consolidated actuarial asset value of $5.9 billion. It is estimated that those amounts could approximate $7.0 billion and $6.5 billion respectively as at December 31, 1989. Subsequent actuarial valuations will determine the actual values at that date.

Annual pension costs were:

Year ended December 31		
1989	1988	1987
(in thousands of dollars)		
156,552	165,784	200,731

11. System interest expense

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Interest			
Total interest on long-term debt	214,272	318,297	367,142
Interest on short-term borrowings	217	2,431	7,175
Interest income	(15,332)	(20,269)	(2,435)
	199,157	300,459	371,882

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

12. Income taxes:

(a) The Company's provision for income taxes is made up as follows:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Provision for income taxes based on combined basic Canadian federal and provincial tax rate for 1989 of 40.8% (1988—44.7%, 1987—48.6%)	104,870	70,206	77,701
Increase (decrease) in taxes resulting from:			
Non-allowable portion of capital loss on early extinguishment of debt		17,670	
Capital losses not allowed for current year		12,726	
Non-allowable foreign exchange loss on conditional sale agreements	414	686	1,347
Profit on sale of land	(22,858)	(6,060)	(6,785)
Federal large corporations tax	4,000		
Other	3,815	4,575	3,775
Actual provision for income taxes resulting in an effective tax rate for 1989 of 35.1% (1988—63.6%, 1987—47.6%)	90,241	99,803	76,038

(b) The following provides a summary of income tax balances:

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)		
Annual provision	90,241	99,803	76,038
Extraordinary items			
Disposal of business units		114,958	2,381
Writedown of assets		(28,051)	(20,933)
Closure of discontinued operation		(41,304)	
Application of prior years' losses	(39,210)	(141,057)	(56,364)
Net tax expense	51,031	4,349	1,122
Payable in current year	6,461	4,349	1,122
Deferred to future years	44,570		

Deferred income taxes result primarily from the difference between capital cost allowance claimed for income tax and depreciation recorded for accounting purposes.

(c) Investment tax credits are also available to reduce future income taxes otherwise payable until the related year of expiry:

Year of expiry	(in millions of dollars)
1993	25.9
1994	33.9
1995	29.7
1996	18.9
1997	14.0
1998	9.0

13. Segmented information

(a) Geographic areas

Virtually all of the System's operations and assets are within Canada with the exception of Grand Trunk Corporation which operates in the United States.

(b) International traffic

In addition to the revenue generated by Grand Trunk Corporation, the System derives revenue from traffic originating or terminating on railroads in the United States. In 1989, such revenues approximated $622 million (1988—$668 million, 1987—$612 million).

(c) Revenues by division

	Year ended December 31		
	1989	1988	1987
	(in thousands of dollars)

* Represents additions to properties.

14. Other matters

(a) The Company carries on ordinary business transactions with various entities controlled by the Government of Canada on the same terms and conditions as current transactions with unrelated parties.

In addition, the Company provides, under contractual arrangements, rail transportation and maintenance services to the Government of Canada and to entities controlled by the latter. The revenue derived from such services rendered in 1989 aggregated $101.5 million (1988—$103.3 million, 1987—$148.2 million).

(b) Following enactment of the Western Grain Transportation Act, which became effective on January 1, 1984, the Government of Canada, in order to minimize the cost to grain shippers, pays a portion of the cost of shipping grain. Amounts received from the Government of Canada under the Western Grain Transportation Act amounted to $332.6 million in 1989 (1988—$416.0 million, 1987—$435.3 million), a reflection of the volume of grain handled.

(c) Commencing in 1977, the Government of Canada has agreed to pay to the Company, by way of capital grants not exceeding $557.9 million, certain amounts with respect to expenditures incurred in carrying out rehabilitation programs for branch lines in Western Canada. Total payments received up to December 31, 1989, amounted to $469.8 million of which $0.5 million was received in 1989 (1988—$12.3 million, 1987—$25.6 million).

15. Reclassification of comparative figures

During 1989, changes were made to improve the classification of certain items and for comparative purposes the 1988 and 1987 figures have been reclassified.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS LTD.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of Canadian National (West Indies) Steamships Ltd. as at December 31, 1989 and the statement of income and retained earnings for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the corporation as at December 31, 1989 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act and the by-laws of the corporation.

Raymond Dubois, F.C.A.

Retained earnings at end of the year	1,154,342	1,010,289

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1989

1. Authority and activities

Canadian National (West Indies) Steamships Ltd. was incorporated in 1927 under the Dominion Companies Act and continued under the Canada Business Corporations Act. It is a parent Crown corporation named in Schedule III Part I to the Financial Administration Act. It ceased all active operations in 1957, at which time it sold its fleet of eight vessels to Cuban interests.

On October 29, 1985, Parliament passed the Crown Corporations Dissolution Authorization Act which authorized the Minister of Finance to dissolve the corporation.

An assignment has been prepared in which the corporation transfers to Her Majesty in Right of Canada all its rights and interests in, to or arising out of the letter of credit referred to in Note 2 below. However, this document has not yet been executed since the consent from BankAmerica International to this assignment and their acknowledgement that payment under the letter of credit will be made to Her Majesty in Right of Canada, have not yet been received.

Accordingly, the corporation remains to be dissolved and as such the blocked funds are still recorded as an asset of the corporation.

The dissolution process will be completed when the consent and acknowledgement are received from BankAmerica International.

2. Blocked funds

The final instalment of $470,400 on the sale of the eight vessels to Cuban interests was due to be paid on August 19, 1963 by an irrevocable letter of credit issued through BankAmerica International (then known as Bank of America). However, on July 3, 1963, the United States Cuban Assets Control Regulations became effective and prohibited the Bank from honouring payment of the draft. Amendments to the Regulations, effective March 2, 1979 required blocked funds to be held in an interest-bearing account. At December 31, 1989, accrued interest amounted to $929,375 (1988—$782,509).

Since 1984, the BankAmerica International has withheld 15% of interest earned on the funds blocked at the Bank by the Cuban Asset Regulations as a tax on non-resident earnings. To date $106,201 has been withheld including interest on the withheld funds of $28,167. In management's opinion, the tax exempt status of the corporation is preserved in the United States by the Tax Convention of 1980, as amended. Therefore, amounts withheld and the interest forgone thereupon have been included in income and assets and accordingly no liability recorded.

Negotiations to recover the blocked funds have been unsuccessful and all legal proceedings have been suspended until the U.S. Regulations are repealed.

3. Matured bonds—Unclaimed

The matured bonds have been unclaimed since March 1, 1955 and as a result of the statute of limitations there is no legal obligation to redeem them. However, the corporation intends to honour any of the outstanding bonds should they be presented.

4. Due to Canada

The advances from Canada bear no interest and are repayable when the blocked funds are received.

CANADIAN PATENTS AND DEVELOPMENT LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF INDUSTRY, SCIENCE AND TECHNOLOGY

I have examined the balance sheet of Canadian Patents and Development Limited as at March 31, 1990 and the statements of operations and surplus and changes in cash resources for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act and by-laws of the Corporation.

Raymond Dubois, F.C.A.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and operations

Canadian Patents and Development Limited is a Crown corporation named in Part I of Schedule III to the Financial Administration Act and is incorporated under the Canada Business Corporations Act. The Corporation was established to make available to the public, through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Corporation receives and processes industrial and intellectual property under arrangements with federal government departments, Crown corporations and agencies, universities, and other publicly-financed institutions. Suitable protection is sought in Canada and other countries for such property in instances where there is a promise of commercial use. In respect of money received from the exploitation of such property, the Corporation pays awards to public servants under the Public Servants Inventions Act and makes payments to other originators of such property in accordance with the agreements entered into with them.

2. Significant accounting policies

Industrial and intellectual property rights

Industrial and intellectual property rights are recorded at a nominal value of $1. The net cost of acquisition, protection and maintenance of industrial and intellectual property rights is charged to operations as incurred.

CANADIAN PATENTS AND DEVELOPMENT LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

Furniture and equipment

Furniture and equipment are recorded at a nominal value of $1. The cost of these items are charged to operations in the year of aquisition. Proceeds resulting from the sale of these items are credited to revenue in the year of disposal.

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded as the benefits accrue to the employees.

Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. The Corporation's contributions to the cost of the Plan under present legislation are limited to an amount equal to the employees' contributions on account of current service. These contributions represent the total pension obligations of the Corporation and are recognized in the accounts on a current basis. The Corporation is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account or with respect to charges to the Consolidated Revenue Fund for indexation payments under the Supplementary Retirement Benefits Act.

3. Industrial and intellectual property rights

The accumulated cost of current inventory of unexpired patent and other rights in respect of industrial and intellectual property amounts to $5,000,953 (1989—$4,435,892).

4. Furniture and equipment

During the year experimental equipment was sold. The proceeds of $43,882 were credited to miscellaneous revenue.

5. Industrial and intellectual property agents' fees and related expenses, for obtaining and maintaining proprietary protection

	1990	1989
	$	$
Fees and related expenses	718,143	797,318
Less: recoveries	258,910	234,115
	459,233	563,203

6. Lease commitments

Under a lease agreement dated August 24, 1988 the Corporation pays an annual rent of $172,338 for accommodation. The period covered by this agreement is November 1, 1988 to October 31, 1993. The terms of the lease also require payment of certain operating costs over the lease period.

7. Subsequent Events

In April 1990, the Corporation was named in a claim for damages and costs allegedly sustained for loss of employment. The outcome of this action cannot be determined at this time.

On May 31 1990, Bill C-73, relating to the dissolution or transfer of certain Crown corporations, was introduced in the House of Commons. If passed, it would authorize the Minister of Industry, Science and Technology to procure the dissolution of the Corporation.

CANADIAN SALTFISH CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Canadian Saltfish Corporation as at March 31, 1990 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Saltfish Act and the bylaws of the Corporation, except for the following activities: involvement in frozen fish products described in Notes 1 and 4; the provision of loans described in Note 5; and the liability incurred as a result of the guarantee of bank loans described in Note 8. In my opinion, these activities are not within the powers of the Corporation under the Saltfish Act.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority, objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in 1970, to improve the earnings of the primary producers of cured codfish. The Corporation is an agent Crown corporation of Canada without share capital, named in Part I of Schedule III to the Financial Administration Act and is required to conduct its operations on a self-sustaining financial basis. The Corporation is dependent on the Government of Canada for working capital and capital asset loans and is not subject to income taxes.

The Corporation has the exclusive right to trade in and market cured codfish and its by-products in the Province of Newfoundland and the Lower North Shore of Quebec and is required to buy all cured codfish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through its own facilities or by agents and is subsequently marketed by the Corporation, primarily to foreign countries.

CANADIAN SALTFISH CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

Frozen fish products

The Corporation markets frozen fish products under contractual arrangements with a number of companies. Under these agreements, the Corporation may make advances based on the projected market value to the producer. The balance of the market value received by the producing company is determined by the ultimate selling price and all related expenses. The Corporation also is involved in the role of marketing frozen fish products (traded fish) on behalf of independent producing companies. For providing these services the Corporation recovers its direct costs, certain overhead expenses and charges interest on advances.

To secure the Corporation's position against any possible third party claims against the producer, the Corporation takes title to the product when it leaves the plant. These transactions are recorded as sales and cost of goods sold in the statement of operations. The agreement with the producing company attributes any gain or loss on the ultimate sale of the product to the producer.

The total frozen fish sales that the Corporation was involved in marketing are as follows:

	1990	1989
	$	$
Frozen fish products	7,867,248	24,396,724
Traded frozen fish products	14,319	591,774
	7,881,567	24,988,498

During 1989-90, the Corporation ceased providing advances and marketing services for frozen fish products.

2. Significant accounting policies

Depreciation

Depreciation is calculated on the straight-line method and is based on the estimated useful lives of the assets as follows:

Buildings	20 years
Equipment	3 to 10 years
Furniture and fixtures	5 years

Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Revenues and expenses are translated at the rate of exchange prevailing on the transaction date. The resulting foreign currency translation gains and losses are included in the results of operations.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Corporation. Contributions with respect to current services are expensed on a current basis.

Employee termination benefits

Employees are entitled to specific benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

3. Inventories

	1990	1989
	$	$
Saltfish, at lower of cost and net realizable value	2,971,452	5,561,767
Packages and supplies, at cost	504,593	672,830
Salt, at cost	363,315	192,892
	3,839,360	6,427,489
Frozen fish, at lower of cost and net realizable value		1,402,180
	3,839,360	7,829,669

4. Advances to frozen fish producers

This account consists of the remaining balance of working capital advances to frozen fish producers. (See Note 9).

5. Long-term loans receivable

This account consists primarily of loans to fish producers to acquire and refurbish fishing vessels and to acquire production equipment. Under the various agreements and arrangements, the Corporation and certain of its agents have been assured a long-term source of supply of larger sized codfish. The repayment terms require the payment of interest at terms ranging from the Bank of Canada rate plus 1% to the Royal Bank of Canada prime rate plus 1%. The loans are secured by mortgages on the vessels and other assets. (See Note 9).

6. Fixed assets

	1990			1989
	Cost	Accumulated depreciation	Net book value	Net book value
	$	$	$	$
Land	79,095		79,095	77,274
Buildings	1,343,538	681,982	661,556	726,528
Equipment	3,606,786	2,179,018	1,427,768	1,074,375
Furniture and fixtures	516,585	205,476	311,109	91,993
	5,546,004	3,066,476	2,479,528	1,970,170

7. Loans from Canada

Working capital loans are interest bearing (based upon current rates as set by the Bank of Canada) and are repayable within one year.

The $1,000,000 capital asset loan, received on March 30, 1990, is repayable in 10 yearly instalments and has an interest rate of 10.94 %.

Total loans outstanding from Canada and banks shall not exceed $50 million.

8. Loan guarantees

As disclosed in prior years, the Corporation has guaranteed certain bank loans of a fish producer. During 1989-90, the fish producer defaulted on repayment of these bank loans. As of March 31, 1990, approximately $4.9 million, representing the Corporation's liability under this guarantee has been provided in these financial statements and is included in the bad debts expense in the statement of operations. (See Note 9).

CANADIAN SALTFISH CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

9. Bad debts

The Corporation has trade and other receivables, advances and loans outstanding from processors, agents and customers. A group of companies that is a major debtor to the Corporation went into receivership during the year. The majority of the bad debts expense is related to deficiencies in the estimated net realizable values of assets held as security from this group of companies. In addition, the Corporation has provided a general allowance in recognition of management's uncertainty of collecting the full amounts of receivables, advances and loans outstanding.

10. Economic relationship

The Corporation had significant transactions with a group of companies sharing common ownership. During the year, 28% (1989—$46%) of saltfish sales at commercial rates were made to members of this group of companies. In addition, 92% (1989—44%) of frozen fish transactions were made on behalf of members of this group of companies.

As at March 31, 1990 the Corporation had loans, advances and receivables totalling approximately $15 million from this group of companies against which $13.8 million has been provided. (See Note 9).

11. Related party transactions

The Corporation sold approximately $5,700,000 (1989—$3,800,000) of saltfish products to the Canadian International Development Agency. These transactions were in the normal course of business and at regular commercial rates.

During the year, the Corporation operated a fishermen's service facility at Punchbowl, Labrador on behalf of the Department of Fisheries and Oceans for a nominal annual consideration. Under the terms of the contract, the Corporation is to provide and maintain a fish purchasing and processing station and certain facilities for the fishermen during the regular fishing season.

12. Remuneration to foreign sales agents

During the year $87,902 (1989—$60,673) was paid to fourteen foreign sales agents with whom the Corporation has commission agents' agreements. For reasons of commercial confidentiality, the Corporation does not publish the names of its foreign sales agents.

13. Subsequent event

On July 27, 1990, the Government of Canada authorized the provision of financial assistance to the Corporation. The assistance will permit the Corporation to continue operations within its $50 million authorized borrowing limit during 1990-91.

14. Comparative figures

Certain of the 1989 comparative figures have been reclassified to conform to the current year's presentation.

AUDITOR'S REPORT

TO THE MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Canadian Saltfish Corporation as at March 31, 1989 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Saltfish Act and the bylaws of the Corporation, except for the following activities: involvement in frozen fish products described in Notes 1 and 4; the provision of loans described in Note 5; and the guarantee of bank loans described in Note 8(i). In my opinion, these activities are not within the powers of the Corporation under the Saltfish Act.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

Ottawa, Canada
November 8, 1989

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1989

1. Authority, objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in 1970, to improve the earnings of the primary producers of cured codfish. The Corporation is an agent Crown corporation of Canada without share capital, named in Part I of Schedule III to the Financial Administration Act and is required to conduct its operations on a self-sustaining financial basis. The Corporation is dependent on the Government of Canada for working capital and capital asset loans and is not subject to income taxes.

The Corporation has the exclusive right to trade in and market cured codfish and its by-products in the Province of Newfoundland and the Lower North Shore of Quebec and is required to buy all cured codfish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through its own facilities or by agents and is subsequently marketed by the Corporation, primarily to foreign countries.

CANADIAN SALTFISH CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1989—*Continued*

Frozen fish products

The Corporation markets frozen fish products under contractual arrangements with a number of companies. Under these agreements, the Corporation may make advances based on the projected market value to the producer. The balance of the market value received by the producing company is determined by the ultimate selling price and all related expenses. The Corporation also is involved in the role of marketing frozen fish products (traded fish) on behalf of independent producing companies. For providing these services the Corporation recovers its direct costs, certain overhead expenses and charges interest on advances.

To secure the Corporation's position against any possible third party claims against the producer, the Corporation takes title to the product when it leaves the plant. These transactions are recorded as sales and cost of goods sold in the statement of operations. The agreement with the producing company attributes any gain or loss on the ultimate sale of the product to the producer.

The total frozen fish sales that the Corporation was involved in marketing are as follows:

	1989	1988
	$	$
Frozen fish products	24,396,724	32,084,990
Traded frozen fish products	591,774	305,812
	24,988,498	32,390,802

2. Significant accounting policies

Depreciation

Depreciation is calculated on the straight-line method and is based on the estimated useful lives of the assets as follows:

Buildings	20 years
Equipment	3 to 10 years
Furniture and fixtures	5 years

Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Revenues and expenses are translated at the rate of exchange prevailing on the transaction date. The resulting foreign currency translation gains and losses are included in the results of operations.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Corporation. Contributions with respect to current services are expensed on a current basis.

Employee termination benefits

Employees are entitled to specific benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

3. Inventories

	1989	1988
	$	$
Saltfish, at lower of cost and net realizable value	5,561,767	3,435,777
Packages and supplies, at cost	672,830	668,329
Salt, at cost	192,892	192,376
	6,427,489	4,296,482
Frozen fish, at lower of cost and net realizable value	1,402,180	1,890,332
	7,829,669	6,186,814

4. Advances to frozen fish producers

This account consists of working capital advances to frozen fish producers. The Corporation has a mortgage on plant and equipment to secure a portion of these advances.

5. Long-term loans receivable

This account consists primarily of loans to fish producers to acquire and refurbish fishing vessels and to acquire production equipment. Under the various agreements and arrangements, the Corporation and certain of its agents have been assured a source of supply of larger sized codfish for at least the next five years (see Note 8(i)). The repayment terms require the payment of interest at terms ranging from the Bank of Canada rate plus 1% to the Royal Bank of Canada prime rate plus 1%. The loans are secured by mortgages on the vessels and other assets (see Note 9).

6. Fixed assets

	1989			1988
	Cost	Accumulated depreciation	Net book value	Net book value
	$	$	$	$
Land	77,274		77,274	117,274
Buildings	1,318,010	591,482	726,528	692,770
Equipment	2,936,520	1,862,145	1,074,375	749,243
Furniture and fixtures	298,599	206,606	91,993	94,910
	4,630,403	2,660,233	1,970,170	1,654,197

7. Loans from Canada

Working capital loans are interest bearing (based upon current rates as set by the Bank of Canada) and are repayable within one year.

The remaining balance of capital asset loans was repaid during the year.

Total loans outstanding from Canada and banks shall not exceed $50 million.

8. Commitments and contingencies

(i) Loan guarantees

The Corporation has guaranteed bank loans of a fish producer in the amount of $4,534,000 as at March 31,1989 ($3,720,000 as at March 31, 1988). The loans were used to finance the construction and refurbishing of fishing vessels.

The loan guarantees are secured by mortgages on vessels owned or controlled by the fish producer and its affiliated companies (see Note 9).

CANADIAN SALTFISH CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1989—*Concluded*

(ii) Operating lease

During the year, the Corporation operated a fishermen's service facility at Punchbowl, Labrador on behalf of the Department of Fisheries and Oceans for a nominal annual consideration. This was the second year of operation under the terms of a five year contract.

Under the terms of the contract, the Corporation is to provide and maintain a fish purchasing and processing station and certain facilities for the fishermen during the regular fishing season.

(iii) Legal action

The Corporation, other segments of the Canadian saltfish industry and certain Puerto Rican importers have been named in an anti-trust action. Subsequent to March 31, 1989 a tentative settlement was reached in this action. Any costs as a result of this settlement will be recognized in the 1989-90 financial statements.

9. Bad debt allowance

(i) 1988-89

The Corporation has trade and other receivables, advances, loan guarantees and loans outstanding from processors, agents and customers. Due to the recent general downturn in the fishing industry in Atlantic Canada, management is uncertain of collection of the full amounts. The net realizable values of the underlying collateral securities held by the Corporation may have deteriorated since registration. Accordingly, an allowance of $4.6 million has been provided.

(ii) 1987-88

An additional allowance on a receivable, outstanding since 1984, was provided to recognize the uncertainty of collection of the full balance of the receivable.

10. Economic relationship

The Corporation had significant transactions with a group of companies sharing common ownership. During the year, 46% of saltfish sales at commercial rates were made to members of this group of companies. In addition, 44% of frozen fish transactions were made on behalf of members of this group of companies.

As at March 31, 1989 the Corporation had loans, advances and receivables totalling $8.8 million from this group of companies and has guaranteed bank loans of $4,534,000 of one of these companies.

Subsequent to March 31, 1989, in accordance with contractual obligations, the Corporation continued to provide loans and advances to this group of companies. As of October 31, 1989 the Corporation had loans, advances and receivables totalling $8.6 million from this group of companies and has guaranteed bank loans of $4,534,000 for one of these companies (see Note 9).

11. Related party transactions

The Corporation sold approximately $3,800,000 (1988—$2,700,000) of saltfish products to the Canadian International Development Agency. These transactions were in the normal course of business and at regular commercial rates.

12. Remuneration to foreign sales agents

During the year $60,673, (1988—$133,711) was paid to fourteen foreign sales agents with whom the Corporation has commission agents' agreements. For reasons of commercial confidentiality, the Corporation does not publish the names of its foreign sales agents.

13. Subsequent events

Subsequent to March 31, 1989 a fishing vessel, assigned as partial security for a loan to a fish producer, was lost at sea. Management is of the opinion that insurance proceeds will be sufficient to recover the outstanding loan on this vessel.

THE CANADIAN WHEAT BOARD

AUDITORS' REPORT

TO THE CANADIAN WHEAT BOARD

We have examined the balance sheet of The Canadian Wheat Board as at July 31, 1989, and the statements of operations for the 1988-89 pool accounts for wheat, amber durum wheat, barley and designated barley for the period August 1, 1988, to completion of operations on September 30, 1989, the statement of operations for the 1988-89 pool account for designated oats for the period August 1, 1988, to completion of operations on December 31, 1989, the statement of operations for the 1988-89 pool account for oats for the period August 1, 1988, to completion of operations on March 9, 1990, the statement of administrative and general expenses and allocations to operations for the year ended July 31, 1989, the statement of advance payments to producers under the Prairie Grain Advance Payments Act as at July 31, 1989, and the statement of special account transactions for the year ended July 31, 1989. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Board as at July 31, 1989, and the results of operations for the periods shown, in accordance with generally accepted accounting principles consistently applied.

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS

The Financial Statements of the Canadian Wheat Board including notes thereto for the crop year under review are presented in this section of the report. These statements consist of the Balance Sheet (Exhibit I), which sets forth the financial position of the Board as at July 31, 1989, together with other statements (Exhibits II to X) showing the results of Board operations for the year, all as tabulated in the index preceding the financial statements.

The practice of the Board is to include in its accounts at July 31, the final operating results of pool accounts where marketing operations have been completed before the issuance of the annual report. Operations on the 1988-89 Pool Accounts for wheat, amber durum wheat, barley and designated barley were completed on September 30, 1989, on December 31, 1989, for designated oats, and on March 9,1990, for the regular oats pool. Details of the final operating results of these pool accounts with commentary thereon are presented in this section of the report.

Although the basic measurement for grain has been the "tonne" since February 1, 1978, for your information a tonne equals 36.74371 bushels of wheat, 64.84183 bushels of oats or 45.92963 bushels of barley.

Pool account—Wheat

Initial payments

At the beginning of the crop year the Board was authorized to purchase wheat from producers at a fixed initial price of $150.00 per tonne for No. 1 Canada Western Red Spring. Effective November 17, 1988, the initial price for No. 1 Canada Western Red Spring was increased to $170.00 per tonne.

Supplies of wheat

Supplies of wheat in the 1988-89 Pool were 14,353,863 tonnes, comprised of 14,218,367 tonnes delivered by producers and 135,496 tonnes acquired from other than producers.

Grade pattern

Deliveries of grain to the 1988-89 Pool Account were of substantially better quality compared with receipts in the previous pool. Deliveries of Nos. 1 and 2 Canada Western Red Spring totaled 12.286 million tonnes or 86.41 per cent of total receipts, while No. 3 Canada Western Red Spring receipts of 1.375 million tonnes amounted to 9.67 per cent of total receipts. Deliveries of utility grades including Canada Western Feed amounted to .557 million tonnes or 3.92 per cent of total producer deliveries. Deliveries of tough and damp grades were similar to the previous year with approximately .74 per cent of producer deliveries grading tough and .03 per cent grading damp.

Final statement of operations and surplus for distribution to producers—Wheat—Table A

Marketing operations on the Pool Account for wheat resulted in an operating surplus of $469,403,586. After deducting the interim payment of $213,275,507 made to producers in November 1989, providing for producer car rebates of $119,016, allowing for the cost of issuing the interim and the final payments and adding estimated interest earnings subsequent to September 30, 1989, the net surplus for distribution to producers amounted to $267,391,460. This net surplus represents an average of $18.806 on producer deliveries of 14,218,367 tonnes. Table B shows the total price realized by producers for No. 1 Canada Western Red Spring at $197.136 compared to $134.019 for the previous pool.

Operating costs

Operating costs incurred applicable to the pool were $57,315,587 or $4.031 per tonne. Details of the principal costs and comment thereon follows:

Carrying charges—$57,744,407

Total carrying charges incurred by the Board, including storage and interest charges on wheat in country elevators and storage on wheat in terminal elevators, amounted to $57,744,407 or $4.061 per tonne.

Bank interest and net interest on other Board accounts—($33,651,756)

This amount consists mainly of bank interest and interest paid to, or received from, other Board accounts. Interest earned exceeded interest paid by $33,651,756 or $2.367 per tonne.

Additional freight—To Terminals—$9,266,321—Freight rate change—$1,675,231

During the crop year the Board paid $9,266,321 of additional freight arising out of the movement of grain in adverse direction.

With the abolition of the Crows Nest Pass freight rate on December 31, 1983, freight rates are reviewed annually under the Western Grain Transportation Act. On August 1, 1989, freight rates increased by a net amount of approximately $.237 per tonne and the Board was required to pay the additional freight on the country stocks held by its agents on August 1, 1989, amounting to $1,675,231 in the Wheat Account.

Drying charges—$32,299

Drying charges for 1988-89 totalled $32,299, a decrease from the previous year, reflecting the lower quantities of tough and damp grain delivered to the pool under review.

Interest and depreciation on Wheat Board hopper cars—$7,627,680

Costs for the use of the Board's 2,000 hopper cars include depreciation and interest. Hopper car expenses attributable to the 1988-89 Wheat Account totalled $7,627,680 compared to $4,737,960 for the previous pool.

Administrative and general expenses—$17,943,259

This item represents the portion of the cost of operating the Board, including salaries, fringe benefits to employees and the cost of operating the Board's head office premises as well as other branches in Canada and overseas that was charged to the Wheat Account. Since the Pool Accounts run for periods which overlap crop years, some part of the operating costs for two consecutive crop years are allocated to the Pool Accounts based on length of time the Pool Accounts were open and tonnage handled. Charges allocated to the 1988-89 Wheat Account were $17,943,259 or $1.262 per tonne on producer receipts of 14,218,367 tonnes compared with $20,007,806 or $1.293 per tonne on producer receipts of 15,476,040 tonnes for the previous pool.

Administrative and general expenses for the 1988-89 crop year from August 1, 1988, to July 31, 1989, totalled $28,483,006 compared to $28,213,583 for the 1987-88 crop year; an increase of $269,423 or .96 per cent.

Pool account—Amber Durum Wheat

Initial payments

At the beginning of the crop year the Board was authorized to purchase Amber Durum Wheat from producers at a fixed initial price of $175.00 per tonne for No. 1 Canada Western Amber Durum Wheat. Effective March 13, 1989, the initial price for No. 1 Canada Western Amber Durum was increased to $190.00 per tonne.

Supplies of Amber Durum Wheat

Supplies of amber durum wheat in the 1988-89 Pool were 2,472,519 tonnes, comprised of 2,254,359 tonnes delivered by producers, 17,902 tonnes acquired from other than producers and 200,258 tonnes purchased from the previous pool.

Grade pattern

Receipts of Nos. 1, 2 and 3 Canada Western Amber Durum totalled 2.184 million tonnes or 96.87 per cent of total producer deliveries. Approximately .25 per cent of producer deliveries graded tough while .03 per cent graded damp.

Final statement of operations and surplus for distribution to producers—Amber Durum Wheat—Table C

Table C shows the operating results of the Pool Account for the crop year. Marketing operations resulted in a surplus of $26,417,209. Operating expenses totalled $21,072,381 for the year or $9.348 per tonne. The principal cost was carrying charges amounting to $15,637,688 or $6.937 per tonne. After allowing for producer car rebates, the cost of issuing the final payment and estimated interest earnings subsequent to September 30, 1989, the net surplus for distribution to producers was $27,214,042. This amount represents an overall average of $12.072 per tonne on producer deliveries of 2,254,359 tonnes. Table D shows the total payments received by producers for the principal grades of Amber Durum Wheat delivered during the crop year. This table shows the total price realized by producers for No. 1 Canada Western Amber Durum Wheat of $204.482 per tonne, compared to $169.359 per tonne for the previous pool.

No. 5 Canada Western Amber Durum	125.00	27.139	152.139

Pool account—Oats

Commencing August 1, 1981, as authorized by Order-in-Council, oats selected and accepted from producers for use in processing and milling for human consumption, has been set up in a separate pool under the caption "Designated Oats". As a result, the transactions described here consist mainly of marketing results related to Nos. 3 and 4 Canada Western Oats.

Initial payments

At the beginning of the crop year the Board was authorized to purchase oats from producers at fixed initial prices of $160.00 and $154.00 per tonne for Nos. 3 and 4 Canada Western Oats respectively.

Supplies and Grade pattern

Supplies in the regular Feed Oats Pool were 811,695 tonnes, comprised of 777,978 tonnes delivered by producers, 1,142 tonnes acquired from other than producers and 32,575 tonnes purchased from the previous pool. Deliveries of Nos. 1 and 2 Canada Western Oats comprised 4.00 per cent of producer deliveries, while Nos. 3 and 4 Canada Western Oats constituted 95.09 per cent of producer deliveries. Other Grades contributed .91 per cent of producer deliveries. Board receipts of tough and damp oats made up .45 per cent of deliveries.

Final statement of operations—Oats—Table E

Table E shows the operating results of the Pool Account for the 1988-89 crop year. Marketing operations resulted in a deficit of $32,361,239 which is recoverable from the Government of Canada with funds provided by Parliament. The total payments realized by producers is, therefore, equal to the initial payments as shown in Table F. Operating expenses totalled $12,725,183 or $16.357 per tonne. The principal cost was carrying charges amounting to $6,474,229 or $8.322 per tonne.

Pool account—Designated Oats

Commencing on August 1, 1981, as authorized by Order-in-Council, oats selected and accepted from producers for use in processing and milling for human consumption, has been set up in a separate account. This account has been labeled "Designated Oats" and the results of operations on this account with comment thereon are contained in this section of the report.

Initial payments

At the beginning of the crop year the Board was authorized to purchase designated oats from producers at fixed initial prices of $195.00, $191.00 and $189.00 per tonne for Nos. 1, 2 and 3 Canada Western Oats respectively.

Supplies and grade pattern

Supplies of oats in the Designated Pool were 222,987 tonnes representing deliveries to the Board by producers during the crop year of oats which were selected and accepted by purchasers for use in processing and milling for human consumption. Receipts of Nos. 1, 2 and 3 Canada Western Oats totalled 22,288, 31,303 and 169,032 tonnes or 10.00 per cent, 14.04 per cent and 75.80 per cent respectively of total deliveries. The remaining 364 tonnes were No. 4 Canada Western Oats.

THE CANADIAN WHEAT BOARD—*Continued*

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS—*Continued*

Final statement of operations and surplus for distribution to producers—Designated Oats—Table G

Table G shows the operating results of this Pool Account for the crop year. Marketing operations resulted in a surplus of $3,327,644. As to operating costs, it should be noted that the Designated Oats Pool, by its very nature does not incur the handling expenses normally related to feeding grades of oats. It is not stored by the Board, being selected by the purchaser and shipped at his request from farm to processing plant via the country elevator. As a result, the only expenses attributable to such oats were costs related to hopper cars owned by the Wheat Board and administrative charges totalling $418,618 or $1.877 per tonne. These expenses were reduced by interest earnings of $389,010 or $1.744 per tonne on the accumulating surplus in the pool. After providing for the cost of issuing the final payment and adding estimated interest earnings subsequent to December 31, 1989, the net surplus for distribution to producers was $3,375,757 or $15.139 per tonne on producer deliveries of 222,987 tonnes. Table H shows the total payments received by producers for the principal grades of designated oats delivered during the crop year.

STATEMENT OF OPERATIONS AND SURPLUS FOR DISTRIBUTION TO PRODUCERS ON THE 1988-89 POOL ACCOUNT—DESIGNATED OATS FOR THE PERIOD AUGUST 1, 1988, TO DECEMBER 31, 1989

Pool account—Barley

Since August 1, 1975, as authorized by Order-in-Council, barley selected and accepted from producers for use in malting, pot or pearling, has been set up in a separate pool under the caption "Designated Barley". As a result, the transactions remaining in the Barley Pool Account described here consist mainly of marketing results related to feeding grades of barley.

Initial payments

At the beginning of the crop year the Board was authorized to purchase barley from producers at fixed initial prices of $120.00 and $117.00 per tonne for Nos. 1 and 2 Canada Western Barley respectively.

Supplies and grade pattern

Supplies in the regular Feed Barley Pool were 4,104,490 tonnes comprised of 4,035,425 tonnes delivered by producers and 69,065 tonnes acquired from other than producers. Deliveries of Nos. 1 and 2 Canada Western Barley comprised 99.88 per cent of the producer deliveries in the pool. Board receipts of tough and damp barley made up .56 per cent of deliveries.

Final statement of operations and surplus for distribution to producers—Barley—Table I

Table I shows the operating results of the Pool Account for the crop year. Marketing operations resulted in a surplus of $16,788,430. Operating expenses totalled $23,905,689 for the year or $5.924 per tonne. The principal cost was carrying charges amounting to $13,356,251 or $3.310 per tonne. After allowing for the cost of issuing the final payment and estimated interest earnings subsequent to September 30, 1989, the net surplus for distribution to producers was $17,207,129. This amount represents an overall average of $4.264 per tonne on producer deliveries of 4,035,425 tonnes. Table J shows the total payments received by producers for the principal grades of Barley delivered during the crop year.

Pool account—Designated Barley

As stated previously, since August 1, 1975, as authorized by Order-in-Council, barley selected and accepted from producers for use in malting, pot or pearling, has been set up in a separate pool account. This account has been labeled "Designated Barley" and the results of operations on this account with comment thereon are contained in this section of the report.

Initial payments

At the beginning of the crop year the Board was authorized to purchase Designated Barley from producers at a fixed initial price of $180.00 per tonne for Special Select Canada Western Six-Row and $190.00 per tonne for Special Select Canada Western Two-Row.

Supplies and grade pattern

Supplies of barley in the designated pool were 1,074,488 tonnes representing deliveries to the Board by producers during the crop year of barley which has been selected and accepted by purchasers for the use in malting, pot or pearling. Of these receipts 260,427 tonnes or 24.24 per cent were Special Select grades and 744,774 tonnes or 69.31 per cent were Select grades. Receipts of tough and damp grades totalled 6,698 tonnes or 0.62 per cent of total.

Final statement of operations and surplus for distribution to producers—Designated Barley—Table K

Table K shows the operating results of this Pool Account for the crop year. Marketing operations resulted in a surplus of $36,896,178. As to operating costs, it should be noted that the Designated Barley Pool by its very nature does not incur the handling expenses normally related to feeding grades of barley or other grains. It is not stored by the Board, being selected by the processor (buyer) from a producer's sample and is shipped on buyer's call directly from farm to processing plant via the country elevator. As a result the only expenses attributable to such barley were costs related to hopper cars owned by the Wheat Board, and administrative charges totalling $1,932,406 or $1.799 per tonne. These expenses were reduced by interest earnings and demurrage adjustments of $3,314,361 or $3.085 per tonne. After deducting the interim payment of $16,117,320 made to producers in November 1989 providing for the cost of issuing the interim and the final payments and adding estimated interest earnings subsequent to September 30, 1989, the net surplus for distribution to producers was $21,685,451 or $20.182 per tonne on producer deliveries of 1,074,488 tonnes. Table L shows the total payments received by producers for the principal grades of designated barley delivered during the crop year.

NOTES TO FINANCIAL STATEMENTS

The following are an integral part of the financial statements.

1. Accounting policies

(a) Operating results and valuation of stocks of grain

The annual accounts at July 31 include the final operating results of all pool accounts for the crop year ended July 31, where marketing operations have been completed before the issuance of the annual report for that year. In determining the financial results for such pools, the accounts of the Board at July 31 include:

(i) the stocks of such grains on hand at that date at the values which were ultimately received from the sale thereof basis in store Thunder Bay, Vancouver or Churchill; and

(ii) provision for all expenses incurred or to be incurred before the sales proceeds are realized in cash or in bills of exchange, including a charge for the portion of administrative and general expenses to be incurred subsequent to July 31 but relating to the marketing and accounting for the grains in the various pools before they are closed.

For pool accounts for which marketing operations have not been completed before the issuance of the annual report, the unsold stocks at July 31 are valued at cost, which is the initial price paid to producers, and no provision is made for carrying costs, interest, and administrative expenses beyond that date. Any debit or credit balance is carried on the balance sheet.

(b) Foreign currency translations

Bills of exchange receivable in United States funds which are covered by forward exchange contracts are translated at the contract rates. In all other cases, bills of exchange receivable and bank loans payable in United States funds are translated at the rate of exchange in effect as at the balance sheet date.

Foreign exchange adjustments arising from conversion of bills of exchange and bank loans are included in operating results.

THE CANADIAN WHEAT BOARD—*Continued*

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS—*Continued*

NOTES TO FINANCIAL STATEMENTS—*Continued*

(c) Depreciation

The rates of depreciation being applied are intended to fully depreciate assets over their expected lives and are as follows:

Hopper cars	30 years
Office building	40 years
Office furniture and equipment	10 years
Automotive equipment	2 years (to 1/3 residual value)

(d) Administration and general expenses

Administration and general expenses, except for that portion of such expenses attributable to distributing final payments to producers, are allocated to the various pool account operations to which the services relate on the basis of the relative tonnage. Expenses attributable to final payments are allocated on the basis of the number of producers receiving payments from the various pool accounts.

2. Bills of exchange plus accrued interest

Of the total bills of exchange receivable, $1,619,309,884 (1988—$1,477,962,712) represents the Canadian equivalent of $1,371,366,772 (1988—$1,220,246,624) repayable in United States funds.

The balances receivable arise from sales of grain to Algeria, Brazil, Bangladesh, Egypt, Ethiopia, Haiti, Iraq, Israel, Jamaica, Mexico, Peru, Poland and Zambia. The terms call for payment in full within 36 months or less from time of shipment, except for Brazil, Egypt, Haiti, Jamaica, Mexico, Peru, Poland and Zambia where the Board, together with the Canadian Government, have agreed to reschedule certain receivables beyond their original maturity dates. Terms of such reschedulings call for payment of interest and the rescheduled debt within ten years. As at July 31, 1989, total reschedulings amounted to $3,088,748,737 including $1,172,397,436 which is the Canadian equivalent of $992,884,008 receivable in United States funds.

During the crop year the Board together with the Government of Canada concluded a bilateral rescheduling agreement with Poland, rescheduling over a 10-year period amounts due and not paid, on all prior rescheduling agreements to December 31, 1987, including post maturity interest. Under this agreement the amounts which were due to mature in the year ending December 31, 1988, have also been rescheduled. The amounts subject to this rescheduling total $608,190,585 which includes the Canadian equivalent of $214,105,270 receivable in United States funds.

Subsequent to the year end, a multilateral arrangement was reached between Poland and official creditors under which the amounts in arrears at December 31, 1989, and all amounts falling due between January 1, 1990, and March 31, 1991, are to be rescheduled. Post maturity interest due and not paid on these amounts is also subject to rescheduling. As at July 31, 1989, the amounts in the accounts of the Board which are subject to this arrangement total $662,025,046 which includes the Canadian equivalent of $259,962,425 receivable in United States funds. Of these respective amounts, amounts due and not paid from Poland as at July 31, 1989, total $271,449,947 which includes the Canadian equivalent of $99,149,487 receivable in United States funds.

During the crop year, ending July 31, 1986, the Government of Canada and other creditor nations agreed to a further deferral of certain Zambian obligations that had earlier been rescheduled. The bilateral agreement to reschedule payments due and not paid as at December 31, 1985, and due and not paid for the period January 1, 1986, to December 31, 1986, has yet to be negotiated. The accounts of the Board at July 31, 1989, include $15,058,519 which may be subject to this rescheduling.

Subsequent to the crop year the Board together with the Government of Canada concluded a bilateral rescheduling agreement with Jamaica, rescheduling over a ten-year period certain obligations due and not paid for the period June 1, 1988, to November 30, 1989. The accounts of the Board as at July 31, 1989, include $1,408,296 which was subject to this rescheduling agreement.

Credit sales are made within limits established by the Government of Canada which guarantees the Board's borrowings incurred to finance such sales, both as to principal and interest. Because of these guarantees, the Board does not consider itself to be at risk should any of the unpaid amounts prove to be uncollectable; therefore, no provision is made in its accounts with respect to the possibility of debtors defaulting on their obligations.

3. Accounts receivable

Settlement on amounts due on completed sales as at July 31 were received shortly after that date. Sundry accounts receivable consists mainly of freight costs which are recovered on completed sales.

4. Covered hopper cars

The Board purchased 2,000 covered hopper cars in 1979-80 having an original cost of $90,555,623. Of these 2,000 cars, 44 cars have been wrecked and dismantled leaving 1,956 still in the fleet having an original cost of $88,563,399 with accumulated depreciation of $28,047,362 to July 31, 1989. The Board is reimbursed for destroyed cars under an operating agreement with the Canadian National Railway.

5. Deferred charges—Trade

During the latter part of the previous crop year, because the initial prices for the current crop year beginning August 1st were to be substantially higher, producers delivered significant quantities of grain to elevator companies which are Board agents and placed it on storage, to be sold to the agents after the beginning of the new crop year. The Board, in order to meet its sales commitments in the 1987-88 crop year, purchased wheat, durum and barley which had been placed on storage, from some of its agents. In those instances, where some of the agents had delivered grain to the Board in excess of their purchases from producers during the 1987-88 crop year, the agents had over-delivered their country liability to the Board. In the case of barley, the over-delivered stocks were also sold resulting in the barley pool being oversold at the end of the 1987-88 crop year.

The value of the over-deliveries totalled $103,288,839 and this was recorded as an advance purchase of the 1988-89 crop. The over-sold barley position which resulted in net revenue of $31,897,681 was treated as an advance sale of the 1988-89 crop and netted against the advance purchases. All other charges related to the over-delivered and over-sold positions have been appropriately adjusted between the pool accounts.

This situation did not recur in the 1988-89 pool accounts.

THE CANADIAN WHEAT BOARD—*Concluded*

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS—*Concluded*

NOTES TO FINANCIAL STATEMENTS—*Concluded*

6. Liability to banks

Details of liability to banks are as follows:

	July 31	
	1989	1988
	$	$
Ordinary operations		
Funds on deposit	(88,352,406)	
Bank loans		29,342,978
Loans to finance credit sales	3,707,960,437	3,581,450,759
	3,619,608,031	3,610,793,737

Of the total liability $1,605,838,592 (1988—$1,460,724,971) represents the Canadian equivalent of $1,359,958,157 (1988—$1,206,014,672) repayable in United States funds.

The Board's borrowings are guaranteed by the Government of Canada.

7. Liability to agents for grain purchased from producers

Grain companies acting in the capacity of agents of the Board accept deliveries from producers at country elevators and pay the producers on behalf of the Board based on the Board's initial price in effect. Settlement is not made by the Board for these purchases until delivery to the Board is completed by its agents at terminal or mill position. Liability to agents amounting to $569,415,254 (1988—$11,265,153) represents the amount payable by the Board to its agents for 3,809,559 (1988—93,990) tonnes of grain on hand at country elevator points and in transit at July 31 for which delivery to and settlement by the Board is to be completed subsequent to year end date.

8. Liability to agents for deferred cash tickets

Grain companies as agents of the Board, deposit with the Board in trust an amount equal to the deferred cash tickets issued for Board grain. These monies are returned to the grain companies to cover producer deferred cash tickets maturing predominately during the first days of the following calendar year.

9. Accrued expenses and accounts payable

This item principally comprises accrued carrying charges, storage, interest and transportation charges to July 31, 1989, together with all other unpaid sundry accounts as at the foregoing date. It also includes provisions for all charges relating to the marketing of Pool Accounts for the period from August 1, 1989, to completion of operations on September 30, 1989, for wheat, amber durum wheat, barley and designated barley and December 31, 1989, for designated oats, and March 9, 1990, for the regular oats pool.

10. Special account—Net balance of undistributed payment accounts

In accordance with the provision of Section 30 of the Canadian Wheat Board Act the Governor-in-Council may authorize the Board to transfer to a Special Account the unclaimed balances remaining in payment accounts which have been payable to producers for a period of six years or more. In addition to providing for payment of proper claims from producers against these old payment accounts, the Section further provides that these funds shall be used for purposes as the Governor-in-Council upon the recommendations of the Board may deem to be for the benefit of producers.

11. Provision for final payment expenses

This item represents the balance of the Board's reserve for final payment expenses of Pool Accounts that have been closed. Six years after particular accounts have been closed, the remaining reserves for these pools are transferred to the special account by Order-in-Council.

12. Lease commitments

The Board, as an agent of Her Majesty in Right of Canada, is the lessor of 2,000 covered hopper cars for the Government of Canada. All lease costs are recoverable from the Government and are not a charge to the operations of the Board. Total payments associated with leases in the year ended July 31, 1989, amounting to $13,908,244 (1988—$16,110,582) have been recovered by the Board. Lease terms are for 20 and 25 years.

CAPE BRETON DEVELOPMENT CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF INDUSTRY, SCIENCE AND TECHNOLOGY

I have examined the balance sheet of the Cape Breton Development Corporation as at March 31, 1990 and the related statements of equity, income and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Cape Breton Development Corporation Act and the by-laws of the Corporation.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

CAPE BRETON DEVELOPMENT CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and objectives

The Corporation was established in 1967 for the purpose of reorganizing and rehabilitating the coal industry on Cape Breton Island, pursuant to the Cape Breton Development Corporation Act. Its current corporate goal is to be a dependable supplier of quality coal and related energy products by operating a safe, commercially viable corporation which will provide a positive working environment through efficient and effective utilization of human, physical and technical resources.

Pursuant to the Government Organization Act, Atlantic Canada, 1987 as proclaimed on December 1, 1988, the Cape Breton Development Corporation Act was amended to allow for the continuation of the former Industrial Development Division of the Corporation as the Enterprise Cape Breton Corporation.

2. Summary of significant accounting policies

(a) Financing

The Corporation, an agent of Her Majesty, is listed as a Schedule III, Part I, corporation for purposes of the Financial Administration Act. The Corporation receives Parliamentary appropriations for capital expenditure and operating loss purposes as well as advances from the Government of Canada for working capital purposes on such terms as may be agreed upon, as provided for in the Cape Breton Development Corporation Act. Parliamentary appropriations are reflected in the Statement of Equity as requisitioned by the Corporation. Treasury Board has indicated that depreciation should not be provided in determining mining losses for Parliamentary appropriation. Accordingly, the depreciation provision has been eliminated in arriving at this amount.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value.

(c) Fixed assets

Fixed assets are stated at cost. The Corporation has provided depreciation on its fixed assets based on their estimated useful lives.

(d) Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Revenue and expenses are translated at the rate of exchange prevailing on the transaction date. The resulting foreign currency translation gains and losses are included in the results of operations.

(e) Pensions

Pension expense each year is comprised of a current and a past service cost. The past service cost, which represents an allocation of the unfunded obligation, is being amortized at the rate it is being funded. The Corporation is of the opinion that this is the most appropriate method since it provides for a systematic manner of amortization which conforms to the Corporation's overall funding by the Government of Canada.

(f) Workers' compensation

In accordance with the Government Employees' Compensation Act, the Corporation reimburses Labour Canada for current payments for workers' compensation billed by the Workers' Compensation Board of the Province of Nova Scotia.

3. Accounts receivable

	1990	1989
	(in thousands of dollars)	
Trade	23,948	6,318
Employees	845	1,695
	24,793	8,013
Less: allowance for doubtful accounts	355	150
	24,438	7,863

4. Fixed assets

	1990	1989
	(in thousands of dollars)	
Lingan Colliery	175,560	173,844
Prince Colliery	113,080	109,398
Phalen Colliery	205,945	200,576
Donkin-Morien Development Project	80,679	80,679
Coal Preparation Plant	91,803	91,358
Devco Railway	78,861	77,941
Carbogel	8,206	7,519
Other fixed assets	41,809	41,029
	795,943	782,344
Accumulated depreciation	384,828	320,454
	411,115	461,890

Included in fixed assets above is $80,678,573 of cumulative costs to March 31, 1990 on the Donkin-Morien Development Project. The Corporation has provided for depreciation of $39,605,207 against this project to date. The 1990/91 to 1994/95 Corporate Plan, as approved by Governor-in-Council, does not provide for development of this project over the next five years. Additional development costs will be required to bring the Project into commercial production.

Also included in fixed assets above is $175,559,760 of cumulative costs to March 31, 1990 on the Lingan Colliery. The Corporation is converting this Colliery to pillarless retreat mining and the performance during the conversion will determine its future. Depreciation to date, amounting to $131,164,734 has been provided at normal Corporation rates.

5. Commitments

(a) Commitments on capital projects include the following:

Approximately $1,800,000 for underground mining equipment

Approximately $150,000 for other facilities

(b) The Corporation leases the General Mining Building which houses its administrative offices. The lease is for a 20 year period which commenced June, 1984. The annual lease payments fluctuate with changes in the lessor's mortgage interest rates. Current lease payments are $1,370,000 per annum at an interest rate of 11.75%.

6. Contingent liabilities and claims

(a) Legal matters

The Corporation is subject to a claim and several actions totaling approximately $3.3 million. The Corporation intends to oppose these matters in their entirety.

(b) Insurance

The Corporation self insures against the potential loss of underground assets and for a portion of its liability insurance.

CAPE BRETON DEVELOPMENT CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

7. Long-term agreement

The Corporation has signed an agreement with the Nova Scotia Power Corporation which calls for the delivery of a substantial portion of the Corporation's coal production to the Power Corporation. The agreement expires in the year 2010.

8. Pensions

An actuarial valuation of the Corporation's Non-Contributory Pension Plan, a defined benefit plan, as at December 31, 1988, indicated an unfunded actuarial liability of $69,009,000 (assets of $99,772,000 and liabilities of $168,781,000). The minimum annual amount required for past and current service, including pension payments, will be approximately $14,390,000 in each year from 1990 to 1992, $6,116,000 from 1993 to 2000 and $4,311,000 from 2001 to 2004. The Corporation has expensed pension payments of $14,805,000 for the year.

An actuarial valuation of the Corporation's Contributory Pension Plan, a defined benefit plan, as at December 31, 1987, indicated a final surplus of $3,095,000 (assets of $21,765,000 and liabilities of $18,670,000). Required Corporation payments in respect of current service costs are funded each year and amounted to approximately $880,000 expensed for the year ended March 31, 1990.

9. Income taxes

The Corporation is subject to the provisions of the Income Tax Act.

During the year the Corporation was reassessed by Revenue Canada, Taxation for the years 1983-1989. The reassessment treats funding provided by the Government of Canada as government assistance for operating and capital purposes. It is the Corporation's intention to oppose this position to the fullest. The outcome of this matter is not determinable at this time and therefore no adjustment has been reflected in these financial statements.

10. Comparative figures

Certain of the comparative figures have been reclassified to conform to the presentation adopted for the current year.

DEFENCE CONSTRUCTION (1951) LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined the balance sheet of Defence Construction (1951) Limited as at March 31, 1990 and the statements of operations and deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Defence Production Act and the by-laws of the corporation.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and objective

Defense Construction (1951) Limited was incorporated under the Canada Corporations Act in 1951 and was continued under the Canada Business Corporations Act, pursuant to the authority of the Defence Production Act. The objective of the corporation is to contract for major military construction and maintenance projects required by the Department of National Defence. The corporation is an agent Crown corporation named in Part I of Schedule III to the Financial Administration Act. The corporation is not subject to income taxes.

2. Significant accounting policies

Expenses

The accounts of the corporation reflect only the administrative expenses incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by Treasury Board.

Furniture and equipment

Furniture and equipment are recorded at cost and are depreciated on a straight-line basis over five years.

Employee termination benefits

Employees are entitled to specified termination benefits calculated at salary levels in effect at the time of separation as provided for by conditions of employment. The liability for these benefits is recorded as the benefits accrue to employees.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The corporation's contributions to the plan are limited to an amount equal to the employees' contributions on account of current and certain past service. These contributions represent the total pension obligations of the corporation and are charged to income on a current basis.

Services provided without charge

The Department of National Defence provided office space free of charge for employees of the corporation.

3. Due to Department of National Defence

The cost of operations is recovered through the Department of National Defence to the extent of net cash requirement, and any excess of cash advances are refunded at year end. As at March 31, 1990, the net balance due to Department of National Defence was $1,028,762 (1989—$237,964).

4. Provision for employee benefits

	1990	1989
	$	$
Termination benefits	2,616,205	2,356,547
Life insurance	64,484	54,608
Compensation benefits	692,744	615,941
	3,373,433	3,027,096
Less: current portion	438,312	397,031
	2,935,121	2,630,065

DEFENCE CONSTRUCTION (1951) LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

5. Deficit

The deficit of the corporation is comprised of the difference between the provision for employee benefits, which will be funded in future years as they are paid, and the net book value of fixed assets.

	1990	1989
	$	$
Deficit, beginning of the year	2,785,771	2,941,230
Increase (decrease) in employee benefit provision for the year	346,337	(218,720)
Decrease (increase) in net book value of fixed assets for the year	(220,121)	63,261
Deficit, end of the year	2,911,987	2,785,771
Composed of:		
Provision for employee benefits (Note 4)	3,373,433	3,027,096
Net book value of fixed assets	(461,446)	(241,325)
	2,911,987	2,785,771

6. Lease commitments

The corporation leases certain equipment and accommodation in the performance of its operations. These arrangements include occupancy agreements expiring at various dates for office accommodation. The future minimum lease payments are:

Year ending March 31	$
1991	339,162
1992	187,556
1993	72,655
1994	72,655
1995	51,374
	723,402

7. Contingencies

(a) Claims aggregating approximately $10,975,000 in respect of contractual obligations have been received by the corporation, but are not reflected in the accounts. In the opinion of management and legal counsel, the position of the corporation is defensible. However, the final outcome of such claims is not determinable. Any settlements resulting from the resolution of these claims will be funded through the Department of National Defence, in the year in which the settlements occur.

(b) Included in the cash balance as at March 31, 1990 is an amount of $350,000 subject to restricted use which serves as security against the potential risk of environmental damage with respect to a project.

8. Comparative figures

Certain 1989 comparative figures have been reclassified to conform with the current year's presentation.

ENTERPRISE CAPE BRETON CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Enterprise Cape Breton Corporation and all information in this annual report are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements include some amounts, such as the allowances for doubtful loans and interest, that are necessarily based on management's estimates and judgement.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the consolidated financial statements.

In discharging its responsibility for the integrity and fairness of the consolidated financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. In addition, the Audit Committee of the Board oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the consolidated financial statements and for issuing his report thereon.

AUDITOR'S REPORT

TO THE MINISTER FOR THE PURPOSES OF THE ATLANTIC CANADA OPPORTUNITIES AGENCY ACT

I have examined the consolidated balance sheet of the Enterprise Cape Breton Corporation as at March 31, 1990, and the consolidated statements of equity, operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

Further, in my opinion, the transactions of the Corporation and of its wholly-owned subsidiaries that have come to my notice during my examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Enterprise Cape Breton Corporation Act and the by-laws of the Corporation and its wholly-owned subsidiaries.

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1990

1. The Corporation

(a) Authority and objectives

Enterprise Cape Breton Corporation (ECBC) was established pursuant to the Enterprise Cape Breton Corporation Act (Part II of the Government Organization Act, Atlantic Canada, 1987) which was proclaimed on December 1, 1988. Through this legislation, the mandate, powers, operations and programs of the former Industrial Development Division of the Cape Breton Development Corporation were subsumed by the newly formed Corporation. The Corporation is an agent Crown corporation listed in Schedule III, Part I of the Financial Administration Act. Its objects, as stated in its enabling legislation are:

> to promote and assist either alone or in conjunction with any person or the Government of Canada or of Nova Scotia or any agency of either of those governments, the financing and development of industry on the Island of Cape Breton to provide employment outside the coal producing industry and to broaden the base of the economy of the Island.

The Corporation operates in various sectors of the local economy, with the exception of the coal industry, and uses its broad mandate and flexible financial powers to strengthen the economy of the region. The new Corporation continues to administer the programs and initiatives of its predecessor while evaluating existing activities and preparing the ground work for future directions.

(b) Parliamentary appropriation

The Government of Canada approved a vote in the amount of $10,600,000 and the Corporation utilized $7,300,000.

2. Significant accounting policies

(a) Basis of consolidation

(i) The financial statements of Enterprise Cape Breton Corporation include the results of the Corporation and all its subsidiaries as outlined below.

	Corporation interest	Period ended
Darr (Cape Breton) Limited— Rental facility	100%	December 31
Dundee Estates Limited— Tourist facility	100%	March 31
Whale Cove Summer Village Limited— Tourist facility	62.5%	March 31
Cape Breton Marine Farming Limited— Inactive	100%	March 31

(ii) The financial statements of Darr (Cape Breton) Limited are based on the assumption that the company can continue to operate as a going concern, which assumption depends on the continued financial support of its parent.

(iii) The fixed assets of Dundee Estates Limited are recorded at estimated realizable value of the company's assets (see Note 10).

(iv) As the financial statements of Whale Cove Summer Village Limited report a deficit equity position as at March 31, 1990, and the minority interest in losses to date have been absorbed against the total of the minority invested capital, all losses of this company are included in the consolidated net operating expenses. As a consequence, no minority interest for this subsidiary is shown in the consolidated balance sheet.

(b) Loans

Loans are recorded at the lower of cost and estimated net realizable value. Certain loans may include interest which has been capitalized as principal due to the restructuring of the terms of the loan contract.

(c) Allowances for doubtful and forgivable loans

The allowance for doubtful loans represents management's estimate of probable losses on specific loans outstanding at the end of the period. The allowance is based on a periodic evaluation of the loan portfolio in which numerous factors are considered, including the period of delinquency, market conditions, financial viability of the business and managerial capabilities. Management has estimated the effect of these risks and uncertainties when determining the allowance for doubtful loans. Doubtful loans may be reinstated to an accrual status when, in management's opinion, the ultimate collectibility of principal and interest is reasonably assured.

Certain loans are subject to terms of forgiveness as stipulated in the loan contract. The amount eligible for forgiveness is charged to operations when eligibility conditions are met.

Actual loan losses are charged to operations while recoveries are credited. Adjustments of the allowances for doubtful and forgivable loans to the level regarded by management as being appropriate are charged to operations.

(d) Investments

The Corporation has preferred equity holdings as well as partnership interests. These investments are subject to restrictive terms of agreement and are shown at cost net of allowance for doubtful investments.

(e) Interest income

Interest income is recorded on the accrual basis until such time as management determines that a loan should be classified as doubtful. When a loan is classified as doubtful, uncollected interest for the current period and previous periods is charged to the provision for doubtful loans and interest.

Interest payments subsequently received on doubtful loans are recorded as interest income on a cash basis.

(f) Fixed assets

Fixed assets are recorded at lower of cost less accumulated depreciation or amortization and net realizable value. Depreciation and amortization are provided over the estimated useful lives of the fixed assets using the straight-line method at the rates indicated below:

Buildings	up to 25 years
Equipment and furniture	4 to 10 years
Computer equipment and software	5 years
Leasehold improvements	up to 20 years
Vehicles	3 to 4 years

(g) Pension plans

All eligible employees participate only in the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required equally from the employees and the Corporation. These contributions are expensed during the period in which the services are rendered and represent the total pension obligations of the Corporation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

3. Loans

An analysis of the loan balance outstanding at March 31 is as follows:

Annual interest rate	1990	1989
	$	$
0 %	1,257,440	1,216,028
Less than 8 %	504,346	556,040
8 - 9.95 %	4,824,813	5,428,173
10 - 11.88 %	2,682,176	5,025,161
12 % and over	392,628	430,433
	9,661,403	12,655,835
Less: Allowance for doubtful loans (Note 4)	4,790,089	3,200,489
Allowance for forgivable loans	272,329	300,151
	4,598,985	9,155,195

Amounts due by fiscal year based on loan terms are as follows:

	1990	1989
	$	$
Principal past due	739,327	596,254
1990		1,542,346
1991	992,708	1,089,916
1992	633,272	877,469
1993	541,382	706,910
1994	495,770	621,288
1995 and beyond	6,258,944	7,221,652
	9,661,403	12,655,835
Accrued interest—		
Current	391,826	466,542
Arrears	384,477	398,850
	776,303	865,392

4. Allowance for doubtful loans

	1990	1989
	$	$
Balance at beginning of the period	3,200,489	2,871,498
Write-offs, net of recoveries	(1,001,174)	(34,903)
Provision for doubtful loans—		
Current year lending	2,227,734	411,597
General provision	380,000	250,000
Reductions due to restructuring and reinstatements to accrual status	(16,960)	(297,703)
Balance at end of the period	4,790,089	3,200,489

The balance comprises 45 loans (1989—67) classified as doubtful.

5. Summary of fixed assets

	1990	1989
	$	$
Land for development	509,096	545,380
Equipment, furniture, leaseholds	928,529	726,045
Rental facilities	23,638,487	21,996,651
Tourist facilities	3,719,567	6,121,070
Agriculture and forestry facilities	1,364,609	1,734,612

Travel	129,486	44,441
Port Hawkesbury office	228,611	
	2,477,842	579,774

7. Guarantees

During 1976, the Industrial Development Division of the Cape Breton Development Corporation guaranteed the repayment by Sydney Steel Corporation of that Corporation's 70,000,000 11 1/4% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to $26,460,000.

During 1971, the Industrial Development Division of the Cape Breton Development Corporation guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Abtiebolag. This guarantee originally amounted to $30,000,000. The balance of advances has since been reduced to $3,104,585.

As successor to the Industrial Development Division of the Cape Breton Development Corporation, the Corporation assumed these guarantees, which were made for and on behalf of Her Majesty the Queen in right of Canada; therefore, any amounts required to be paid as a result of these guarantees shall be paid out of the Consolidated Revenue Fund of Canada.

8. Commitments

(a) As at March 31 the Corporation had outstanding commitments as follows:

	1990	1989
	$	$
Development contributions	2,737,571	2,456,603
Capital expenditures	448,655	53,904
Loans	414,541	82,968
	3,600,767	2,593,475

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

(b) Future minimum payments by fiscal year on operating leases for premises, with initial non-cancellable lease terms in excess of one year, are as follows:

	$
1991	252,954
1992	252,954
1993	59,414
1994	41,820
	607,142

9. Comparative figures

Certain of the comparative figures have been reclassified to conform to the presentation adopted for the current year.

A comparative consolidated statement of operations for the four-month period of the Corporation and previous periods of the Industrial Development Division of the Cape Breton Development Corporation (CBDC/IDD) has been included in the attached schedule for information purposes only.

10. Provision for disposal of subsidiary

The Corporation has agreed, subject to Governor-in-Council approval, to sell all of the assets of Dundee Estates Limited to a private tourist operator for proceeds of $2,000,000. The sales agreement provides for a loan of $950,000 which will be forgiven by the Corporation upon completion of the required terms of the agreement. The provision for disposal of subsidiary provides for this forgiveness and the net loss on disposal of all the assets of the subsidiary. The Corporation intends to remit the net proceeds of the sale to the Consolidated Revenue Fund of Canada.

11. Provision for environmental clean-up

During the year, the Corporation discovered contaminated land in Sydport Industrial Park formerly occupied by a tenant involved in the reclamation of scrap metal. Management immediately undertook to contain the contamination and commenced a controlled clean-up operation. The estimate of $1,000,000 of costs to be incurred during this process have been recorded in the accounts at March 31, 1990.

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Enterprise Cape Breton Corporation and all information in this annual report are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements include some amounts, such as the allowances for doubtful loans and interest, that are necessarily based on management's estimates and judgement.

The consolidated financial statements have been prepared in accordance with accounting principles which are generally accepted in Canada and which have been consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the consolidated financial statements.

In discharging its responsibility for the integrity and fairness of the consolidated financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. In addition, the Audit Committee of the Board oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the consolidated financial statements and for issuing his report thereon.

AUDITOR'S REPORT

TO THE MINISTER FOR THE PURPOSES OF THE ATLANTIC CANADA OPPORTUNITIES AGENCY ACT

I have examined the consolidated balance sheet of the Enterprise Cape Breton Corporation as at March 31, 1989, and the consolidated statements of equity, operations and changes in financial position for the four-month period then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements present fairly the financial position of the Corporation as at March 31, 1989 and the results of its operations and changes in its financial position for the four-month period then ended in accordance with generally accepted accounting principles applied on a consistent basis.

Further, in my opinion, the transactions of the Corporation and of its wholly-owned subsidiaries that have come to my notice during my examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Enterprise Cape Breton Corporation Act and the by-laws of the Corporation and its wholly-owned subsidiaries.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 1989

1. The Corporation

(a) Authority and objectives

Enterprise Cape Breton Corporation (ECBC) was established pursuant to the Enterprise Cape Breton Corporation Act (Part II of the Government Organization Act, Atlantic Canada, 1987) which was proclaimed on December 1, 1988. Through this legislation, the mandate, powers, operations and programs of the former Industrial Development Division of the Cape Breton Development Corporation were subsumed by the newly formed Corporation. The Corporation is an agent Crown corporation listed in Schedule III, Part I of the Financial Administration Act. Its objects, as stated in its enabling legislation are:

> to promote and assist either alone or in conjunction with any person or the Government of Canada or of Nova Scotia or any agency of either of those governments, the financing and development of industry on the Island of Cape Breton to provide employment outside the coal producing industry and broaden the base of the economy of the Island.

The Corporation operates in various sectors of the local economy, with the exception of the coal industry, and uses its broad mandate and flexible financial powers to strengthen the economy of the region. The new Corporation continues to administer the programs and initiatives of its predecessor while evaluating existing activities and preparing the ground work for future directions.

(b) Amounts transferred

In summary, the amounts transferred at December 1, 1988, were as follows:

	$
Assets	32,646,512
Liabilities	1,303,096
Equity	31,343,416
Guarantees	36,478,659
Commitments	4,462,000

(c) Parliamentary appropriation

The balance of the Parliamentary appropriation voted to the Industrial Development Division of the Cape Breton Development Corporation in the amount of $2,800,000 was transferred to and received by the Corporation during the period. In addition, funding from the 1988-89 Supplementary Estimates was approved in the amount of $620,000 to fund the start-up, transitional overhead and new overhead functions of the Corporation and has been reflected in these financial statements. During this period, the Corporation incurred $286,015 in costs relating to the transition, with the balance of $333,985 to be incurred during 1989-90.

2. Significant accounting policies

(a) Basis of consolidation

(i) The financial statements of Enterprise Cape Breton Corporation include the results of the Corporation and all its subsidiaries as explained below.

	Corporation interest	Period ended
Darr (Cape Breton) Limited—Rental facility	100%	December 31
Dundee Estates Limited—Tourist facility	100%	March 31
Whale Cove Summer Village—Tourist facility	62.5%	March 31
Cape Breton Marine Farming Limited—Inactive	100%	March 31

(ii) The financial statements of Darr (Cape Breton) Limited and Dundee Estates Limited are based on the assumption that each company can continue to operate as a going concern, which assumption depends on the continued financial support of its parent.

(iii) As the financial statements of Whale Cove Summer Village Limited report a deficit equity position as at March 31, 1989, and the minority interest in losses to date have been absorbed against the total of the minority invested capital, the losses of this company are included in the consolidated net operating expenses. As a consequence, no minority interest for this subsidiary is shown in the consolidated balance sheet.

(b) Loans and investments

Loans and investments are recorded at the lower of cost and estimated net realizable value. Certain loans may include interest which has been capitalized as principal due to the restructuring of the terms of the loan contract.

(c) Allowances for doubtful and forgivable loans

The allowance for doubtful loans represents management's estimate of probable losses on specific loans outstanding at the end of the period. The allowance is based on a periodic evaluation of the loan portfolio in which numerous factors are considered, including the period of delinquency, market conditions, financial viability of the business, and managerial capabilities. Management has estimated the effect of these risks and uncertainties when determining the allowance for doubtful loans. Doubtful loans may be reinstated to an accrual status when, in management's opinion, the ultimate collectibility of principal and interest is reasonably assured.

Certain loans are subject to terms of forgiveness as stipulated in the loan contract. The amount eligible for forgiveness is charged to operations when eligibility conditions are met.

Actual loan losses are charged to operations while recoveries are credited. Adjustments of the allowances for doubtful and forgivable loans to the level regarded by management as being appropriate are charged to operations.

(d) Interest income

Interest income is recorded on the accrual basis until such time as management determines that a loan should be classified as doubtful. When a loan is classified as doubtful, uncollected interest for the current period and previous periods is charged to the provision for doubtful loans and interest.

Interest payments subsequently received on doubtful loans are recorded as interest income on a cash basis.

(e) Fixed assets

Fixed assets are recorded at cost less accumulated depreciation or amortization. Depreciation and amortization are provided over the estimated useful lives of the fixed assets using the straight-line method at the rates indicated below:

Buildings	up to 25 years
Equipment and furniture	4 to 10 years
Computer equipment and software	5 years
Leasehold improvements	up to 20 years
Vehicles	3 to 4 years

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 1989—*Continued*

(f) Pension plans

The majority of employees of the Corporation participated in the Public Service Superannuation Plan or private pension plans administered by the Cape Breton Development Corporation. As of March 30, 1989, all eligible employees participate only in the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required equally from the employees and the Corporation. These contributions are expensed during the period in which the services are rendered and represent the total pension obligations of the Corporation.

3. Loans

An analysis of the loan balance outstanding at March 31, 1989, is as follows:

Annual interest rate	$
0 %	1,216,028
Less than 8 %	556,040
8 - 10 %	5,428,173
10 - 12 %	5,025,161
12 % and over	430,433
	12,655,835
Less: Allowance for doubtful loans (Note 4)	3,200,489
Allowance for forgivable loans	300,151
	9,155,195

Amounts due by fiscal year based on loan terms are as follows:

	$
Principal past due	596,254
1990	1,542,346
1991	1,089,916
1992	877,469
1993	706,910
1994	621,288
1995 and beyond	7,221,652
	12,655,835
Accrued interest—	
Current	466,542
Arrears	398,850
	865,392

4. Allowance for doubtful loans

	$
Balance at beginning of the period	2,871,498
Write-offs, nets of recoveries	(34,903)
Provision for doubtful loans—	
Current year lending	411,597
General provision	250,000
Reductions due to restructuring and reinstatements to accrual status	(297,703)
Balance at end of the period	3,200,489

The balance comprises 67 loans classified as doubtful.

5. Fixed assets

	$
Land for development	545,380
Equipment, furniture, leaseholds	726,045
Rental facilities	21,996,651
Tourist facilities	6,121,070
Agriculture and forestry facilities	1,734,612
	31,123,758
Less accumulated depreciation and amortization	11,135,264
	19,988,494

The categories of rental, tourist, and agriculture and forestry facilities shown above each include land, buildings and equipment.

6. Administrative expenses

	$
Salaries and employee benefits	336,361
Office and miscellaneous	137,436
Professional fees	61,536
Travelling expenses	44,441
	579,774

7. Guarantees

During 1976, the Industrial Development Division of the Cape Breton Development Corporation guaranteed the repayment by Sydney Steel Corporation of that corporation's $70,000,000 11¼% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to $30,310,000.

During 1971, the Industrial Development Division of the Cape Breton Development Corporation guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Abtiebolag. This guarantee originally amounted to $30,000,000. The balance of advances has since been reduced to $4,636,982.

As successor to the Industrial Development Division of the Cape Breton Development Corporation, the Corporation assumed these guarantees, which were made for and on behalf of Her Majesty the Queen in right of Canada; therefore, any amounts required to be paid as a result of these guarantees shall be paid out of the Consolidated Revenue Fund of Canada.

8. Commitments

(a) As at March 31, 1989, the Corporation had outstanding commitments as follows:

	$
Contributions	2,456,603
Capital expenditures	53,904

EXPORT DEVELOPMENT CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements contained in this annual report have been prepared by management in accordance with accounting principles generally accepted in Canada, consistently applied, which conform in all material respects with international accounting standards. The integrity and objectivity of the data in these financial statements are management's responsibility. The financial statements include some amounts, such as the allowance for losses on loans, that are necessarily based on management's best estimates and judgement.

In this report, the Auditor General of Canada has stated that in his opinion the value of sovereign loans receivable are significantly overstated because management's estimate for the allowance for losses on loans is significantly understated by at least $500 million, and therefore does not conform to generally accepted accounting principles. The basis for this qualification is that the Auditor General does not agree with the Corporation's policy as stated in Note 2 to the financial statements that, except in the rare instance of outright repudiation or the write-off of asset value agreed to by creditors, the ultimate collectibility of a sovereign obligation is not subject to question. The Board of Directors and management are in fundamental disagreement with the Auditor General's opinion.

During the year, the Corporation has recognized major changes in the accounting treatment of sovereign debt by the international financial community and increases both actual and prospective in its non-current loan portfolio. In view of this, management has made a substantial $200 million increase in the charge to income relating to the general allowance by transferring to the allowance for losses on loans the Reserve for Contingencies ($100 million), previously set aside for unforeseen circumstances, and from retained earnings ($100 million) representing the previous successes of the Corporation.

The general allowance of $375.9 million includes $324.8 million that management has prudently set aside to cover the potential costs of delays associated with the collection of sovereign non-current loans in the Corporation's portfolio and is unrelated to any specific loan principal. The Corporation's non-accrual of income policy with respect to non-current loans, together with provision expenses, has reduced revenue by $395.9 million in fiscal 1989 in response to repayment difficulties currently being experienced by many countries. These policies and resultant allowances described in Note 7 to the financial statements, when combined with the greatly improved quality of the committed but undisbursed loans receivable portfolio, have led the Board of Directors to conclude that the recovery estimates on sovereign risk loans are proper and that additional loan loss reserves at this time are neither necessary nor appropriate.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises this responsibility through the Audit Committee of the Board, which is composed of Directors who are not employees of the Corporation. The Audit Committee meets with management, the internal auditors and the Auditor General of Canada on a regular basis.

The Board of Directors is responsible for all business undertaken by the Corporation. Contracts which, in the opinion of the Board of Directors, involve risks for a term or an amount in excess of that which the Corporation would normally undertake, may be entered into under the authority of the Governor General in Council where the Minister considers them to be in the national interest. The Board of Directors is not accountable for such contracts, its obligation in relation thereto being limited to ensuring that they are administered in a sound manner. Funds required for such contracts are paid to the Corporation by Canada, and funds recovered are remitted to Canada, net of amounts withheld to cover related administrative expenses. The administration of accounts on behalf of Canada are shown in Note 16 to the Corporation's financial statements.

The Auditor General of Canada conducts an independent examination, in accordance with generally accepted auditing standards, and expresses his opinion on the financial statements. His report is presented on the following page.

R.L. Richardson
President and Chief Executive Officer

M.D.J. Bakker
Senior Vice-President Finance and Treasurer

EXPORT DEVELOPMENT CORPORATION—*Continued*

AUDITOR'S REPORT

TO THE MINISTER FOR INTERNATIONAL TRADE

I have examined the balance sheet of the Export Development Corporation as at December 31, 1989 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

Loans principal receivable and accrued interest and fees of $5.530 billion include sovereign loans in the amount of $4.718 billion. Against the $5.530 billion loans receivable, the Corporation has recognized an allowance for losses on loans of $376 million. In my opinion, the net loans receivable of $5.154 billion is overstated because the allowance for losses on loans is significantly understated and, therefore, does not conform to generally accepted accounting principles. The basis for my reservation is that I do not agree with the Corporation's policy on the ultimate collectibility of sovereign loans receivable as stated in Note 2 to the financial statements. In my view, the allowance for losses on loans should include a reasonable estimate of losses on sovereign loans receivable. My analysis indicates that the allowance for losses on loans should be increased by at least $500 million. If a reasonable allowance for losses on loans had been established, the net loans receivable of $5.154 billion would have been reduced by at least $500 million, and the effect of recognizing the resulting losses would have resulted in retained earnings becoming a deficit of at least $492 million causing a significant impairment of shareholder's equity.

In my opinion, except for the overstatement of the value of loans receivable as described in the preceding paragraph, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards, applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Export Development Act and the by-laws of the Corporation.

In accordance with Section 132(2)(b) of the Financial Administration Act, I would like to call your attention to Section 14 of the Export Development Act which establishes a limit on the total amount of borrowing by the Corporation. The Act allows the Corporation to borrow up to a maximum of ten times the aggregate of its paid in capital from time to time and the retained earnings, if any, determined in accordance with the most recent statements of accounts of the Corporation for a financial year that have been audited by the Auditor General of Canada.

The Corporation and the Government have received legal opinions that the Corporation may, under its statutory borrowing limit, lawfully borrow up to ten times its paid in share capital, even if the Corporation were to have a deficit. In light of the circumstances described in the second paragraph above, Parliament may want to consider the continued appropriateness of the borrowing limit contained in Section 14 of the Export Development Act.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

Ottawa, Canada
March 7, 1990

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1989

1. Act of incorporation and corporate mandate

Export Development Corporation was established on October 1, 1969 by the Export Development Act (The Act), a statute of the Parliament of Canada. The Corporation was created as an agent of Her Majesty in right of Canada for the purpose of facilitating and developing trade between Canada and other countries, by the provision of loans, guarantees and insurance. The Corporation is accountable for its affairs to Parliament through the Minister for International Trade.

2. Summary of significant accounting policies

These financial statements are prepared in accordance with accounting principles generally accepted in Canada, consistently applied, and conform in all material respects with international accounting standards. A summary of significant accounting policies follows:

Loans receivable

Loans receivable, mainly to sovereign entities, are stated in the Canadian dollar equivalent of the original amounts disbursed less repayments and includes where applicable interest capitalized as part of the rescheduling or restructuring process of loans with payment difficulties.

As an export credit agency of Her Majesty in right of Canada, the Corporation benefits from Canada's membership in the Paris Club, an international group, formed to deal on a multilateral basis with payment difficulties experienced by sovereign entities. Through the auspices of this Club and with subsequent negotiation, rescheduling agreements are arranged coupled with the implementation of International Monetary Fund disciplines to alleviate these payment problems. This negotiation process normally takes up to one year and is considered by the Corporation as part of its normal collection routine.

It is management's opinion, based on the Corporation's experience, that except in the rare instance of outright repudiation or the write-off of asset value agreed to by creditors the ultimate collectibility of a sovereign obligation is not subject to question although indefinite delays in repayment of principal and interest may have to be accepted. This opinion is also shared by the Government of Canada as stated in its accounting policies in the Public Accounts. Although it is not possible at this time for management to accurately determine the amount, if any, of the financial impact of these uncertainties and delays, the Corporation in order to be prudent has established policies with respect to non-current sovereign loans and a general allowance for any financial impact from these loans.

Loan interest and fees earned

In 1989, the Corporation changed its accounting policy regarding interest revenue recognition. Interest is accrued on principal receivable until such time as the loan becomes non-performing. Non-performing is defined as any loan where significant payments have not been received for a period of one hundred and eighty days. Prior period financial statements were not restated as the effect is immaterial.

Loan fees are taken into income over the disbursement and repayment periods of a loan.

Non-current loans receivable

Subsequent to a review of the payment history and an assessment of the collectibility of the loans, the Corporation may deem certain loans non-current. Non-current is defined as any loan where there is significant doubt as to collectibility in the short to medium term, where significant payments have not been received for a period of one year after a rescheduling agreement has been signed, or two years where rescheduling measures have not been undertaken. As a result, the Corporation terminates all interest accruals on these loans and reverses previously accrued interest over a period of up to twelve months following the loan becoming non-current. As well the capitalization of interest in future rescheduling agreements is not recognized for accounting purposes.

Non-current loans are restored to an accrual basis when regular repayment patterns of all or substantially all amounts due have been established, which is usually over a one to two year time period and normally after a rescheduling agreement has been signed, and there is reasonable assurance that the repayment pattern will continue in future years.

In addition to not recognizing interest on these loans, in most cases any undisbursed balances on signed loan agreements are cancelled or frozen, and sovereign borrowers are declared ineligible for further financing to prevent any increased exposure resulting from new business.

Specific allowance for losses on commercial loans receivable

The allowance for losses on loans is based on a review of collectibility, at least annually, of all loans to commercial borrowers. As the result of this review, the Corporation charges to income an amount sufficient to specifically provide for potential losses on commercial loans receivable portfolio to reflect the impairment of the related commercial loan assets.

General allowance for losses on loans receivable

In addition to specific allowances for losses on commercial loans, the Corporation prudently sets aside a general allowance on the loans receivable portfolio for which no specific provision has been made. In 1989, this allowance was supplemented through application of the amount of reserve for contingencies and retained earnings by an additional $200 million based on management's perception of changed circumstances in the world and the significant increase in the Corporation's non-current loans.

The major circumstances affecting management's perception include the major changes in the international financial community in the accounting treatment of sovereign debt, the initial impact on commercial banks and debtor countries of the Brady Plan initiatives, the decisions by some Paris Club participating governments to offer a variety of options for reducing the debt burden of the poorest nations and the changes in the Corporation's non-current sovereign loan portfolio where the actual increases incurred in 1989 and prospective increase for 1990 greatly exceed the marginal increases for the preceding two years.

This general allowance reflects the amount that management has prudently set aside to cover the potential costs of delays associated with the ultimate collection of sovereign non-current loans in EDC's portfolio, it is unrelated to any specific loan principal and is non-specific in terms of amount to any specific event mentioned above.

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Continued*

Reserve for contingencies

The Corporation had established, through transfers from retained earnings, a reserve for contingencies with respect to possible unforeseen decreases in the value of loans receivable or claims on insurance and guarantees. In 1989 the reserve for contingencies was credited back to retained earnings.

Non-accrued interest on non-current loans receivable

The cumulative amount of non-accrued interest and non-recognized capitalized interest has the effect over time of increasing the amounts legally due to the Corporation. This is recognized in the ongoing collection process and the rescheduling negotiations. It is management's best estimate that this accounting approach is the most appropriate and provides the Corporation with additional off balance sheet allowances.

Marketable securities

Marketable securities are valued at the lower of cost and market value as at the balance sheet date.

Recoverable claims

Claims payments are recorded at estimated recoverable values. Non-recoverable amounts are charged to the appropriate allowance for claims on insurance and guarantees. Subsequent net gains or losses on recovery are credited or charged to the allowance.

Allowance for claims on insurance and guarantees

The Corporation provides for claims based on claims experience augmented, if necessary, by a specific provision based on a review of contingent liabilities.

Investment interest earned

Investment interest, which is substantially earned outside Canada, is prorated between loans and guarantees and insurance and guarantees on the basis of average funds invested.

Interest expense

Interest expense includes hedging expenses, and the amortization of debt discount and issue expenses which are charged to income over the life of the debt on a straight line basis.

Insurance premiums

Insurance premiums and fees are earned in Canada. For short-term insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export insurance policies are taken into income using methods which generally reflect the exposures over the terms of the policies.

Translation of foreign currency

The Corporation hedges its U.S. dollar assets and liabilities on a total portfolio basis. Any net exposure to future changes in the U.S. dollar foreign exchange rate is due to short-term timing differences in cash flows. It is the Corporation's policy to manage assets and liabilities denominated in U.S. dollars in such a way as to minimize this net exposure. Accordingly, assets and liabilities denominated in U.S. dollars are translated into Canadian dollars at exchange rates prevailing at year-end.

Income and expenses are translated at average monthly exchange rates in effect during the year. Exchange gains and losses resulting from the translation of foreign currency balances and transactions are reported with investment interest earned.

3. Loans receivable

Current (which includes performing and non-performing) and non-current loans receivable from both sovereign and commercial borrowers are mostly at fixed interest rates established in competition with similar export credit agencies in other countries and generally below commercial rates. These loans are as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Non-current	1,019,841	692,468
Within 12 months		
—Fixed	575,597	540,195
—Floating	172,333	108,174
Overdue	64,461	146,998
1990		688,819
1991	661,668	630,588
1992	566,677	572,785
1993	473,580	445,808
1994	435,324	407,383
1995 and thereafter	1,428,563	1,111,937
Total	5,398,044	5,345,155
Commercial loans included above	680,633	684,279
Floating rate loans, generally based on LIBOR rates, included in total loans	1,563,607	1,276,692
The geographic distribution of these loans is as follows:		
Pacific and North Asia	535,942	562,986
South Asia	460,797	372,815
Middle East and East Africa	376,596	397,349
North and West Africa	1,246,005	1,119,639
Eastern Europe	415,387	641,320
Western Europe	454,950	479,018
USA and Caribbean	486,924	455,453
Mexico and Central America	324,606	297,716
South America East	548,536	467,561
South America West	548,301	551,298
Total	5,398,044	5,345,155

4. Overdues on current loans receivable

Amounts overdue consist of principal instalments and billed interest and fees that have not been received in accordance with the specified terms contained in the related loan agreements.

The geographic distribution of the overdue principal and recognized interest, in the amounts of $64,461 thousand (1988—$146,998 thousand) and $27,006 thousand (1988—$62,612 thousand) respectively, is as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Pacific and North Asia	97	2,283
South Asia	14	
Middle East and East Africa	67,736	22,927
North and West Africa	14,434	29,178
Eastern Europe	1	7
Western Europe	898	5,388
USA and Caribbean	1,028	16,469
Mexico and Central America	679	2,748
South America East	2,048	124,811
South America West	4,532	5,799
Total	91,467	209,610

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Continued*

5. Rescheduled and restructured amounts on current loans receivable

Rescheduled and restructured amounts during the year are as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Principal	172,855	108,175
Interest	40,758	50,095
Total	213,613	158,270

The geographic distribution of rescheduled and restructured current loans receivable is as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Pacific and North Asia	22,102	15,796
South Asia		
Middle East and East Africa	82,328	83,585
North and West Africa	95,881	143,094
Eastern Europe		
Western Europe	60,490	64,972
USA and Caribbean	65,567	37,830
Mexico and Central America	90,178	69,335
South America East	168,889	167,329
South America West	22,867	19,773
Total	608,302	601,714
Commercial amounts included above	32,852	38,614
Amounts overdue	8,501	15,765

6. Non-current loans receivable

Due to the weakening of economic conditions over time, certain loans where there is risk of long repayment delays or, in respect of commercial loans, significant doubt as to collectibility are placed in the non-current category. Non-current amounts receivable are as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Sovereign, mainly in South America, Eastern Europe and North and West Africa	936,904	593,208
Commercial, mainly in the USA	82,937	99,260
Total	1,019,841	692,468

In addition, at December 31, 1989, the accumulated interest not recognized on non-current loans amounted to $451,093 thousand (1988—$341,122 thousand) of which $430,257 thousand related to sovereign loans (1988—$286,063 thousand). Total interest on non-current loans not recognized as revenue in 1989 amounted to $124,681 thousand (1988—$89,438 thousand).

7. Allowances for losses on loans

Allowances for losses are as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Balance sheet allowances		
General allowance	324,872	107,819
Specific allowance	51,079	58,816
Total	375,951	166,635
Off balance sheet allowance		
Non-accrued interest revenue	462,064	341,122

Allowances were increased by $395,956 thousand (1988—$171,364 thousand) in the year of which $271,275 thousand (1988—$81,926 thousand) was charged through the income statement.

The $124,681 thousand (1988—$89,438 thousand) of non-current interest revenue in the year was augmented by $57,475 thousand (1988—$65,455 thousand) of written-off interest accrued on non-current and non-performing loans during the qualification periods. In accordance with Corporate accounting policies, this write-off was charged against the general allowance.

Other decreases in the allowances and accumulated non-accrued revenue of $4,484 thousand and $61,214 thousand (1988—$12,971 thousand and $19,468 thousand) were due mainly to foreign exchange, payments received and restructuring adjustments.

8. Loans—Statutory limits and commitments

The Act allows the Corporation to have outstanding loans and commitments to foreign borrowers up to a maximum of $15 billion. The position against this limit, determined in accordance with the requirements of the Act, is $7,652 million (1988—$7,337 million). Of this amount, undisbursed commitments on signed loan agreements are $2,195 million (1988—$1,933 million) with the balance representing loans receivable and loans with recourse to the Corporation.

The Corporation expects to fund these undisbursed commitments near the time of their disbursement, typically over a three year period, by issuing a combination of debt instruments in world capital markets at commercial rates of interest and capital stock. The Corporation generally attempts to match maturities and currencies with those of its average export loans.

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Continued*

9. Insurance—Statutory limits and contingent liabilities

The Act specifies that the Corporation can incur liabilities under contracts of insurance, related guarantees and guarantees pertaining to the lending program up to a maximum of $15 billion. The position against this limit, determined in accordance with the requirements of the Act, is $4,383 million (1988—$3,431 million).

Contingent liabilities with respect to insurance and related guarantees of the Corporation included in the above positions are as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Pacific and North Asia	488,828	318,668
South Asia	296,644	216,219
Middle East and East Africa	160,550	174,381
North and West Africa	434,445	293,556
Eastern Europe	87,145	44,326
Western Europe	440,415	501,665
North America and Caribbean	602,155	613,485
Mexico and Central America	477,664	338,349
South America East	152,173	123,410
South America West	75,807	68,313
Total	3,215,826	2,692,372

10. Insurance and guarantees—Allowance for claims

The experience under short and medium term programmes is as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Allowance at beginning of year	44,567	35,369
Provision during the year	12,115	12,721
Net write-offs	(8,023)	(3,523)
Allowance, end of year	48,659	44,567

11. Recoverable insurance claims

Activity for the year is as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Recoverable claims at beginning of year	10,157	8,867
Claims paid	19,793	26,968
Claims recovered	(16,231)	(21,529)
Net write-downs	(8,592)	(4,149)
Recoverable claims, end of year	5,127	10,157

12. Loans payable

The Act allows the Corporation to borrow up to a maximum of ten times the aggregate of its paid in capital from time to time and the retained earnings, if any, determined in accordance with the most recent Audited Financial Statements. As at December 31, 1989 and based on 1988 Audited Financial Statements, this formula produced a limit of at least $6,970 million (1988—$7,994 million) against which borrowings amounted to $5,473 million (1988—$5,221 million).

Loans payable mature as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Within 12 months		
—Fixed	674,263	518,221
—Floating	2,149,169	1,820,277
1990		773,517
1991	499,071	540,142
1992	725,887	633,222
1993	226,227	229,797
1994	74,561	76,600
1995 and therafter	1,123,349	628,945
Total	5,472,527	5,220,721
Commercial loans included above at fixed rates	2,610,061	2,645,172
Floating rate and short-term fixed rate revolving loans	2,862,466	2,575,549

The Corporation also had lines of credit and overdraft facilities aggregating $2,572 million at December 31, 1989 (1988—$2,618 million).

13. Share capital

The authorized share capital is $1.5 billion consisting of 15 million shares with a par value of $100 each. The number of shares issued and fully paid is 6,970 thousand (1988—6,970 thousand).

14. Foreign currency balances

The Corporation has substantial assets and liabilities in U.S. dollars and in other currencies. The Canadian dollar equivalent after taking into consideration forward exchange contracts is as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
U.S. dollars		
Assets	4,826,158	4,634,279
Liabilities	4,825,916	4,680,168
Net exposure	242	(45,889)
Rate of exchange U.S. $1.00	1.1585	1.1925
Austrian schillings, British pounds, Deutsche marks, European currency units, French francs, Swiss francs and Yen		
Assets	396,499	228,003
Liabilities	368,130	188,697
Net exposure	28,369	39,306

EXPORT DEVELOPMENT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Concluded*

15. Related party transactions

Transactions with Canada are summarized as follows:

	December 31	
	1989	1988
	(in thousands of dollars)	
Income and expense items		
Administrative expenses recovered	6,956	6,923
Interest earned	402	470
Less: interest expense		1,648
Total due to the Corporation	7,358	5,745

Amounts due to (due from) Canada

	December 31	
	1989	1988
	(in thousands of dollars)	
Canada bonds and Canadian Crown Corporation bonds	(9,844)	(5,028)
Accrued interest receivable	(58)	(22)
Accounts administered for Canada	19,628	21,209
Total	9,726	16,159

The Government of Canada has established an understanding that it may seek Parliamentary appropriations to eliminate any losses the Corporation might incur.

The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

The Corporation also enters into transactions with other Crown corporations in the normal course of business.

16. Accounts administered for Canada

(a) Pursuant to the Act, the Corporation administers for Canada certain loans and insurance programs entered into under the authority of the Governor in Council for which the Board of Directors is not accountable other than in respect of the administration of the contracts. These accounts (commonly known as Canada Account(s)) are maintained separately from the Corporation's accounts, and are consolidated annually as at March 31 with the financial statements of the Government of Canada which are reported upon separately by the Auditor General of Canada. The assets administered for Canada, mainly loans receivable and accrued interest and fees recorded in accordance with accounting policies and practices approved by the Government of Canada, amounted to $1,027 million (1988—$926 million).

(b) Canada account statutory limits, commitments and contingent liabilities

The Act allows the Accounts administered for Canada to have outstanding loans and commitments to foreign borrowers up to a maximum of $6 billion. The position against this limit, determined in accordance with the requirements of the Act, is $1,375 million (1988—$1,201 million).

The Act also specifies that the Accounts administered for Canada can incur liabilities under contracts of insurance, related guarantees and guarantees pertaining to the lending program up to a maximum of $7 billion. The position against this limit, determined in accordance with the requirements of the Act, is $62 million (1988—$321 million). Contingent liabilities of the Accounts Administered for Canada included in the above positions amounted to $58 million (1988—$298 million).

FARM CREDIT CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying financial statements of Farm Credit Corporation and all information in this annual report are the responsibility of management and have been approved by the Board of Directors. The financial statements include some amounts, such as the allowance for loan losses and the valuation of real estate acquired in settlement of loans, that are necessarily based on management's estimates and judgement.

The financial statements have been prepared in accordance with accounting principles which are generally accepted in Canada and which have been consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

The approach followed by the Corporation to estimate the allowance for loan losses, on a consistent basis with past years, includes a specific review of undersecured loans and a general estimate of probable losses inherent in the secured portion of the portfolio.

As a result of loans going through the recovery process the amount of the allowance attributable to specific individual loans has declined from the March 31, 1989 level. The increased uncertainty facing Canadian agriculture at this time, and its potential negative impact on farmers' ability to repay and the value of the Corporation's security has, in management's judgement, necessitated an increase in the general component of the allowance by $90 million. The general allowance is prudential in nature, and provides for loan losses which have not been specifically identified.

Other than an amount of $3.2 million, which was charged to operations to provide for probable loan losses on current year lending, no amount has been charged to or credited to operations with regard to the allowance for loan losses. The Board of Directors supports management's opinion that, in an environment of high interest rates, low export prices, forecasts of reduced farm incomes, particularly in the grain sector, and the uncertainty surrounding the current GATT negotiations, it would be imprudent to further reduce the allowance at this time.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. The system of internal control is augmented by internal audit which conducts periodic reviews of different aspects of the Corporation's operations. In addition, the internal and external auditors have full and free access to the Audit Committee of the Board, which oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the financial statements and for issuing his report thereon.

AUDITOR'S REPORT

TO THE MINISTER OF AGRICULTURE

I have examined the balance sheet of Farm Credit Corporation as at March 31, 1990 and the statements of operations and deficit and changes in cash position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained in the following paragraph.

Loans of $3,573 million are stated net of an allowance for loan losses of $279 million. Although the Corporation has provided me with evidence and analyses in support of the inclusion of $188 million in the allowance, it was unable to provide adequate support for the balance of $91 million. As a consequence, I was unable to satisfy myself as to the appropriateness of this additional amount. Accordingly, I was unable to determine whether any adjustments might be necessary to the allowance for loan losses and consequentially to the change in estimate-provision for loan losses, the net income (loss) for the year and the deficit.

In my opinion, except for the effect of adjustments, if any, which I might have determined to be necessary had I been able to satisfy myself with respect to the appropriateness of the additional $91 million in the allowance for loan losses described in the preceding paragraph, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its cash position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Farm Credit Act and the by-laws of the Corporation.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

Ottawa, Canada
June 7, 1990

FARM CREDIT CORPORATION—*Continued*

BALANCE SHEET AS AT MARCH 31, 1990
(in thousands of dollars)

FARM CREDIT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. The Corporation

(a) Authority and objectives

Farm Credit Corporation ("the Corporation") was established in 1959 by the Farm Credit Act as the successor to the Canadian Farm Loan Board and is an agent Crown corporation named in Part I of Schedule III to the Financial Administration Act. The Corporation makes and administers farm loans under the authority of the Farm Credit Act and the Farm Syndicates Credit Act, and administers programs as requested by the Government of Canada ("the government").

The Corporation's objective, as clarified in the Corporate Plan approved in 1988, is to provide mortgage credit and complementary financial services to Canadian farmers on a break-even basis and, when called upon by the government, to deliver specific government programs on a cost-recovery basis.

(b) Financial restructuring

The government has approved a financial restructuring for the Corporation which covers a four-year period ending March 31, 1992. It provides for the financial restructuring of the Corporation and establishes operating policies and management guidelines within which the Corporation is to operate.

2. Significant accounting policies

(a) Revenue recognition

Interest income is recorded on the accrual basis until such time as management determines that a loan should be classified as non-accrual. A loan is classified as non-accrual when:

Principal or interest is six months past due, unless the loan is well secured, or

When circumstances indicate doubt as to the ultimate collectibility of principal or interest.

When a loan is classified as non-accrual, uncollected interest recognized in the year is reversed against interest income and, where necessary, uncollected interest recognized in previous years is provided for in the allowance for loan losses.

Interest payments on non-accrual loans are recorded as interest income when received, where it has been determined that the loan does not require a specific provision for loss; otherwise, they are credited to principal.

Non-accrual loans return to accrual status when, in management's opinion, the ultimate collection of principal and interest is reasonably assured.

Lease and other revenues from real estate are recorded when earned.

Loan fees and charges are recorded as other income when earned.

(b) Allowance for loan losses

The allowance for loan losses represents management's best estimate of probable losses on the loans outstanding at the end of the year. The allowance has a specific component which is based on the review of outstanding undersecured loans and a general component, which is prudential in nature, to provide for loan losses which have not yet been specifically identified.

The allowance is based on a periodic evaluation of the loan portfolio in which numerous factors are considered including future land values, commodity prices, federal and provincial governments' programs, and climatic conditions. Management has estimated the effect of these risks and uncertainties when determining the allowance for loan losses. However, future agricultural and economic conditions are not predictable with certainty and, therefore, actual loan losses may vary from management's estimate.

The government has agreed to reimbusre the Corporation for concessions it will make to farmers during the next year as a result of its participation in the Farm Debt Review Board process. The type of concessions to be made through the process, and the extent to which they will reduce the Corporation's loan losses, are not presently known. They are, therefore, not included in establishing the allowance for loan losses.

Actual loan losses, write-downs of acquired real estate, and losses on the sale of real estate are charged to the allowance while recoveries are credited to the allowance. Adjustments of the allowance to the level regarded by management as being appropriate are applied to operations.

(c) Real estate acquired in settlement of loans

Real estate is recorded at the lower of the amount of the loan outstanding or the estimated net realizable value at the time of acquisition. Subsequent declines in estimated net realizable value are recorded in the year in which they occur.

(d) Farm debt review process

Amounts received on behalf of farmers for concessions granted by the Corporation under the farm debt review process are applied as if they had been received directly from the farmers.

(e) Fixed assets

Fixed assets are recorded at cost less accumulated depreciation or amortization. Depreciation and amortization are provided over the estimated useful lives of the fixed assets according to the following methods and rates:

	Methods	Rates
Equipment and furniture	Declining balance	20%
Computer equipment and software	Straight-line	20%
Leasehold improvements	Straight-line	Lease term plus the first renewal option

(f) Debt discount and issue expenses

Debt discount and issue expenses are amortized on a straight-line basis over the life of the debt and are included in interest expense on loans payable.

(g) Translation of foreign currencies

Loans and related interest payable in foreign currencies are hedged by currency conversion agreements and are translated into Canadian dollars at the rates provided therein. The differences between the ultimate amounts payable at the contracted rates and the cash proceeds of the debt issues are included with debt discount and issue expenses. These amounts are amortized on a straight-line basis and are charged to interest expense over the lives of the obligations.

FARM CREDIT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(h) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The Corporation's contributions to the plan are limited to matching the employees' contributions for current service. These contributions are expensed during the year in which the services are rendered and represent the total pension obligations of the Corporation.

(i) Employee termination benefits

On termination of employment, employees are entitled to benefits provided for under their terms of employment. The liability for these benefits is recorded as the benefits accrue to the employees.

(j) Income taxes

The Corporation follows the tax allocation method of providing for income taxes. The cumulative differences between tax calculated on such a basis and taxes currently payable are essentially timing differences and result in deferred income taxes. The Corporation has deferred tax benefits which have not been recorded and will only be recognized when there is virtual certainty that they will be realized.

3. Loans

	Annual interest rate	1990	1989
	%	(in thousands of dollars)	
Loans to farmers, secured by mortgages	5-16¾	3,808,429	4,137,681
Loans to farm syndicates, secured by notes	6¼-16½	5,400	4,858
Loans receivable from real estate sales, secured by agreements for sale or mortgages	5-15 ¾	38,950	39,812
		3,852,779	4,182,351
Less: allowance for loan losses		279,365	350,000
		3,573,414	3,832,351
Amounts due by fiscal year, based on loan terms, are as follows:			
Principal past due		48,640	55,550
1990			425,767
1991		236,661	252,293
1992		294,419	294,685
1993		294,176	290,456
1994		422,187	456,964
1995		377,520	335,925
1996 and beyond		1,995,748	1,836,342
		3,669,351	3,947,982
Accrued interest—Current		113,245	78,815
—Arrears		70,183	155,554
		3,852,779	4,182,351

At March 31, 1990, the Corporation had 5,495 loans representing $642 million of loans receivable classified as non-accrual (1989—7,040 representing $808 million). During the year, interest not recognized on non-accrual loans amounted to $31 million (1989—$75 million). The accumulated interest not recognized on non-accrual loans outstanding at March 31, 1990 amounted to $122 million (1989—$171 million).

4. Allowance for loan losses

The summary is as follows:

	1990	1989
	(in thousands of dollars)	
Balance at beginning of the year	350,000	500,000
Write-offs, net of recoveries	(73,837)	(129,831)
Provision for loan losses—Current year lending	3,202	2,203
Change in estimate—Provision for loan losses		(22,372)
Balance at end of the year	279,365	350,000
Specific allowance	124,365	285,000
General allowance	155,000	65,000
Balance at end of the year	279,365	350,000

5. Real estate acquired in settlement of loans

The summary is as follows:

	1990	1989
	(in thousands of dollars)	
Balance at beginning of the year	135,642	66,204
Acquisitions	118,205	138,299
Disposals	(75,566)	(68,861)
Balance at end of the year	178,281	135,642

Real estate represents farm property acquired in the process of administering loans receivable and must be disposed of within five years of acquisition or such further period as the Governor-in-Council may prescribe.

The Corporation has 1,864 properties (1989—1,485), of which 1,010 ($76 million) are saleable within the next year. Of these, 650 properties ($67 million) may be eligible for lease renewal. The balance are leased for periods of up to four years.

FARM CREDIT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

6. Loans payable

As part of the financial restructuring, $600 million of loans *from Canada was repaid during the year from the increase in* contributed capital. The government decided that no interest would be payable on these loans throughout the year.

	Annual interest rate	1990	1989
	%	(in thousands of dollars)

Accrued interest		99,070	108,169
		3,760,523	4,624,285

7. Limits on borrowing

The Farm Credit Act limits the aggregate amount outstanding of the principal borrowings by the Corporation pursuant to the Act to twenty-five times the contributed capital of the Corporation. At March 31, 1990, the Corporation's outstanding borrowings under this Act, comprising short-term notes of $103 million and loans payable of $3,658 million, were 4.60 times the contributed capital of $818 million (1989—20.95 times the contributed capital of $218 million).

The Farm Syndicates Credit Act limits the loans from Canada pursuant to the Act to $25 million. At March 31, 1990, the Corporation's loans from Canada under this Act were $4 million (1989—$5 million).

The Corporation continued to be restricted to borrowing its short- and long-term funding requirements from the government's Consolidated Revenue Fund. These borrowings require the approvals of both the Governor-in-Council and the Minister of Finance.

8. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under section 12 of the Farm Credit Act. The statutory limit was increased by $600 million in the current year to $825 million (1989—$225 million).

As part of the financial restructuring, Canada increased its contributed capital by $600 million. The Corporation has applied these amounts to the repayment of loans from Canada.

9. Income taxes

(a) Timing differences of approximately $392 million are available to the Corporation as at March 31, 1990. These have not been recognized in the accounts since they will not be used in the foreseeable future. They result primarily from differences between the provision for loan losses charged to operations and the amount claimed for income tax purposes.

In addition, the loss carryforward for income tax purposes which has not been recognized in the financial statements amounts to $438 million. Of this amount, $8 million will expire on March 31, 1993, $14 million on March 31, 1994, $118 million on March 31, 1995, $194 million on March 31, 1996 and $104 million on March 31, 1997.

(b) During the year, the government announced its intention to implement a large corporations capital tax. As at March 31, 1990 the required legislation had not been approved by Parliament. This tax would be effective on July 1, 1989 and may be offset against any surtax payable. Since the Corporation has no surtax payable, the amount paid may be carried forward to be offset against any future surtax payable, and will expire by March 31, 1997 if not utilized.

10. Commitments to farmers

As at March 31, 1990, loans to farmers approved but not disbursed amounted to $47 million (1989—$23 million). These loans were approved at rates from 12 to 13.75 per cent. It is expected that the majority of these loans will be disbursed within the six-month period ending September 30, 1990, from funds to be borrowed by the Corporation at prevailing rates of interest at the time of borrowing.

11. Operating leases

Future minimum payments by fiscal year on operating leases for premises, with initial non-cancellable lease terms in excess of one year, are as follows:

	(in thousands of dollars)
1991	2,558
1992	2,436
1993	1,817
1994	1,196
1995	944
1996 and beyond	2,327
	11,278

These leases generally provide for the payment by the Corporation of real estate taxes and operating expenses in excess of the amounts established at the commencement of the lease term.

FARM CREDIT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

12. Government programs

(a) Commodity-based Loan Program

In its budget announcement of February 26, 1986, the government instructed the Corporation to establish the Commodity-based Loan Program for existing clients of the Corporation who were experiencing financial difficulty and who met certain eligibility criteria. The program provides for reduced interest rates with loan principal indexed to changes in commodity prices. The resulting net cash flow deficiencies, if any, are made up by the government subject to annual Parliamentary appropriation.

During the year, Commodity-based Loans in the amount of $2.6 million (1989—$29 million) were disbursed, of which $0.4 million (1989—$3 million) was used to pay arrears on the Corporation's previous loans. In addition, $13 million was received from the government in respect of cash flow deficiencies (1989—$16 million) related to the Commodity-based Loan Program.

In the budget announcement of April 27, 1989, the government cancelled future lending under the Commodity-based Loan Program. Existing loans will, however, continue to be administered under the Program.

(b) Farm debt review process

Subject to annual parliamentary appropriation, the Minister of Agriculture has been authorized to make contributions to farmers, payable to the Corporation. These payments are based on concessions that the Corporation has granted to farmers under arrangements made pursuant to the Farm Debt Review Act. The Corporation is reimbursed at the time farmers realize the benefits of the concessions, which may be over a period as long as five years. These concessions cease if the farmers fail to meet their commitments, or the Corporation proceeds with recovery action.

The government has allocated up to $270 million for concessions to be granted over the period ending March 31, 1991. Since the inception of the farm debt review process, the Corporation has offered $107 million in concessions and received $76 million from the government of which $39 million was received in the current year and $37 million in prior years. The committed difference of $31 million will be due and received over the next five years as farmers meet their commitments and thereby realize the benefits of the concessions.

13. Comparative figures

Certain 1989 comparative figures have been reclassified to reflect the presentation adopted in 1990.

FEDERAL BUSINESS DEVELOPMENT BANK

AUDITORS' REPORT

TO THE MINISTER OF
INDUSTRY, SCIENCE AND TECHNOLOGY
AND
TO THE MINISTER OF STATE
(SMALL BUSINESSES AND TOURISM)

We have examined the balance sheet of the Federal Business Development Bank as at March 31, 1990 and the statements of operations, deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Bank that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Federal Business Development Bank Act, the by-laws of the Bank and with the directive given to the Bank as disclosed in Note 7.

FEDERAL BUSINESS DEVELOPMENT BANK—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Objectives and operations of the Corporation

Federal Business Development Bank is a Crown corporation wholly-owned by the Government of Canada, which was established December 20, 1974, by the Federal Business Development Bank Act and commenced operations on October 2, 1975, as the successor to the Industrial Development Bank.

The objectives of the Bank, as stated in the Act, are to promote and assist in the establishment of business enterprises in Canada by providing financial assistance, management counselling, management training, information and advice (See Note 3); giving particular consideration to the needs of small business enterprises.

The Bank's lending and venture capital operations are carried out by Financial Services. Management Services includes counselling and training. A statement of operations is shown for Management Services since it is funded separately by parliamentary appropriation.

Federal Business Development Bank is for all purposes of its Act an agent of the Government of Canada and, as such, all liabilities of the Corporation are direct obligations of the Government of Canada.

The Bank is exempt from income taxes.

2. Significant accounting policies

Loans and venture capital investments

Loans and venture capital investments are recorded at principal amounts.

Provision for losses on loans, guarantees and venture capital investments

Provisions are established for specifically identified probable losses on loans, guarantees and venture capital investments, as well as for anticipated but unidentified losses. The specific provision is established on an account by account basis whereas the general provision is based on historical experience and the level of loss experience anticipated and is intended to cover losses on loans, guarantees and venture capital investments which have not yet been specifically identified.

Revenue recognition

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where management believes that the interest will not be recovered. Dividends, interest and capital gains on venture capital investments are recorded as income when received.

Fixed assets and depreciation

Fixed assets are recorded at cost.

Depreciation is charged against income using the straight-line or diminishing balance methods in amounts sufficient to amortize the cost of fixed assets over their estimated useful lives.

With respect to the Management Services function of the Bank, all capital expenditures are charged against income in the year of acquisition as these are funded by parliamentary appropriation.

Premiums, discounts and debt issue expenses

Premiums, discounts and expenses related to the issue of debt are amortized on a straight-line basis over the term of the obligations to which they pertain and charged to interest expense.

Translation of foreign currencies

Notes payable in foreign currencies and interest thereon, are hedged by forward exchange contracts and are translated into Canadian dollars at the rates provided therein. The Bank adopts a similar practice for notes denominated in Canadian currency, which are tied to the performance of foreign currencies. The difference between the ultimate amount payable at the contracted rate and the cash proceeds of the issue is considered to be an element of financing costs and is therefore amortized to interest expense over the life of the obligation on a straight-line basis. The unamortized portion of these amounts is included with unamortized debt issue expenses in the balance sheet.

Interest rate swaps

The Bank enters into interest rate swap transactions as part of its debt financing strategy. Amounts receivable and payable arising from these contracts are recorded over the life of the swap contracts as interest expense.

Pension plan

The Bank maintains a contributory, defined benefit pension plan for eligible employees. Periodic actuarial evaluations are performed by independant actuaries to determine the value of accrued pension benefits and the costs of the plan. Pension expense for the year is comprised of the aggregate of:

- — the cost of pension benefits provided in respect of current service and,
- — the amortization over the expected average remaining service life of employees for adjustments arising from changes in the plan or assumptions, experience gains or losses and the plan funding excess or deficiency determined by the latest actuarial valuation.

The cumulative difference between the amounts of pension expense and funding contributions is recorded in "Other liabilities" or "Other assets" as applicable.

Employee termination entitlements

Termination entitlements arising from the Bank's conditions of employment are expensed in the year in which they are earned by employees.

3. Management Services reorganization

During the year ended March 31, 1990, the Information and Advice programs of Management Services were eliminated in response to the reduction in annual appropriation announced by the Minister of Finance in his budget speech of April 27, 1989. The costs ot the reorganization, consisting mainly of employee terminations and excess space, have been expensed in the year.

4. Management Services—Net loss

The net loss of Management Services arises from expenses which are not recovered through parliamentary appropriation until they are paid, such as employee termination entitlements and pension fund accruals.

5. Venture capital investments

	1990	1989
	(in thousands of dollars)	
Shares	28,538	34,049
Shareholder advances	996	1,299

Convertible debentures	1,218	1,806
	45,467	51,721

FEDERAL BUSINESS DEVELOPMENT BANK—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

6. Accumulated provision for losses

	1990	1989
	(in thousands of dollars)	
Accumulated provision, beginning of year	174,411	137,870
Amounts written off during the year	(19,661)	(19,636)
Recovery of amounts previously written off	2,674	2,368
	157,424	120,602
Provision for the year	57,135	53,809
Accumulated provision, end of year	214,559	174,411

7. Long-term investment

Pursuant to a directive dated October 16, 1986, given by the Government of Canada to the Federal Business Development Bank under section 89 of the Financial Administration Act, the Bank was directed to purchase from Cominco Ltd. 790,000 series "E" preferred shares for an amount of $79 million. The Government of Canada provided funding for this transaction.

Cominco Ltd. is a Canadian mining producer of zinc and lead. This investment forms part of a $260 million program of modernization relating to lead smelting operations in Trail, B.C. A twenty-year agreement between the Government of Canada and Cominco Ltd. provides for a sharing in the risks of the project. The redemption of the Bank's investment and payment of dividends thereon are tied to the success of the project as determined by a profitability index which is related to the performance of lead and silver prices over the life of the agreement.

This investment is carried at cost and any dividends will be recorded when received.

8. Long-term notes

Maturities by fiscal year are as follows:

Rate %	1991	1992	1993	1994	1995	1996-99	Total
			(in thousands of dollars)				
8 1/4-9 7/8	206,040	261,744	183,084	75,000	25,000	25,000	775,868
10-11 5/8	244,976	399,738	169,200	56,672	431,121	20,665	1,322,372
12-13 7/8	16,077						16,077
14 1/4-15 3/8	12,700						12,700
	479,793	661,482	352,284	131,672	456,121	45,665	2,127,017

The above includes long-term notes payable of:

	Canadian dollars (in millions of dollars)
United States $130.9 million	172.4
Japanese Yen 19.3 billion	141.5
European Currency Units (ECU) 100.0 million	125.4
Australian $100.0 million	94.3
Italian Lira 12.0 billion	9.5
	543.1

These notes are hedged by forward exchange contracts (See Note 2).

The first table includes $349.5 million of long-term notes payable which have been the subject of interest rate swap agreements with other financial institutions. Under these agreements, fixed interest rate commitments ranging between 8 3/4% and 15 3/8% have been converted to floating interest rates which resulted in effective interest rates for fiscal 1990 which ranged between 12% and 13 1/2%. These borrowings fund a portion of the Bank's floating interest rate loan portfolio.

9. Capital paid in by Canada

	1990	1989
	(in thousands of dollars)	
Amount paid to the Bank of Canada pursuant to section 52 of the Federal Business DevelopmentBank Act	79,000	79,000
Amounts paid in pursuant to subsection 28(1) of the Federal Business Development Bank Act	475,000	468,600
Amounts paid in by appropriation	26,600	23,000
	580,600	570,600

10. Statutory limitations on operations

The Minister of Finance, with the approval of the Governor in Council, has authorized capital payments to the Bank totalling $475 million, being the maximum allowed by subsection 28(1) of the Federal Business Development Bank Act. The Bank may receive additional funding for the purposes of section 20 of the Act by way of appropriation.

The total of direct and contingent liabilities of the Bank may not exceed twelve times the amount of its "Capital" as defined in subsection 28(2) of the Federal Business Development Bank Act (or up to fifteen times with the approval of the Governor in Council). These liabilities combined with the Bank's "Capital" may not exceed $3.2 billion.

11. Contingent liabilities and commitments

(a) The Bank is guarantor of loans aggregating $2.3 million.

(b) Various legal proceedings arising from the normal course of business are pending against the Bank. Management considers that the aggregate liability resulting from these proceedings will not be material.

(c) As at March 31, 1990, the undisbursed amounts on loans and venture capital investments authorized aggregated $163.6 million.

(d) The future minimum lease commitments under operating leases related to the rental of Bank premises are as follows:

	(in thousands
1991	6,297
1992	5,862
1993	5,173
1994	4,408
1995	3,991
Thereafter	6,604
	32,335

FEDERAL BUSINESS DEVELOPMENT BANK—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

12. Pension plan

Based on the latest actuarial valuation prepared as of December 31, 1989, the present value of the accrued pension benefits amounted to $179.0 million and the market related value of the net assets was $184.6 million.

13. Financial Services

The statement of operations for Financial Services is comprised of the results of the Loans Division and the Venture Capital Division which are segregated below. Within the capital of the Bank as at March 31, 1990, was an amount of $45.6 million provided by the Government of Canada to fund the venture capital investment portfolio.

	1990			1989		
	Loans	Venture capital	Total	Loans	Venture capital	Total
	(in thousands of dollars)					
Interest and investment income	357,169	8,983	366,152	301,046	15,563	316,609
Interest expense	224,574		224,574	185,705		185,705
Net interest and investment income	132,595	8,983	141,578	115,341	15,563	130,904
Provision for losses	55,158	1,977	57,135	49,917	3,892	53,809
Net interest and investment income after provision for losses	77,437	7,006	84,443	65,424	11,671	77,095
Non-interest expenses	70,190	3,208	73,398	62,812	3,214	66,026
Net income	7,247	3,798	11,045	2,612	8,457	11,069

14. Salaries and staff benefits

Salaries and staff benefits for the year ended March 31, 1990, include employee termination entitlements accrued as at that date which had not been previously recorded in the accounts, as follows:

	$
Financial Services	4,151,000
Management Services	838,000

15. Comparative financial data

Certain amounts pertaining to the fiscal year ended March 31, 1989, have been reclassified to conform with the presentation adopted for the fiscal year ended March 31, 1990.

The financial statements for the year ended March 31, 1989, were examined and reported upon by Mr. Raymond J. Morcel, F.C.A. of Price Waterhouse.

FRESHWATER FISH MARKETING CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Freshwater Fish Marketing Corporation as at April 30, 1990 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at April 30, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Freshwater Fish Marketing Act and by-laws of the Corporation.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS APRIL 30, 1990

1. Objectives and operations

The Corporation was established by the Freshwater Fish Marketing Act (the Act) in 1969, as a corporation without share capital, for the purpose of marketing and trading in fish, fish products and fish by-products in and out of Canada. The Corporation is an agent Crown corporation named in Schedule III, Part I of the Financial Administration Act and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed $30 million.

The Corporation has the exclusive right to market the products of the commercial fishery in the provinces participating in the program in inter-provincial and export trade. Participation of the provinces of Manitoba, Saskatchewan, Alberta and Ontario and the Northwest Territories was established by agreement with the Government of Canada.

2. Significant accounting policies

Inventories

Finished fish products are valued at the lower of cost and net realizable value. Packaging material and parts are valued at the lower of cost and replacement cost.

Depreciation and amortization

Depreciation is based on the estimated useful lives of the assets using the following methods and annual rates:

Buildings	—Lake stations	Straight-line	10%
	—Plants	Straight-line	2 1/2%
Equipment	—Machinery and office equipment	Declining balance	10-25%
	—Automotive	Declining balance	30%
Fresh fish delivery tubs		Straight-line	10%
Vessels		Straight-line	6 2/3%

Leasehold improvements are amortized on a straight-line basis over the term of the lease. Lease terms vary in length up to 20 years.

Payments to fishermen

The Corporation purchases fish at initial prices established by the Board of Directors and the cost of such purchases is included in the cost of sales. A guide used in the determination of the initial price is 80% of the projected total payments to fishermen (initial plus final), based upon forecasts prepared by the Corporation. Final payments, if any, to fishermen are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and therefore are charged to operations of the current year.

Foreign currency translation

Accounts receivable and payable denominated in foreign currency are translated into Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transactions. Foreign exchange gains and losses are included in interest expense.

Contributions

Contributions earned in respect of property, plant and equipment are credited to the cost of the assets; those received in respect of job creation programs are credited against salaries and wages expense.

FRESHWATER FISH MARKETING CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
APRIL 30, 1990—*Concluded*

3. Contributions receivable

	1990	1989
	$	$

	20,347,237	11,507,896	8,839,341	8,002,263

5. Working capital loans from Canada

These loans are made under Section 16(1) of the Act and bear interest at 11.49% (1989—10.045%). They are secured by promissory notes.

6. Interest expense

	1990	1989
	$	$
Interest on working capital loans from Canada	2,054,426	786,777
Losses on foreign exchange	60,874	38,610
Interest income	(88,050)	(89,714)
	2,027,250	735,673

7. Income taxes

The Corporation is eligible to deduct for tax purposes a portion of its eligible capital cost allowance, and accordingly has no taxable income for the year. At April 30, 1990, the excess of undepreciated capital cost over net book value of property, plant and equipment amounted to $2,667,156 (1989—$2,937,199) which can be used to reduce future years' taxable income.

8. Remuneration to foreign agents

During the year, the Corporation paid an aggregate amount of $766,964 (1989—$745,420) to the following foreign sales agents: Frohman International, Juhl Brokerage Incorporation, Associated Marketing Services Inc., R.M. Sloan Co., G&G Food Sales Company, Sahakian Salm & Gordon, Benolken Brokerage Company, X. Sea. Lnt International Corp., Performance Foods, Bocar Enterprises,—U.S.; I. LeGrand H. Malo et Cie—France; Lejos Oy—Finland; AB.P. Jorgensen—Sweden; Rud Kanzow Gmbh & Co.—Germany.

9. Comparative figures

Certain of the comparative figures have been reclassified to conform to the current year's presentation.

GREAT LAKES PILOTAGE AUTHORITY, LTD.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of the Great Lakes Pilotage Authority, Ltd. as at December 31, 1989 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations, and the by-laws of the Authority.

GREAT LAKES PILOTAGE AUTHORITY, LTD.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Authority and objectives

The Great Lakes Pilotage Authority was established in February 1972 pursuant to the Pilotage Act, incorporated as a limited company in May 1972, and is continued under the Canada Business Corporations Act. Pursuant to the Financial Administration Act, the Authority is a Crown corporation listed in Schedule III Part I thereto. The majority of shares issued by the Authority are held by The St. Lawrence Seaway Authority, the parent Crown corporation. The balance is held by the Authority's Chairman and six Directors appointed by the Governor in Council.

The objectives of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act provides that the pilotage tariffs shall be fair, reasonable and sufficient and together with any revenue from other sources, shall permit the Authority to operate on a self-sustaining financial basis.

The Authority is exempt from any income taxes.

2. Significant accounting policies

Parliamentary appropriations

Parliamentary appropriations received to finance the excess of expenditures over revenues are recorded in the year in which they are voted by Parliament. Any portion of the appropriations pertaining to operating expenditures requiring an outlay of funds is reflected in the statement of deficit. Any portion of the appropriations pertaining to the acquisition of fixed assets is recorded as contributed capital.

Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful lives of the assets as follows:

Buildings	20 years
Furniture and equipment	5 to 10 years

Pension plan

All employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid.

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees. The current liability reflects the accrued termination benefits of only those employees who have indicated their intention to terminate their employment within the coming year.

Employee life insurance plan

The Authority provides an annual life insurance plan for its employees on a self-insurance basis. Surpluses, premiums and deficits from the plan are included in revenues and/or expenses in the year in which they apply.

3. Life insurance experience gain/loss

The 1989 gain of $11,313 resulted from an overaccrual in 1988. The 1988 life experience loss of $114,242 resulted from an underestimate in 1987, a year in which an unusual number of life insurance claims arose.

4. Pension plan

Under provisions of the Pilotage Act, pilots who choose to become employees of the Authority are entitled to count certain service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately $203,000 as of December 31, 1989 (1988—$164,200) and will be funded over the remaining years of service of the pilots, or the terms of purchase, whichever is the lesser.

In 1989 the pension expense was $443,521 (1988—$430,697) including $45,805 (1988—$36,251) for past service contributions.

5. Commitments

The Authority has renewed its lease agreement for the rental of office space. The annual rental payments are:

	$
1990	42,837
1991	44,977
1992	47,213
1993	49,435
1994	4,135
	188,597

In addition, the Authority has contract commitments for the pilot boat service for the next year. The estimated commitment with respect to these contracts is approximately $300,000. Tenders have been requested for the land transportation service for the next two years. The estimated commitment is approximately $160,000 a year.

HALIFAX PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of the Halifax Port Corporation as at December 31, 1989, and the statements of income and surplus, and changes in financial position, for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989, and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with the Financial Administration Act and regulations, the Canada Ports Corporation Act, and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989

1. In accordance with the Canada Ports Corporation Act, sections 6.1 and 6.2, a petition for the establishment of a local port corporation at the Port of Halifax was approved and the Halifax Port Corporation was established effective June 1, 1984.

   In accordance with the Canada Ports Corporation Act, the assets, liabilities and equity were transferred at their carrying values in the accounts of the Canada Ports Corporation—Port of Halifax to Halifax Port Corporation.

2. Significant accounting policies

(a) Investments

The investments, which are direct and guaranteed securities of Canada, are shown at amortized cost. Premiums or discounts are amortized over the periods to maturity.

(b) Fixed assets

Fixed assets are recorded at cost, except for those transferred to the Corporation from Canada, which are recorded at appraised or fair market value established at the time of transfer. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related fixed assets.

Depreciation is calculated on the straight-line basis for the full year, commencing with the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions for pensions are recognized in the accounts on a current basis.

(d) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(e) Employee benefits

The Corporation accrues in its accounts, annually, the estimated liabilities for severance pay, annual leave, and overtime compensatory leave, which are payable to its employees in subsequent years under its collective agreements or in accordance with its policy.

HARBOURFRONT CORPORATION

AUDITORS' REPORT

TO THE MINISTER OF PUBLIC WORKS

We have examined the consolidated balance sheet of Harbourfront Corporation as at March 31, 1990 and the consolidated statements of operations, contributed capital and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, except as described in Note 3 to the consolidated financial statements, the transactions of the Corporation and its subsidiaries that have come to our notice during our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Corporation and the management agreement dated June 13, 1980 as amended and renewed from time to time and expiring March 31, 1991.

HARBOURFRONT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and mandate of the Corporation

Harbourfront Corporation (the "Corporation"), continued under the Canada Business Corporations Act December 21, 1984, is a parent Crown corporation listed under Part I of Schedule III to the Financial Administration Act. The share capital of the Corporation is held by Her Majesty the Queen in Right of Canada ("Canada") as represented by the Minister of Public Works. The Corporation is exempt from corporate income tax.

The Harbourfront site, owned by Canada, totals approximately 100 acres and occupies a central position on the Toronto waterfront.

Under a Management Agreement with Canada dated June 13, 1980 as amended and renewed from time to time and expiring March 31, 1991, the Corporation has the dual role and mandate to:

(a) Develop, manage and operate the Harbourfront site in accordance with a development framework approved by Canada; and

(b) Initiate, conduct or sponsor cultural, recreational, scientific and educational programs which, in its view, are of advantage to the public.

Title to the lands of the Harbourfront site is held by Canada with the exception of parkland and public infrastructure conveyed to municipal governments and certain lands transferred to the Corporation by Canada. All development activity by the Corporation relates to the sale of air rights or the lease of lands of the Harbourfront site on behalf of Canada. The net proceeds generated by the Corporation from the development of the Harbourfront site as well as capital contributions from Canada are credited to contributed capital to recognize Canada's contribution to the capital funding of the Corporation.

All funds derived from the capitalized leasing, sale or resale of lands or development rights are available to the Corporation in fulfilling its mandate. These funds, when received from developers, are placed on deposit with Canada in the Harbourfront Capital Account, an interest bearing account of the Consolidated Revenue Fund. The principal may be withdrawn by the Corporation with the approval of Canada. The interest is distributable to the Corporation on request.

The principal subsidiaries of the Corporation are The Art Gallery at Harbourfront, International Readings at Harbourfront and School by the Water.

2. Evolution of the Corporation

The Corporation has been subject to development freezes and task force studies by various government bodies over the past few years. A summary of these events follows:

(a) During the period April through October 1987, a policy review of the role and mandate of the Corporation was performed at the request of the Minister of Public Works. All development projects were held in abeyance during the review.

(b) On February 22, 1988, Toronto City Council passed an Interim Control Bylaw suspending, with very few exceptions, all development activity on the Harbourfront site. The Corporation reached a settlement with the City of Toronto which established a new basis for the development of Harbourfront. Under the settlement, the Corporation would agree to convey 40.8 acres of the 100 acre Harbourfront site to the City and to provide $25 million towards the cost of improving the City's parks at Harbourfront over the next six years. This agreement was to take effect on December 14, 1989.

(c) In early 1989, the Royal Commission on the Future of Toronto's Waterfront began hearings which included an examination of the role and mandate of the Corporation. An interim report was issued by the Royal Commission in August 1989 which recommended that the Corporation enhance its public programming activities and discontinue its land development role.

(d) The Province of Ontario concurred with the recommendations of the Royal Commission and on December 13, 1989, before implementation of the settlement with the City of Toronto, imposed a development freeze on the Harbourfront site to allow the Province time to make its own recommendations on land use and related issues. The Provincial recommendations call for, among other things, the removal of three condominium projects from the south side of Queen's Quay, and for the Corporation to relinquish its role as a land developer.

Discussions are underway to effect the evolution of the Corporation to a community based non-profit organization. Legislation providing for the sale of any or all assets and the dissolution of the Corporation was tabled May 31, 1990.

Due to the uncertainty of the impact on the Corporation, the ramifications of the evolution of the Corporation, including the possible renegotiation of existing development contracts, have not been reflected in these consolidated financial statements.

3. Non-compliance with the Financial Administration Act ("FAA"):

During the past few years, the operations of the Corporation have been subject to several reviews as described in Note 2 to the consolidated financial statements. Because senior management focused attention on these reviews, a lower priority was placed on several of the requirements of the FAA. As a result:

(a) completion of the special examination was delayed to May 1990, beyond the statutory deadline of September 1, 1989;

(b) notwithstanding the fact that joint auditors had been appointed, the special examination was carried out on a sole examiner basis; and

(c) internal audits performed by the Corporation did not meet the broad scope requirements of the FAA.

4. Accounting policies

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in Canada.

The significant accounting policies of the Corporation are as follows:

(a) Basis of consolidation

These consolidated financial statements include the accounts of the Corporation and its subsidiaries.

(b) Revenue recognition

Revenues from public programming activities are recognized on performance of the related event. Revenues from public facilities and commercial activities are recognized as the related services are provided.

(c) Development proceeds and costs

All development proceeds and costs directly attributable to a project are deferred until approval of the related development agreement is received from Canada, at which time, the proceeds are recorded, net of related development costs, as contributed capital. Development costs not attributable to a particular project are charged to contributed capital as incurred.

HARBOURFRONT CORPORATION—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

(d) Parkland and public infrastructure

Costs related to parkland and public infrastructure expected to be conveyed are deferred and charged to contributed capital when title is passed to the appropriate municipal government. All other public infrastructure costs are charged to contributed capital as incurred.

(e) Government funding and corporate sponsorship

Grants and sponsorship income are recorded as receivable when receipt is reasonably assured. Grants and sponsorship income are recognized as revenue on performance of the related event or over the period being funded, as appropriate. Grants and sponsorships related to specific capital projects are applied against the cost of those projects. Parliamentary appropriations and grants from Canada for the development of the site are made in its capacity as shareholder and are recorded as contributed capital.

(f) Fixed assets

Fixed assets are recorded at cost, net of related government grants and corporate sponsorship. Depreciation is calculated on the straight-line basis over the estimated useful life of each asset. Transfers of land to the Corporation from Canada, required to facilitate certain development agreements, are recorded at a cost of $1.

5. Cash and term deposits

Included in cash and term deposits is a separate "Investment in the Arts" account of $150,571. This fund is comprised of a $120,000 contribution by the Ontario Ministry of Culture and Communications and a $30,571 contribution by Harbourfront Corporation.

6. Receivable from Canada

	1990	1989
	$	$
Deposit in the Harbourfront Capital Account	3,998,029	6,839,097
Interest receivable on the Harbourfront Capital Account	167,150	917,673
	4,165,179	7,756,770
Less non-current portion		1,839,097
	4,165,179	5,917,673

7. Receivable from developers

	1990	1989
	$	$
Due on sale of air rights	12,053,217	15,665,395
Interest and construction allowances	1,280,410	1,779,275
	13,333,627	17,444,670
Less non-current portion	12,404,952	12,445,999
	928,675	4,998,671

8. Deferred development costs

	1990	1989
	$	$
Deferred costs of projects under development	713,676	713,676
Deferred costs of parkland and public infrastructure	4,368,312	3,734,549
	5,081,988	4,448,225

9. Fixed assets

	1990	1989
	$	$
Land	1	1
Building	3,658,959	3,658,959
Equipment	2,468,032	2,151,823
	6,126,992	5,810,783
Less government grants and corporate sponsorship	3,459,110	3,227,753
	2,667,882	2,583,030
Less accumulated depreciation	1,471,186	975,397
	1,196,696	1,607,633

Construction of The Art Gallery at Harbourfront was completed in 1988. As the capital costs of this facility are expected to be recovered from pledges, no depreciation of the unrecovered capital costs of $199,849 (1989—$431,206) has been recorded in the year.

10. Share capital

As at March 31, 1990, the authorized share capital of the Corporation consists of 500,000 (1989—500,000) common shares without par value of which 215,500 (1989—215,500) shares are issued and fully paid for consideration of $1 (1989—$1).

11. Cumulative contributions by Canada

The following unaudited historical cost information has been supplied by the Department of Public Works:

	Fiscal 1972 to 1980	Fiscal 1981 to 1990	Total
	$	$	$
Land acquisition	54.4		54.4
Operating and capital expenditures	21.5	3.6	25.1
Operating contributions		8.5	8.5
Development and land acquisition contributions		51.3	51.3
	75.9	63.4	139.3

Amounts contributed subsequent to fiscal 1980 represent expenditures pursuant to the Management Agreement with Canada.

Only that portion which represents cash received from Canada has been recorded in the accounts of the Corporation.

12. Litigation

The Corporation is the defendant in a number of legal actions and, in a number of instances, has instituted counterclaims. In the opinion of management, these actions will not have a material adverse effect on the financial position of the Corporation.

INTERNATIONAL CENTRE FOR OCEAN DEVELOPMENT

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the International Centre for Ocean Development and all information in this annual report are the responsibility of management and have been approved by the Board of Directors.

The financial statements have been prepared in accordance with accounting principles which are generally accepted in Canada and which have been consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. In addition, the Audit and Evaluation Committee of the Board oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada is responsible for auditing the financial statements and for issuing his report thereon.

Gary C. Vernon
President

AUDITOR'S REPORT

TO THE MINISTER FOR EXTERNAL RELATIONS

I have examined the balance sheet of the International Centre for Ocean Development as at March 31, 1990 and the statements of operations, surplus, contributed surplus and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Centre that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the International Centre for Ocean Development Act, and the by-laws of the Centre.

INTERNATIONAL CENTRE FOR OCEAN DEVELOPMENT—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and objectives

The International Centre for Ocean Development was established by the International Centre for Ocean Development Act in 1985 as a Crown corporation without share capital, named in Part I of Schedule III to the Financial Administration Act and is exempt from the provisions of the Income Tax Act. The Centre is dependent on the Government of Canada for operating appropriations.

The objectives of the Centre are to initiate, encourage and support cooperation between Canada and developing countries in the field of ocean resource development by:

(a) initiating and supporting programs in developing countries for the improved management and utilization of ocean resources, particularly as a source of food;

(b) supporting the development of indigenous expertise and institutions in developing countries in order to increase the capacity of developing countries in integrated ocean use management;

(c) enlisting the expertise of people and institutions in Canada, developing countries and elsewhere;

(d) developing and sponsoring the collection and dissemination of information relating to ocean resource development;

(e) developing and sponsoring training programs, technical assistance and advisory services relating to ocean resource development; and

(f) supporting research relating to ocean resource development.

2. Significant accounting policies

The financial statements reflect the following policies:

(a) Capital expenditures

Purchases of equipment, office furniture, and costs of leasehold improvements are expensed in the year of acquisition.

(b) Parliamentary appropriations

Parliamentary appropriations are recorded in the Statement of Surplus for the year to which they apply.

(c) Project expenditures

The Centre enters into agreements with third parties to undertake projects. Project expenditures are charged to operations when disbursed and as they become due under the terms of the contractual agreement.

(d) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required equally from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

(e) Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Foreign administrative expenses are translated using the weighted average of exchange rates in effect at the date of transfer to the Centre's foreign office. The resulting foreign currency translation gains and losses are included in the results of operations.

(f) Recognition of recoveries

Revenue in respect of projects is recognized at the time the related expenses are incurred.

3. Contributed surplus

Pursuant to the approval of the Minister of External Relations, the contributed surplus of $54,227 has been transferred to surplus, effective March 13, 1989. Contributed surplus represented the net book value of assets contributed to the Centre by the predecessor, non-government organization, International Centre for Ocean Development.

4. Operating leases

The Centre has entered into various operating lease arrangements for office premises and equipment. The future minimum lease payments are as follows:

Year ending March 31	$
1991	360,360
1992	402,894
1993	423,308
1994	415,916
1995	9,276
	1,611,754

5. Contractual commitments

The Centre is committed to the following project expenditures, subject to compliance by recipients with the terms of their agreements.

Year ending March 31	$
1991	5,287,920
1992	4,041,152
1993	1,488,610
1994	409,300
1995	387,370
	11,614,352

6. Comparative figures

The comparative figures have been reclassified to conform to the statement presentation adopted in 1990.

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE

AUDITOR'S REPORT

TO THE INTERNATIONAL DEVELOPMENT RESEARCH CENTRE
AND THE
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have examined the balance sheet of the International Development Research Centre as at March 31, 1990 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards, applied on a basis consistent with that of the preceding year.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1990

1. Authority and objective

The International Development Research Centre, a Corporation without share capital, was established in 1970 by the Parliament of Canada through the International Development Research Centre Act. The annual grant received from the Parliament of Canada is pursuant to External Affairs Vote 50 for the years ended March 31, 1990 and 1989 respectively.

The objective of the Centre is to initiate, encourage, support, and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical, and other knowledge to the economic and social advancement of those regions.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles, conforming with International Accounting Standards, and reflect the following significant accounting policies.

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE—*Continued*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1990—*Continued*

Property and equipment

Property and equipment are recorded at cost and depreciated over their estimated useful lives. Leasehold improvements are amortized over the terms of the respective leases. The methods and rates used to provide for the depreciation and amortization of property and equipment are:

	Method	Rate(%)
Computer equipment	Straight-line	20
Leasehold improvements	Straight-line	5-50
Office furniture and equipment	Diminishing balance	20
Vehicles	Diminishing balance	30
Telephone system	Straight-line	20

Recognition of revenue

Parliamentary grants are recorded as revenue on an accrual basis.

Revenue in respect of contract research is recognized at the time the related project expenses are incurred. Contract research funds received in excess of expenses are included in current liabilities.

Accrued employee separation benefits

Employees are entitled to specified termination benefits, calculated at salary levels in effect at the time of separation as provided for by conditions of employment. The liability for these benefits is recorded as the benefits accrue to employees.

Deferred rent

Any rent-free period or other benefits associated with long-term leases are deferred and amortized over the term of the lease on a straight-line basis.

Pension costs

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

Income taxes

The Centre is exempt from any income taxes.

Foreign-currency translation

Foreign-currency transactions are translated into Canadian dollars by the use of an average exchange rate that closely approximates the rate in effect at the transaction date. Monetary assets and liabilities are adjusted to reflect the rate of exchange in effect at year-end. Exchange gains and losses are included in operations for the current year.

3. Cash and short-term deposits

	1990	1989
	$	$
Cash (bank overdraft)	(659,105)	(179,966)
Short-term deposits		
Canadian chartered banks	11,648,255	25,114,133
Foreign-owned chartered banks	2,151,598	1,962,920
Federal and Provincial governments	974,930	
	14,115,678	26,897,087

4. Property and equipment

	1990			1989
	Cost	Accumulated depreciation and amortization	Net	Net
	$	$	$	$
Computer equipment	5,424,094	2,402,335	3,021,759	2,593,069
Office furniture and equipment	1,742,902	1,050,189	692,713	774,663
Leasehold improvements	1,365,142	376,525	988,617	496,299
Vehicles	1,275,473	638,702	636,771	742,632
Telephone system	852,347	714,368	137,979	163,821
	10,659,958	5,182,119	5,477,839	4,770,484

Depreciation and amortization for the year amounted to $1,322,278 (1989, $995,099).

5. Endowment funds

In 1987, the estate of the late John Bene established a fund to provide a postgraduate fellowship in the field of social forestry. During the same year, a former member of the Board of Governors of the Centre established a fund for applied or mission-oriented research. This year, the Centre received a contribution from the V International Conference on AIDS (acquired immune deficiency syndrome), which was used to establish a fund for the purpose of AIDS research in the Third World.

	1990	1989
	$	$
Balance at the begining of the year	165,441	151,273
Donations received	255,958	5,000
Interest income	22,076	13,919
Expenses	(10,000)	(4,751)
Balance at the end of the year	433,475	165,441
John Bene	160,170	154,882
Governor	17,201	10,559
AIDS	256,104	
Total endowment funds	433,475	165,441

6. Accounts payable and accrued liabilities

	1990	1989
	$	$
Accrued liabilities—Projects	6,983,667	7,278,920
Accrued annual and other leave benefits	1,390,149	1,221,879
Other	2,930,009	3,872,897
	11,303,825	12,373,696

7. Contract research

Contract research relates to research conducted or managed by the Centre on behalf of other organizations and to the V International Conference on AIDS organized by the Centre. These are funded by other international agencies, the Canadian International Development Agency (CIDA), other federal government entities, and registration fees.

Contract research expenses of $9,276,881 (1989, $4,198,988) include $2,909,740 (1989, $2,431,480) expended on behalf of CIDA. In addition, the Centre received $49,971 (1989, $24,511) as an administration fee from CIDA, which is included in investment and other income.

Contract research current liabilities of $1,426,291 (1989, $2,532,328) include $1,043,422 (1989, $608,257) held on behalf of CIDA.

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE—*Concluded*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1990—*Concluded*

8. Operating leases

The Centre has entered into various lease arrangements for office premises, equipment, and staff accommodation in Canada and in various countries. The total annual payments under such lease arrangements will be:

Year ending March 31	$
1991	6,142,124
1992	5,150,099
1993	4,805,005
1994	4,625,239
1995	4,545,862
1996-1997	12,122,893
	37,391,222

9. Contractual commitments—Project grants and program development

The Centre is committed to make payments up to $116,097,000 during the next 4 years subject to funds being provided by Parliament and subject to compliance by recipients with the terms of project agreements. The Centre has also submitted formal grant offers to prospective recipients totaling $18,739,003 and is awaiting acceptance of these offers.

10. Comparative figures

The 1989 figures have been reclassified to conform to the statement presentation adopted in 1990.

LAURENTIAN PILOTAGE AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of Laurentian Pilotage Authority as at December 31, 1989 and the statements of operations, contributed capital, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations and the by-laws of the Authority.

Bank indebtedness		
Increase (decrease) for the year	(88,627)	136,226
Balance at beginning of the year	848,821	712,595
Balance at end of the year	760,194	848,821

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Authority and activities

The Laurentian Pilotage Authority was established in February 1972 under the Pilotage Act. Its objectives are to establish, operate, maintain and administer in the interests of safety an efficient pilotage service within certain designated Canadian waters in and around the Province of Quebec. The Act provides that pilotage tariffs shall be fair and reasonable and assure a revenue which, together with any revenue from other sources, is sufficient to permit the Authority to operate on a self-sustaining basis.

The Authority is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

2. Significant accounting policies

Fixed assets

Fixed assets obtained from Canada when the Authority was established were recorded at the then assigned values. Fixed assets purchased subsequently by the Authority are recorded at cost.

Fixed assets are depreciated using the straight-line method, at rates based on the estimated useful lives of the assets.

Contributed capital

The values assigned to the fixed assets obtained from Canada when the Authority was established and the net cost of fixed assets financed from parliamentary appropriations are recorded as contributed capital.

Parliamentary appropriations

Parliamentary appropriations received to finance the excess of expenditures over revenues are recorded in the year in which they are voted by Parliament, to contributed capital for that portion pertaining to the acquisition of fixed assets and to the deficit for that pertaining to operations. In this respect, operating expenditures include only those which require an outlay of funds.

LAURENTIAN PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

Pension plan

Employees participate in the Superannuation Plan administered by the Government of Canada. The employees and the Authority contribute equally to the cost of the Plan. This contribution represents the total liability of the Authority. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

3. Fixed assets

Details of fixed assets are as follows:

	1989			1988
	Cost	Accumulated depreciation	Net	Net
	$	$	$	$
Land	9,300		9,300	9,300
Buildings	35,048	25,713	9,335	8,315
Pilot boats	1,401,418	1,051,516	349,902	448,664
Furniture and fixtures	155,875	87,295	68,580	74,532
Communications equipment	151,873	109,441	42,432	44,577
Boarding facilities	223,634	154,690	68,944	68,543
Wharf improvements	169,033	76,065	92,968	101,420
Leasehold improvements	82,059	80,691	1,368	17,780
	2,228,240	1,585,411	642,829	773,131

Depreciation for the year is $166,601 ($173,884 in 1988).

The estimated useful lives for the principal categories of fixed assets for the purposes of calculating depreciation are as follows:

Buildings	10 years
Pilot boats	10 and 15 years
Furniture and fixtures	10 years
Communications equipment	10 years
Boarding facilities	10 and 20 years
Wharf improvements	20 years
Leasehold improvements	duration of the leases

4. Parliamentary appropriation

On February 8, 1990, the Treasury Board approved the inclusion of an appropriation up to $1.9 million in the Supplementary Estimates for 1989-90 to cover the Authority's cash deficit for the year 1989.

5. Contingencies

In connection with its operations, the Authority is the claimant or defendant in certain pending claims and lawsuits. It is the opinion of Management that these actions will not result in any material liabilities to the Authority.

MARINE ATLANTIC INC.

MANAGEMENT RESPONSIBILITIES FOR FINANCIAL REPORTING

The consolidated financial statements presented in this annual report are the responsibility of Marine Atlantic Inc.'s management. They have been approved by its Board of Directors.

Management prepared the consolidated financial statements in accordance with generally accepted accounting principles in Canada. The financial information contained in the annual report is consistent with the data presented in the financial statements.

Marine Atlantic Inc. maintains books of account, systems of information, systems of financial and management control, as well as a comprehensive internal audit program which provide reasonable assurance that accurate financial information is available, that assets are protected, that resources are managed efficiently, and that transactions are conducted in accordance with relevant legislation and the corporation's articles of incorporation and by-laws.

The Board of Directors oversees internal audit activities through its audit committee. The committee reviews matters related to accounting, auditing, internal control systems, and the financial statements and annual report of the independent external auditors.

D.J. Weaver
Vice-President Finance and Administration

Terry W. Ivany
President and Chief Executive Officer

AUDITORS' REPORT

TO THE MINISTER OF TRANSPORT

We have examined the consolidated balance sheet of Marine Atlantic Inc. as at December 31, 1989 and the consolidated statements of income, deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, the transactions of the Corporation and its wholly-owned subsidiaries that have come to our notice in the course of our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the articles of incorporation and by-laws of the Corporation and its wholly-owned subsidiaries.

See accompanying notes to consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989
(in thousands of dollars)

1. Nature of operations and authority

The Marine Atlantic Inc. Acquisition Authorization Act was proclaimed in 1986. In accordance with the Act, the Corporation's articles restrict the business that it may carry on to the acquisition, establishment, management and operation of a marine transportation service, a marine maintenance repair and refit service, a marine construction business and any service or business related thereto. Marine Atlantic Inc. is a Crown Corporation listed in Schedule III, Part I of the Financial Administration Act and is not subject to income tax under the provisions of the Income Tax Act.

The Corporation's activities are also governed by agreements negotiated with the Government of Canada. The agreements provide, among other things, for the Corporation to receive contract revenues from the Government of Canada to the extent that the estimated cost of providing ferry, coastal, terminal and water services is not recovered from estimated commercial revenues. In addition, and subject to parliamentary appropriations, amounts are received to finance the acquisition of fixed assets on a proven cash needs basis. The allocation of funds received in respect of contract revenue and the acquisition of fixed assets are subject to approval by the Minister of Transport. As a result, the Corporation is economically dependent on the Government of Canada for the funds it receives through these arrangements.

2. Significant accounting policies

(a) These consolidated financial statements include the accounts of the Corporation and its wholly-owned subsidiaries, Newfoundland Dockyard Corporation and Coastal Transport Limited. All intercompany transactions have been eliminated in these consolidated financial statements.

(b) Inventory of fuel and supplies

Inventories are valued at the lower of cost and replacement cost. Cost is determined on a weighted-average basis.

(c) Work in progress

Ship repair and maintenance activities of the Newfoundland Dockyard Corporation are valued on a percentage of completion basis.

MARINE ATLANTIC INC.—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

(d) Fixed assets

Fixed assets are carried at the cost to acquire them less accumulated depreciation. Due to a change in funding arrangements with the Corporation's shareholder in 1986, and as explained further in Note 6, a provision for those capital costs not considered recoverable from future revenue sources has been made.

(e) Depreciation

Depreciation is calculated at rates sufficient to write off fixed assets over their estimated useful lives generally on a straight line basis. The rates for significant classes of assets are as follows:

Vessels	5%
Terminal properties	2.5%
Equipment	10%, 12.5% and 25%

(f) Deferred charges

Deferred charges are accounted for at cost less accumulated amortization. They are being amortized to income on a straight line basis over periods not exceeding 60 months.

(g) Government contract revenue and government contract revenue-accrued

(i) Revenues received under contract to provide ferry service to Atlantic Canada are based on operating budgets approved by the Government of Canada for each year and are included in income in the year received to fund operating expenses in excess of commercial revenues.

(ii) Revenue for vacation pay, vessel refits and separation benefits is accrued to the extent that the amounts are reasonably assured of being recovered from future contract revenue.

(h) Capital assistance

Amounts received or receivable from the Government of Canada, under the Capital Funding Agreement, to finance the acquisition of fixed assets are recorded in the Provision for Capital Assistance in the year in which the related fixed assets are capitalized, and are amortized to income on the same basis and over the same periods as the related fixed assets are depreciated. In management's opinion, the amounts received under the Capital Funding Agreement represent general capital assistance funds, not equity contributions from the Government of Canada as shareholder. Equity contributions, had there been any, would have been reflected as contributed capital in shareholder's equity/deficiency.

(i) Foreign currency translation

Monetary assets and liabilities denominated in a foreign currency are translated at exchange rates in effect at the year end. Other assets and liabilities, revenues and expenses are translated using exchange rates in effect at the date of the transaction. Gains and losses arising on translation are included in net income.

(j) Employee compensation

(a) Pension plans

Substantially all of the Corporation's employees are covered by a defined benefit retirement plan. Pension costs related to benefits earned by employees in the current year are charged to income. The value of the accrued pension benefits for services rendered to December 31, 1989, of $251 million, has been determined by the Corporation's actuaries using best estimate assumptions provided by management. The pension fund assets of $228 million as at December 31, 1989 have been valued using market related values calculated on a basis whereby they will be adjusted to market values over a 5 year period.

The net deficiency at January 1, 1989 for the plan is being amortized on a straight line basis over the estimated average remaining service lives of the related employee group.

(b) Personal injury costs

Certain employees, retired as a result of injury, receive specified pension benefits. The Corporation recognizes the benefit payouts as an expense in the year paid.

(k) Vessel spare parts

The Company maintains spare parts for vessels in service. The cost of spare parts is charged to operations in the period the purchase is made.

3. (a) Capital assistance receivable, Government of Canada

Under contractual terms contained in the Corporation's Capital Funding Agreement, the Corporation receives payments against its approved capital budget in installments calculated in reference to its monthly working capital deficiency or cash requirements. The amount receivable at December 31, 1989 represents a charge to the Government of Canada for funds previously approved under the Capital Funding Agreement.

(b) Accrued revenue, Government of Canada

Revenue for vacation pay, vessel refits and separation benefits in the amount of $21,217 is accrued pursuant to the accounting policy described in Note 2(g)(ii).

4. Fixed assets and deferred charges

	1989			1988
	Cost	Accumulated depreciation and amortization	Net book value	Net book value
	(in thousands of dollars)			
Land	604		604	604
Vessels	290,556	96,109	194,447	208,594
Terminal properties	94,582	23,524	71,058	64,047
Equipment	24,745	11,308	13,437	12,113
Leasehold improvements	255	115	140	153
	410,742	131,056	279,686	285,511

	562,623	131,056	431,567	301,741
Deferred charges	6,523	3,568	2,955	3,455
	569,146	134,624	434,522	305,196

MARINE ATLANTIC INC.—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

5. Long-term debt

Government of Newfoundland debenture, with interest at the rate of 16.55% per annum and maturing in 2008, payable by subsidiary, Newfoundland Dockyard Corporation.

Under the terms of the debenture, payment of non-cumulative annual interest and principal are required to the extent that annual funds are available from Newfoundland Dockyard Corporation. To date, no payments have been required. At maturity, the unpaid balance of the principal amount of the debenture shall cease to be an obligation of the Newfoundland Dockyard Corporation.

6. Provision for capital assistance

In accordance with changes in 1986 in the contractual funding agreements, future depreciation and amortization on those fixed assets and deferred charges acquired prior to January 1, 1987, and which had substantially been financed through the issue of capital stock, were no longer recoverable under contracts with the Government of Canada. Management considers it unlikely that the Corporation will generate sufficient commercial revenue to recover these costs. Accordingly, in 1986 management provided $290.6 million as an adjustment to retained earnings. This provision for capital assistance is reduced as the related assets are depreciated, amortized or upon their disposition. The provision for capital assistance is also charged annually with amounts received or receivable from the Government of Canada to finance the acquisition of fixed assets (see Note 2(h)) and is reduced as the related assets are depreciated.

7. Commitments and contingencies

(a) The total amount required to complete contracted fixed assets under construction at December 31, 1989 is estimated to be $6 million (1988—$129 million).

(b) The Corporation has received a claim of approximately $27 million including interest from the builder of one of the Corporation's vessels. The Corporation has filed a claim of approximately $14 million plus interest against the builder. An arbitration of this matter was completed in October 1986. The Corporation has been awarded a net amount of $1.356 million. However the arbitration is subject to appeal and the amount has not been recorded in the accounts.

The Corporation is also in receipt of claims, an estimated $845 thousand of which is in litigation and another $930 thousand of which has not yet reached litigation; however any final determination as to the Corporation's exposure is presently unknown.

8. Operating leases

The Corporation makes use of property which is available through operating leases. The minimum lease payments are as follows:

1990	1,044
1991	919
1992	898
1993	898
1994	843
Total minimum lease payments	4,602

9. Vessel charter

The Corporation charters vessels to complement its existing fleet. The minimum vessel charter payments are as follows:

1990	3,956
1991	1,946
1992	1,127
1993	1,127
	8,156

10. Prior period adjustment

As the result of an appeal to the Newfoundland government concerning sales tax on fuel, the Corporation recorded a refund relating to the prior period. The adjustment is for the years 1981-1988. The 1988 amount of $256 thousand has been reflected in the 1988 comparative figures and the remainder of the adjustment has been charged to the deficit.

11. Comparative figures

Certain 1988 comparative figures have been changed to reflect the prior period adjustment as described in Note 10 and to conform with the presentation for 1989.

MONTRÉAL PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of the Montréal Port Corporation as at December 31, 1989 and the statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Furthermore, in our opinion, the transactions of the Corporation that have come under our notice in the course of our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and with the charter and by-laws of the Corporation.

MONTRÉAL PORT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989

1. Status

The Montréal Port Corporation (the Corporation) was incorporated by letters patent in accordance with paragraph 6.2(1) of the Canada Ports Corporation Act on July 1, 1983.

Under Section 6.5 of the same Act, on the establishment of a local port corporation, all rights, obligations and liabilities of the Canada Ports Corporation in relation to that harbour shall become rights, obligations and liabilities of the local port corporation and the administration of all such property and works within the limits of that harbour as are administered by the Board, shall be deemed to have been transferred to the local port corporation, in this case the Montréal Port Corporation.

2. Significant accounting policies

(a) Investments

Investments are shown at amortized cost, with premiums or discounts amortized over their periods to maturity.

(b) Inventories

Materials and supplies are valued at the lower of cost and replacement cost. Cost is determined substantially on average cost.

(c) Fixed assets and depreciation

Fixed assets are recorded at original cost with related accumulated depreciation transferred from Canada Ports Corporation; subsequent acquisitions are recorded at cost.

Depreciation is calculated according to the straight-line method for the full year, commencing in the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

(d) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employees and the Corporation. These contributions represent the total liability of the Corporation and are recognized in the accounts on a current basis.

(e) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(f) Employee benefits

The Corporation accrues in its accounts the estimated liabilities for severance pay, annual leave, sick leave and overtime compensatory leave, which are payable to its employees in subsequent years under collective agreements, or in accordance with Corporation policy.

3. Investments

Funds are invested in Government of Canada direct securities and guaranteed by the Government of Canada. As at December 31, 1989, the market value of the short-term investments is equivalent to their amortized cost, and market value of long-term investments is $43,868,057 ($42,450,600 in 1988).

4. Fixed assets

MONTRÉAL PORT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Concluded*

5. Accounts payable and accrued liabilities

Included in accounts payable and accrued liabilities are amounts for deferred revenues of $632,317 ($1,002,793 in 1988) and for the current portion of long-term liabilities of $432,497 ($407,056 in 1988).

6. Loans from Canada

	1989	1988
	(in thousands of dollars)	
Loans bearing interest at 6.25% with blended annual principal and interest repayment requirements of $842,561 and maturing in the year 2000	6,561	6,968
Current portion	432	407
	6,129	6,561

Principal repayment requirements over the next five years amount to:

	$
1990	432,497
1991	459,528
1992	488,249
1993	518,765
1994	551,187

7. Contingencies

Claims aggregating approximately $6,300,000 in respect of lawsuits, guarantees and damages allegedly suffered on the Corporation property and sundry legal matters in dispute have been made against the Corporation but are not reflected in the accounts. In the opinion of the Corporation, its position is defensible and the final outcome of such claims should not result in any material loss.

8. Commitments

(a) Contractual obligations for the completion, construction and purchase of fixed assets are estimated at $708,000.

(b) In accordance with a Government of Canada policy concerning payment of dividend, the Corporation would be required to pay a dividend, in respect of the 1989 fiscal year, based on a method of calculation using net income. This dividend payable before March 31, 1990, would amount to approximately $1,410,000 and would be applied against retained earnings.

9. Related party transactions

In the ordinary course of business, the Corporation enters into transactions with related parties, including the Government of Canada, its agencies and other Crown corporations.

The Corporation derives revenues from related parties principally from grain warehousing and switching charges. The expenses paid to related parties are principally administration fees.

NATIONAL ARTS CENTRE CORPORATION

AUDITOR'S REPORT

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES
NATIONAL ARTS CENTRE CORPORATION

I have examined the balance sheet of the National Arts Centre Corporation as at August 31, 1989 and the statements of revenue and expenses, surplus and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at August 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

NATIONAL ARTS CENTRE CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1989

1. Objectives and operations

The objectives of the Corporation are: to operate and maintain the National Arts Centre; to develop the performing arts in the National Capital Region; and to assist the Canada Council in the development of the performing arts elsewhere in Canada.

In furtherance of its objectives, the Corporation may arrange for and sponsor performing arts activities at the Centre; encourage and assist in the development of performing arts companies resident at the Centre; arrange for or sponsor radio and television broadcasts and the showing of films in the Centre; provide accommodation at the Centre, on such terms and conditions as the Corporation may fix, for national and local organizations whose objects include the development and encouragement of the performing arts in Canada; and, at the request of the Government of Canada or the Canada Council, arrange for performances elsewhere in Canada by performing arts companies, whether resident or non-resident in Canada, and arrange for performances outside Canada by performing arts companies resident in Canada.

With a view to achieving the objectives, Her Majesty demised and leased the National Arts Centre building complex to the Corporation for a period expiring May 31, 1990. Negotiations are in progress to renew the lease. Under the terms of the lease, the Corporation is responsible for maintenance and operation of the building complex, but is not required to pay for the use of the complex.

2. Significant accounting policies

(a) Short-term investments

Short-term investments are carried at cost which approximates market value.

(b) Grants

Grants are recorded as revenue in the year in which the grantors make firm commitments to the Corporation.

(c) Inventories

Inventories are valued at the lower of cost and net realizable value for food, beverages and boutique materials or replacement cost for production materials.

(d) Programmes in progress

Direct costs, including advances to performing companies and artists, incurred prior to the end of the year for programmes in progress are deferred and charged to expenses in the year in which the programmes terminate. Indirect costs and common services not attributable to particular performances are charged to expenses in the year in which they are incurred.

(e) Fixed assets

Fixed assets used in the operations, other than the NAC complex, are recorded at cost. Depreciation and amortization are calculated on the straight-line method, as follows:

L'Atelier—Theatre	20 years
Equipment	5 and 7 years
Equipment under capital lease	5 and 7 years
Leasehold improvements	4 and 10 years

Since the complex is leased by the Corporation at no cost, no depreciation or amortization is taken on the building.

(f) Deferred revenue

Revenue from tickets sold prior to the end of the year for programmes in progress is deferred and credited to revenue in the year in which the programmes terminate. Gift certificates and exchange vouchers not redeemed within three years of the year of their issuance are written off and credited to revenue. A percentage of those less than three years old is also credited to revenue.

(g) Operating expenses

Expenses relating to performing arts programmes and commercial services do not include costs relating to building and equipment maintenance, utilities and administrative services. The costs relating to furniture and equipment that are not capitalized are included as expenses of operations of the buildings and commercial services.

(h) Pension plan

Employees of the Corporation participate in the Public Service Superannuation plan, administered by the Government of Canada. Contributions to the plan are required by both the employees and the Corporation. These contributions represent the Corporation's total obligation and are recorded as they become due.

(i) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees under the respective terms of employment.

(j) Parliamentary appropriations

The parliamentary appropriation for operations, received during the period April 1 to August 31, is in respect of the Government of Canada's fiscal year ending on March 31 of the following year. The Corporation credits to surplus each month one-twelfth of the approved appropriation. If the amount received to August 31 is in excess of 5/12ths of the appropriation, the excess portion is deferred to the following year. In the event that the amount received is less than 5/12ths of the appropriation, the difference is recorded as a receivable.

The parliamentary appropriation received for major capital projects is deferred until used. An amount equal to the cost of the projects incurred during the year is deducted from the deferred parliamentary appropriation.

11. Commitments

As at August 31, 1989, commitments for operating and capital leases, with terms of more than one year, amounted to $294,628. Future minimum payments under these arrangements are payable as follows:

Year ending August 31	$
1990	235,032
1991	34,580
1992	23,808
1993	1,208
	294,628

Furthermore, the NAC has an agreement with a ticket sales agency, which extends to 1996. Payments are based on the number of tickets sold; there are no minimum payments.

NATIONAL ARTS CENTRE CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 1989—*Concluded*

12. Related party transactions

In addition to the rental of the NAC complex, provided free of charge by the Government of Canada, the Corporation receives audit services without charge from the Office of the Auditor General of Canada.

During the year, in the normal course of business, the Corporation incurred expenses totalling $794,231 ($730,204 in 1988) for utility, ground maintenance, snow removal and telephone services provided by other government departments and agencies.

13. Comparative figures

Certain figures for the year ended August 31, 1988 have been reclassified to conform to the presentation adopted for the year ended August 31, 1989.

NATIONAL CAPITAL COMMISSION

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the National Capital Commission are the responsibility of management and have been approved by the members of the Commission. The financial statements have been prepared by management in accordance with generally accepted accounting principles.

Management has developed and maintains books of account, records, financial and management controls and information systems. These are designed to provide reasonable assurance that the assets are safeguarded and controlled and that transactions are in accordance with Part X of the Financial Administration Act and regulations as well as the National Capital Act and by-laws of the Commission. Internal audits are conducted to assess these systems and practices.

The members of the Commission carry out their responsibilities for the financial statements principally through an Audit Committee which consists of members of the Commission only. The Audit Committee meets periodically with management as well as with the internal and external auditors to discuss the results of audit examinations with respect to the adequacy of internal accounting controls and to review and discuss financial reporting matters. The external and internal auditors have full access to the Audit Committee, with and without management being present.

The Commission's external auditor, the Auditor General of Canada, has examined the financial statements. He submits his report to the Minister of Public Works who is responsible for the National Capital Commission.

Jean E. Pigott
Chairman

R. Curry Wood
Vice-President, Controller

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined the balance sheet of the National Capital Commission as at March 31, 1990 and the statements of operations, equity and changes in cash resources for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at March 31, 1990 and the results of its operations and the changes in its cash resources for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for Parliamentary appropriations to acquire land, buildings and equipment as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Commission that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the National Capital Act, and by-laws of the Commission.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada
June 1, 1990

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1990

1. Authority and objectives

The National Capital Commission was established in 1958 by the National Capital Act. The Commission is an agent Crown corporation without share capital named in Part I of Schedule III to the Financial Administration Act. The objects and purposes of the Commission, as stated in the National Capital Act, are to:

(a) "prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance; and

(b) organize, sponsor or promote such public activities and events in the National Capital Region as will enrich the cultural and social fabric of Canada, taking into account the federal character of Canada, the equality of status of official languages of Canada and the heritage of the people of Canada."

The powers of the Commission were further extended in 1988 to enable the Commission to coordinate the policies and programs of the Government of Canada respecting the organization, sponsorship or promotion by departments of public activities and events related to the National Capital Region.

The Commission is also responsible for the management and maintenance of the official residences located in the National Capital Region.

NATIONAL CAPITAL COMMISSION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

2. Significant accounting policies

(a) Land, buildings and equipment

Land, buildings and equipment are generally recorded at historical cost. Property acquired at nominal cost or by donation is recorded at market value at time of acquisition except for properties of historical significance whose market value cannot be reasonably determined. These are recorded at nominal value. Property acquired by exchange is recorded at the carrying value of the assets disposed of in the transaction. Improvements that extend the useful life of buildings and equipment are recorded at cost.

(b) Depreciation

Depreciation of assets in use is charged to operations in equal annual amounts based on the cost of the assets, their estimated useful life and their final salvage value. Useful life of assets is estimated as follows:

Buildings	20 years
Parkways, roadways and bridges	25 years
Park landscaping and improvement	25 years
Machinery and equipment	7 to 15 years
Office furniture and equipment	5 years
Vehicles	4 to 7 years
Antiques and works of art	10 years

(c) Operating supplies, small tools and nursery stock

Operating supplies and small tools are carried at cost. Nursery stock is valued at estimated replacement cost less an allowance for overhead, bailing and packaging expenses.

(d) Pension plan

The Commission's employees participate in the Public Service Superannuation Plan, which is administered by the Government of Canada. Contributions to the Plan are made by both the employees and the Commission on an equal basis. These contributions represent the total pension obligations of the Commission and are recognized in the accounts on a current basis.

(e) Employee termination benefits

Severance pay generally accrues to employees over their service period, and is payable on their separation or retirement. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(f) Parliamentary appropriations

Parliamentary appropriations for operating expenditures, for contributions to other levels of government and other authorities and for grants are used to offset the net cost of operations. Parliamentary appropriations to acquire land, buildings and equipment are credited to equity of Canada.

(g) Workers' compensation

The Commission assumes all risks for workers' compensation claims. The costs of such claims, as a result of injuries on duty, are recorded as expenses in the years compensation payments are due.

3. Change in accounting policy

The Commission has retroactively changed its accounting policy for parliamentary appropriations to acquire land, buildings and equipment.

In previous years these appropriations were included in equity of Canada only to the extent they were used to acquire such assets. The Commission now includes in equity of Canada the full amount of the appropriations received for the acquisition of land, buildings and equipment.

This change in accounting policy has no impact on the balance of equity of Canada. However, the effect of this change has been to decrease by $16.6 million in 1990 ($11.5 million in 1989) the amount of parliamentary appropriations to acquire land, buildings and equipment credited directly to the equity of Canada, and to increase accordingly the parliamentary appropriations used to offset the net cost of operations.

4. Cash and short-term deposits

The Commission has received Treasury Board authority to dispose of surplus properties. The authority provides for the use of the proceeds therefrom less related disposal expenses for the acquisition of properties essential to the Commission's mandate.

Also, under Governor in Council authority, the Commission has leased a property for 99 years. Rent for the term of the lease has been received in one payment at the beginning of the lease. The authority provides for the use of revenue from this transaction for the acquisition of environmentally sensitive lands.

Cash and short-term deposits include a balance of $6.1 million remaining from the above transactions as follows:

	Environmentally sensitive lands	Others	Total
	(in thousands of dollars)		
Proceeds	9,500	10,093	19,593
Acquisitions	(7,389)	(6,119)	(13,508)
Cash available	2,111	3,974	6,085

5. Land, buildings and equipment

*Provision for transfers pertains to property to be transferred in accordance with agreements with the Province of Quebec. This includes lands to be given free of charge for the approaches to the MacDonald-Cartier Bridge and lands to be transferred for $1 and to be used as a right-of-way to Highway 550.

NATIONAL CAPITAL COMMISSION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

6. Expenses

(a) Summary of expenses by major classification

	1990	1989
	(in thousands of dollars)	
Salaries and employee benefits	45,557	43,121
Goods and services	28,435	30,614
Grants in lieu of municipal taxes	11,632	12,254
Contributions	11,440	14,913
Depreciation	11,760	12,361
	108,824	113,263

(b) Sector definitions and objectives

The Commission uses six sectors to structure its activities. Short, medium and long-term objectives linked to the mandate and mission have been developed for each. The following provides the long-term objectives established for each sector:

Transcendent

To guide, facilitate and provide input and direction to the formulation and implementation of National Capital Commission programs to ensure the Commission's objectives are met.

Safeguard and Preserve

To safeguard and preserve the Capital and its assets for future generations.

Communicate Canada

To provide programs that present the past, present and future of Canada and that increase understanding of the country through the Capital.

Meeting Place

To implement programs that provide opportunities to bring Canadians together in the Capital to increase their knowledge and understanding of the country.

Operations/Asset Management

To manage the real property assets of the Corporation efficiently and effectively in accordance with their importance to the Capital.

Operations/Administration

To manage the resources of the Corporation efficiently and effectively and to provide services that allow the Commission to meet its objectives.

7. Major commitments

(a) The Commission is committed to contribute to the Province of Quebec, one-half of the cost of a road network within the Quebec portion of the National Capital Region. The Commission's remaining commitment to be paid over future years is estimated at $73.6 million but is payable only if funding is approved by the Treasury Board of Canada. The Treasury Board has authorized expenditures of $160.2 million for the Quebec road network. As of March 31, 1990, payments have totalled $136.2 million. Unpaid billings owing to the Province of Quebec amounted to $15.2 million and are recorded in the accounts of the Commission.

(b) The Commission has entered into agreements for computing services and leases of equipment and office space. Minimum annual payments under these agreements are approximately as follows:

	(in thousands of dollars)
1990-91	3,356
1991-92	3,160
1992-93	2,445
1993-94	22
	8,983

(c) The Province of Quebec has expropriated certain lands in the City of Hull on behalf of the Commission. An amount of $1.25 million will be payable in exchange of appropriate title documents.

(d) The Commission has entered into contracts for capital expenditures estimated to cost approximately $4.2 million. Payments under these contracts are expected to be made in 1990-91.

8. Contingencies

(a) Claims

Claims and potential claims have been made against the Commission totalling approximately $33.2 million for alleged damages and other matters. The final outcome of these claims is not determinable and accordingly these items are not recorded in the accounts. However, in the opinion of management, the position of the Commission is defensible. Settlements, if any, resulting from the resolution of these claims will be accounted for in the year in which the settlements occur.

(b) Agreement with the Province of Ontario

In 1961, the Commission entered into an agreement whereby the Province of Ontario established and maintains 2,761 hectares (6,820 acres) of forest. When the agreement expires in 2011, or is terminated, the Commission will reimburse the Province for the excess of expenses over revenues, or the Province will pay the Commission the excess of revenues over expenses. At March 31, 1989, cumulative expenses exceeded cumulative revenues by $1.1 million, and are not reflected in the accounts of the Commission.

9. Related party transactions

The Commission is related in terms of common ownership to all Government of Canada created departments, agencies and Crown corporations and is mainly financed by the Parliament of Canada.

(a) Canada Museums Construction Corporation Inc.

The Commission has permitted the Canada Museums Construction Corporation Inc. to undertake the construction of the Canadian Museum of Civilization on Commission lands. The Commission is in the process of transferring the lands in question to Public Works Canada in exchange for other properties of equal value.

NATIONAL CAPITAL COMMISSION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

(b) Canadian Museum of Contemporary Photography

The Commission and the National Museums of Canada are sharing costs for the construction of the Canadian Museum of Contemporary Photography on Commission lands. Total shared construction costs are estimated at $17 million of which the Commission's share is $13 million. As at March 31, 1990 payments on this project have totalled $845,000. The Commission has received Governor in Council authority to lease the completed building to the National Museums of Canada for a term of 49 years.

(c) Public Works Canada

Public Works Canada acts as an agent for the Commission with respect to sales of properties which are surplus to the Commission's needs. Fees charged are based on standard rates set by Public Works Canada. The Commission has also entered into an agreement with Public Works Canada, whereby the latter will, with respect to the official residences, provide certain property services at rates established with the Commmission and approved by the Treasury Board of Canada.

10. Comparative figures

Certain of the 1989 comparative figures have been reclassified to conform to the current year's presentation and to give effect to the change in accounting policy in Note 3.

OLD PORT OF MONTREAL CORPORATION INC.

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have examined the balance sheet of the Old Port of Montreal Corporation Inc. as at March 31, 1990 and the statements of transactions and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Corporation, as well as the agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works.

NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1990

1. Authority and activities

Canada Lands Company (Le Vieux-Port de Montréal) Limited was incorporated on November 26, 1981 under the Canada Business Corporations Act and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III to the Financial Administration Act. On September 27, 1989, the name of the Corporation was amended to become Old Port of Montreal Corporation Inc.

Effective February 1, 1982, pursuant to an agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works, the Corporation is responsible for developing and for promoting the development of the lands of the Old Port of Montreal, and for administering, managing, and maintaining the property of Her Majesty located therein. The Corporation fulfills this responsibility in the name and for the account of the Minister of Public Works who continues to hold title to the fixed assets for the benefit of Her Majesty.

OLD PORT OF MONTREAL CORPORATION INC.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1990—*Concluded*

2. Significant accounting policies

(a) Financial statements presentation

The financial statements present transactions carried out by the Corporation as agent and on behalf of the Minister of Public Works. All expenditures, net of proceeds from other than the direct use of fixed assets, are reimbursable to the Corporation. Proceeds from the direct use of fixed assets are payable to the Receiver General for Canada.

Differences between parliamentary appropriations received and net reimbursable expenditures are recorded by the Corporation as due from or due to the Minister of Public Works.

(b) Expenditures of a capital nature

Expenditures of a capital nature represent costs which significantly increase the value or extend the useful lives of properties administered by the Corporation. They also include costs of demolishing structures.

(c) Employee termination benefits

On termination of employment, employees of the Corporation are entitled to certain benefits provided for under the salary administration policy of the Corporation. The cost of these benefits is recorded in the year in which they are earned by the employees.

(d) Retirement savings plan

The Corporation has established a group retirement savings plan under which a single trust was established with a private sector organization in order to accumulate contributions to provide a retirement income for the employees through individually registered retirement savings plans. All contributions are paid by the employees, the Corporation acting solely as an agent without incurring any liability.

3. Due to Minister of Public Works

	1990	1989
	$	$
Balance at beginning of the year	315,103	(217,849)
Net expenditures	(5,048,748)	(6,768,973)
	(4,733,645)	(6,986,822)
Less:

Remittances to the Consolidated Revenue Fund	(475,965)	(370,704)
Balance at end of the year	179,392	29,867

5. Capital stock

The Corporation is authorized to issue a single share, to be held in trust for Her Majesty in Right of Canada, which may not be transferred without the consent of the Governor in Council. The authorized share has been issued in consideration of services rendered.

6. Commitments

As at March 31, 1990, the commitments for the leasing of lands and buildings and for the development of the lands totalled $985,368 ($535,376 as at March 31, 1989).

7. Contingent liability

As operator of the Expotec/Imax program, the Corporation has committed itself to take charge of the contingent liability which may result from a litigation between a municipal corporation and a services supplier. The Corporation considers that this lawsuit is ill-founded and consequently no provision has been recorded as at March 31, 1990. Any payment resulting from this commitment would be charged to the year during which the Corporation would actually be compelled to pay. As at March 31, 1990, the Corporation estimates this contingent liability to be approximately $700,000.

PACIFIC PILOTAGE AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of Pacific Pilotage Authority as at December 31, 1989 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations and the by-laws of the Authority.

PACIFIC PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

1. Authority and objectives

The Pacific Pilotage Authority was established in 1972 pursuant to the Pilotage Act. The objectives of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

Pilotage services on the Fraser River are provided by employee pilots and in other coastal waters under a contract with a local licensed pilots' company.

The Authority is a Crown corporation named in Part I of Schedule III to the Financial Administration Act and is not subject to any income taxes.

2. Significant accounting policies

Capital leases

Under the terms of certain lease agreements the Authority assumes the rights and obligations of ownership. These leases are treated as capital leases. An asset and an obligation are recorded at an amount equal to the market value of the asset at the beginning of the lease. The obligation is reduced each year by the principal portion of the lease payments and the interest portion is charged to expense.

Depreciation

Depreciation of property and equipment is calculated on a straight-line basis and is based on the estimated useful lives of the assets as follows:

Buildings	20 years
Pilot boats	25 years
Equipment—Communication and other	10 years
—Computer	5 years
Leasehold improvements	15 years

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these payments is recorded in the accounts as the benefits accrue to the employees.

Contributed capital

Amounts representing the values assigned to property and equipment transferred from Canada in 1972 and the cost of any property and equipment financed from parliamentary appropriations are shown as contributed capital.

Retained earnings

Amounts are appropriated from time to time by the Authority to provide for extraordinary costs arising from renewal or acquisition of fixed assets and for contingencies.

Pension plan

All employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

3. Property and equipment

	1989	1988
	(in thousands of dollars)	
Buildings	40	40
Pilot boats	1,202	1,201
Equipment—Communication and other	640	627
—Computer	343	292
Leasehold improvements	60	58
	2,285	2,218
Accumulated depreciation	1,612	1,501
	673	717

The above assets include in 1989 a computer under a capital lease at a total value of $43,375 less accumulated depreciation of $8,671.

A change in the estimated service life of pilot boats from 20 years to 25 years has resulted in a reduction of $32,603 to depreciation expense in the current year.

4. Obligation under capital lease

	1989	1988
	(in thousands of dollars)	
Total minimum payments under 18% capital lease agreement due February 1994, payable in blended monthly payments of $1,094	55	
Amount representing interest	(16)	
Balance of obligation	39	
Current portion	(13)	
Long-term portion	26	

The Authority has an option to purchase the computer, at any time, at a price to be determined when the option is exerciced.

5. Commitments

The Authority has a long-term operating lease obligation for office accommodation aggregating $867,600 to December 31, 1999 at a base annual rent of $86,760. The obligation also calls for pro-rata share of operating costs estimated at $22,750 for 1990.

The Authority has an operating lease agreement for the services of a manned pilot boat with a guaranteed annual rental of $58,000 until December 31, 1990, plus operating expenses. Until that date, the Authority holds an option to purchase the boat at a price to be determined if the option is exercised.

PETRO-CANADA

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The financial statements have been prepared by management in accordance with generally accepted accounting principles appropriate in the circumstances. Management is responsible for the other information in the Annual Report, which is consistent, where applicable, with that contained in the financial statements. Management is also responsible for installing and maintaining a system of internal control to provide reasonable assurance that reliable financial information is produced. The Corporation has an internal audit department whose functions include reviewing the system of internal control to ensure that it is adequate and functioning properly.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Board exercises its responsibilities through the Audit Committee of the Board, a majority of which is composed of directors who are not employees of the Corporation. The committee meets with management, the internal auditors and the external auditors to satisfy itself that responsibilities are properly discharged and to review the financial statements.

The external auditors conduct an independent examination, in accordance with generally accepted auditing standards, and express their opinion on the financial statements. Their examination includes a review and evaluation of the Corporation's system of internal control and appropriate tests and procedures to provide reasonable assurance that the financial statements are presented fairly. The external auditors have full and free access to the Audit Committee of the Board.

AUDITORS' REPORT

TO THE HONOURABLE JAKE EPP, P.C., M.P.
MINISTER, ENERGY, MINES AND RESOURCES CANADA
HOUSE OF COMMONS, OTTAWA, ONTARIO

We have examined the consolidated balance sheets of Petro-Canada (incorporated by Special Act of the Parliament of Canada) as at December 31, 1989 and 1988 and the related consolidated statements of earnings, retained earnings and changes in financial position for the year then ended. Our examinations were made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at December 31, 1989 and 1988 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for oil and gas exploration, development and production activities as explained in Note 2 to the consolidated financial statements, on a consistent basis.

Further, we have examined the transactions of the Corporation and its consolidated wholly owned subsidiaries that came to our notice in the course of the above mentioned examinations, to determine whether they were in accordance with Part X of the Financial Administration Act, the regulations, the charter and by-laws of the Corporation and its consolidated wholly owned subsidiaries and any directives given to the Corporation pursuant to the Act. Our examinations of these transactions were made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances. In our opinion, these transactions were, in all significant respects, in compliance with the authorities specified.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 1989
(stated in millions of dollars)

1. Summary of significant accounting policies

(a) Basis of consolidation

The Consolidated financial statements include the accounts of Petro-Canada, an agent of Her Majesty in right of Canada, and of all subsidiary companies ("the Corporation") except Canertech Inc., which is excluded for the reason described in Note 9.

The excess of the consideration paid for the shares of subsidiaries over the underlying net book values at the dates of acquisition is attributed to the related assets acquired and is amortized over the life of these assets.

(b) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost of crude oil, refined products and merchandise is determined on a "first-in, first-out" basis.

(c) Investments

The Corporation accounts for investments in companies over which it has significant influence on the equity method. Other long-term investments are accounted for on the cost method.

PETRO-CANADA—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

(d) Property, plant and equipment

The Corporation accounts for its investment in exploration and development activities on the successful efforts method (Note 2). Under this method the acquisition cost of unproved acreage is capitalized. Costs of exploratory wells are initially capitalized pending determination of proved reserves and costs of wells which are assigned proved reserves remain capitalized while costs of unsuccessful wells are charged to earnings. All other exploration costs are charged to earnings as incurred. Development costs, including the cost of all wells, are capitalized.

Substantially all of the Corporation's exploration and development activities are conducted jointly with others. Only the Corporation's proportionate interest in such activities is reflected in the financial statements.

The interest cost of debt attributable to the construction of major new facilities is capitalized during the construction period.

Overburden removal costs relating to oil sands which will be mined in future years are deferred and are charged to earnings when the related oil sands are mined.

(e) Depreciation, depletion and amortization

The carrying amounts of significant unproved properties are evaluated periodically for impairment with any such impairment being charged to earnings. The cost of other unproved properties is amortized over their average holding period.

Depreciation and depletion of capitalized costs of oil and gas producing properties is calculated using the unit of production method. The Corporation applies a "ceiling test" to capitalized costs in each individual field to ensure that such costs do not exceed the fair market value of the related proved reserves.

Depreciation of other plant and equipment is provided on either the unit of production method or the straight line method as appropriate. Straight line depreciation rates are based on the estimated service lives of the related assets.

(f) Income taxes

The Corporation makes full provision for income taxes deferred as the result of claiming depreciation, exploration, development and other costs for income tax purposes which differ from the related amounts charged to earnings.

(g) Translation of foreign currency

Current assets, except inventories and prepaid expenses, current liabilities and long-term debt are translated at rates of exchange in effect at the balance sheet date. Long-term assets, inventories, prepaid expenses, deferred income taxes, redeemable preferred shares and revenue and expense items are translated at rates of exchange in effect at the respective transaction dates. Depreciation, depletion and amortization expense reflects rates of exchange in effect when the related assets were acquired.

The resulting exchange gains or losses are included in earnings, except for unrealized exchange gains or losses arising on translation of long-term debt, which are deferred and amortized over the remaining term of the debt.

Foreign operations are integrated with the Corporation's other activities and are translated in the manner described above.

(h) Postemployment benefits

In addition to its pension plans the Corporation provides for other postemployment benefits, including health, dental and life insurance, to its qualifying retirees. The cost of these benefits is charged to earnings when paid by the Corporation.

2. Change in accounting policy

Effective January 1, 1989 the Corporation retroactively adopted the successful efforts method of accounting for its investment in exploration and development activities (Note 1(d) and (e)). Previously the Corporation had followed the full cost method of accounting. This change, which increased 1989 net earnings by $19 million, resulted in the following adjustments to previously reported 1988 amounts.

1988 Balances	Balance as previously reported	Adjustment	Balance as restated
Opening retained earnings (deficit)	(289)	(1,051)	(1,340)
Property, plant and equipment, net	6,534	(1,859)	4,675
Deferred income taxes	1,708	(671)	1,037
Closing retained earnings (deficit)	(246)	(1,188)	(1,434)
Net earnings (loss) after dividends on redeemable preferred shares	94	(137)	(43)

3. Income taxes

The provision for income taxes of $84 million (1988—$41 million) represents an effective rate of 49.7% (1988—136.7%) on earnings before income taxes of $169 million (1988—30 million). The computation of the provision, which requires adjustment to earnings before income taxes for non-taxable and non-allowable items, is as follows:

	1989	1988
Earnings before income taxes	169	30
Add (deduct)		
Royalties and other payments to provincial governments	137	135
Federal allowances		
Resource allowances	(111)	(107)
Tax depletion	(41)	(8)
Non-deductible depreciation, depletion and amortization	82	90
Non-taxable gains	(7)	(14)
Equity in earnings of affiliates	(31)	(21)
Other	(8)	4
Earnings as adjusted before income taxes	190	109
Canadian Federal income tax at 39.5% (1988—42.4%) applied to earnings as adjusted	75	46
Provincial and other income taxes, net of federal abatement	14

4. Extraordinary item

During 1989 the Corporation commenced an internal reorganization program which resulted in a staff reduction. The cost of this program, in the amount of $54 million (after deducting related income taxes of $38 million) was charged to 1989 earnings.

During 1988 the Corporation wrote down the carrying value of its investment in Sedpex Inc. (Note 9) due to uncertain dayrates and low utilization of offshore drilling rigs. The amount of this charge to earnings was $22 million including related income taxes of $2 million.

5. Redeemable preferred shares

During 1988 a subsidiary redeemed 7,092,983 shares for a consideration of U.S. $709 million. The 1988 redemption comprised virtually all the remaining outstanding shares.

6. Working capital provided from operations

	1989	1988

At cost		
Mortgages and other investments	38	41
	467	539

Westcoast Energy Inc. ("Westcoast")

At December 31, 1989 the Corporation held approximately 37% (1988—37%) of the outstanding common shares of Westcoast with a quoted market value of $378 million (1988—$280 million).

Petro-Canada Centre

The Corporation holds 50% of a joint venture which owns Petro-Canada Centre, an office complex in Calgary. The Corporation has entered into a long-term lease for use of a portion of the complex and, as at December 31, 1989, has guaranteed $227 million of long-term debt related to the facility.

Sedpex Inc.

The Corporation holds 50% of the outstanding common shares of Sedpex Inc., a company which owns a semi-submersible drilling vessel.

Canertech Inc. ("Canertech")

The accounts of Canertech, a wholly owned subsidiary company, have been excluded from consolidation because a formal plan exists to dispose of the investment in the subsidiary. In response to a directive by the Government of Canada, the Corporation incorporated Canertech in 1981 to develop alternate energy sources. At that time the Government indicated its intention of purchasing the Corporation's investment at cost and establishing Canertech as an independent Crown corporation. The Corporation is proceeding with the implementation of a Government directive to bring about the dissolution of Canertech. The Corporation's investment in Canertech is carried in the accounts at its original cost of one dollar.

14. Shareholder's equity

Authorized capital

(a) 71,188 common shares with a par value of one hundred thousand dollars each, and

(b) Preferred shares issued to the Government of Canada provided that the amount of such shares together with any loans received, and outstanding, from the Consolidated Revenue Fund of the Government of Canada is not in excess of one billion dollars. These shares have a par value of one dollar each, are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

Issued (to the Government of Canada)

	Number of shares	1989	Number of shares	1988
Common shares	17,540	1,754	31,883	3,188
Preferred shares	972,771,853	973	972,771,853	973
Total capital		2,727		4,161
Retained earnings (deficit)		31		(1,434)
		2,758		2,727

Contributed surplus

During 1989 the Board of Directors approved the adoption of the successful efforts method of accounting which resulted in a decrease in retained earnings to a deficit of $1,434 million as at January 1, 1989. It was contemplated that this deficit would be offset against capital, subject to shareholder's approval. On February 21, 1990, His Excellency the Governor General in Council approved the surrender for cancellation of 14,343 common shares. This surrender and cancellation of these shares resulted in a contributed surplus of $1,434 million. Shareholder's equity at December 31, 1989 has been adjusted to give effect to the contributed surplus and its offset against the deficit.

15. Pension plans

The Corporation's plans are defined benefit plans with the benefits generally based upon years of service and average salary during the final years of employment. They are funded by the Corporation based upon the advice of an independent actuary.

Plan status as at December 31:

	1989	1988
Actuarial value of assets	495	445
Pension obligation	470	427
Net pension asset	25	18

The net pension asset is amortized to earnings over the expected average remaining service life of the employees covered by the plans, which is currently 12 years.

Pension funding and expense amounted to $29 million (1988—$32 million) and $17 million (1988—$16 million) respectively.

16. Related party transactions

Transactions with the Government of Canada and its agencies are in the normal course of business and are therefore on the same terms as those accorded to non-related parties.

17. Segmented information

The Corporation operates in two business segments:

Natural resources, comprising: exploration, development, production, transportation and marketing activities for crude oil, natural gas, field liquids, sulphur and oil sands; and extraction of liquids from natural gas.

Refining and marketing, comprising: purchase and sale of crude oil; refining crude oil into oil products; and distribution and marketing of these and other purchased products.

Financial information by business segment is presented in the following table as though each segment were a separate business entity. Inter-segment transfers of products, which are accounted for at market value, are eliminated on consolidation. Corporate and other includes investment income, interest expense and unallocated general corporate revenues and expenditures. Corporate and other assets are principally cash and short-term deposits, investments in other companies and general corporate assets.

18. Comparative figures

Certain reclassifications have been made to the 1988 comparative figures to conform with the current year's presentation.

19. Commitments and contingencies

Commitments

(a) The Corporation has leased property and equipment under various long-term operating leases for periods up to 2008. The minimum annual rentals for non-cancellable operating leases are estimated at $55 million in 1990, $53 million in 1991, $53 million in 1992, $44 million in 1993, $41 million in 1994 and $23 million per year thereafter until 2008.

(b) Pursuant to an agreement reached on December 11, 1989 with Westcoast Energy Inc. the Corporation has agreed to purchase the propane business of Inter-City Gas Corporation ("ICG") for a consideration of $265 million plus an earnings adjustment. The purchase is conditional on obtaining certain regulatory approvals and the approval of ICG's shareholders. It is anticipated this transaction will close near the end of the first quarter of 1990.

Contingencies

The Corporation is involved in litigation and claims associated with normal operations. Management is of the opinion that any resulting settlements would not materially affect the financial position of the Corporation.

20. Subsequent events

(a) January 10, 1990 the Corporation sold U.S. $300 million of 8.6% debentures due January 15, 2010. The net proceeds of the sale of approximately $345 million (U.S. $297 million) were used to reduce short-term indebtedness.

(b) On February 20, 1990 the Government of Canada announced its intention to introduce legislation in 1990 to authorize the Corporation to sell share capital to the public. An initial public offering of treasury shares is expected to be followed by further share issues over a number of years. The arrangements for the sale of shares, which have not been finalized, will include changes to the Corporation's capital structure and legal status.

APPENDIX

CANERTECH INC.

AUDITORS' REPORT

TO THE SHAREHOLDER OF CANERTECH INC.

We have examined the Balance Sheet of Canertech Inc. (a wholly-owned subsidiary of Petro-Canada) as at December 31, 1989 and the Statements of Income and Deficit and Changes in Financial Position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles, applied on a basis consistent with that of the preceding year.

The accompanying notes are an integral part of this Statement.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989

Order-in-Council

On December 21, 1984, the Government of Canada issued Order-in-Council P.C. 1984-4187 which was subsequently replaced by P.C. 1986-2311 dated October 9, 1986 whereby the parent corporation was authorized to bring about the dissolution of Canertech Inc. and to replace federal Crown ownership of Canertech Conservation Inc., a wholly-owned subsidiary, with other ownership.

1. Significant accounting policy

Consistent with the terms of the Order-in-Council, these financial statements have been prepared on the liquidation basis. Assets have been presented at their estimated net realizable values before costs of dissolution.

2. Other investments

As a result of the disposition of the corporation's investment in Canertech Conservation Inc., the corporation acquired a non-interest bearing debenture receivable. The balance of $5,750,000 was repayable in 46 monthly payments of $125,000 from January 1, 1989 to October 1, 1992. The balance was discounted for the implicit interest of approximately $950,000 and a provision for loss of $1,100,000 had been accrued as of December 31, 1988. On November 2, 1989, the corporation disposed of the above debenture receivable for $2,800,000 resulting in no gain or loss.

The corporation holds a minority interest in Valera Electronics Inc. and several loans receivable acquired as a result of previous disposition of investments. These investments are recorded at their estimated net realizable values before costs of disposition.

The portion of the above receivables due in 1990 is approximately $110,000 ($160,000 in 1988).

3. Income taxes recoverable

This amount represents the recovery of certain Investment Tax Credits.

The benefits resulting from any future income tax reductions have not been recorded in these financial statements.

4. Accrual for dissolution costs

The accrual for dissolution costs represents management's anticipation of the costs to complete the disposition of assets and the settlement of liabilities.

5. Advances from the Government of Canada

The advances are without requirement for interest or repayment. Management anticipates that the corporation will be unable to repay the obligation in its entirety and the Government of Canada will absorb the company's deficit upon dissolution. The corporation has reduced these advances by the $2,250,000 due from Energy, Mines and Resources Canada.

The amount of $2,250,000 arose from the corporation's participation in the Societe Biosyn (Reg'd) joint venture. Prior to the above mentioned Order-in-Council of December 21, 1984, the corporation was to be reimbursed for these amounts by Energy, Mines and Resources Canada. It is anticipated that the ultimate settlement of these amounts will require the direction of the Treasury Board of the Government of Canada and will involve a set-off against the advances from the Government of Canada.

PETRO-CANADA—*Concluded*

APPENDIX—*Concluded*

CANERTECH INC.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

6. Share capital

Authorized—An unlimited number of common shares
Issued and fully paid—1 common share for $1

7. Contingencies

The corporation is a defendant in legal actions where amounts totalling approximately $77 million are claimed in pleadings filed against the corporation. Management and legal counsel are of the opinion that based upon the facts as presently known to management and legal counsel, these actions will not succeed. In order to resolve the situation, the corporation has reached a conditional settlement agreement. The proposed settlement amount has been provided for in the accrual for dissolution costs.

8. Related party transaction

The parent company has provided management services to the corporation in the amount of approximately $20,000 in 1989 ($25,367 in 1988). The amount of the cost which remains unpaid as at December 31, 1989 is approximately $20,000 ($25,367 in 1988).

PETRO-CANADA INTERNATIONAL ASSISTANCE CORPORATION

AUDITORS' REPORT

TO THE SHAREHOLDER OF PETRO-CANADA
INTERNATIONAL ASSISTANCE CORPORATION

We have examined the balance sheets of Petro-Canada International Assistance Corporation (a wholly-owned subsidiary of Petro-Canada) as at March 31, 1990 and 1989 and the related statements of operations and changes in financial position for the years then ended. Our examinations were made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and 1989 and the results of its operations and the changes in its financial position for the years then ended in accordance with generally accepted accounting principles applied on a consistent basis.

PORT OF QUÉBEC CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of the Port of Québec Corporation as at December 31, 1989 and the statements of income, contributed capital, surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and with the letters patent and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989

General

The Port of Québec Corporation was incorporated on June 1, 1984, under article 6.2(1) of the Canada Ports Corporation Act.

Summary of significant accounting policies

(a) Investments

Investments are direct securities guaranteed by Canada. They are presented at amortized cost and the premium or discount is amortized over the periods to maturity.

(b) Fixed assets

Fixed assets are recorded at cost except for those transferred to the Corporation from Canada, which are recorded at appraised or fair market value established at the time of transfer. Grants received from Canada and from third parties for capital projects are deducted from the cost of the related fixed assets.

PORT OF QUÉBEC CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Concluded*

Depreciation is calculated on the straight line basis for the full year commencing with the year the asset becomes operational, using the following annual rates:

Dredging	2.5%-6.7%
Berthing structures	2.5%-10%
Buildings	2.5%-10%
Utilities	3.3%-10%
Roads and surfaces	2.5%-10%
Machinery and equipment	5%-20%
Office furniture and equipment	20%

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(d) Insurance

The Port of Québec Corporation assumes all risks with respect to workers' compensation claims. Any costs arising from these claims are recorded in the accounts in the year, based on the invoices received or to be received from Labour Canada for the year.

(e) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(f) Employee benefits

The Corporation accounts for estimated liabilities relating to severance pay, annual leave and overtime compensatory leave; these benefits are payable to its employees in subsequent years under its collective agreements, or in accordance with its policy.

1. Investments

Investments, which are direct securities guaranteed by Canada, are as follows:

	1989		1988	
	Cost	Market value	Cost	Market value
	$	$	$	$
Current	21,464,555	21,411,038	18,018,706	17,947,547
Long-term	6,702,891	7,520,074	6,676,546	7,208,678

2. Fixed assets

	1989			1988
	Cost	Accumulated depreciation	Net	Net
	$	$	$	$
Land	11,098,253		11,098,253	11,098,253
Dredging	4,561,341	3,979,369	581,972	610,033
Berthing structures	22,879,511	17,079,260	5,800,251	5,959,226
Buildings	33,563,707	15,212,907	18,350,800	19,160,156
Utilities	3,703,510	2,271,615	1,431,895	1,537,941
Roads and surfaces	5,930,727	3,927,074	2,003,653	2,369,830
Machinery and equipment	684,603	462,259	222,344	139,227
Office furniture and equipment	861,688	514,931	346,757	231,536
Projects under construction	1,654,077		1,654,077	1,231,784
	84,937,417	43,447,415	41,490,002	42,337,986

3. Contribution from Canada

Pursuant to a resolution from the Treasury Board, the Ministry of Transport has transferred at no cost on January 1, 1988, the administration, management, control and property of certain assets previously managed by Société Immobilière du Canada (Vieux Port de Québec) Inc. The Ministry of Transport of Canada paid to the Corporation in 1988 a total amount of $1,423,000 as a compensation to help absorb the estimated operating deficits for the next five years. This amount has been credited to contributed surplus.

4. Changes in non-cash operating working capital

	1989	1988
	$	$
Accounts receivable	780,369	662,421
Materials and supplies	(10,182)	(56,025)
Accounts payable and accrued liabilities	(206,576)	(123,698)
Grants in lieu of municipal taxes	265,800	54,200
Deferred revenues	22,238	6,336
	851,649	543,234

5. Related party transactions

During the year, the Corporation entered into transactions with related entities including various ministry, government organizations and Crown corporations.

Principally, the Corporation earned rental revenues from related entities. The expenses paid to related parties mainly consist in management fees.

6. Contingencies

Claims aggregating approximately $900,000 have been received by the Corporation in respect of lawsuits and various other matters in dispute. In the Corporation's view, its position is defensible and the final outcome of such claims should not result in any material loss.

In addition, claims for an estimated amount of approximately $5,000,000 have been received by the Corporation concerning the ownership of certain lands. Any amount payable in connection with those claims will be capitalized to the cost of land.

These amounts are not recorded in the financial statements.

7. Commitment

The Corporation has made commitments totalling approximately $9,900,000 of which $440,000 has been expensed as at December 31, 1989, relating to the modernization of a solid bulk terminal.

PRINCE RUPERT PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of the Prince Rupert Port Corporation as at December 31, 1989, and the statements of income and surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the letters patent and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 1989

Local port corporation

The Prince Rupert Port Corporation was established effective June 1, 1984 as a local port corporation pursuant to the Canada Ports Corporation Act. The Corporation is exempt from income taxes.

On June 1, 1984, all the assets and liabilities of Canada Ports Corporation relating to the Port of Prince Rupert were transferred to the Corporation at their book value as recorded by Canada Ports Corporation.

Summary of significant accounting policies

(a) Investments

The investments, which are direct and guaranteed securities of Canada, are shown at amortized cost. Premiums or discounts are amortized over the periods to maturity.

(b) Property and equipment

Property and equipment are recorded at cost. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related property and equipment.

Depreciation is calculated on the straight-line basis, commencing with the year the asset becomes operational, at rates based on the estimated useful lives of the assets as follows:

Dredging	2.5-6.7%
Berthing structures	2.5-10%
Buildings	2.5-10%
Roads and surfaces	2.5-10%
Utilities	3.3-10%
Machinery and equipment	5-10%
Office furniture and equipment	20%

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(d) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is estimated based on municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(e) Employee benefits

The Corporation accrues in its accounts annually the estimated liabilities for severance pay, annual leave and overtime compensatory leave, which are payable to its employees in subsequent years.

	106,921,373	9,147,027	97,774,346	71,272,047

3. Recoverable contribution from Canada

A recoverable contribution of $50,400,000 was approved for the construction of the infrastructure for the coal terminal facility on Ridley Island. The recoverable contribution as at December 31, 1989 is $48,300,000.

The total recoverable contribution was interest-free until April 1, 1989, thereafter it bears interest of approximately 13.9%.

Principal and interest on $48,300,000 of the contribution are repayable in annual instalments over the next 20 years, contingent upon the revenues received from a direct coal throughput surcharge of $.44 per tonne for 1989, (escalating with the rate of increase in the Consumer Price Index) at a minimum throughput of 6,600,000 tonnes but not to exceed 12,000,000 tonnes per year. On April 1, 2009, it is anticipated that the unpaid balance of the contribution, if any, will be forgiven by the government of Canada.

As the Corporation acts as an intermediary between Ridley Terminals Inc. and the government of Canada, the surcharge revenues and interest payments are not reflected in the Corporation's statement of income. Rather, they are reflected on the balance sheet as payable to Canada.

As at December 31, 1989, the Corporation has received/receivable approximately $1,900,000 in connection with the above surcharge which is included in payable to Canada.

4. Loans from Canada

	1989	1988
	$	$
Interest-bearing loans at 9.80% to 9.86% repayable in blended annual instalments, maturing in 2009	4,500,000	
Less portion included in current liabilities	80,129	
	4,419,871	

Principal repayment requirements over the next five years are as follows:

	$
1990	80,000
1991	88,000
1992	97,000
1993	106,000
1994	117,000
	488,000

5. Commitments

(a) At December 31, 1989, commitments in connection with construction of a new berth at Fairview Terminal amounted to approximately $1,786,000.

(b) The Corporation rents a building under a long-term operating lease which expires May 1, 1991, the annual rental rate for which is $81,264. The aggregate rental payable to the expiry date amounts to $108,352.

(c) At December 31, 1989, the Corporation was committed to acquire a 12 hectare land parcel at Westview Terminal for approximately $1,200,000.

6. Related party transactions

(a) During the year, the Corporation received revenue of $1,489,644 (1988, $1,274,593) from Ridley Terminals Inc., a company in which Canada Ports Corporation has a significant investment. At December 31, 1989, the Corporation was owed $495,561 by Ridley Terminals Inc. (1988, $124,961).

(b) During the year the Corporation paid $463,961 (1988, $485,279) to Canada Ports Corporation as its share of that Corporation's head office expense.

ROYAL CANADIAN MINT

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements contained in this annual report have been prepared by Management in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards, and the integrity and objectivity of the data in these financial statements are Management's responsibility. Management is also responsible for all other information in the annual report and for ensuring that this information is consistent, where appropriate, with the information and data contained in the financial statements.

In support of its responsibility, Management has developed and maintains books of account, records, financial and management controls, information systems and management practices. These are designed to provide reasonable assurance as to the reliability of financial information, that assets are safeguarded and controlled, and that transactions are in accordance with the Financial Administration Act and regulations as well as the Royal Canadian Mint Act and by-laws of the Corporation.

The Board of Directors is responsible for ensuring that Management fulfills its responsibilities for financial reporting and internal control. The Board exercises its responsibilities through the Audit Committee which includes a majority of members who are not officers of the Corporation. The Committee meets with Management, internal audit staff and the independent external auditor to review the manner in which these groups are performing their responsibilities and to discuss auditing, internal controls and other relevant financial matters. The Audit Committee has reviewed the financial statements with the external auditor and has submitted its report to the Board of Directors. The Board of Directors has reviewed and approved the financial statements.

The Corporation's external auditor, the Auditor General of Canada, examines the financial statements and reports to the Minister responsible for the Royal Canadian Mint.

M.A.J. Lafontaine

Vice-President, Administration and Finance

AUDITOR'S REPORT

TO THE MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of the Royal Canadian Mint as at December 31, 1989 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards, applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Royal Canadian Mint Act and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1989

1. Authority and objectives

The Mint was incorporated in 1969 by the Royal Canadian Mint Act and is an agent of Her Majesty named in Part II of Schedule III to the Financial Administration Act.

The objectives of the Mint are to mint coins in anticipation of profit and to carry out other related activities.

The Mint may borrow money from the Consolidated Revenue Fund or any other source, subject to the approval of the Minister of Finance with respect to the time and the terms and conditions, but the aggregate of the amounts loaned to the Mint and outstanding at any time shall not exceed $50 million.

2. Significant accounting policies

(a) Foreign currency translation

Foreign currency transactions are translated into Canadian dollars at the exchange rate in effect at the transaction date. Assets and liabilities denominated in foreign currency at the balance sheet date are translated into Canadian dollars at the exchange rate in effect at that date.

(b) Inventories

Raw materials, work in process and finished goods are valued at the lower of cost and net realizable value, cost being determined by the average cost method.

Operating and maintenance supplies are valued at the lower of cost and replacement cost, cost being determined by the average cost method.

(c) Property, buildings and equipment

Property, buildings and equipment are recorded at cost and depreciated under the straight-line method at the following annual rates:

Land improvements	2½%
Buildings	2½%
Equipment	10%

(d) Employee termination benefits

According to their collective agreement and terms of employment, employees are entitled to termination benefits. The liability for these benefits is recorded when earned by the employees.

(e) Pension plan

Employees participate in the Public Service Superannuation Plan, which is administered by the Government of Canada. Contributions to the plan are required from both the employees and the Mint. These contributions represent the Mint's total liability and are recorded on a current basis.

ROYAL CANADIAN MINT—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

3. Inventories

	1989	1988
	(in thousands of dollars)	
Raw materials	12,317	16,628
Work in process	3,575	3,224
Finished goods	7,416	4,088
Operating and maintenance supplies	2,253	2,763
	25,561	26,703

In order to facilitate the production of precious metal coins, the Mint borrows the quantity of gold, platinum and silver required and pays interest based on the value of these metals established on the commodity markets. As at December 31, 1989, a total of 504,106 ounces of gold, 10,183 ounces of platinum and 2,495,472 ounces of silver was borrowed and was not reflected in these financial statements.

4. Property, buildings and equipment

	1989			1988
	Cost	Accumulated depreciation	Net book value	Net book value
	(in thousands of dollars)			
Land	561		561	579
Land improvements	914	557	357	378
Buildings	38,562	8,746	29,816	30,367
Equipment	28,560	17,196	11,364	9,691
	68,597	26,499	42,098	41,015

5. Shareholder's equity

In 1989, the authorized capital of four thousand non-transferable shares of ten thousand dollars per share was issued and the proceeds were used to reduce the net earnings due to the Government of Canada.

The balance of the reserve against possible losses of $105,000 has been transferred at December 31, 1989 to an account payable to the Government.

6. Loans from Government of Canada

These loans bear interest at various annual rates ranging from 8.25% to 12.00% and are repayable according to the following schedule:

	(in thousands of dollars)
1990	2,673
1991	2,673
1992	2,673
1993	2,673
1994	2,673
1995-1998	2,848
	16,213
Current portion	(2,673)
	13,540

7. Expenses

Expenses include cost of goods sold, detailed as follows:

	1989	1988
	(in thousands of dollars)	
Materials used	671,719	802,237
Direct labour	3,870	3,326
Manufacturing overhead	27,626	26,559
	703,215	832,122

8. Related party transactions

Included in these financial statements are transactions with the Department of Finance relating to the borrowing, refining and purchasing of gold. These transactions were conducted in the normal course of business, under the same terms and conditions that apply to unrelated parties.

Transactions with the Department of Finance related to the production and delivery of Canadian circulating coins are generally carried out on a cost recovery basis.

SAINT JOHN PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of the Saint John Port Corporation as at December 31, 1989 and the statements of income and retained earnings and cash flows for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989

1. Canada Ports Corporation Act and Incorporation

In accordance with the Canada Ports Corporation Act, a petition for the establishment of a local port corporation at the Port of Saint John was approved and the Saint John Port Corporation was incorporated under the laws of Canada effective at the closing of business on December 31, 1986 and commenced operations January 1, 1987.

In accordance with the Canada Ports Corporation Act, the assets, liabilities and equity were transferred to the Saint John Port Corporation at their carrying values in the accounts of the Canada Ports Corporation—Port of Saint John.

2. Significant accounting policies

(a) Investments

The investments are shown at amortized cost whereby premiums or discounts from par value are amortized over the periods to maturity.

(b) Fixed assets

Fixed assets are recorded at cost except for those transferred to the Corporation from Canada which are recorded at appraised or fair market value established at the time of transfer. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related fixed assets.

Depreciation is calculated on the straight-line basis for the full year, commencing with the year the asset becomes operational, using rates as follows:

Dredging	2.5-6.7%
Berthing structures	2.5-10.0%
Buildings	2.5-10.0%
Utilities	3.3-10.0%
Roads and surfaces	2.5-10.0%
Machinery and equipment	5.0-100.0%
Office furniture and equipment	20.0%

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(d) Insurance

The Corporation assumes substantially all risks against fire and general perils, as well as for workers' compensation claims. Any costs arising from these risks are recorded in the accounts in the year they can be reasonably estimated.

(e) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(f) Employee benefits

The Corporation accrues in its accounts, annually, the estimated liabilities for severance pay and annual leave which are payable to its employees in subsequent years under its collective agreements or in accordance with its policy.

SAINT JOHN PORT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Concluded*

3. Investments

Investments are direct and guaranteed securities of Canada as follows:

	1989		1988	
	Amortized cost	Face value	Amortized cost	Face value
	(in thousands of dollars)			
Canada Treasury Bills ..	11,419	12,013	8,427	8,780
Canada Bonds	959	1,000	956	1,000

4. Fixed assets

	1989			1988
	Cost	Accumulated depreciation	Net book value	Net book value
	(in thousands of dollars)			
Land	30,426		30,426	30,363
Dredging	1,967	1,498	469	488
Berthing structures	63,670	29,095	34,575	35,945
Buildings	15,546	8,440	7,106	7,519
Utilities	7,734	3,706	4,028	4,250
Roads and surfaces	5,345	4,310	1,035	682
Machinery and equipment	1,834	1,664	170	244
Office furniture and equipment	1,167	815	352	454
Work under construction	156		156	15
	127,845	49,528	78,317	79,960

5. Financing provided by a province

The Province of New Brunswick advanced $25,000,000 to partially finance the construction of Rodney Terminal Complex, Saint John. The province will receive annual principal payments equal to approximately 47% of the net operating income of the terminal until the non-interest bearing advance is repaid. The cost of major repairs has been included in calculating the net operating income of the terminal and the current portion payable as at December 31, 1989 has been calculated accordingly. The province is disputing this accounting treatment. Had net operating income not been reduced by the cost of these major repairs, the current portion payable would be approximately $1,030,000.

6. Loans from Canada

	1989	1988
	(in thousands of dollars)	
Term loans bearing interest at 11.0% to 12.43% between December 31, 1998 and 2005	20,052	20,052

7. Net change in non-cash working capital balances

	1989	1988
	(in thousands of dollars)	
Decrease (increase) in current assets		
Accounts receivable	185	(304)
Materials and supplies	1	48
	186	(256)
Increase (decrease) in current liabilities		
Accounts payable and accrued charges ...	220	(2,153)
Deferred revenues	99	6
Grants in lieu of municipal taxes	(19)	103
	300	(2,044)
	486	(2,300)

8. Related party transactions

During the year the Corporation paid $696,000 (1988—$728,000) to Canada Ports Corporation as its share of that Corporation's head office expense.

ST. JOHN'S PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of the St. John's Port Corporation as at December 31, 1989, and the statements of income and surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and the by-laws of the Corporation.

Projects under construction		102,922		102,922	847,317
		23,959,410	9,174,888	14,784,522	14,563,595

5. Loans from Canada

	1989	1988
	$	$
Term loans bearing interest at 9.33% to 10.015%, maturing between 1997 and 2000, repayable in equal annual instalments of principal and interest of $521,516	3,132,162	3,332,784
Principal instalments payable within one year	220,036	200,622
	2,912,126	3,132,162

The loans from Canada are unsecured.

Annual principal repayments in each of the next five years are as follows: 1990—$220,036; 1991—$241,331; 1992—$264,689; 1993—$290,309; 1994—318,412.

6. Contingent liabilities

Claims aggregating approximately $364,000 arising from alleged damages suffered on the Corporation's property have been received by the Corporation.

The Corporation is a third party defendant, and has denied any liability, and no material loss is anticipated.

7. Related party transactions

(a) During the year the Corporation received approval of a capital grant in the amount of $3,400,000 from the federal government. Of this amount,$2,075,095 was received during the year, and the remaining funds will be advanced to the Corporation over the years 1990 and 1991.

(b) During the year the Corporation paid $193,088 (1988—$201,875) to Canada Ports Corporation as its share of that Corporation's head office expense.

THE ST. LAWRENCE SEAWAY AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1990 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, The St. Lawrence Seaway Authority Act and the by-laws of the Authority.

D. Larry Meyers, F.C.A.
Deputy Auditor General

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and objectives

The St. Lawrence Seaway Authority was established in 1954 under The St. Lawrence Seaway Authority Act and is classified as a parent Crown corporation under Schedule III Part I of the Financial Administration Act.

The Authority was established to construct and operate a deep waterway between the Port of Montreal and Lake Erie together with such works and other property, including bridges incidental to the deep waterway, as deemed necessary by the Governor in Council.

Under the St. Lawrence Seaway Act the Authority must file the tariff of tolls with the National Transportation Agency. This tariff of tolls then becomes operative from the date of filing.

2. Accounting policies

The financial statements have been prepared in accordance with accounting principles generally accepted in Canada. A summary of significant accounting policies follows:

(a) Supplies inventory

Supplies inventory comprises equipment and supplies used in the operation and maintenance of the Seaway and is recorded at cost.

(b) Investments in subsidiaries

Investments in wholly-owned subsidiary companies are recorded at cost. The financial statements of the subsidiary companies have not been consolidated in these financial statements because changes in the equity of the subsidiaries do not accrue to the Authority. Separate audited financial statements for each of the subsidiary companies are available to the public.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Continued*

(c) Fixed assets

Fixed assets are recorded at cost. Replacements and major improvements which increase the capacity of the deep waterway system or extend the estimated useful lives of existing assets are capitalized. Repairs and maintenance are charged to operations as incurred and major betterments incurred to assure the reliability of the system are capitalized. The cost of assets sold, retired, or abandoned, and the related accumulated depreciation are removed from the accounts on disposal. Gains or losses on disposals are credited or charged to operations.

Depreciation is recorded using the straight-line method based on the estimated useful lives of the assets.

(d) Welland Canal Rehabilitation Program

Funding received from the Government of Canada for this program is accounted for by crediting the amount against the costs of related capital projects undertaken during the year, with depreciation to be calculated on the net amount.

(e) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees.

(f) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

(g) Employee life insurance plan

The Authority provides a life insurance plan for its employees. Surpluses and deficits from the plan are included in revenues and/or expenses in the year in which they are incurred.

(h) Insurance

The Authority assumes substantially all risks in relation to compensation and damages to its locks. For all other assets the Authority carries conventional insurance.

(i) Thousand Islands Bridge

In September 1976, the Minister of Transport entrusted the Authority with the management and operation of the Thousand Islands Bridge, while the real property was vested in the name of Her Majesty in Right of Canada. Subsequent capital expenditures made by the Authority to improve the Bridge have been recorded as fixed assets. The retained earnings of the Bridge represent its cumulative earnings since September 1976.

These financial statements have segregated the operations of the Thousand Islands Bridge on the premise that its management and operation by the Authority is independent of Seaway operations.

3. Long-term investments

In order to provide for major capital improvement projects of The St. Lawrence Seaway and the rehabilitation of the Canadian span at the Thousand Islands Bridge and for future employee termination benefits, the Authority has set aside the following long-term investments:

	1990	1989
	(in thousands of dollars)	
Capital improvement		
Government of Canada Bonds, maturing on varying dates up to 1995	9,053	14,940
Par value $9,000 (1989—$15,000)		
Market value $8,292 (1989—$14,459)		
Treasury Bills, maturing on varying dates up to March 1991	12,809	8,500
Investment Certificates, maturing March 1994 and March 1995	10,000	5,000
	31,862	28,440
Termination benefits		
Deposit with Consolidated Revenue Fund, maturing March 1994	13,000	
Treasury Bill		13,000
	44,862	41,440

4. Long-term receivables

The Authority has entered into long-term contractual agreements for the sale of one parcel of land and for the recovery of costs associated with the construction of certain facilities. Long-term receivables outstanding at March 31 are as follows:

	1990	1989
	(in thousands of dollars)	
5 1/2% interest, recoverable in blended annual instalments of $28,000, maturing in 1995	93	115
Non-interest bearing, recoverable in annual instalments of $33,952, maturing in 1990		34
	93	149

5. Subsidiaries and related parties

Investments in wholly-owned subsidiaries consist of the following:

	Number of shares	Cost
		$
Great Lakes Pilotage Authority, Ltd. (GLPA)	15	1,500
The Jacques Cartier and Champlain Bridges Incorporated (JCCB)	1	100
The Seaway International Bridge Corporation, Ltd. (SIBC)	8	8,000
		9,600

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1990—*Continued*

During the year ended March 31, 1990, the Authority provided JCCB with certain administration services for which it charged $653,000 (1989—$745,000). At March 31, 1990, $76,000 was outstanding (1989—$189,000).

Each calendar year, SIBC pays a bridge user charge to the Authority (1989—$406,018; 1988—$182,580) towards amortization of the Authority's construction and interest costs related to the North Channel Bridge. At March 31, 1990, $5.2 million (1989—$5.6 million) in construction costs remained unamortized. During the 1987 year, a reduction of $5.3 million was caused by the cancellation of interest, as explained in Note 7.

The Canadian Coast Guard provides the Authority with navigational aids services. The fee paid by the Authority for this service during the year amounted to $565,000 (1989—$545,000).

6. Fixed assets

		1990			1989
	Depreciation rate	Cost	Accumulated depreciation	Net	Net
		(in thousands of dollars)

Works under construction		226		226	23
		783,848	257,156	526,692	534,711

Welland Canal Rehabilitation Program

In 1985, the Authority engaged consultants to examine in detail, and report on, the structural condition of the Welland Canal system. The report was submitted during 1986 and, as a result, a seven-year $175 million rehabilitation program has been established to refit the Welland Canal and ensure a continued safe and reliable waterway into the 21st century. The program consists of refurbishing of lock walls, stabilizing the canal banks and approach walls, and rehabilitating ancillary structures.

During 1986, the Government of Canada approved funding for the financing of the Welland Canal Rehabilitation Program for an amount not to exceed $175 million over a period of seven years. To date the federal government funding has amounted to $90 million, all of which has been spent on the program and has been deducted from related works under construction. As at March 31, 1990, $85.8 million of the approved amount for the first four years was received and $4.2 million is included in accounts receivable.

The Government of Canada funding for the remainder of the program is:

	(in millions of dollars)
1990-91	27.3
1991-92	28.7
1992-93	29.0
Total	85.0

7. Contributed capital

As of April 1, 1977, loans from Canada of $624.95 million were converted to equity by parliamentary appropriation. This amount was recorded as contributed capital. The unpaid interest of $210 million on these loans was not converted and was reflected on the balance sheet as deferred interest.

In December 1987, this deferred interest was forgiven by the Government of Canada and written off by the Authority.

The parliamentary appropriation authorizing the 1977 conversion of loans from Canada to equity also authorized the Minister to fix, from time to time, the amount that shall be paid by the Authority annually out of its toll revenue as a return on capital. No return on capital has been required to be paid for the years ended March 31, 1990 and 1989.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

8. Income taxes

The Authority, as a prescribed Federal Crown corporation, is subject to the provisions of the Income Tax Act. The Authority is not subject to any provincial income taxes.

Currently, undepreciated capital cost for tax purposes is in excess of the net book value of fixed assets by approximately $216 million. The tax effect of this excess has not been recorded in the accounts of the Authority. The Authority also has accumulated research and development costs of approximately $4 million which are available to reduce the taxable income of future years.

The Authority is of the opinion that the forgiveness of the $210 million in deferred interest by the Government of Canada (see Note 7) will not result in any tax liability. Discussions are continuing between the Authority and the Department of National Revenue to resolve the matter.

The Federal Budget of April 1989 included the introduction of a Large Corporation Tax. The tax is to be levied on taxable capital employed in Canada and is to be applied after June 1989. While the legislation to effect this tax is not yet in place, the Authority has made provision for the estimated amount payable.

9. Commitments

At March 31, 1990, contractual obligations for capital and other expenditures, including Welland Canal Rehabilitation Program, amounted to $4.7 million (1989—$3.1 million).

The Authority is committed to make future minimum operating lease payments, required for office space for a term in excess of one year, as follows:

	(in thousands of dollars)
1990-91	269
1991-92	269
1992-93	269
1993-94	269
1994-95	269
Subsequent years	425

10. Contingencies

There is a total of $86.6 million in claims instituted against the Authority. These arise from a breakdown of the Valleyfield bridge in November 1984, an October 1985 Lock 7 wall blowout, compensation and damages in connection with the expropriation of lands and various other claims. The Authority is contesting all these claims and their outcome cannot be determined at this time although management is of the opinion that these actions will not result in any material losses to the Authority. The Authority is also the claimant in certain other pending or threatened claims and lawsuits.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 1

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of The Jacques Cartier and Champlain Bridges Incorporated as at March 31, 1990 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations and the charter and by-laws of the Corporation.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 1—*Continued*

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and activities

The Jacques Cartier and Champlain Bridges Incorporated was established under the Canada Business Corporations Act on November 3, 1978 and is a wholly owned subsidiary of The St. Lawrence Seaway Authority, which is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The Corporation is partially dependent on the Government of Canada for its financing.

Effective December 1, 1978, the Corporation assumed the responsibility for the operation, maintenance and control of the Jacques Cartier and Champlain bridges and of a portion of the Bonaventure Autoroute, situated in the Montreal area.

2. Significant accounting policies

(a) Fixed assets

Fixed assets acquired from the National Harbours Board (now Canada Ports Corporation) on December 1, 1978 were recorded at their then book values with an offset to contributed capital. Subsequent additions are recorded at cost. Fixed assets are depreciated over their estimated economic lives using the straight-line method, at the following rates:

Jacques Cartier Bridge	4.8%
Champlain Bridge	2.5%
Vehicles and equipment	10% and 20%

The cost of the portion of the Bonaventure Autoroute for which the Corporation is responsible and the initial cost of the Jacques Cartier Bridge are fully depreciated.

(b) Parliamentary appropriation

The amount of the parliamentary appropriation used to cover the loss for the year is reflected in the statement of deficit. In this regard, operating expenses do not include depreciation and any change in the provision for employee termination benefits.

The portion of the parliamentary appropriation used to finance the acquisition of fixed assets is recorded as contributed capital.

Any balance of the parliamentary appropriation required to finance the loss for the year and not received at the year-end is shown as an amount due from Canada. Any parliamentary appropriation received in excess of requirements is recorded as due to Canada. It is the Corporation's policy to reimburse this amount in the following fiscal year.

(c) Deferred revenues

The estimated value of unredeemed toll tokens and tickets as well as rental revenues collected in advance are recorded as deferred revenues.

(d) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(e) Pension plan

Employees participate in the Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the Plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

(f) Expenses

Expenses incurred with respect to the portion of the Bonaventure Autoroute for which the Corporation is responsible are included with those for the Champlain Bridge.

(g) Income tax

As a federal Crown corporation, the Corporation is not subject to provincial income tax. However, it is subject to the federal Income Tax Act from the fact that its parent Corporation has been prescribed by regulation under that Act.

3. Related party transactions

Related party transactions not otherwise disclosed in these financial statements are as follows:

Operation services are received from the Montreal Port Corporation. The amount invoiced for regular services for the year ended March 31, 1990 amounts to $573,410 ($2,227,475 for 1989). No amount was unpaid as at March 31, 1990 ($191,136 as at March 31, 1989).

Administrative services from the parent company amounted to $696,195 ($745,228 in 1989). As at March 31, 1990, an unpaid balance thereon of $66,103 ($188,600 in 1989) is included in the amount due to the parent company. The Corporation estimates the cost of such services for the next year to be approximately $685,000.

4. Commitments

(a) Leases

The aggregate minimum rental payments under long-term leases for equipment and premises through to April 30, 1992 are approximately $300,000 on an annual basis.

(b) Operation services

The minimum amount which will be paid in future years under an agreement for operation services ending on June 30, 1994 is $2,644,560 on an annual basis.

(c) Suppliers

At March 31, 1990, contractual obligations to suppliers amounted to $36,751,507.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 1—*Concluded*

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990—*Concluded*

5. Major maintenance

In its endeavour to keep the bridges and the autoroute in a good state of repair, to protect the public and serve traffic needs throughout the useful life of these installations, the Corporation must undertake major repairs, notably on the deck of both bridges. The cost of the repairs to the deck of the Champlain bridge is estimated at $33 million; work will begin during the next year. With regard to the repairs to the Jacques Cartier bridge, the urgency and the nature of the work have yet to be defined; it is therefore not possible at this time to assess the cost of the program which will have to be carried out over a number of years. It is expected that the eventual cost of this program will be funded through parliamentary appropriations.

6. Contingencies

In connection with its operations, the Corporation is the claimant or defendant in certain pending claims and lawsuits. It is the opinion of management that these actions will not result in any material liabilities to the Corporation.

7. Forgiveness of debts due to Canada

Under an Act passed by Parliament on December 10, 1987 authorizing their forgiveness, the Corporation has written off from its accounts the loans from Canada and the interest in arrears thereon aggregating $110,756,052. The portion of this amount representing the debts assumed at the time the Corporation was created, namely $104,193,149, has been offset to the capital deficiency. The balance of $6,562,903 representing interest subsequently charged to operations has been credited to the deficit.

The Corporation is of the opinion that the forgiveness of these liabilities shall not give rise to any income tax obligation. A ruling to this effect has been requested from the Department of National Revenue.

8. Subsequent event

The Minister of Transport has decided to abolish the tolls for the Champlain bridge from May 4, 1990. Consequently, the Corporation will have to pay during the following year approximately $2,000,000 (of which $355,449 are recorded as at March 31, 1990 as employee termination benefits) for employee termination benefits, costs of removing certain installations, and costs of terminating equipment leases. The net loss of revenue resulting from this decision, of approximately $6,000,000 per year, will be funded through parliamentary appropriation.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 2

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1989 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act, The St. Lawrence Seaway Authority Act and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1989

1. Authority and activities

The Seaway International Bridge Corporation, Ltd. is a Crown corporation pursuant to the Financial Administration Act and is a wholly-owned subsidiary of The St. Lawrence Seaway Authority, a parent Crown corporation named in Schedule III Part I of the aforementioned Act. The Corporation was incorporated under the Canada Corporations Act in 1962, continued under the Canada Business Corporations Act, and is subject to The St. Lawrence Seaway Authority Act. Its purpose is to operate and manage the international toll bridge system between Cornwall, Ontario, and Rooseveltown, New York, on behalf of The St. Lawrence Seaway Authority and its U.S. counterpart, the Saint Lawrence Seaway Development Corporation.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Concluded*

APPENDIX 2—*Concluded*

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

2. Accounting policies

The financial statements have been prepared in accordance with accounting principles generally accepted in Canada. A summary of significant accounting policies follows:

Bridge user charge

As described in Note 4 to the financial statements, the Corporation is required to distribute as a bridge user charge its excess of revenues over expenses. The current year excess is included in the "Due to The St. Lawrence Seaway Authority" amount on the balance sheet.

Payments are dependent on the Corporation's ability to generate excess revenues. Accordingly, the unpaid balances the total cost to The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, as set out in Note 4, are not recorded as a liability in the books of the Corporation.

Fixed assets and depreciation

Fixed assets are recorded at cost. These costs include moveable and removeable assets acquired to operate the bridge. The cost of the North Channel Bridge is recorded in the books of The St. Lawrence Seaway Authority.

Depreciation on these assets is based on their estimated useful life and is calculated on the straight-line method at the following annual rates:

Automotive	20%
Maintenance equipment	10% to 20%
Office and toll equipment	10% to 20%
Bridge equipment	5%

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under the conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Corporation. These contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

Deferred revenue

Revenue from unredeemed toll tickets is deferred.

Employee life insurance plan

The Corporation provides an annual life insurance plan for its employees on a self-insurance basis. Surpluses, premiums and deficits from the plan are included in revenues and/or expenses in the year in which they apply.

3. Debentures payable

These debentures, due on December 31, 2012, are non-interest bearing and payable to the Saint Lawrence Seaway Development Corporation.

4. Bridge user charge

By agreement between The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, the annual excess of revenues over expenses of the Corporation is due as a bridge user charge; first, to the Authority to offset the amortization of the cost of the North Channel Bridge together with interest; then to the Saint Lawrence Seaway Development Corporation to offset the amortization of a $300,000 contribution towards the cost of the Raquette River Bridge; and the balance, if any, is then divided equally between both parties.

All bridge user charges since the commencement of the Corporation's operations have been paid to The St. Lawrence Seaway Authority. At December 31, the unpaid balance of the total cost of the North Channel Bridge was as follows:

	1989	1988
	$	$
Cost of construction	8,539,695	8,539,695
Interest	2,569,652	2,569,652
	11,109,347	11,109,347
Less: bridge user charges		
Beginning of year	5,480,554	5,297,974
Current charge	406,018	182,580
End of year	5,886,572	5,480,554
Unpaid balance to The St. Lawrence Seaway Authority	5,222,775	5,628,793

5. Bridge use

With the approval of the National Transportation Agency of Canada, the Corporation has continued the practice of providing free usage of the bridge system to certain North American Indians. This represents a substantial portion of the Bridge traffic.

6. Related party transactions

In addition to the transactions disclosed elsewhere in these financial statements, The St. Lawrence Seaway Authority provides to the Corporation, without charge, certain engineering and administrative support services.

STANDARDS COUNCIL OF CANADA

AUDITOR'S REPORT

TO THE STANDARDS COUNCIL OF CANADA
AND THE
MINISTER OF CONSUMER AND CORPORATE AFFAIRS

I have examined the balance sheet of the Standards Council of Canada as at March 31, 1990 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, except for the change in the method of accounting for purchased foreign standards as explained in Note 3 of the financial statements, on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Council that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Standards Council of Canada Act and by-laws of the Council.

STANDARDS COUNCIL OF CANADA—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1990

1. Authority and objectives

The Standards Council of Canada was created by Parliament as a corporation under the Standards Council of Canada Act in 1970 to be the national co-ordinating body for voluntary standardization. The Council is a Crown corporation named in Part I of Schedule III to the Financial Administration Act. The Council carries out its task through the National Standards System, a federation of accredited organizations concerned with standards-writing, certification, and testing.

The objectives of the Council are to foster and promote voluntary standardization in fields relating to the construction, manufacture, production, quality, performance, and safety of buildings, structures, manufactured articles, and products and other goods and to further international co-operation in the field of standards.

2. Significant accounting policies

(a) Office furniture and equipment

Office furniture and equipment are recorded at cost and depreciated on a straight-line basis over the estimated useful life of the assets as follows:

Furniture	5 years
Equipment	4 years

(b) Inventory

Inventory of foreign standards is valued at the lower of cost or replacement cost.

(c) Recognition of recoverable expenses

Recoveries, in respect of agreements with the Department of External Affairs for the operation of the GATT Enquiry Point/Europe 1992, and for development assistance programmes, are recognized at the time the related expenses are incurred.

(d) Parliamentary appropriation

Parliamentary appropriation is recorded on an accrual basis in the year in which the corresponding expenses are incurred but is drawn upon only as cash disbursements are made.

(e) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(f) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Council. Contributions with respect to current service are expensed on a current basis.

3. Change in accounting policy

During the year, the method of accounting for purchased foreign standards by expensing certain standards purchased for resale has been revised to better match revenue and expense. Such purchases are now inventoried and charged to operations only when standards are sold. This change in accounting policy has not been applied retroactively because the inventory is not reasonably determinable for prior periods. The current year effect was to reduce the expense of direct cost of standards purchases by $56,720, and gave rise to a corresponding inventory of foreign standards of $56,720.

4. Office furniture and equipment

	1990			1989
	Cost	Accumulated depreciation	Net book value	Net book value
	$	$	$	$
Office furniture	164,676	129,658	35,018	43,118
Office equipment	685,497	491,089	194,408	201,255
	850,173	620,747	229,426	244,373

5. Lease commitment

The Council is leasing office space at its present location for a five-year term which expires in June 1992. The future minimum annual rental under this agreement is $410,133.

6. Related party transactions

In addition to those related party transactions disclosed elsewhere in these financial statements, the Council is related in terms of common ownership to all Government of Canada created departments, agencies, and Crown corporations. The Council enters into transactions with these entities in the normal course of business.

TELEGLOBE CANADA

AUDITOR'S REPORT

TO THE MINISTER OF FINANCE

I have examined the balance sheet of Teleglobe Canada as at December 31, 1989 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Teleglobe Canada Act and regulations, the by-laws of the Corporation and the Teleglobe Canada Reorganization and Divestiture Act.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1989

1. Authority and activities

Teleglobe Canada is a Crown corporation created by the Teleglobe Canada Act and named in Part II of Schedule III to the Financial Administration Act. The Corporation is subject to federal income tax.

Since the sale of its undertaking to Memotec Data Inc. on April 3, 1987, following the adoption of the Teleglobe Canada Reorganization and Divestiture Act, the Corporation's activities consist of the management of its cash resources and the performance of other duties and functions leading to dissolution. The foregoing Act stipulates that on dates to be fixed by proclamation, the Corporation's name will be changed to TH (1987) and it will be wound up.

2. Guarantees

As at December 31, 1989, the Corporation is guarantor of the following obligations of Teleglobe Canada Inc. towards one of its suppliers:

Maturities	Amounts in pounds sterling
May 16, 1990	2,452,946
November 16, 1990	2,379,426
May 16, 1991	2,289,670
November 16, 1991	2,213,444
May 16, 1992	2,127,746
November 16, 1992	2,047,462
May 16, 1993	1,963,117
	15,473,811

Based on the exchange rate at December 31, 1989, this amount represents 28,915,911 Canadian dollars.

Arrangements have been made with this supplier and its bankers for the Government of Canada to assume these guarantees in the event of the dissolution of the Corporation.

VANCOUVER PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the balance sheet of Vancouver Port Corporation as at December 31, 1989 and the statements of income and retained earnings and changes in cash resources for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1989 and the results of its operations and the changes in its cash resources for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations and the charter and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989

General

The Vancouver Port Corporation was established effective July 1, 1983 as a local port corporation pursuant to the Canada Ports Corporation Act and is a parent Crown corporation named in Schedule III, Part II of the Financial Administration Act. The Corporation is exempt from income taxes.

The objectives of the Corporation are to manage and administer the harbour of Vancouver as an effective instrument in support of the national ports policy as set out in the Canada Ports Corporation Act.

Summary of significant accounting policies

These financial statements have been prepared by management in accordance with generally accepted accounting principles considered to be appropriate in the circumstances and consistently applied. A summary of the significant accounting policies of the Corporation is as follows:

(a) Property and equipment

Property and equipment are recorded at cost. Depreciation is calculated on the straight-line basis, commencing with the year the asset becomes operational, at rates based on the estimated useful lives of the assets as follows:

Dredging	15 to 40 years
Berthing structures, buildings, roads and surfaces	10 to 40 years
Utilities	10 to 33 years
Machinery and equipment	1 to 20 years
Office furniture and equipment	5 years

(b) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employees and the Corporation. Although the Plan is a defined benefit plan, the contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

(c) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are estimated based on municipal assessments adjusted in accordance with the Municipal Grants Act. After the amounts have been audited by the Municipal Grants Division of Public Works Canada, any adjustments upon finalization are reflected in the accounts in the period of settlement.

(d) Employee benefits

The Corporation accrues in its accounts the estimated liabilities for severance pay and annual leave. These benefits are provided under collective agreements and corporate policy.

1. Investments

Current investments are in Government of Canada treasury bills and at December 31, 1989 and 1988 the market value of the treasury bills approximated carrying value.

4. Loan from Canada

	1989	1988
	(in thousands of dollars)	
Interest-bearing loan at 7.5%, repayable in blended annual instalments, maturing December 31, 2000	3,734	3,949
Less current portion	(230)	(215)
	3,504	3,734

Principal repayment requirements over the next five years are as follows:

	$
1990	230,000
1991	248,000
1992	266,000
1993	286,000
1994	308,000
	1,338,000

5. Commitments and contingency

(a) Contractual obligations for the completion, construction and purchase of property and equipment as at December 31, 1989 are estimated at $8,285,000.

(b) At December 31, 1989, the Corporation had claims from municipalities for grants in lieu of taxes of approximately $8.0 million greater than the amount accrued in the financial statements.

(c) There are claims against the Corporation for $8.6 million plus unspecified damages. The likelihood of these claims succeeding is not determinable. The effect, if any, of the ultimate resolution of these matters will be accounted for as a prior adjustment when known.

6. Related party transactions

In addition to the loan from Canada disclosed in Note 4, the Corporation paid $1,701,000 (1988, $1,779,000) to Canada Ports Corporation as its share of that Corporation's operating expenses.

VIA RAIL CANADA INC.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of VIA Rail Canada Inc. as at December 31, 1989 and the statements of operations and reconciliation to Government funding basis, deficit, contributed surplus and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting for the portion of the Government's funding for capital expenditures relating to the replacement of capital properties as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations and the charter and by-laws of the corporation.

VIA RAIL CANADA INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989

1. Authority and objectives

VIA Rail Canada Inc. is a Crown corporation named in Part I of Schedule III to the Financial Administration Act. It was incorporated in 1977 under the Canada Business Corporations Act. The corporation's mission is to manage and provide safe, efficient, effective and economic rail passenger services in Canada to meet the needs of the travelling public. It uses the roadway infrastructure of other railway companies which also assure the control of train operations. As outlined in Note 4, the corporation approved a plan in October 1989 whereby its operations will be significantly reduced effective January 15, 1990.

The corporation is not an agent of Her Majesty. It is subject to the Income Tax Act (Canada) and those of certain provinces.

The corporation receives funding from the Government of Canada in the form of contract revenues and as financing for its capital expenditures.

2. Accounting policies

These financial statements have been prepared by management in accordance with generally accepted accounting principles. The significant accounting policies followed by the corporation are summarized as follows:

(a) Government funding

Contract revenue, which pertains to services, activities and other undertakings provided by the corporation for the management and operation of railway passenger services in Canada, is recorded in the statement of operations on a realized and estimated basis. Any changes in estimates are accounted for in the year of change.

Funding received as financing for capital expenditures are recorded as contributed surplus (Note 3).

(b) Charges for use of roadway and control of train operations

The corporation has an operating agreement with Canadian Pacific Limited for the use of tracks, facilities, train personnel and rolling stock servicing and refurbishing. It also had a similar agreement with Canadian National Railway Company until December 31, 1988. Charges thereunder are subject to adjustment by the National Transportation Agency following a review of the actual costs incurred each year and determination of proposed changes in railway costing methodology by railway companies. Charges for the years 1985 to 1989 have not yet been finalized.

Effective January 1, 1989, the corporation entered into a train service and other agreements with Canadian National Railway Company to cover services provided by the latter. Charges thereunder are not subject to adjustment by the National Transportation Agency.

Charges under these agreements are recorded on an incurred and estimated basis; any changes in estimates are accounted for in the year of change.

(c) Materials and supplies

Materials in store and on-board inventories are valued at weighted average cost, fuel at latest invoice price, and obsolete and scrap materials at estimated utility or net realizable value.

(d) Properties

Properties acquired from other railway companies at the start of operations in 1978 were recorded at the net transfer values. Subsequent additions, including those acquired under capital leases, are recorded at cost.

The costs of refurbishing and rebuilding rolling stock and costs associated with other property upgrading are capitalized if they are incurred to improve the service values or extend the useful lives of the properties concerned; otherwise, they are expensed as incurred.

(e) Depreciation and amortization of properties

Depreciation and amortization of properties is calculated on a straight-line basis at rates sufficient to write off the cost of properties over their estimated useful lives. The estimated useful lives for significant classes of properties are as follows:

Rolling stock	12 to 30 years
Stations and facilities	20 years
Maintenance buildings	25 years
Machinery and equipment	5 to 15 years
Office furniture and equipment	3 to 20 years
Leasehold and infrastructure improvements	10 to 38 years
Other capital properties	3 to 10 years

No depreciation or amortization is provided for projects in progress.

(f) Leases

Properties recorded under capital leases are amortized on a straight-line basis over the terms of the leases, which are representative of their useful lives.

Rental payments under operating leases are expensed as incurred.

(g) Income taxes

Government funding provided to the corporation to cover operating costs is determined on the basis of current needs. For this reason, income taxes are accounted for on the taxes payable basis as there is a reasonable expectation that all taxes payable in future years will be included in the approved formula for reimbursement and will be recoverable at that time.

(h) Deferred investment tax credits

Investment tax credits are deferred and amortized over the estimated useful lives of the related properties. The amortization is recorded as a reduction of depreciation and amortization expense.

(i) Pension plans

The corporation has two contributory defined benefit retirement plans, based on retirement age, compensation and length of service, covering all its permanent employees.

The cost to the corporation thereunder is determined by actuarial valuations which allocate to each year the applicable portion of the total estimated benefits based on projections of employees' compensation levels to the time of their retirement.

Pension expense includes both the cost of benefits attributable to services rendered during the current year and the amortization of any unfunded liability in respect of past services. This amortization is calculated over the expected average remaining service lives of the active employee groups.

(j) Employee termination and special benefits

The cost of employee termination and special benefits provided for under labour agreements and special programmes is expensed in the year in which they are granted.

VIA RAIL CANADA INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Continued*

3. Change in accounting policy

Prior to January 1, 1989, the corporation included the portion of the Government's funding for capital expenditures relating to the replacement of capital properties as revenue in the statement of operations. This funding was included as part of contract revenue up to and including 1986 and was shown separately in 1987 and 1988.

Effective January 1, 1989, the Government's total funding for capital expenditures, replacements as well as new additions, is recorded as contributed surplus. This change has been applied retroactively and prior years have been restated.

The effect of this change is to reduce revenue and increase excess of expense over revenue for the year as well as increase the deficit at the end of the year, with a compensating increase in contributed surplus.

4. Network restructuring

On October 4, 1989, the corporation approved a plan for the restructuring of its transportation network whereby its operations will be significantly reduced effective January 15, 1990. As a result, certain properties will become surplus to ongoing needs and will be disposed of by December 1992 while employee terminations and reassignments will take place mainly in 1990.

The cost of the network restructuring, based on management's best estimates, has been expensed in 1989 as follows:

	(in millions of dollars)
Loss on write-down of properties(1)	76.3
Employee terminations and special benefits(2)	152.8
Other costs(3)	8.2
	237.3

(1) Surplus properties that have been written down to their estimated salvage values.

(2) Severance payments and employment security benefits governed by labour agreements and special programmes which may extend beyond the year 2000.

(3) Lease cancellation penalties, inventory provisions and other costs.

Any contract revenue to be received from the Government of Canada to cover these costs will be recorded as a recovery in the statement of operations in the year in which the disbursements are made.

5. Investment

The corporation owns 4% of the common shares of Railroad Association Insurance, Ltd. (R.A.I.L.), which are recorded at cost. The book value of the shares, per the financial statements of R.A.I.L. as at November 30, 1989, was $3.9 million.

6. Properties

	1989	1988
	(in thousands of dollars)	
Land	2,804	2,804
Rolling stock	600,099	540,681
Stations and facilities	21,869	12,635
Maintenance buildings	213,666	165,463
Machinery and equipment	16,562	13,476
Office furniture and equipment	26,450	23,557
Leasehold and infrastructure improvements	154,955	138,694
Other capital properties	53,530	53,096
	1,089,935	950,406
Accumulated depreciation and amortization	(355,709)	(305,099)
	734,226	645,307
Projects in progress	72,819	159,332
	807,045	804,639
Write-down of properties due to network restructuring	(76,250)	
	730,795	804,639
Assets under capital leases included in the above		
Gross value	6,770	7,239
Accumulated amortization	(2,946)	(2,119)
	3,824	5,120

7. Share capital

The authorized share capital of the corporation is comprised of an unlimited number of common shares of no par value. As at December 31, 1989 and 1988, 93,000 shares at $100 per share have been issued and fully paid.

8. Commitments

(a) The future minimum rental payments relating to operating leases mainly for real estate and computer equipment and services are as follows:

	(in thousands of dollars)
1990	14,415
1991	13,777
1992	9,768
1993	9,041
1994	9,997
Subsequent years up to 2034	264,077
	321,075

(b) There are no obligations under capital leases as lease payments applicable to the initial terms were paid in lump sums at the inception of the leases.

(c) As at December 31, 1989 the corporation has outstanding commitments amounting to $119 million, mainly in respect of upgrading rolling stock and equipment.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1989—*Concluded*

9. Pension plans

The latest actuarial valuations of the pension plans were carried out as at December 31, 1987. Based on these valuations and actuarial projections made for 1988 and 1989, the accumulated plan benefits as at December 31, 1989 are $605 million. The net assets available to provide for these benefits at market related values as at that date amount to $569 million.

The amounts to be transferred to cover the accumulated benefits for former employees of the Canadian National Railway Company up to the dates of their transfer to the corporation are still subject to final determination.

Gains and losses arising from the network restructuring will be determined upon the completion of the actuarial valuations to be carried out in 1990. Management is of the opinion that such gains or losses will not materially affect the accumulated plan benefits.

10. Related party transactions

In the normal course of business, the corporation contracts with other Crown corporations for services which in 1989 amounted to approximately $117 million (1988: $163 million); amounts owing thereunder as at December 31, 1989 are approximately $19 million (1988: $28 million).

11. Contingencies

In the ordinary course of business, various claims and lawsuits have been brought against the corporation. It is the opinion of management that the settlement of these actions will not result in any material liabiliaties to the corporation beyond any amounts already provided.
